www.tcd.ie/careers

Dear Student,

Welcome to the **Computing and Technology Careers Fair 2018!** This fair is run by the Careers Service (in partnership with the School of Computer Science and Statistics), and this booklet gives you an introduction to the organisations which are attending the fair to meet you today.

The fair is a perfect opportunity for you to meet with prospective employers, ask questions to find out more about the companies and their opportunities, and to hone your networking skills. Employers appreciate receiving applications that demonstrate a good understanding of their business and your motivation to work there, so the information you gather today can help you to create really strong, tailored applications. You will also benefit from understanding more about the culture of the organisations here today and whether they seem like a good fit with your career aspirations.

This fair is just one of many employer events organised by the Careers Service throughout the academic year. Keep an eye out for other opportunities to meet with potential employers throughout the year by logging on to the **MyCareer** portal, which you can access through our website at www.tcd.ie/Careers.

Finally, remember we are here to help with career decision making, job applications and interviews throughout the year. Simply go to our website to access lots of advice, or log on to MyCareer via our website to book a one-to-one appointment with the Careers Consultant for your School.

About FTI Consulting

FTI Consulting is a global business advisory firm that provides multidisciplinary solutions to complex challenges and opportunities.

FTI is a fortune 500 company with over 4,400 employees worldwide. With the full power of our unique depth of thought combined with the global expertise of leading professionals, we are committed to protecting and enhancing the enterprise value of our clients.

Our Areas of Expertise

- Data Analytics
- Data Management
- Customer Value Management
- Performance Excellence

What qualifications are required?

FTI are looking for graduates with a minimum 2.1 honours degree across business, technical and mathematical disciplines who have:

- Excellent leadership and communication skills
- Strong analytical and problem solving skills
- Possess an understanding of the project lifecycle
- In-depth knowledge of MS Office
- Proven capability to manage and analyse large volumes of data

About our Dublin office.

Our office in Dublin brings all these advantages but has all the benefits of a more intimate and personal office environment with over 40 specialists. Our people are passionate, innovative and committed. Our reputation is built on the professionalism, creativity, and expertise that our team consistently deliver. As we are part of a multinational company there are also opportunities to travel.

So why FTI Consulting?

At FTI we pride ourselves on the quality of our graduates and the fact that these graduates stay with us for many years. At FTI we don't just offer a graduate training programme we offer a career.

Here is what some of our recent graduate hires had to say

"I really enjoyed the interview process with FTI. I immediately felt welcome even though I was only at the office for an interview. Everyone here is friendly and always willing to help you in any way they can."

"I joined FTI because it offers graduates more exposure to projects from the start. It's smaller office means that no one is a stranger but you know you are part of a larger organisation."

From the day you start your consulting role at FTI you will have exposure and opportunities to get involved in projects and to put your expertise to work. Because of the smaller size of the Dublin office you work closely with senior management and have your own career development manager who is committed to supporting you in developing your career.

From a social perspective we place a large emphasis on bringing people together for various events, from internal communication sessions to company away days and from go-karting to tag rugby – we think it's important to get together as a team not only to work, but to have fun and a lot of it!

What to Expect

- As an employee, you can expect permanent position with competitive reward, job satisfaction and intellectual challenge.
- As a business we will invest in training and we will support your development so that our clients benefit from your continuous improvement and advancement.

CRITICAL THINKING
AT THE CRITICAL TIME™

About FTI Consulting

FTI Consulting, Inc. is a global business advisory firm dedicated to helping organizations protect and enhance enterprise value in an increasingly complex legal, regulatory and economic environment. FTI Consulting professionals, who are located in all major business centers throughout the world, work closely with clients to anticipate, illuminate and overcome complex business challenges in areas such as investigations, litigation, mergers and acquisitions, regulatory issues, reputation management and restructuring.

<i>Company Name:</i>	Guidewire
<i>Summary of Business:</i>	<p>At Guidewire we build core software for the insurance industry. We were established in 2001 in California and opened our Dublin office in 2011 with 3 employees. Now employing 300 people in Ireland, we work across multiple technical teams, from product development to professional services. Guidewire makes software that gives over 300 property and casualty insurance companies the tools to take care of their customers when they need it most, whether it's a time of crisis, a natural disaster, an accident, or exposure to cyber risks. We are headquartered in Silicon Valley and have guidewire offices in over 20 countries.</p>
<i>Graduate & Internship Opportunities</i>	<p>At Guidewire we aim to grow our own talent from within. This year we are seeking out top IT/Computer Science graduates with strong core software development skills to develop them as Guidewire Consultants to become part of our Professional Services or Product development teams. We hire great people who build outstanding products through a rational and sustainable development process based on Agile principles. From the start, you'll play an active part in shaping our future, offering up your insight, sharing your ideas and driving decisions. We invest in you from the moment you step into our world. We're constantly supporting and challenging each other to write better code, write better software, use better tools, try new languages and techniques, and make an impact on our software and our customers. We've even created our own programming language, Gosu, to help us develop better software. We have an idea about what makes a happy life for employees: meaningful work, career paths, quality products, sound business strategy, ultra-competent colleagues and plenty of freedom to innovate and create.</p> <p>Our two streams available is software developer graduate and graduate developer consultant. Please see both opportunities online at careers.guidewire.eu</p>
<i>Method of Application:</i>	Please submit your application online at careers.guidewire.eu
<i>Closing Date for Applications:</i>	30 / 11 / 2018
<i>Target Groups (JS, SS, PG):</i>	Computer Science, 4th years, master students
<i>Web Address:</i>	https://careers.guidewire.eu/

<i>Company Name:</i>	Huawei Technologies (Ireland) Co., Ltd
<i>Summary of Business:</i>	Huawei is a leading global information and communications technology (ICT) solutions provider. Driven by a commitment to sound operations, ongoing innovation, and open collaboration, we have established a competitive ICT portfolio of end-to-end solutions in telecom and enterprise networks, devices, and cloud technology and services. Our ICT solutions, products, and services are used in more than 170 countries and regions, serving over one-third of the world's population. With 180,000 employees worldwide, Huawei is committed to enabling the future information society, and building a Better Connected World.
<i>Graduate & Internship Opportunities</i>	Our graduate programme is underpinned by a development framework that broadens and deepens your knowledge. You'll have opportunities work in cross-functional rotation programmes in the following areas: Network Engineering, Project Management, Solution Engineering, and Sale Development and Management. At the end of the 5 years graduate program you will have the opportunity to opt for a change of career pathway across our Delivery & Services Department, Solution Department or Sales Department. Depends on your performance and contributions, you will be part of our future leadership talent pool and will be given opportunities to explore a greater and more successful career at Huawei.
<i>Method of Application:</i>	Please send us your application with cover letter (no more than 2 pages); it should answer the questions below: 1. Why you would like to be considered for the Huawei Graduate Programme? 2. What do you think our industry will look like in 5 years' time and why? Please send your application to the following email: UKIGR@Huawei.com
<i>Closing Date for Applications:</i>	March 2019
<i>Target Groups (JS, SS, PG):</i>	Recently graduated, within one year, or on track to achieve a minimum of 2:1 degree or above in any IT-related (STEM degree is preferable) degree. <ul style="list-style-type: none"> • Demonstrate adaptability, creativity and be passionate about the ICT industry. • Ambitious and Enthusiastic to grow your career at Huawei. • Geographically mobile as you will be based in Reading (UK Graduates) or Dublin (Ireland Graduates) but may be assigned to different locations throughout the scheme. • Right to work in the UK/Ireland
<i>Web Address:</i>	http://www.huawei.com/

<i>Company Name:</i>	Jaguar Land Rover
<i>Summary of Business:</i>	Innovative. Trusted. Pioneering. These three qualities have always summed up Jaguar Land Rover. They are what every person working for us lives and breathes. Autonomy, Connectivity and Electrification represent three of the key technology challenges facing the automotive industry today. All of these technologies require highly skilled and advanced software engineers to explore future capabilities of technology and to research and develop pioneering software solutions to complex analytical challenges. At Jaguar Land Rover you will have the opportunity to design, develop and shape the future of our autonomous, connected, electrified and electronic systems. This is a unique and exciting opportunity to establish your career with one of the world's most prestigious automotive brands Jaguar Land Rover. The future is unknown. Our evolving technology is endless. Where will your vision, creativity and ambition take you?
<i>Graduate & Internship Opportunities</i>	We want our graduates to be just as inspired as the cars they'll help produce - you'll be involved in the development of new software based features, gain knowledge of software and system architecture and development in C/C++ or Python to deliver robust software into our vehicles in an agile fashion. You will grow to help solve critical technical issues, plan our software delivery schedules, act as a coach/mentor and become a subject matter expert in software development. We are looking for graduates with a degree in Engineering or Computer Science, specialising in software engineering and development. You'll be enthusiastic to learn and have a deep desire to create novel solutions to complex technical problems. Any exposure to technologies such as Networking, BlockChain, Cyber Security, Cloud Based Services or Algorithm Development is beneficial but not a requirement. Join us and develop software that will enable innovation in an environment where you can learn, develop and apply your skills.
<i>Method of Application:</i>	Visit www.jaguarlandrovercareers.com/ireland to find out more about the graduate opportunities within Jaguar Land Rover.
<i>Closing Date for Applications:</i>	31st December
<i>Target Groups (JS, SS, PG):</i>	4th Years, Postgraduate.
<i>Web Address:</i>	http://www.jaguarlandrovercareers.com/ireland

<i>Company Name:</i>	J.P. Morgan
<i>Summary of Business:</i>	When you work at J.P. Morgan, you're not just working for a global financial institution. You're part of one of the world's biggest technology-driven companies. Our team of more than 50,000 technologists design, build and deploy everything from enterprise technology initiatives to big data and mobile solutions, as well as innovations in electronic payments, cybersecurity, machine learning and cloud development. We're partnering with FinTech and Silicon Valley tech firms to deliver cutting-edge solutions to our customers. Our \$10.8 billion annual investment in technology enables us to create solutions that not only transform financial services, but change the world.
<i>Graduate & Internship Opportunities</i>	<p>Launch your career as an infrastructure engineer or software developer, collaborating on technology that affects millions of users.</p> <p>As part of our Software Engineer Programme you would join a group of inspired and inquisitive problem solvers,. The software engineering team is passionate about creating new and breakthrough ways to better service clients and customers. We also have opportunities in Infrastructure where you'll create, deliver, and maintain solutions that keep our critical platforms, servers and networks up and running at peak performance, 24 hours a day. Or you could find your place in our Cybersecurity team who are responsible for protecting our firm's people, clients and assets, and the safety and soundness of our business operations.</p> <p>In addition to our full time Software Engineering Programme we offer Summer Internships, 6 and 12 month Industrial Placements and our Spring into Technology insight experience.</p>

<i>Company Name:</i>	Susquehanna
<i>Summary of Business:</i>	<p>SIG is a global quantitative trading firm, SIG is one of the largest privately-held financial institutions in the world. We have offices all around the globe and trade an extensive range of financial products. Building virtually all of our own trading technology from scratch, we are a leading and innovative company in high-performance, low latency trading.</p> <p>Game theory rings true in everything we do. We're big on competition, strategy, and managing risk – just like great gamers. We are problem solvers who analyse the financial markets to identify profitable trading opportunities.</p>
<i>Graduate & Internship Opportunities</i>	Our trading internship is a 10-week summer programme, designed to expose you to the working environment that you can expect if you return to SIG as a full-time Assistant Trader. Students who start their career at SIG learn what it's like to work in a trading environment through a combination of SIG's classroom education and impactful work on our trading desks. During your internship you will participate in daily classes with senior traders. You will learn about options, poker, and game theory to help you interpret the uncertainty in the markets and develop a rigorous analytical approach to your decision making.
<i>Method of Application:</i>	<p>We recruit on a rolling basis and strongly encourage early applications. Our interview process is challenging, but is not another maths test. Our focus is on exploring your thought process, not just getting the right answers. We want to get to know you better so you'll always deal with a member of our team, either over the phone or in person. We look forward to receiving your cover letter and CV and hearing about why you are interested in trading.</p> <p>Contact: dubcampusrecruit@sig.com Apply online at: www.sig.com/campus-programmes/</p>

<i>Company Name:</i>	Three Ireland
<i>Summary of Business:</i>	<p>We reinvented the Irish mobile market when we launched in 2005. Now, after almost €2 billion in investment, we carry more mobile data than any other mobile company in Ireland. And we're not slowing down. To be Ireland's best network, we need people who share our passion to make it count.</p> <p><i>We invest in you</i> Working at Three is a journey full of opportunities to grow while delivering projects that matter. We believe in collaboration and trust you to progress in a way that produces amazing results for customers. We encourage personal development and you will have the support you need to follow the career path you want.</p> <p><i>We recognise your hard work</i> We recognise a job well done and appreciate the effort you put in. Our 3Appreciate programme gives real rewards to those who take it to another level. You'll also have the chance to support charities, go to gigs and get involved with our packed social calendar!</p>
<i>Graduate & Internship Opportunities</i>	<p>Check out the areas that you could work in:</p> <ul style="list-style-type: none"> • Technology – Engineering & IT • Business • Marketing • Customer Relationship Management • Data Scientist • Accountancy & Finance (3 year programme)
<i>Method of Application:</i>	<p>There are just three simple steps to joining our competitive graduate programme.</p> <p>01 Apply: Apply between the 1st and 31st of October and tell us why you're interested in a graduate role at Three.</p> <p>02 Assessments: Make it to this stage and we'll ask you to complete some online ability tests and chat with us in a video interview.</p> <p>03 Interviews: Interviews take place between January and February. The focus will be on competency with a presentation in front of HR and the hiring manager. You'll be asked to conduct a presentation as part of this process. Offers will follow soon after your interview.</p>

<i>Company Name:</i>	Vizor Software
<i>Summary of Business:</i>	In 2000, our founders, Conor Crowley and Ross Kelly, were both eager technology consultants in the field of financial regulation. They experienced the inefficiency of disjointed technologies that were being used. They knew technology could greatly improve workflow and productivity for financial regulators. They embarked on a mission to make a difference; to simplify and strengthen financial supervision systems. Since then Vizor has been developed to serve the evolving needs of authorities around the world. Our products have become the most comprehensive out-of-the-box solution. Vizor is now the acknowledged global leader in the provision of supervisory systems to financial regulators.
<i>Graduate & Internship Opportunities</i>	<i>Success as a team</i> There is never a dull day at Vizor. You are constantly challenged and surrounded by like-minded peers who are focused on the same goals. Whether you are a recent university graduate or a seasoned high-tech professional, our go-beyond culture, competitive salaries, meritocratic methodology and transparent, open door management style make for a healthy, stimulating work environment. We offer Graduate positions and internships in our Technology, Client Services and Support departments. We would like you to be part of our journey.
<i>Method of Application:</i>	Please apply by emailing mary.mccloskey@vizorsoftware.com .
<i>Closing Date for Applications:</i>	Ongoing opportunities available
<i>Target Groups (JS, SS, PG):</i>	3rd Year, 4th Year students and Postgrad.
<i>Web Address:</i>	http://vizorsoftware.com/

<i>Company Name:</i>	Workday
<i>Summary of Business:</i>	<p>Workday is an industry-leading company providing software solutions for companies that operate in the global market space. We provide enterprise applications in HCM, Analytics and Finance that are highly adaptable and easy to use, redefining what it means to manage a globally mobile and diverse workforce.</p> <p>At Workday, we work hard, and we're serious about what we do. But we like to have a good time too. In fact, we run our company with that principle in mind every day: one of our core values is fun. Whether volunteering through our Giving & Doing initiatives, taking part in our global Hackathons or competing to win a company sports tournament, Workday empowers you to grow your career whilst being part of a community of incredible people. Our award-winning culture is paramount. We focus on our core values (employees, customer service, innovation, integrity, fun, and profitability); encourage our people to be authentic at work; strive for a diverse, ethical, and inclusive workplace; and offer a variety of unique, fun events. That's why we have been voted Ireland's #2 Best Place to Work in 2018 and are ranked #7 on Fortune's Best Companies to Work For 2018.</p> <p><i>Real Work From Day One</i> We view our graduates as our future leaders, and will trust you to join critical projects from your first week on the job. We provide a supportive learning environment, enabling you to learn new skills, grow your career, and connect with global teams whilst being mentored by legends in the business.</p> <p>At Workday, we value supporting emerging professional talent in making a successful transition from school to the workplace and accelerate their careers at Workday. That's why you'll also be part of Generation Workday, the only 12-month career development program in the industry where you will:</p> <ul style="list-style-type: none"> • gain exciting, unique insight into how a high-growth tech company is scaling as you engage and network with every area of the business • build connections and share ideas with our incredible employees • push the boundaries of design, security, and innovation • work with new technologies, solve original problems and partner with companies globally • take ownership, make an impact, and change the way people work. <p>If you're up for the challenge, we'd love for you to join our fun, talented team that puts people where they should be... first.</p>
<i>Graduate & Internship Opportunities</i>	70+ graduate opportunities per year in various technical roles.

About the Trinity Careers Service

The Trinity Careers Service, which is part of Trinity Teaching and Learning, supports students and recent graduates to explore their career ambitions for the future and plan how to achieve them using a wide variety of activities, services and resources. The Service operates in a fast-changing and outward-facing environment with the flexibility to be responsive to the needs of our key stakeholders (students, graduates, employers and Trinity academic staff).

We provide careers education, information, skills and guidance to students and recent graduates to enable them to realise their career potential, to connect with employers and/or postgraduate programme providers, and to equip them with the skills to succeed in the workplace of the future. We help them to identify and articulate how their learning experiences, both formal (through their programme learning outcomes) and informal (through their co- and extra-curricular activities), contribute to their intellectual and personal development. We also engage and collaborate with national and international organisations to ensure local and global employment opportunities for students and graduates.
