

# Your Degree What Next: *Geoscience*

Geosciences students have a great knowledge of geology and earth sciences allowing them to pursue career in academia, research and government, with companies specialising in: environmental, engineering and geological consultancies, mineral exploration companies, the oil industry, environmental planning, government geological surveys.

## What skills can I develop at Trinity?

You gain a wide range of skills while at College, through academic study, clubs and societies, voluntary work, student politics, work and other commitments. These are important to recognize as they inform your career decisions and are a critical ingredient in your applications for postgraduate study and jobs. Here are some skills you can gain through your course:

**1. Critical Thinking** - The most fundamental part of a university education is learning to work on your own and to make independent judgments. You have to discover the information that you need to analyse complex questions and develop your ideas about them and to present your arguments clearly and persuasively.

**2. Teamwork** - Learning to work as part of a team is an important skill; sharing the workload, agreeing roles and working as a team to develop ideas, analyse information and present a coherent group argument.

**3. Independent Research** - You will have learnt how to use the library and other complex information resources and co-ordinate information from a wide variety of sources.

**4. Logical argumentation** - You will know how to bring together facts and arguments in order to answer a specific question or analyse a problem.

**5. Time and project management** - By working on assignments and studying for exams you will have developed the ability to revise and consolidate your work and know how to extract the essential points from a mass of information. You will also have learned how to manage your own time and to work under pressure of deadlines.

**6. Verbal communication** - You will know how to present your ideas orally and to contribute constructively to discussions.

**7. Written communication** - You will have had the opportunity to present your ideas in writing accurately and concisely, using convincing arguments which are based on solid evidence; responding flexibly to different types of questions and expressing your thoughts concisely; carrying out in-depth research on a specialised topic and develop the sustained writing skills needed.

**8. Digital Skills** - You will have the opportunity of developing your computer skills both from typing up your own essays and papers and from undertaking searches on the web & using databases.

**9. Personal Development** – You are managing the learning required for a degree and recognising the gaps in your understanding and ensuring that these are addressed in ways that best suit your learning style.

## What can I do with Geoscience degree?

Geoscience students have various options available upon completion of their degree. Careers are available in academic research and industry in the areas of: urban and regional planning, environmental consultancy and research and teaching, foreign affairs, leisure and tourism and overseas development. Here are some examples of employment opportunities:

Roles	Employers
Geologist	EPA
Geological Mapper	Arup
Hydrogeologist	Trinity College Dublin
Geophysicist/Field seismologist	Geological Survey Ireland
Land/Geomatics Surveyor	AECOM
Petroleum Engineer	Dublin City Council
Quarry Manager	Tullow Oil

Many Geosciences students go on to postgraduate courses such as masters or PhD to develop skills in specific disciplines: regional and urban planning, geographical information systems and remote sensing, sustainable resource management, and non-natural sciences related courses, such as science communication.

### Useful Resources

The organisations and professional bodies listed below are useful resources for career / sector specific information:

Resources	Professional Bodies/ Resources
gradireland (IE)	The Institute of Geologists of Ireland
Targetjobs (UK)	The Geological Society
Prospects (UK)	Geological Survey of Ireland
Sciencemag (Global)	EarthWorks
Vault Career Insider (Global)	Petroleum Exploration Society of GB

### How can the Careers Service help you?

The Careers Service supports students in exploring their career options and connects students with employers. You can book an appointment with your careers consultant to help you deciding your next step in your career.

Login to MyCareer at [www.tcd.ie/careers](http://www.tcd.ie/careers) and book your appointment today.
