Two Post Graduate Scholarships in Star Formation

The Dublin Institute for Advanced Studies (DIAS) is offering 2 postgraduate scholarships to work in the Star Formation Group led by Prof. Tom Ray and in collaboration with Dr. Deirdre Coffey of University College Dublin. Funding is available for 4 years starting in September 2015 and includes a stipend, postgraduate fees and provision for conference/workshop participation. The students will work on the interpretation and modelling of observations of young stellar objects (YSOs), their disks and outflows.

A primary degree in physics, astronomy or a related field is required. Programming skills and experience with astronomical data analysis are beneficial.

Interested students are encouraged to send a brief statement of research interests, a curriculum vitae, and to arrange for 2 letters of recommendation to be sent directly to Ms. Eileen Flood, (eflood@cp.dias.ie) from whom further information can be obtained. Detailed inquiries can be made to Prof. Tom Ray (tray@tcd.ie or tr@cp.dias.ie). The deadline for applications, including receipt of letters of recommendation, is April 30th 2015.
