

***NEW DIRECTOR AND DEPUTY DIRECTOR OF THE TRINITY
CENTRE FOR BIOENGINEERING ELECTED***

At a recent meeting of all Principal Investigators associated with the Trinity Centre for Bioengineering, Professor Richard Reilly was unanimously elected as the new Director of the Centre with Dr Kevin O’Kelly as Deputy Director. They took up office on 13th July, 2008 and will serve four-year terms initially. Both have now received the approval of the University Council under Vacation Procedures.

In accepting the best wishes of those present, both Professor Reilly and Dr O’Kelly expressed their and the Centre’s appreciation and thanks to the outgoing Director, Professor Prendergast, and wished him well in his new position as Vice-Provost of the College.

Professor Richard Reilly, Director, Trinity Centre for Bioengineering

Dr Kevin O’Kelly, Deputy Director, Trinity Centre for Bioengineering
