

# Your Degree What Next: *Computer Science*

## What can I do with my Computer Science degree?

As a graduate from this programme you will be highly sought after and can expect to find employment anywhere in the world. Graduates find employment in almost every sector from communications and entertainment to manufacturing and transportation, government, healthcare, education and many more. You could work in design, testing, manufacturing, support and implementation, information systems, research and development, operations and management. Over the longer term you could progress into senior positions such as CTO and CIO. You might also decide to pursue Masters or PhD studies in a vast range of areas, from data science and digital media to business and consulting.

Typical job titles and employers of computer science graduates include:

Job Titles	Employers
Software Engineer	Goldman Sachs
Software Developer	IBM
Games Developer	Guidewire
Web Developer	Amazon
IT Analyst	Mastercard
Systems Analyst	SAP

While these are the types of jobs graduates of your course typically enter, many graduate roles are open to graduates of all disciplines, so your options are much broader than those related strictly to your course. If you're not sure what you'd like to do, check out the career planning resources on the Careers Service website and book an appointment with your careers consultant.

## Useful Resources

The organisations and professional bodies listed below are useful resources for career / sector specific information:

Professional Bodies and Useful Sites	Resources
<a href="#">Silicon Republic</a>	gradireland (IE)
<a href="#">Tech Ireland</a>	Targetjobs (UK)
<a href="#">Tech and Startup jobs</a>	Prospects (UK)
<a href="#">Computer Jobs</a>	Vault Career Insider (Global)
<a href="#">Irish Game Makers Association</a>	Gradcracker (UK)

## Graduate attributes and transferrable skills you can develop at Trinity

You gain a wide range of skills and attributes while at College, through academic study, clubs and societies, voluntary work, student politics, work and other commitments. These are important to recognize as they inform your career decisions and are a critical ingredient in your applications for postgraduate study and jobs. Here are some skills you can gain :

**1. Critical Thinking** - The most fundamental part of a university education is learning to work on your own and to make independent judgments. You have to discover the information that you need to analyse complex questions and develop your ideas about them and to present your arguments clearly and persuasively.

**2. Teamwork** - Learning to work as part of a team is an important skill; sharing the workload, agreeing roles and working as a team to develop ideas, analyse information and present a coherent group argument.

**3. Independent Research** - You will have learnt how to use the library and other complex information resources and coordinate information from a wide variety of sources.

**4. Logical argumentation** - You will know how to bring together facts and arguments in order to answer a specific ques-

**5. Time and project management** - By working on assignments and studying for exams you will have developed the ability to revise and consolidate your work and know how to extract the essential points from a mass of information. You will also have learned how to manage your own time and to work under pressure of deadlines.

**6. Verbal communication** - You will know how to present your ideas orally and to contribute constructively to discussions.

**7. Written communication** - You will have had the opportunity to present your ideas in writing accurately and concisely, using convincing arguments which are based on solid evidence; responding flexibly to different types of questions and expressing your thoughts concisely; carrying out in-depth research on a specialised topic and develop the sustained writing skills needed.

**8. Digital Skills** - You will have the opportunity of developing your computer skills both from typing up your own essays and papers and from undertaking searches on the web & using databases.

**9. Personal Development** – You are managing the learning required for a degree and recognising the gaps in your understanding and ensuring that these are addressed in ways that best suit your learning style.

### How can the Careers Service help me?
