

Engineering PhD Student is this year's Fulbright – Glen Dimplex Awardee in Renewables

Oisín Fergal Lyons, a PhD Scholar under the supervision of Professor Darina Murray in the Department of Mechanical and Manufacturing Engineering at Trinity College Dublin, was recently awarded a Fulbright Award (Glen Dimplex - Renewables). Oisín will undertake research in the area of impingement heat transfer and fluid dynamics at Purdue University, Indiana. Oisín will investigate novel techniques involved in simultaneous measurement of the heat transfer and fluid dynamic phenomena of a two phase atomising mist jet under the tutelage of Professor Suresh Garimella. This research will also be presented to Glen Dimplex at the end of the scholarship. For more information on the Fulbright Awards, please see <http://www.fulbright.ie/>.

Pictured at the 2011-2012 Fulbright Award ceremony are Professor Darina Murray, Trinity College, Dublin, Suresh V. Garimella, Distinguished Professor, Mechanical Engineering, Purdue University & US Department of State, Oisín Fergal Lyons this year's Fulbright – Glen Dimplex Awardee in Renewables, Fergal Naughton, Director of Operations, Glen Dimplex and the Deputy Chief of Mission from the US Embassy in Ireland Mr. John Hennessey-Niland, who hosted the evening at his residence on Mespil Road, Dublin.
