TITLE OF DISSERTATION/THESIS

SUPERVISOR

This thesis is wholly my own work. All sentences and passages quoted in it from the work of others (with or without trivial changes) have been placed within quotation marks and specifically acknowledged by reference to author, title and page. I understand that plagiarism - the presentation of another person’s work as if it were one’s own - will be considered grounds for failure in this part of the examination and, if serious, in the final Examination as a whole.
