Coláiste na Tríonóide Baile Átha Cliath agus an Ghaeilge

Oifigeach na Gaeilge agus Coiste na Gaeilge

Tá Coláiste na Tríonóide, Baile Átha Cliath tiomanta do chur chun cinn na Gaeilge i ngach réimse de shaol na hOllscoile. Léirithe an tiamantas seo trí obair Choiste na Gaeilge agus trí fhhostú Oifigeach Gaeilge lánaímseartha. Oibritonn Oifig na Gaeilge i gcomhar leis an gCumann Gaelach, le hAontas na Mac Léinn agus le Roinn na Gaeilge agus na dTeangacha Ceilteacha chun a cuid aidhmeanna a chur i gcrích.

Acht na dTeangacha Oifigiúla agus na Scéimeanna Teanga

Tá dualgais áirithe ar Choláiste na Tríonóide de bharr Acht na dTeangacha Oifigiúla 2003, lena n-áirithe dualgais maidir le comharthaíocht, foilseacháin áirithe, stáiseanóireacht agus fógraí taifeadta béil. Maille leis sin, tá gealtanais tugtha ag Coláiste na Tríonóide ina dhá Scéim Teanga, go gcuirfear le réimse seirbhísí dátheangacha thar réimse gníomhaíochtaí.

Scéimeanna Cónaithe

Tá dhá scéim chónaithe Gaeilge do mhic léinn ag Coláiste na Tríonóide. Tá scéim amháin lonnaithe ar an gcampus agus an ceann eile (do mhic léinn na chéad bhliana agus an dara bliain amháin) i Halla na Tríonóide, Dartraí, Baile Átha Cliath 6. Cuireann baill na scéimeanna cónaithe an Ghaeilge chun cinn san Ollscoil trí thionscadail agus imeachtaí a réáchtáil i rith na bliana.

Ranganna Gaeilge

Cuireann Coláiste na Tríonóide ranganna Gaeilge saor in aisce ar fáil do bhaill foirne agus do mhic léinn le linn an tearma acadúil. Fógraítear na ranganna seo ag tús na bliana acadúla.

Éigse na Tríonóide agus Imeachtaí Gaeilge

Buaitheointe na bliana is ea Éigse na Tríonóide, féile seachtaine ina mbionn imeachtaí sóisialta, ceolchoirméachta, cluichí pelle agus eile ar siúl, do mhic léinn agus do bhaill foirne ar aon. Eagraítear neard imeachtaí sóisialta agus cultúrtha eile i gcaithreamh na bliana chomh maith.

Professors, Associate Professors, Assistant Professors, Clinical and other Officers

Staff are shown under faculty and school headings. Functional titles and group descriptions are shown e.g. ‘DIRECTOR OF ...’. Individual academic ranks are shown in the form ‘Professor ...’ and are in order of appointment to the rank; this type is also used for individual appointments within group headings. It has not been possible, however, to achieve total consistency due to the complexity of the institutional relationships.

The academic titles – of Professor, Associate Professor, and Assistant Professor – used throughout this Calendar are those provided for in the Schedule on Titles to the Chapter on Academic Staff in the Consolidated Statutes of Trinity College Dublin and of the University of Dublin, 2010. The use of these titles in this Calendar does not, however, preclude members of the academic staff from using the Statutory academic titles – of Professor, Associate Professor, Senior Lecturer, and Lecturer – in their day-to-day work.

The dates given after the titles of certain offices are those when the posts, or posts with which they are continuous, were founded. For further details the Trinity College Dublin Record volume 1991 may be consulted. Where not otherwise indicated, the degrees stated have been conferred by the University of Dublin. The names of persons not on the ordinary full-time staff e.g. appointments for terms of years are marked with a ‘†’ (other than Research Fellows and Visiting Research Fellows). The names of part-time members of the staff are marked with an asterisk.

For Assistant Professors, the original date of appointment to a full-time post (academic or equivalent grade) is indicated under the column ‘Appointed’: this information does not indicate whether the holder is, or is not, still subject to the normal review procedures relating to confirmation in appointment. Dates are shown for part-time appointments involving periods in excess of one academic year: no dates are shown where appointment is made annually.

CENTRE FOR RESEARCH ON ADAPTIVE NANOSTRUCTURES AND NANODEVICES (CRANN)

The Centre for Research on Adaptive Nanostructures and Nanodevices (CRANN) comprises a team of three hundred researchers from over forty-five different countries, led by eighteen principal investigators and seventeen investigators, each of whom is an internationally recognised expert in his/her field of research. CRANN principal investigators are based across multiple disciplines including physics, chemistry, medicine, biochemistry and immunology, engineering and pharmacy. CRANN works at the frontiers of nanoscience developing new knowledge of nanoscale chemical and physical phenomena, with a particular focus on new device and sensor technologies for the ICT, biotechnology and medical sectors.

CRANN has two state-of-the-art buildings both custom designed and constructed for the purpose of leading edge nanoscience research. The Naughton Institute is a 6000m\(^2\) research facility on the campus of TCD. The CRANN Advanced Microscopy Laboratory (AML) was completed in 2009. This facility on Pearse Street houses Ireland’s most advanced microscopy instrumentation, enabling Ireland to compete internationally in this capability.

Through the SFI funded Centre for Science, Engineering and Technology (CSET), CRANN had a specific remit to work with industry. This lead to CRANN leading the €58 million AMBER (Advanced Materials and BioEngineering Research) centre award, where TCD, UCC, and RCSI researchers partner with industry to collaboratively address materials related research programs. This award is SFI funded, based on industry direct cash and in-kind contribution. CRANN has been very successful in obtaining non-Exchequer funding (e.g. European Union Frameworks, H2020, EIC KIC) that enabled the establishment of an extensive academic partnership network involving over a hundred European universities and one hundred and sixty universities globally.

On a national basis CRANN lead the INSPIRE consortium (www.inspirenano.com) comprised of the foremost nanoscience researchers in Ireland based across eight academic institutions. CRANN, in partnership with the Tyndall National Institute, co-hosts the Competence Centre for Applied Nanotechnology (CCAN). Funded by Enterprise Ireland and the Industrial Development Agency, CCAN enables research provider organisations to partner on industry defined research programmes and includes both leading multi-nationals such as Intel and Analog Devices and indigenous Irish companies such as Creganna and Proxy Biomedical.

CRANN has been funded predominately by Science Foundation Ireland and has also obtained competitive funding from the Higher Education Authority, Enterprise Ireland, industry, the EU Commission, and philanthropic sources, notably Dr Martin Naughton.

THE TRINITY LONG ROOM HUB

The Trinity Long Room Hub (TLRH) is the research institute for the arts and humanities at Trinity College Dublin. Founded in 2006, the TLRH is comprised of a community of researchers drawn from the university’s nine arts and humanities schools as well as the Trinity College Library. It is dedicated to supporting research excellence and advancing interdisciplinary research in the arts and humanities. It is also committed to promoting the importance of this research for society and raising the profile of Trinity’s arts and humanities internationally. It organises the work of the institute around a number of key research themes and supports the delivery of research on major questions facing society through a variety of means such as international visiting research fellowships, competitive research funding, hosting over 200 research related events and activities a year, and supporting forty-four of its partnering schools research students and postdoctoral fellows each year.

TRINITY BIOMEDICAL SCIENCES INSTITUTE (TBSI)

The Trinity Biomedical Sciences Institute (TBSI) is an innovative and interdisciplinary initiative whose work leads to scientific discoveries of biomedical importance, ultimately giving rise to improvements in human health and patient care. The mechanistic basis for a range of diseases is under investigation, including infectious and inflammatory diseases such as arthritis, asthma/allergy and type 2 diabetes, neurological diseases such as motor neurone disease and multiple sclerosis, and different forms of cancer. Bioengineering research is also carried out and includes corneal tissue regeneration, bone joint repair, replacement heart valves and neural engineering.

TBSI is the largest Trinity research institute, where over seventy principal investigators and their teams carry out research, including one hundred and twelve postdoctoral researchers and two hundred and thirty postgraduate researchers, drawn from five Schools and two Faculties – Biochemistry and Immunology, Chemistry, Engineering, Medicine, and Pharmacy and Pharmaceutical Sciences. Three centres have been established in TBSI – the Centre for the Study of Immunology (CSI), Centre for Cancer Drug Discovery (C2D2) and Centre of Medical Device Technologies (CMDT). Research programmes are carried out in a state-of-the-art facility designed to maximise interaction and facilitate co-operation. The institute has established a wide range of core technologies of the highest standard, including nuclear magnetic resonance spectrometry (NMR), biological transmission electron microscopy (TEM), x-ray crystallography, mass spectrometry, flow cytometry, confocal microscopy, and transgenics. A category 3 facility is available for research into hazardous biological agents such as HIV and hepatitis C.

TBSI also houses significant biomedical teaching facilities, including lecture theatres, seminar rooms and teaching laboratories. Over eleven hundred undergraduates per year attend classes in TBSI, including senior sophister students of biochemistry and immunology and preclinical students of medicine. Over ninety students undertake M.Sc. courses including bioengineering and immunology.

TBSI aims to foster a spirit of interaction, exploration and collaboration on the frontiers of biomedical research, such that truly ground-breaking discoveries can be made. TBSI researchers collaborate extensively with researchers in other institutions throughout the world. The institute also supports spin out companies and is working with several pharmaceutical and medical device companies.

TBSI enables researchers to continue to perform at the highest level, copper-fastening Trinity’s place as a leading international scientific university.

TRINITY COLLEGE INSTITUTE OF NEUROSCIENCE (TCIN)

The Trinity College Institute of Neuroscience (TCIN) is a Trinity research institute with about fifty Principal Investigators (PIs) and 250 researchers from a wide range of disciplines including psychology, psychiatry, physiology, pharmacology, medicine, biochemistry, engineering, and genetics, among others. These diverse disciplinary origins contribute to its core activities: promoting and supporting interdisciplinary basic and translational research, as well as teaching, public engagement, and national leadership in neuroscience.

The administrative and scientific hub of TCIN is based in the Lloyd Building on the Trinity College campus. The Lloyd Building houses several TCIN-managed advanced research technologies, including two high-field human and small animal magnetic resonance imaging (MRI) systems. TCIN PIs use and maintain preclinical cell and animal models, as well as molecular, cell biological, biochemical, behavioral, physiological and genetic technologies to study both humans and model organisms.

The institute provides a gateway for internal and external connectivity between basic and applied neuroscience. TCIN facilitates access to advanced research and diagnostic technologies as well as to patient populations, biosamples, and genotyping required for translational neuroscience, which prominently and deeply involves clinical PIs based in St James’s, St Patrick’s and Tallaght hospitals. St James’s additionally houses CAMI, a clinical neuroimaging facility as well as the Wellcome Trust/Health Research Board clinical research facility for clinical trials.

TCIN houses strong research programmes funded by Science Foundation Ireland, the Wellcome Trust, the Health Research Board, the European Research Commission/Horizon 2020 framework programmes, as well as multiple philanthropic and industrial sponsors. In 2016, Trinity College Dublin launched the Global Brain Health Institute (GBHI), a major collaboration between Trinity College Dublin and the University of California San Francisco led in Ireland by TCIN PIs Brian Lawlor and Ian Robertson. This highly collaborative, training and research programme, created through a $170 million investment from Atlantic Philanthropies, aims to prevent and improve management of global dementia. It has the recruitment of outstanding new PIs, as well as increased focus on the cognitive ageing.

TCIN currently has over eighty registered Ph.D. students engaged in advanced research. In addition, it educates eighteen postgraduate students annually, who graduate with an M.Sc. in Neuroscience (the only one in Ireland). TCIN PIs teach an interdisciplinary undergraduate programme leading to a B.A. (Mod.) in Neuroscience. The institute hosts a popular public lecture series annually, and it has initiated and participated in major exhibitions in Trinity College’s Science Gallery. New initiatives are planned in neuroscience teaching as well as in collaborations with humanities, social sciences and public engagement, funded in part through a new Wellcome Trust Institutional Strategic Support Fund award that is coordinated and managed by TCIN.

The institute supports and connects strengths in different disciplinary strands, to create new and impactful actions in all areas related to national and international neuroscience.

TRINITY TRANSLATIONAL MEDICINE INSTITUTE (TTMI)

The Trinity Translational Medicine Institute (TTMI) is located within the St James’s Hospital campus in Dublin 8. However, TTMI extends to include researchers at the Meath Foundation Research Laboratory at the Trinity Centre, Tallaght Hospital, the Coombe Women and Infants University Hospital, and Our Lady’s Children’s Hospital, Crumlin. Trinity College Dublin Schools of Medicine, Chemistry, and Pharmacy and Pharmaceutical Sciences are the founding partners of TTMI and are represented by research scientists and clinicians committed to prioritising patient driven clinical research. The substantive co-operative institute currently houses over forty principal investigators and one hundred and fifty scientists.

The creation of TTMI fills a major strategic gap in TCD through the development of a centre for excellence geared towards translating transformative biomedical research to a clinical setting and consolidating links within our hospital sites. TTMI’s remit extends across St James’s, Tallaght, Our Lady’s and the Coombe hospitals, creating the new Trinity Translational Development Pathway, based on international best practice. The location of TTMI within the acute hospital setting, enhances the study of a broad spectrum of disease states underpinned by collaborations.

ADAPT CENTRE FOR DIGITAL CONTENT TECHNOLOGY

The ADAPT Centre for Digital Content Technology is a Science Foundation Ireland funded research centre that aims to lead on the development of digital content technologies that will revolutionise the way people interact with content, systems and each other to achieve unprecedented levels of access, efficiency and empowerment. ADAPT has significant commercial knowledge and actively collaborates with industry to create breakthroughs in the global content industry.

ADAPT’s research areas include localisation, social media analysis, multimodal interaction, intelligent content and media, and informal and formal learning. In 2015 the centre, which was formerly known as CNGIL (Centre for Global Intelligent Content), was re-branded as ADAPT to highlight the extension of its research expertise which covers all aspects of the digital content lifecycle.

ADAPT is led out of Trinity College Dublin and combines the world-class expertise of researchers at Dublin City University (DCU), University College Dublin (UCD) and Dublin Institute of Technology (DIT).

**ADVANCED MATERIALS AND BIOENGINEERING RESEARCH (AMBER)**

AMBER is an SFI funded centre that provides a partnership between leading researchers in material science and industry. It is jointly hosted in Trinity College Dublin (TCD) by CRANN and the Trinity Centre for Bioengineering (TCBE), working in collaboration with University College Cork and the Royal College of Surgeons in Ireland (RCSI). The centre delivers internationally leading materials research that is industrially and clinically informed. Outputs include new discoveries and devices in ICT, medical device and industrial technology. AMBER has a strong emphasis on linking industry to research programmes. The aim of the centre is to develop products that directly impact everyone’s quality of life such as the development of the next generation computer chips and new medical implants and pharmaceuticals that will improve patient care.

AMBER brings together Ireland’s leading material science researchers working across the disciplines of Physics, Chemistry, Bioengineering and Medicine; with an international network of collaborators and companies.

INSTITUTE OF POPULATION HEALTH

The Institute of Population Health (IPH) was opened in August 2016, based at the Russell Centre, Tallaght Cross in Dublin 24. It is a joint initiative of the Schools of Medicine and Nursing and Midwifery. Among the priority actions will be to provide an academic backdrop to the primary care centre and general practitioners who share the premises with the IPH. Focus will be on prevention and chronic disease prevention and management. A range of new postgraduate courses will be run from the IPH. Public health advocacy will also be a priority, together with major interaction with the community in Tallaght.

CONNECT

CONNECT, formerly known as CTVR, is Ireland’s Future Network and Communications research centre. Funded by Science Foundation Ireland, it is headquartered in Trinity College Dublin and brings together nine other academic institutions (Maynooth University, University of Limerick, Dublin Institute of Technology, University College Cork, Dublin City University, University College Dublin, Tyndall National Institute, Cork Institute of Technology and Waterford Institute of Technology with TSSG (Telecommunication software and systems group). CONNECT is also partnered with thirty-five companies ranging from large ICT multi-nationals to smaller and emerging indigenous companies.

CONNECT’s mission is to research, develop and innovate new communication solutions to address many of the challenges facing society. At the core of the CONNECT research vision is the idea that the network will be performed into existence in response to service needs. CONNECT focuses on service-aware networks, network-aware services, responsive things and integration.

TRINITY IMMIGRATION INITIATIVE

The Trinity Immigration Initiative (TII) brought together key strands of Trinity College Dublin’s research in order to support the development of a more inclusive, multicultural Ireland. A key initiative in the TII was a major Research Programme on Diversity, Integration and Policy. This programme was designed to stimulate a quantum leap in research activity in relation to immigration, helping to generate evidence relevant to local and national policy and contributing to international debates and the development of international practice.

TRINITY INTERNATIONAL DEVELOPMENT INITIATIVE (TIDI)

The Trinity International Development Initiative (TIDI) was established, by researchers at Trinity College Dublin (TCD), in 2007, to maximise the university’s contribution to understanding and addressing the major global development challenges of our time through research, teaching and outreach activities.

TIDI’s vision is that TCD will be internationally renowned for excellence in development research and education and for the provision of practical solutions to real-world challenges. A vibrant outreach programme will raise awareness among the wider community of development issues and of TCD’s role in addressing these.

TRINITY ACADEMIC GASTROENTEROLOGY GROUP RESEARCH CENTRE (TAGG)

The Trinity Academic Gastroenterology Group (TAGG) is an active research and clinical team working collaboratively at Tallaght Hospital, St James’s Hospital Dublin and Trinity College Dublin. TAGG is affiliated with Trinity Health Ireland (THI). Our vision is of excellence and innovation in service delivery and research in all fields of gastroenterology. The team is multi-disciplinary comprising gastroenterologists, surgeons, medical physicists, nutritionists, nurses, engineers, scientists and allied health professionals. Our principal investigators (PIs) collaborate with national and international colleagues across Europe, North America, Canada and Ireland as well as with small and medium sized enterprises (SMEs) and industry partners.

TRINITY CENTRE FOR ASIAN STUDIES

The Trinity Centre for Asian Studies provides a structure for multidisciplinary education in Asian Studies and integrates the university’s actions in developing Chinese, Korean and Japanese Studies as well as other regionally-based scholarship and pan-Asian research. Located in the School of Linguistic, Speech and Communication Sciences, the centre acts as a focal point for Asian Studies and creates cross-College opportunities for collaboration and outreach. It’s teaching and research focus on contemporary society and culture, language learning, diaspora studies, and comparative studies including Asian-European studies. The
centre’s aim is to promote Asian Studies nationally and internationally, and in so doing, to be the leading knowledge centre in Ireland for policy-makers, business leaders and scholars in the field. The centre organises regular seminars and public lectures.

**TRINITY CENTRE FOR BECKETT STUDIES**

The Trinity Centre for Beckett Studies was founded in 2017 and promotes and co-ordinates research activity in Beckett studies amongst staff and postgraduate students at Trinity College Dublin. The centre builds upon both the Samuel Beckett Summer School – which began in 2011 and was a joint venture between the School of English and the School of Creative Arts – and the Samuel Beckett Laboratory. The centre is the only research centre of its kind in Ireland. It places Trinity College at the forefront of academic research, artistic practice, and public engagement involving the works of one of its most famous alumni, and will help the university capitalise upon the Library’s significant holdings of Beckett manuscripts. The Library has the greatest collection of Beckett’s correspondence and its Beckett collection has been an area of significant investment by the Library over several years. The centre encourages interdisciplinary approaches to Beckett and is also involved in a number of international collaborations.

**TRINITY CENTRE FOR BIBLICAL STUDIES**

The Trinity Centre for Biblical Studies continues Trinity’s interest and investment in biblical studies over the past four centuries by providing a focus for a range of research activities and projects in this discipline. In keeping with the growing breadth of biblical studies as a discipline and the range of expertise and interests at Trinity, the centre promotes research in a variety of areas, including the study of the Bible in its ancient contexts, its interpretation in late Antiquity and the Medieval period, and its reception in the visual and performing arts. The centre facilitates and disseminates research in these areas by drawing upon the expertise of its staff and associates within and beyond Trinity, as well as the rich resources of Trinity College’s library and the Chester Beatty library.

**TRINITY CENTRE FOR BIODIVERSITY RESEARCH (TCBR)**

The Trinity Centre for Biodiversity Research was launched in December 2008 by Sir David Attenborough. Based in the School of Natural Sciences, the TCBR brings together researchers from across Trinity College Dublin to provide a broad base of expertise in a range of biodiversity research areas, enabling research to cross traditional disciplinary boundaries to encompass biological, social, economic, legal and political aspects of biodiversity. From basic blue skies research to practical solutions and applications for stakeholders, we use state of the art and innovative approaches to deliver excellence in biodiversity knowledge for capacity building and increased public awareness. This exciting combination of researchers allows novel synergistic collaborations that are crucial for the development of national, European and international policy, and strategic recommendations to ensure global environmental sustainability.

TRINITY CENTRE FOR BIOENGINEERING

The centre was established in May 2002 and has principal investigators drawn from the Schools of Engineering, Medicine, Dental Science and Natural Sciences in Trinity College, and from the Royal College of Surgeons in Ireland, Dublin City University, and University College Dublin. The aim of the centre is to facilitate the development of bioengineering research and to support interdisciplinary teaching initiatives in the field of biomedical engineering. The specific areas of research focus at present are: biomechanics and mechanobiology, tissue engineering and regenerative medicine, neural engineering, medical devices, and advanced drug delivery.

TRINITY CANCER RESEARCH CENTRE (TCRC)

Cancer has been identified as a priority research theme based on the quality of research that has been generated by Trinity academics. There are over one hundred and seventy researchers from the School of Medicine and other Schools and Institutes across the College actively working on cancer projects as part of a vibrant interdisciplinary research community. Research in cancer incorporates basic biomedical and biomolecular research based at the Trinity Biomedical Sciences Institute and the Institute of Molecular Medicine, along with clinical research based in the teaching and affiliated hospitals, including St. James’s, Tallaght, Coombe Women and Infants University Hospital and Our Lady’s Hospital for Sick Children, Crumlin.

TRINITY INSTITUTE OF CARDIOVASCULAR SCIENCE

In June 2004, Trinity College established the Institute of Cardiovascular Science, a partnership between the College and its two main teaching hospitals: Tallaght Hospital and St James’s Hospital. The aims of the institute are to increase the understanding of cardiovascular disease in order to improve and develop prevention, diagnostic, treatment and rehabilitation strategies. While the main focus of the institute is research; it is also engaged in the development and delivery of education and in co-ordinated service development. It offers an M.Sc. in Cardiology on the St James’s campus.

TRINITY CENTRE FOR COMPUTING AND LANGUAGE STUDIES

The centre was founded in 1996 as a pastoral and administrative home for the interdisciplinary moderatorship (B.A.) course in computer science, linguistics and a language, and as a focus for research collaboration in related areas within College, nationally and internationally. The centre contributes to the organisation of the Dublin Computational Linguistics Research Seminar, which is the product of collaboration among Dublin City University, Dublin Institute of Technology, University College Dublin and Trinity College Dublin.

TRINITY CENTRE FOR EARLY MODERN HISTORY

The centre promotes understanding of the culture, society, economy, religion, politics and warfare of early modern Europe. The centre organises seminars, conferences and public lectures on the early modern history of Ireland, Britain and Continental Europe, as well as on relations between European and non-European states and cultures. Postdoctoral and postgraduate researchers undertake projects within a framework which promotes dialogue and exchange around shared interests in the early modern period. The centre also hosts externally-funded research projects, and contributes to the taught M.Phil. in Early Modern History offered by the Department of History.

TRINITY ENGAGE – CENTRE FOR RESEARCH IN AGEING

Through strategic investment over the last decade, Trinity has developed a strong research capacity in ageing. Over one hundred and ten Trinity researchers are engaged in ageing-related research spanning fields of biology, public health, medicine, informatics, macroeconomics, finance, urban planning, engineering, technologies, globalisation and migration, the law, sociology, business and philosophy. The centre will create a unique hub of ageing-related research that will shape policies and programmes and foster multi-disciplinary collaborations, transforming Trinity from being world class to world leading in this field.

Director

TRINITY CENTRE FOR THE ENVIRONMENT

Founded in 1979, the Trinity Centre for the Environment (TCE) acts as a focus for interdisciplinary research in environmental sciences. It also provides a diverse range of laboratory and field support to a large community of academics and researchers. The TCE acts as a focus for visiting academics and researchers, by providing them with space, and where required, basic research support. The centre is managed by the director, who also chairs the management committee comprising the resident members, as well as representatives of the student body and School. It is located in the former anatomy building in the heart of College.

TRINITY FUTURE CITIES: CENTRE FOR SMART AND SUSTAINABLE CITIES

The centre fosters research-led innovation in smart approaches to optimising cities’ resources, reducing their environmental impact, and improving citizens’ quality of life within urban environments. Its research is multi-disciplinary, including researchers from computer science, statistics, information systems, engineering, natural sciences, social science, chemistry, English, nursing and midwifery, business and law. The centre provides a focus point for leveraging existing activities and collaborations, as well as seeking new opportunities for funding.

Director

TRINITY CENTRE FOR GENDER AND WOMEN’S STUDIES

The centre’s graduate programmes (M.Phil./Diploma, M.Litt. and Ph.D.) address current scholarship on women, gender and sexualities. The centre’s dedicated research unit has undertaken nationally and internationally funded projects on such diverse topics as the gender history, work-life balance, gender and ageing, barriers and facilitators toward the promotion of women, the role of men in the promotion of gender equality, prostitution and women and ambition. The centre fosters links with the community through its public seminars and lectures.

HAMILTON MATHEMATICS INSTITUTE

The Hamilton Mathematics Institute fosters mathematics by creating an environment in which researchers can meet, collaborate, discuss and explain the frontiers of fundamental mathematics and related disciplines to each other. It also facilitates interaction between leading researchers and talented young people, organises public lectures to communicate the challenge and excitement of fundamental research and engages in dialogue both with other disciplines and society at large.

TRINITY CENTRE FOR THE STUDY OF IMMUNOLOGY (TCI)

The area of immunology is one of the fastest-growing disciplines in biomedical research and is a key component of the biotechnology industry. The aims of the TCI are to promote the development of immunology in College; to foster links between immunologists within College; to provide a focus for the raising of funds; and to co-ordinate present and future teaching in immunology. This initiative builds on what is already a strong aspect of research in College, the aim being to build on Trinity’s reputation as one of international renown for research in the field of immunology.

Director

TRINITYHAUS RESEARCH CENTRE

TrinityHaus was formed in 2008 to provide innovative solutions for buildings, neighbourhoods and cities. It is staffed by a diverse range of researchers with professional and academic expertise in architecture, computer science, engineering, management science, and soil science. Current projects include a HRB research project into design of dementia friendly hospitals and COST Action TU1204 into ‘People friendly cities in a data rich world’ with twenty-eight European partners resulting in urban living laboratory studies carried out in Dublin, Glasgow, Lucca, Reykjavik and Vilnius.

TRINITY IRISH ART RESEARCH CENTRE (TRIARC)

This centre was established to promote and facilitate the study of Irish art and architecture, and began operations in October 2003. Located in the renovated Provost's House Stables, it serves as a focus for academic research and is responsible for organising seminars, conferences and postgraduate courses, including a taught M.Phil. specialising in Irish art history. It also has responsibility for a visual archive. By exploiting the exceptional resources available in the centre of Dublin, both in Trinity College and in the major cultural institutions nearby, the centre builds on the Department of the History of Art’s existing achievements in the field of Irish art.

Director

TRINITY CENTRE FOR NEW IRISH STUDIES

The centre (formerly the Trinity Centre for Irish-Scottish and Comparative Studies) hosts the Making Ireland College research theme and coordinates a number of research projects and initiatives that have been developed under the auspices of the theme, notably the Beyond 2022 project.

Director

TRINITY CENTRE FOR LITERARY TRANSLATION

The centre was established in 2013 in order to develop, promote and support literary translation in Ireland. It is a three-way partnership bringing together the School of Languages, Literatures and Cultural Studies in Trinity College Dublin, Literature Ireland, formerly Ireland Literature Exchange (ILE), and Dalkey Archive Press. Historically this initiative was the result of Trinity College’s commitment through the Creative Arts, Technologies and Culture Initiative to create a dynamic network of interconnectivity in education, research, creative practice and entrepreneurship at the heart of the city.

Director
Sarah Smyth, M.A., PH.D.

TRINITY CENTRE FOR MEDIEVAL AND RENAISSANCE STUDIES

The centre promotes interdisciplinary collaboration between scholars working in the fields of Medieval and Renaissance studies both within and outside Trinity with a view to raising the profile of Medieval and Renaissance studies at a national and an international level. The centre organises conferences, seminars and public lectures on a regular basis, and has recently launched a school liaison programme. It has developed close ties with a number of other institutions, works closely with the Society for Renaissance Studies and Medium Aevum and is a member of CARMEN (the Confederation for the Advancement of Research through a Medieval European Network).

TRINITY CENTRE FOR MEDITERRANEAN AND NEAR EASTERN STUDIES (MNES)

The aim of the centre is to investigate how, at local, national and international level, peoples, ideas, and practices in these two highly important cultural zones have lived together in peaceful and hostile relationships; and how the multiple identities thus negotiated and given expression have led to either conflict or accommodation. Combining literary, historical, philosophical, archaeological and scientific methodologies, the core of the centre’s research activities brings together scholars, both local and international, from classics and archaeology, biblical, New Testament and Jewish studies, philosophy and history. The Plato Centre is a constituent member of MNES.

Director

TRINITY CENTRE FOR SOCIAL INNOVATION

The Trinity Centre for Social Innovation, which was formerly the Trinity Centre for Nonprofit Management, has as its mission to create a TCD space that fosters research on social entrepreneurial action, generating opportunities to study impactful engagement in society and to disseminate that research to all stakeholders. The centre will create opportunities for individuals and teams across College and beyond to work together towards generating greater impactful research-led engagement in all aspects of their work and research. Taking the three core pillars of research, teaching, and incubation, the Trinity Centre for Social Innovation will seek out, facilitate, support and promote the impactful engagement interactions that occur and actively endeavour, through the centre’s overall research agenda, to investigate the diversity, complexity and scale of impact created.

TRINITY CENTRE FOR POST-CONFLICT JUSTICE

The centre fosters interdisciplinary research that explores how societies come to terms with episodes of extreme violence in war, civil war, and periods of prolonged civil and political unrest. The centre brings together faculty and graduate students working in the fields of history, law, peace studies, sociology, theology and ethics. Its current projects address the themes of justice, transition, and memory and reconciliation and draw from field and archival work in the Balkans, Eastern and Central Europe, Central America, Africa, the Middle East, and Southeast Asia, as well as the experience of the peace process in Ireland, north and south.

TRINITY CENTRE FOR PSYCHOLOGICAL HEALTH

The centre brings together a critical service-focused research capacity to develop, implement and evaluate psychological interventions to enhance health and well-being. The centre fosters research-led innovation to help services optimise client quality of life and advance the science of clinical practice. Through external collaborations and with innovative models of working with service users, the centre is uniquely positioned to meaningfully engage with society in addressing core issues related to enhancing well-being.

Director

TRINITY CENTRE FOR URBAN AND REGIONAL STUDIES

The centre is a joint initiative of the Departments of Economics and Geography in order to meet the need for an expanded research programme in urban and regional development and the built environment. The centre addresses a wide spectrum of economic, social and environmental issues. In addition to research, the centre organises conferences, seminars and meetings relating to urban and regional affairs. In particular, it attempts to cater for the needs of communities and organisations in the Dublin area.

Directors
Andrew Charles MacLaran, M.A. (DUND.), PH.D. (DUND.)

TRINITY CENTRE FOR WAR STUDIES

The centre was established in 2008 to promote the study of the origins, nature and consequences of war in history and the contemporary world. It draws on the interests of staff in the School of Histories and Humanities with convergence on three areas in particular: the Thirty Years War and the wars in Britain and Ireland in the seventeenth century; the Revolutionary and Napoleonic Wars, 1792-1815; and the era of the two world wars, 1914-1945. While the cultural history of war is a special strength of the centre, the study of all aspects of war – from military operations to politics, society and the economy – is supported.

Director
Associate Director
Fergus Robson, B.A., PH.D.

IRISH CENTRE FOR EUROPEAN LAW

The centre seeks to promote the knowledge, understanding and good practice of EU law and the law of the European Convention on Human Rights. To this end, the centre organises conferences, seminars and refresher courses on substantive areas of Union and Convention law as well as on the Union’s institutional framework and on the interrelationship between the Union legal order and that of its Member States.

TRINITY CENTRE FOR EXCELLENCE IN AGEING AND INTELLECTUAL DISABILITY (TCAID)

The centre has been established to achieve enhanced quality of life for people with intellectual disabilities (ID) as they age. Through interdisciplinary collaboration, the centre will transform Trinity’s intellectual disability research from world class to world leading in the field. Building upon rigorous research, the centre will create an innovative and progressive teaching environment, and contribute to the preparation of future practice leaders, working with government, intellectual disability service providers, and people with an intellectual disability and their families. The centre will address policy and practice concerns, and discover and disseminate high quality evidence-based interventions. The centre is underpinned by the Intellectual Disability Supplement to TILDA study (IDS-TILDA), which is internationally recognised as the first national longitudinal study on the ageing, health and wellbeing of older adults with an intellectual disability. Ensuring that Ireland is the best place to grow old for all members of our society. See http://www.tcd.ie/tcaid/.

TRINITY OSCAR WILDE CENTRE FOR IRISH WRITING

The centre was opened in January 1998 as the teaching and research centre for both the M.Phil. in Irish Writing and the M.Phil. in Creative Writing. Devoted to writing and research, the centre’s main focus is on providing an academic yet lively environment for students of both M.Phil. graduate courses. As an interface between College and community, the centre plays a key role in bringing the achievement and ambition of writers and scholars to the attention of a wider public both at home and abroad.

TRINITY RESEARCH IN CHILDHOOD CENTRE (TRiCC)

The centre’s mission is to integrate and promote research in all aspects of childhood, and in children’s biological, psychological, cognitive, and socio-emotional development and well-being across College. The centre builds on and takes forward the work of the former Children’s Research Centre (CRC), and the Trinity Children’s Research Forum, in establishing a wide network of researchers across Trinity schools and faculties. The centre incorporates both the functions of the CRC and the Forum to provide a new organisational structure within Trinity to enable capacity building with respect to the production of research of international reach. The aim of TRiCC is to promote Trinity as a centre of excellence in childhood research via the production of high level research and gathering of knowledge and skills to contribute to the improvement of children’s health, wellbeing, development and learning.

Representation of the University in Seanad Éireann

By the provisions of the Seanad Electoral (University Members) Act, 1937, the University of Dublin became a constituency for the election of three members of Seanad Éireann.

The above Act prescribes that every person who is a citizen of Ireland, is not subject to any legal incapacity and has received a degree (other than an honorary degree) in the University of Dublin, or has obtained a foundation scholarship or a non-foundation scholarship in the said University and (in any case) has attained the age of eighteen years, shall be entitled to be registered as an elector in the Register of Electors for the University of Dublin constituency.

The Register of Electors is published annually on 1 June. Any person who is not entered on the electors' list, and claims to be entitled to be so entered, and all graduates and scholars who fulfil the above-mentioned conditions, may obtain forms of claim to be registered as university electors from the Academic Registry, Trinity College. All correspondence should be addressed to the Academic Registry.

Representatives of the University in Seanad Éireann

Ivana Catherine Bacik, LL.M., elected 2016
David Patrick Bernard Norris, M.A., elected 2016
Lynn Ruane, elected 2016
Benefactors of Trinity College Dublin

Trinity Development and Alumni is administered by Trinity Foundation, an independent charity (CHY10898) established in 1994, and charged with responsibility for, and exists solely to support, the development (fundraising) and alumni relations activities of Trinity College Dublin.

Trinity Development and Alumni was established with the objective of raising funds to support the development of Trinity College Dublin. It plays a vital role in ensuring that Trinity College has the financial resources to remain a leading, internationally recognised university. In the nine month period, 1 October 2016 to 30 June 2017, Trinity Development and Alumni was successful in securing pledges of about €21 million from 2,680 donors.

The Trustees of Trinity Foundation join the Provost, Fellows and Scholars of Trinity College in thanking all supporters of the University. Significant philanthropic donations, which have been used to support College activities, were received and this funding is a testament both to the quality of the projects and to the generosity of our dedicated supporters.

Special thanks are due to those who donated through the U.K. Trust for Trinity College Dublin, the University of Dublin Fund in the U.S.A. and all alumni who contributed to the Trinity Annual Fund.

See also Library of Trinity College for gifts of books and materials.

Trinity College Dublin: A Short History

Trinity College Dublin was created by royal charter in 1592, at which point Dublin Corporation provided a suitable site, the former Priory of All Hallows. Its foundation came at a time when many universities were being established across western Europe in the belief that they would give prestige to the state in which they were located and that their graduates, clergy for the most part, would perform a vital service as civil administrators. By the 1590s England had two long-established universities, each with an expanding group of colleges, and Scotland four. The idea of a university college for Ireland emerged at a time when the English state was strengthening its control over the kingdom and when Dublin was beginning to function as a capital city. The group of citizens, lay and clerical, who were main promoters of the scheme believed that the establishment of a university was an essential step in bringing Ireland into the mainstream of European learning and in strengthening the Protestant Reformation within the country.

The organisational design of the new institution was influenced by Oxford, Cambridge and continental precursors, but from the beginning it was an autonomous corporation governed by ‘provost and fellows’, committed to teaching and to scholarship, the first and (as it turned out) only college of the degree-awarding University of Dublin. The College site, lying some distance east of the small walled city, was far larger than the small community of fellows and students required, and the first brick buildings of the 1590s occupied only a small part of what is now Front Square. But from the beginning the College’s library was a priority, and the energy with which early Trinity scholars (notably Luke Challoner and James Ussher) assembled the initial collections of books marked Trinity out from other sixteenth-century foundations. Many of its early graduates, well grounded in philosophy and theology, proceeded to clerical ordination in the state church, the Anglican Church of Ireland.

During the next fifty years the community grew: endowments, including landed estates, were secured, new fellowships founded, a curriculum devised and statutes determining internal governance were framed. The international reputation of Ussher, one of its first alumni, helped place the College on the European map. But its existence was gravely threatened at two points in the seventeenth century, first when central government collapsed in the wake of the 1641 rising, followed by the temporary eclipse of the Church of Ireland in the wake of Cromwell’s victories; secondly, with the roller-coaster events of 1689/91, when Tyrconnell’s short-lived Catholic government closed the university, expelled the fellows and students, and converted the buildings into a Jacobite barracks. The library however was spared.

Despite such dramatic interruptions, the College had become a much more substantial institution by the end of the seventeenth century. Many of the early buildings had recently been replaced, and a number of the fellows, notably William Molyneux and St. George Ashe were centrally involved in the Dublin Philosophical Society, a small body that was closely in touch with the ‘new learning’ in London.

The following century was an era of political stability in Ireland, thanks to the firm monopoly on political power held by the land-owning and largely Church of Ireland upper class, and the College was in material terms a great beneficiary from this state of affairs: its landed income grew very substantially in the course of the century and it enjoyed the recurring patronage of the Irish parliament across College Green, evident in the scale and quality of its new buildings. The first structure dating from this era was a massive new library (1712-32), initiated while George Berkeley, another celebrated alumnus of the College, was librarian; its size, far greater than then required, reflected long-sighted enlightenment ambitions, and it was followed by a string of other classical buildings on the western half of the campus: the Printing House (1733-4), the West Front (1752-9), the Dining Hall (c.1760-65), and the Provost's House (1759-61). During the second half of the century Parliament Square slowly emerged, shaped by the Public Theatre (1777-86) and the new Chapel (1787-98), which were designed from afar by George Ill's
Trinity College Dublin – a short history

Trinity College was founded in 1592 by Archbishop Richard Bingham of Cashel, who established a college of arts for the training of clerical students. The college was housed in part of a former Franciscan friary in Dublin and was initially called “The King’s College of Our Lady of Saint Mary of the Irish” (Trinity was added to the title by Act of Parliament in 1652). The first professorial chairs were established in 1596. In 1714, Trinity became a degree-granting university through Royal Charter and it has since grown into one of the world’s leading institutions of higher education.

In the 18th century Trinity underwent a period of rapid development. The Fellows’ House was built in 1762, and the quadrangles and college church were added in the 1770s. The Art Museum opened in 1785, and the assembly room was added in 1810. The great building drive was completed in the early nineteenth century by the residential quadrangles of Botany Bay and New Square.

These buildings reflected a seriousness of purpose absent from English universities of that era. The fellows were generally hard-worked, both as teachers and administrators; the general curriculum was adapted, albeit slowly, and most of the outstanding Irish politicians and writers of the eighteenth century (Swift, Burke, Goldsmith, Grattan, Fitzgibbon, Tone) were Trinity graduates, the influence of their university discernible in their writings and speeches.

Since the early days, the power of College provosts to re-shape the university had been very considerable: most of them were ordained clergy, but two eighteenth-century laymen who held the office stand out: Francis Andrews (1758-74), whose chief monument is the sumptuous Provost’s House, but who also encouraged science with his endowment of a chair of astronomy and an observatory; and his successor, John Hely-Hutchinson (1774-94), who was an enlightened lawyer but an adversarial public figure: he oversaw the foundation of chairs of modern languages and widened the composition of the student body; Catholics were permitted to enter and take degrees from 1793. Not for the last time, political controversy in the world outside came to be powerfully reflected among the student body in the lead-up to the 1798 rebellion, in which ex-students were involved on both sides, most famously Wolfe Tone.

The undergraduate curriculum was a prescribed general course, embracing classics, mathematics, a limited exposure to science and some philosophical texts. This began to change from the 1830s when it became possible to specialise for degrees with honors, or moderatorships, in mathematics, in ethics and logic, and in classics. In 1851 a moderatorship in experimental science was added (embracing physics, chemistry and mineralogy at first, and later geology, zoology and botany, which in 1871 was split into two moderatorships, natural and experimental science). And new humanities disciplines emerged as moderatorship subjects at the same time – in history and modern literature.

The professional schools were also transformed in the course of the nineteenth century: divinity had been taught since the foundation of the College, but this was now systematised. The Law School was reorganised, and medical teaching placed on a much stronger footing, helped by the emergence early in the century of a group of medical teachers who gained international eminence (notably James Macartney, Robert Graves and William Stokes), practitioners who divided their time between clinical teaching and the lecture theatre. The Engineering School was established in 1842 and was one of the first of its kind in the English-speaking world. Student numbers overall increased in the post-Waterloo generation, and the vibrancy of the institution is evident from the variety of associations and clubs in the city that were dominated by the university. The Dublin University Magazine (1833-82) became one of the most widely circulating monthly reviews in Ireland or Britain, conservative in its politics, highly original in its literary coverage and on occasions quite subversive, not unlike its original College sponsors.

Between 1830 and 1900 twenty new professorial chairs were founded, and individual scholarship flourished as never before: in mathematics and science William Rowan Hamilton, the Lloyds, George Salmon, George Fitzgerald and John Joly spent most of their working careers based in the College, and in the humanities it was the classicists who led the field in terms of international celebrity.

The expansion of the College’s teaching activity during the nineteenth century was evident in the changing campus landscape, most strikingly with the Museum Building (1853-7), designed to accommodate civil engineers and geologists. By the late nineteenth century the College had gone some way to fill the ancient site with an ensemble of academic buildings and recreational facilities, museums and terraces of student residences. And new buildings to the east of the College Park reflected the increasing importance of science and medicine in College priorities. However purpose-built science laboratories came late; it was thanks primarily to the philanthropy of the Guinness family that some really fine architecture began to grace the East End when the Physics and Botany buildings appeared c.1903-06.

Behind its high iron railings the Victorian university had become something of a self-contained community, out of sympathy with the increasingly nationalist city and focused on an expanding
Trinity College Dublin – a short history

British empire for opportunities for its graduates. During the sixty-year war of attrition between British governments and the Catholic hierarchy over higher education policy in Ireland, Trinity struggled to accommodate itself to what was a changing Ireland. Between 1873 and 1908 a variety of schemes were proposed that would have made the College a member of a federated Irish (or Dublin) university; these were strenuously and effectively resisted as threats to its independence. As part of this, the College gradually re-positioned itself to become a non-denominational institution: in 1873 all religious tests (except those connected with the Divinity School) were abolished. However despite this, the fractious struggle to retain the College’s separate identity meant that when the battle over Irish higher education was finally resolved in 1908 with the creation of the federal National University, it left a difficult legacy for the defenders of the older institution.

Power within the College was slowly changing too. The creation in 1874 of the University Council, a body representative of non-fellow professors, gave control over the shaping of courses and appointments to the teaching departments, and in 1911 membership of the College Board itself was somewhat widened. But power remained with the senior fellows until the provostship of Albert McConnell (1951-74), who managed to widen the collegiate governance of the College and initiate major administrative reform. More momentously, women students became part of the College: admitted for the first time in 1904, within a decade they amounted to 16 per cent of the student body. But it was not until 1958 that the first female professor sat on the Board, and 1972 before female students could reside within the campus (a women’s hall of residence had however been established in 1908). In 1986 women accounted for more than half of the full-time student body, and have retained that ascendancy ever since.

The First World War marked a general turning point in the College’s fortunes, the human cost recognised in the hall of honour (1928), erected in Front Square. The Easter Rising of 1916 had engulfed the College environs, and Trinity was lucky to escape serious physical damage. However wartime inflation and the drastic erosion of its assets threatened the College’s peacetime future. In the new Free State that emerged after the War of Independence in 1922, Trinity lacked the benign support of government that it had always enjoyed, and the new national administration, financially weak and recovering from civil war, had more pressing priorities. Therefore, at a time when the newer universities in Britain were growing in strength and prestige, TCD found itself without the revenues required to advance research and scholarship in what was an increasingly science-centred world.

Student numbers however held up well in the inter-war period, but with very limited philanthropic support and none from the state, TCD’s capacity to develop was severely constrained. Some new disciplines were introduced at little cost, notably degree courses in commerce, economics and politics, and the first night-school diplomas, ranging from art history to public administration, were very successful. But it was only after the end of the Second World War that the university once again sought financial support from government; it was promptly given. That modest agreement in 1947 marks the beginnings of TCD’s transition towards becoming a large state-funded university, although this was not apparent until the 1970s. In the meantime, cramped by continuing church restrictions on Catholic attendance, the College increased its enrollment of students from Britain and the United States at a time when overall numbers were falling below pre-war levels. In some years around 1960, nearly half the student body was coming from outside Ireland (north and south).

The overall student population remained small until the mid-1960s, when the cap was raised by a third to 4,000. At that same point the Irish government became involved in capital investment within the College, sharing the costs of building a new library with the College’s fundraisers. In the same period private philanthropy, again led by the Guinness family, and international philanthropic trusts, notably the Wellcome, were dramatically improving the stock of medical and science buildings, and enabling the development of new disciplines such as biochemistry, genetics and preventive medicine.

The real growth in student numbers began in the 1970s, reflecting the introduction of free second-level education and of third-level student grants, the removal of the Catholic episcopal
Trinity College Dublin – a short history

‘ban’ (in 1970), the widening career opportunities for women and a stronger underlying economy in Ireland. Trinity’s recruitment field became much more heavily concentrated within the Republic of Ireland, and College policy in the early 1970s was to bring down the non-Irish proportion to 15 per cent. The new ‘massification’ of higher education took physical form with the construction of a large Arts and Social Sciences Building on the south side of the campus (opened in 1978). This was almost entirely funded by the national exchequer.

The diversification of the curriculum continued in the last quarter of the century, with the mushroom growth of information science and computing, the medical therapies, nursing, and teacher training, the latter developed in conjunction with the three Dublin teacher-training colleges with which TCD had become associated in the 1970s. The College also became involved in the oversight and accreditation of technical degree courses delivered across Dublin by the Vocational Colleges (until the Dublin Institute of Technology was established as an independent degree-awarding body). But a more generic change was the huge expansion of postgraduate activity, both of taught courses and research degrees, many of these closely related to the professions. And by the 1990s post-doctoral researchers, scattered across all disciplines, had become a new segment of the academic community, reflecting the scale and complexity of research teams and the opportunities for research funding at national and European levels.

In the new scheme of things, as the university came to depend on the state it became publicly accountable. Oversight of the universities became the responsibility of the Higher Education Authority, established as a statutory body in 1971, its role and powers being greatly extended by the 1997 Universities Act. The state by the late 1990s had become the principal source of the College’s revenues, both through the direct grant and as a consequence of the state’s adopting a ‘free fees’ policy for undergraduate tuition. But despite the ever-increasing involvement of the state in directing higher education, the contribution of the state grant to the College’s total income began to decline in the following decade, falling to 27 per cent by 2010 and actually counting for less than the College’s research income (much of the latter coming of course from Irish state agencies). Research income from all sources had contributed a mere one million pounds in 1981, whereas in 2009 it peaked at just under 90 million euro.

There have been two major internal waves of academic reorganisation over the last fifty years: the incorporation in 1968 of all academic departments into six faculty units, headed by deans, and the integration of academic departments into schools in 2004-08, with in turn a reduction in the number of faculties to three. Faculty deans have now come to play a strategic role in the management of the university. These changes since the 1960s facilitated the incorporation of many new teaching departments (including Business Studies, Dentistry, Drama and Film Studies, History of Art, Linguistics, Mechanical and Manufacturing Engineering, Pharmacology and Pharmacy, Occupational Therapy, Physiotherapy, Psychology, Sociology and Statistics). And the recent programme of academic restructuring facilitated the establishment of five large trans-disciplinary research institutes in areas of particular international strength, one focusing on Adaptive Nanostructures and Nanodevices (CRANN), one on Neuroscience (TCIN), one on International Integration Studies (IIIS), one on research in the Arts and Humanities (the Trinity Long Room Hub), and the Trinity Biomedical Sciences Institute (TBSI).

In the wake of the huge growth in Irish student numbers attending the College, there was a new commitment to internationalisation in recent years and a move back towards the recruitment of international students, initially in the field of medicine, latterly across all disciplines, with a particular focus on Asia. The College was an early supporter of undergraduate exchange programmes (notably the E.U.-supported Erasmus/Socrates scheme), which have been in operation since the 1960s, and it has long been a favoured destination for U.S. visiting students. By 2010 11 per cent of the student population came from other E.U. countries, 4 per cent from North and Central America, and 5 per cent from other parts of the world; in all, the College’s population of 16,807 registered undergraduate and postgraduate students was drawn from some 110 nationalities.

In 1993 the College also began to boost recruitment from within Dublin city by developing a
series of access programmes (TAP). The aim was to raise the number of young adults from socio-economic and ethnic groups underrepresented in higher education coming to university. At the same time, new efforts were made to recruit mature students. By 2009-10, over 15 per cent of all Irish entrants to the university were ‘non-traditional’ students, two-fifths of whom were in the mature category.

Another major change in the second half of the twentieth century was in the composition of the academic staff: it became progressively more international. Until the 1930s the great majority had been doubly indigenous, being Irish-born and Dublin University graduates, including many who returned, like Ernest Walton who came back from Cambridge in 1934 and shared the Nobel Prize for Physics in 1951, arising out of his work two decades earlier on splitting the atom. The dominance of indigenous graduates in the academic community had all but disappeared by the 1980s, and the increasingly cosmopolitan character of the College helped drive change in the curriculum, in research, and in the general appetite for innovation across the institution. And there was meanwhile an utter transformation in the scale of the academic community, from the modest group of 125 who had made up the total academic staff in 1950.

In terms of physical development since that time, the College contributed to the small stock of fine modernist architecture in Dublin, beginning with the Berkeley Library (1965-6), the Arts Building (1977-8), the O’Reilly Institute (1989), the Dental Hospital (1995-8), the Ussher Library (1999-2001) and the Long Room Hub (2008-10). But by 2000 the College had begun to burst out of its campus home, what with a huge expansion of its halls of residence off campus and with Nursing, Drama, and the Social Sciences putting down new roots a short distance away. But the most ambitious construction project in the College’s history, the Trinity Biomedical Sciences Institute in Pearse St (2008-11), has become the strongest physical statement of the College’s outward movement. The opening of this development, which now houses five academic schools, coincided with the development of the Trinity Academic Medical Centre, an alliance between the university and its two main teaching hospitals, St James’s and AMNCH, Tallaght. And west along Pearse St, the Science Gallery was opened in 2008 as part of the new Naughton Institute: within a short time the Gallery has become a highly successful centre for ‘science outreach’ and art-science collaboration, exploiting to the full the potential for creative interaction between college and capital city. Important construction projects along Pearse St are likely to continue: in 2016, the university began work on a new Business School which will front onto the street, and a planning application was lodged to build new student accommodation on the campus perimeter further west along the street.
Buildings of Trinity College Dublin

The architectural character of Trinity derives largely from its role as a city-centre metropolitan college. It was Dublin Corporation, for instance, that granted the land in the late 16th century; the principal front of the College makes a monumental contribution to the closest thing which the city has to a public piazza; its extensive College Park is the resort of citizens who otherwise have little or no contact with the College, while its library attracts nearly a million visitors a year. Offering residence to nearly 700 students and staff within the walls (a number to be increased by a further 250 with the completion of a block of new residences along Pearse Street, designed by McCullough Mulvin Architects), it lends vibrant life and business to the city, both by day and by night.

Over the centuries, Trinity—in its buildings and open spaces with their planting and sculpture (by Henry Moore, Alexander Calder, Arnaldo Pomodoro and others)—has risen architecturally to the challenges and opportunities thus offered. In Christine Casey’s words “Trinity has the largest group of monumental 18th-century buildings in Ireland and is the most complete university campus of the period in these islands”. In the 19th century it erected one of the most distinguished landmarks of pioneering Ruskinian gothic. And its Berkeley Library of the 1960s is a landmark of Irish architectural modernism.

But what of the earlier buildings of this 16th-century university? Where is the evidence of the 12th-century priory given to the College in 1592, or of the College buildings which predated the earliest surviving ones, the Rubrics of c. 1700?

Very little is known of these early buildings, but much could be learned from an archaeological excavation of the site they occupied in Front and Library Squares (most of which has not been built upon). The vestiges must survive a few feet below the cobbles and lawns.

What characterises the buildings and open spaces on these 40 acres of central Dublin?

Most obvious, perhaps, is the division of the site into western (largely classical building, with extensive use of granite and Portland stone) and eastern (mostly 19th-century buildings and later, devoted to the sciences). These two parts lie on either side of the College Park and its playing fields.

The whole site is a deep rectangle, lying east–west, between Nassau Street, Pearse Street and Westland Row. The 18th-century buildings and squares to the west are off the grid of this rectangle, and this has led to some unreconciled difficulties. Buildings such as Physics and Botany (both by W.C. Marshall, 1904– and 1906–) for instance, are aligned with the distant western squares, while nearby buildings follow—at an angle—the line of Westland Row. Ahrends Burton and Koralek’s Arts Building (opened 1978) in Fellows’ Square solves the problem neatly with a wedge-shaped plan.

The College presents itself to the city in two notable ways. First, the perimeter along Nassau Street is remarkable, with a spectacular quarter of a mile of monumental cast iron railings (John and Robert Mallet, 1842), offering to the city views over the College Park and the Museum Building. More conventionally notable is the West Front (Theodore Jacobsen, 1752–) facing College Green. Withdrawn behind two curved lawns, with statues of Oliver Goldsmith and Edmund Burke (John Henry Foley, 1864 and 1868), this is a flamboyant tribute to the generosity of the mid 18th-century Irish Parliament.

The banishment in the 1820s of Anatomy and its cadavers as far away as possible probably explains the eventual relegation of many of the sciences to the east end. These are housed in some worthy late 19th-century buildings which nod deferentially to the Museum Building across the cricket pitch: such is Chemistry (McCurdy and Mitchell, 1885–) and Zoology and Physiology (John McCurdy, completed 1876). Others such as Scott Tallon Walker’s Institutes (Smurfit,
Buildings of Trinity College Dublin

Panoz, O’Reilly), along with their Watts and Hamilton Buildings (1988–2000) which follow the line of Westland Row, rehabilitated the street’s 19th-century houses and linked these to new, elegant, austere buildings facing College Park by means of a spatially exciting internal street, in a handsome contribution to both conservation and modernism.

Much more expressive are the extensions (Grafton Architects, 1996, 2005) for Mechanical Engineering to the Parsons Building behind the Pavilion. Here the architects display on a small scale the sculptural intrepidity which made their university buildings in Milan and Peru famous throughout the world.

The new Business School (Scott Tallon Walker Architects) is still in progress. Along with the Biomedical Sciences Institute (RKD Architects, opened 2011), it will make a dramatic contribution to the scale of Pearse Street and of Trinity.

In the view westwards from the Moyne Institute (Desmond Fitzgerald, 1953), three fine buildings can be seen on the far side of the College Park: the Ussher Library (McCullough Mulvin Architects with KMD Architecture, 1998), the Berkeley Library (ABK Architects, completed 1968) and the Museum Building (Deane and Woodward, 1853–7). Acknowledging the classical and cruciform grid of the western end of the College which was originally determined by the plan of the 12th-century priory, happily none of these was cowed by the pressure of tradition. The Museum Building broke, more dramatically than we can easily realise today, from the overwhelmingly classical language of the mid 19th-century College. Instead of Doric or Ionic or Corinthian (like its recent dull neighbours of the 1830s in New Square by Frederick Darley), Deane and Woodward looked to gothic Venice, and the Alhambra, and to John Ruskin, in a building whose radicalism, polychromy and sculptural variety landed them the commission for the Oxford Museum a few years later. The same independent approach to the architecture of the past led them (1859) to transform the Long Room in Thomas Burgh’s Old Library (1712–32) from Augustan splendour to thrilling Romanesque.

The same confidence was shown by the expressed intention on the part of the College in building a new library to be placed between the Museum Building and the Old Library. It was specified that the new building was to be as fine a representative of the 20th century as its neighbours had been of the 18th and 19th centuries. Paul Koralek’s Berkeley Library (completed 1967) is universally acknowledged to be one of the finest modern buildings in the country. In 2010, the Long Room Hub, designed by McCullough Mulvin Architects, was established in its setting as the research institute for the Arts and Humanities.

Front Square, extending from the West Front to the Rubrics, is—apart from the success of its individual buildings—the only example in the country of extensive formal planning, involving different buildings related to one another along axes and cross-axes, where they, with planned focal points and the spaces between them, are composed and managed to scenic effect. This is the architecture of Greenwich Hospital or of the Place de la Concorde. This is the only 18th-century example in Ireland of such Beaux Arts planning.

Passing from the spaciousness of College Green through the strategic constriction of Front Gate, the view ahead is suddenly formal and suggestive, and is partly screened by the advance to right and left of the Examination Hall and Chapel (both by William Chambers, 1777– and 1787–). Straight ahead is the focal point of the Campanile (Charles Lanyon, 1852–), beyond which is the dominant symmetry of the immense Oregon maples (Acer macrophyllum, planted probably before 1850) set in front of the Rubrics (probably Thomas Burgh, c. 1700).

This glorious mise-en-scène is only partly due to conscious planning: numbers 1–10 and the West Front were intended to form three sides of a square (Parliament Square) to be closed by a range of building on the line joining the present Chapel and Examination Hall. Chambers’s Chapel and Examination Hall put paid to an enclosed Parliament Square. The Provost’s House (1759–), a neo-Palladian residence, and a Dining Hall (1760–65) soon followed the completion of Parliament Square.
And Library Square was, until the 1830s, enclosed by a range like the Rubrics along the line of the present Campanile. It was the London architect Decimus Burton who suggested the opening of Library Square to the rest of Front Square. And thus one of the very finest academic squares, or quads, or courts, came into being, the happy joint creation of design and chance. The success of this decision rested on the fact that the immense scale of the Old Library (excessive for its early 18th-century neighbours) was adequate to hold its own in the newly opened-up square.

And the architects of all this?

In the 18th century the College missed the chance of employing the two most distinguished architects resident in Ireland, Edward Lovett Pearce and James Gandon. But they managed to attract William Chambers for the Examination Hall and Chapel, at least until he was tempted to abandon Trinity in favour of the commission to build Somerset House in London. Richard Castle, the German architect of Russborough and Powerscourt, built the Printing House (1734), and a Bell Tower which did not survive the century. He built, too, a Dining Hall (1741–) but all that survives of this is probably the basement Buttery of the present Dining Hall (Hugh Darley, c. 1760–65). Theodore Jacobsen, architect of the West Front—for which he wanted an octagonal dome over Front Gate—was an amateur architect recommended, perhaps, by his design of the Foundling Hospital in London. And he seems to have given the design free of charge.

The most distinguished Irish architect to be employed in the 19th century was Benjamin Woodward, a partner in the firm of Deane and Woodward. Woodward died young, but the Deane family maintained a connection with the College as late as the Hall of Honour and 1937 Reading Room by Thomas Manly Deane. Another knighted architect of the establishment, Thomas Drew, designed the Graduates’ Memorial Building (c. 1900), as a not entirely successful tribute to Burgh’s Old Library on the other side of Library Square.

The College, in other words, has over the centuries chosen architects of varying accomplishment: some brilliant, some recommended by personal contact, some dull enough, some radical, some conventional. Many of these have battled with the task of designing their buildings to sit happily beside great traditional architecture. The most successful ones were not overawed into pastiche.

There has been nothing straightforward about the evolution of the architecture of Trinity. Parliament Square, like Library Square, was designed to be enclosed; the West Front was to be domed; the Wellington Testimonial was to go up in the College Park (an idea soon scotched, to be replaced c. 1840 by the proposal to run a viaduct across what is now the rugby and cricket pitches); Lanyon’s Campanile was to be part of an arcade along the west side of Library Square; the architects McCurdy and Mitchell wanted to replace the Rubrics by a neo-renaissance block of residences; the Dining Hall was destroyed by fire in 1984 (but of course rebuilt with the help of de Blacam and Meagher Architects); Paul Koralek’s successful design in the competition for the Berkeley Library was only one of 218 entries. Many a plan has been made, considered and abandoned.

In this, the College shares the kind of evolutionary history of the city to which it owes—and contributes—so much.

Calendar 2017-18

N1
The Library of Trinity College Dublin

The Library’s history dates back to the establishment of the College in 1592. Today it has six million printed volumes with extensive collections of journals, more than half a million maps and very large collections of manuscripts and music reflecting over four hundred years of academic development. More recently, it has established a collection of over 80,000 electronic journals and over 350,000 electronic books. It is the largest library in Ireland and has been a legal deposit library for Ireland and the United Kingdom since 1801. The Library continues to add to its collections through purchases, private donations, acquisitions and as a library of legal deposit.

The Library serves the needs of the College’s teaching, learning and research activities of the undergraduate and postgraduate students and of the academic staff. It is a research library of international repute, making available much rare material to scholars from all parts of the world; and in addition it provides an information service to government departments, to research organisations and to technical, industrial and commercial bodies within Ireland. The Library’s Digital Resources and Imaging Service is making many of Trinity’s unique materials available to scholars in digital format through an ongoing programme.

Six of the Library’s buildings are located on the College campus. The Old Library, completed in 1732, now contains the Department of Manuscripts, the Department of Early Printed Books and Special Collections, the Long Room, The Colonnades and the Treasury. The Berkeley (1967), Lecky (1978) and James Ussher (2002) Libraries form a linked complex of buildings which functions as a single library housing collections in arts, social sciences, business studies, law, nursing, geography and geology. It also contains the Glucksman Map Library and Conservation Department, the Library’s main service and administrative areas and a closed access bookstack. The Hamilton Library (1992) houses collections in science, engineering and systems sciences and health sciences. The 1937 Reading Room serves as a study centre for postgraduate students and the Stearne Medical Library is at St James’s Hospital. Less heavily used material is stored in a book repository at Santry.

The Library’s online catalogues give access to all the modern collections and the majority of the historical collections. Catalogues covering manuscripts collections and digital archives are in development and cover much material. All the Library’s catalogues and further information on services and facilities are available from the Library home page at http://www.tcd.ie/Library/.

Admission of readers

Members of the College staff and students of the College may be admitted to the Library on production of a current College Identity Card.

Holders of an ALCID card may apply for a visiting reader card on production of a current Identity Card from their home institution.

Other persons engaged in study or research may be admitted as readers, with the approval of the Librarian, who shall also determine the period for which their admission shall be valid.

All readers are required to observe the terms of the Library declaration and the other Library regulations as set out under the Calendar, PART II - GENERAL REGULATIONS AND INFORMATION.

---

1 The privilege was first given in the year 1801 (41 Geo. III, c. 107). The latest act for British books is of the year 2003 Legal Deposit Libraries Act (2003, c. 28). By the Industrial and Commercial Property (Protection) Act of the Irish Free State 1927, the copyright privilege of the Library was continued in respect of books published in Ireland. It is continued under the terms of the Copyright and Related Rights Acts, 2000 and 2004.

2 The ALCID scheme (Academic Libraries Co-operating in Ireland) provides library cards for postgraduate students and staff members of fourteen academic institutions in Ireland.
The Library of Trinity College Dublin

Hours of opening — reading rooms

The opening hours of the Library’s reading rooms are available on the Library’s website at: http://www.tcd.ie/Library/.

Generally, during term, the reading rooms are open Monday to Friday, 9 a.m. to 10 p.m. and Saturday mornings with some extensions for student access at weekends.

Out of term, the reading rooms close at 5 p.m. and are entirely closed on public and other holidays.

Opening hours and service levels are subject to ongoing review and details are maintained on the Library’s website.

Kinsella Hall in the Ussher Library has swipe card access for all Trinity students when the Library is closed.

The 1937 Postgraduate Reading Room is available by swipe card access for postgraduate students.

The Old Library — admission of members of the public

The areas of the Old Library which are open to the public are the Treasury, where the Book of Kells and other manuscripts are displayed; The Colonnades, a gallery for temporary exhibitions; the Long Room, and the Library Shop. There is a charge for admission to areas other than the Shop. The Old Library is open to the public as follows:

- Mondays to Saturdays 9.30 a.m. – 5 p.m.
- Sundays (October to April) 12 noon – 4.30 p.m.
- Sundays (May to September) 9.30 a.m. – 4.30 p.m.

Opening hours on public and other holidays are given on the Library’s website.

Donations

The Librarian is indebted to the many governments, international agencies, universities, libraries, firms, societies, private persons in various parts of the world, and to members of the College staff who have presented material during the year.

TRINITY CLOSET PRESS

Trinity Closet Press is a hand press run by members of the Library’s Department of Early Printed Books. It was founded in 1973 as a teaching tool to give students and staff first-hand experience of book production methods in the hand-press period. It provides practical work for M.Phil. students in early modern history and in textual and visual studies. Among its other activities it organizes an annual workshop in the book arts, which have included demonstrations of printing, engraving, bookbinding, typefounding and paper decoration. The Press is housed in the basement of the Printing House.

FRIENDS OF THE LIBRARY* 3

Chair. Peter Costello, B.A.

Hon. Secretary. Elizabeth Louise Fleeton

Hon. Treasurer. Bryan O’Sullivan, B.COMM., F.C.A.

The society known as the Friends of the Library was founded in 1945 to promote an interest in the general welfare of the Library and to provide an income for the purchase of books and manuscripts. The annual programme of the society includes lectures, meetings and a summer outing. The Friends also sponsor exhibitions in the Library and the society publishes Long Room, a journal of general and bibliographical interest. The minimum subscription is €30 per annum. Gifts and bequests of appropriate books or manuscripts are welcomed by the society.

II REGULATIONS GOVERNING THE AWARD OF DEGREES

Bachelors

Bachelor in Arts and other Bachelor degrees

1 See TWO-SUBJECT MODERATORSHIP COURSES AND HONOR COURSES.

2 In the majority of undergraduate degree courses, students who have passed the Junior Sophister year may have the ordinary degree of B.A. conferred if they do not proceed to the Senior Sophister year or if they do not pass the Senior Sophister year/final degree assessments. Except by special permission of the University Council, on the recommendation of the court of examiners, the ordinary degree of B.A. may normally be conferred only on candidates who have spent at least three years in the University. In the case of advanced entry into the Senior Fresh or Junior Sophister year of a student's degree course, the degree of ordinary B.A. may be conferred only on candidates who have spent at least two years in the University subject always to the successful completion of the Junior Sophister year. See individual course entries and faculty regulations for further information. In addition, specific requirements are laid down for students of engineering, dental science and medicine with respect to the conferral of the ordinary degree of B.A.

3 B.D. Candidates for the degree of Bachelor in Divinity must be graduates of the University of Dublin, or of a recognised university. (See PART III OF THE CALENDAR — GRADUATE STUDIES AND HIGHER DEGREES.)

Master in Arts

4 Bachelors of the University of at least three years’ standing may be conferred with a Master in Arts (i.e. an M.A. (Dubl)). This is a title of academic rank and not an examined academic qualification. In the University of Dublin, Masters-level courses of study or research in the Faculty of Arts, Humanities and Social Sciences lead to the award of an M.Litt. or M.Phil., not an M.A.; there are many other Masters-level degrees in each Faculty; and they are all set out in PART III of the Calendar — GRADUATE STUDIES AND HIGHER DEGREES. However, none is styled an M.A. In other words, the M.A. (Dubl) is nominal and unexamined, and it is not an academic qualification in the sense that an M.Litt. or an M.Phil. is.

The M.A. (Dubl) has the same functions and status as an M.A. (Oxon.) or an M.A. (Cantab.), and in none of these functions is it an academic qualification. In Oxford, in Cambridge and in Trinity, there were previously many privileges associated with M.A. status as opposed to B.A. status. For example, in medieval times, the M.A. constituted a licence to teach in the university, and it was awarded to those graduates who had remained on for several years for this purpose. The most important remaining consequences are listed below:

I. It is a basis on which the recipient becomes a member of the Senate of the University. The Senate has a role in formal University decision-making, so membership allows graduates to have some influence on University business.

   Since the degree can be obtained only after three years have passed since the conferral of the B.A., it indicates seniority on the part of the recipient.

II. It is an indicator of academic rank and precedence in academic institutions on formal occasions: it defines the academic regalia which the recipient wears on such occasions, and the role (if any) which the recipient can or must play.
Degrees and diplomas

III. As the B.A. is incorporated into the M.A., the formal effect of the M.A. is to supersede the B.A. Hence, a recipient should be styled Joe Bloggs, M.A. (Dubl.), rather than Joe Bloggs, B.A. (Mod.) (Dubl.). However, a recipient should not be styled Joe Bloggs, B.A. (Mod.) (Dubl.), M.A. (Dubl.).

On an historical note, the award of M.A. as an exclusively academic qualification seems always to have been the practice in universities in the USA; but, on this side of the Atlantic, the M.A. was first introduced as a formal academic qualification in the nineteenth century by the University of London. Universities founded thereafter followed the London nomenclature. This was the practice adopted when the various colleges which became the National University of Ireland (N.U.I.) were founded in the mid-1800s. Hence, what are called M.Litt.s and M.Phil.s in Trinity are called M.A.s in the N.U.I. (University College Dublin (U.C.D.), University College Cork (U.C.C.), etc). This has become the standard practice, with the result that the Oxford/Cambridge/Trinity model is now less common, sometimes leading to erroneous assumptions about the nature of the M.A. (Dubl.).

Finally, the M.A. (Dubl.) may also be awarded in special cases, such as honoris causa, jure officii, and ad eundem gradum (see §5,7,11).

Candidates wishing to be conferred with M.A. (Dubl.) must give notice on the prescribed form which is available from the Academic Registry. The form must be returned so as to reach that office not later than the specified closing date for a Commencements session. The fee for the M.A. is €637\(^1\) and should be paid to the Academic Registry. The fee is waived in the case of eligible staff and graduates of fifty or more years’ standing.

Degrees awarded in special cases

Degrees honoris causa

5 A meeting of the Senate for the consideration of names proposed for honorary degrees is held in Michaelmas term. Attention is called to this meeting a week before by a notice at the front gate of the College and by post to members of the Senate who have requested notification.

Degrees jure dignitatis

6 Subject to such regulations as may from time to time be made by the Board, with the approval of the Senate, the Board may, at its discretion, at any time submit to the Senate a grace for conferring a doctorate in divinity or laws, jure dignitatis, upon any graduate of the University who has been appointed to such public position as may seem to the Board sufficiently distinguished; provided always that every such grace must receive the approval of not less than two-thirds of the members of the Board present when it is proposed. After admission to the said degree jure dignitatis the person admitted is eligible for membership of the Senate on fulfilling the prescribed conditions.

Degrees jure officii

7 The Board may submit to the Senate a grace for conferring, jure officii, the degree of Master in Arts upon permanent full-time members of staff of the University or College, on the following conditions:

(a) graces for admission of Fellows, Professors and holders of the offices of Secretary, Treasurer, Librarian and Chief Operating Officer may be proposed at a meeting after their admission to office;
(b) graces for admission of other members of the academic staff of at least the status of Assistant Professor serving in the College for a period of not less than three years including full-time service prior to obtaining permanency may be proposed at a meeting after they have achieved this service to College;
(c) graces for admission of staff on administrative officer grades who have given notable service

\(^1\)Fee is currently under review.
for a period of not less than ten years including full-time service prior to obtaining permanency may be proposed at a meeting after they have achieved this service to College;

(d) graces for admission of Chief Technical Officers, Chief Medical Scientists, and Senior Experimental Officers who have given notable service for a period of not less than ten years including full-time service prior to obtaining permanency may be proposed at a meeting after they have achieved this service to College; and

(e) graces for admission of members of staff who do not come within sub-sections (a) to (d) who have not less than thirty-five years’ employment with the College may be proposed at a meeting after they have achieved this notable service to College.

8 The Board may submit to the Senate a grace for conferring, jure officii, the degree of Master in Arts upon permanent, part-time members of the staff of the University or College who had previously come within the terms of §7 (to ensure that long-serving members of the staff who for family or similar reasons opt to work on a permanent, part-time basis are not, by doing so, rendered ineligible for the degree of Master in Arts, jure officii).

9 The Board may submit to the Senate a grace for conferring, jure officii, the degree of Master in Arts upon members of staff of the University or College, on the conditions stated in §§7 and 8, notwithstanding that they are not permanent members of staff of the University or College, provided that they hold either a full-time contract of at least three years’ duration as an officer specified in the Chapters and Schedules of the Statutes, or a contract of indefinite duration.

10 The Board may submit to the Senate a grace for conferring, jure officii, the degree of Master in Arts upon permanent full-time members of staff of any academic institution, where work in the said institution is accepted in part fulfilment of the requirements for a degree in any faculty in the College, on the following conditions:

(a) graces for admission of Professors may be proposed at a meeting after their appointment to the said institution; and

(b) graces for admission of other members of the academic staff of at least the status of lecturer serving in the said institution for a period of not less than three years may be proposed at a meeting after they have achieved this service to the said institution.

Degrees ad eundem gradu

11 Graduates of the Universities of Oxford and Cambridge are eligible to apply for corresponding degrees of this University ad eundem gradum. The Board has ruled that only persons who either

(a) wish to register for a higher degree at this University, or

(b) are members of the academic staff

will be considered, and that no degree will be awarded above the standing of M.A.

12 Applications are referred to the Board for consideration. They should be made to the Senior Proctor, to whom the necessary certificates of graduation must be submitted, with a College testimonial as to character, and a statement of the reasons why the degree is sought.

13 The fees payable are €1,204 for all bachelors’ degrees. All fees are paid to the Treasurer/Chief Financial Officer.

14 Candidates who have paid the fee for a degree ad eundem may present themselves for the examination for a higher degree before the ad eundem degree has been conferred, on payment of the regular examination fee; and, if they are successful, the higher and lower degrees may be conferred at the same Commencements.

15 For the purpose of ascertaining the date at which a higher degree may be taken, candidates are reckoned as having taken the lower degree ad eundem on the date at which they obtained the corresponding degree at their own university.
Degrees and diplomas

*Degrees post obitum intermepstivum*

16 Subject to regulations made in this respect by Board, Board may submit to the Senate a grace for conferring a degree *post obitum intermepstivum* upon a recently deceased student, who had successfully completed all required examinations and all required course work for a degree and was a candidate for that degree, but whose untimely death preceded the relevant Commencements ceremony.

*Degrees in absentia*

17 Students of the University may be allowed, although not presenting themselves personally at Commencements, to proceed to their degree upon the following conditions:

(a) the academic qualifications required for degrees to be conferred *in absentia* are the same as those required for degrees conferred in person;

(b) the requirement as to fitness of character is also the same as that required for degrees conferred in person, i.e. that before passing any grace for a degree *in absentia* the Board shall require such evidence as it may deem necessary to secure that no unworthy candidate is presented to the Senate;

(c) subject to the foregoing, the Board may, in special cases, pass a grace for a degree *in absentia* (i) for any candidate resident outside Ireland, or (ii) for any candidate resident within Ireland, who submits reasons for non-attendance in person which seem to the Senior Proctor to be sufficiently urgent. All requests should be submitted with the completed notice of candidature form by the specified closing date for a Commencements session.

*Degrees aegrotat*

18 Please see 2010 Consolidated Statutes of Trinity College Dublin and the University of Dublin (Chapter on the University section 3(3)(b)). Regulations are set out in the Calendar, (see GENERAL REGULATIONS AND INFORMATION).

*Degrees propter aliam causam*

19 Please see 2010 Consolidated Statutes of Trinity College Dublin and the University of Dublin (Chapter on the University section 3(3)(d)).

**III CONFERRING OF DEGREES**

*General procedure at Commencements*

1 Degrees are publicly conferred under the student’s registered name, within degree class, by the Chancellor, or a Pro-Chancellor, in the Senate or Congregation of the University, at the ceremony known as Commencements.

2 Candidates for a particular Commencements must give notice on the prescribed form which is issued to the undergraduate graduating class by e-mail and is also available for download at https://www.tcd.ie/academicregistry/graduation/application/. The form must be returned so as to reach the Academic Registry not later than the specified closing date for a Commencements session. A Commencements fee of €135 is payable by all undergraduate students registering on degree courses in their Junior Sophister or third year, and in the first year for all postgraduate students. Eligible graduands for whom the Commencements fee is outstanding must pay in full at the time of application for conferral. Conditional notice may be lodged at any time but must be confirmed fourteen days prior to the ceremony. Primary degree results must be published at least fourteen days prior to the first date of the Commencements ceremonies. Since the 2012-13 academic year the Commencements fee is charged as a once-off payment to be levied at the same time as the tuition fee. The Commencements fee is fully refundable to all students who become ineligible to proceed with conferral.

---

2Please note that this process is currently being reviewed and subject to change; please refer to the Academic Registry website for updates: https://www.tcd.ie/academicregistry/graduation.
Degrees and diplomas

Senior Sophisters and other final year students who have passed their final examinations are required to return all books to the Library within one month following their examinations. The Library will return records of books and fines outstanding to the Academic Registry, for the purpose of alerting students to their obligation to clear their Library records so that they may proceed to Commencements.

3 The grace for a degree in any faculty, having first been sanctioned by the Board, must be approved by the Senate of the University. Any member of the Caput may veto any proposed grace for a degree. The Proctors, in a prescribed form of words, supplicate the Senate for their public grace for the degrees to be conferred. If the placets are in the majority the candidates for degrees are presented by a professor of the faculty in which the degree is to be taken, or by one of the Proctors; they then advance in order before the Chancellor, who confers the degree according to a formula fixed by the University Statutes, after which the candidates subscribe their names in the Register. Except in special cases (see section II, §17 above) candidates for degrees must appear at Commencements and have the degrees for which they are qualified publicly conferred on them.

Detailed procedure at Commencements

4 The Chancellor announces the opening of the Comitia. At the Autumn Commencements the Senior Master Non-Regent is elected on the proposition of the Chancellor and the Provost; and the two Proctors and Registrar make the statutory affirmation, if they have not already done so.

5 The Junior Proctor supplicates for the degree of Bachelor in Arts. The Senior Proctor supplicates for the other ordinary degrees.

6 The Senior Lecturer introduces the moderators to the Chancellor. They are then presented for their degrees by the Junior Proctor. The Chancellor hands them their medals and/or certificates and admits them. The Senior Lecturer then introduces the Respondents who are in turn presented by the Junior Proctor and admitted by the Chancellor.

7 Candidates for degrees with honors and for ordinary degrees are presented by name, within degree class, and admitted. Candidates are presented by the Proctors or by the professors of their respective faculties. In presenting the candidates the following order is observed:

8 Candidates for honorary degrees are presented by the Public Orator, and admitted.

9 The prescribed dress for men (military excepted) is dinner jacket, white shirt, black or white bow tie. Women (military excepted) candidates wear black, or white, or a combination of both. All candidates must wear the hood and gown of the degree they are qualified to receive (see above); where an edging of a different colour from the lining is not prescribed, the hood is edged with the same colour as the lining, the material is silk unless otherwise specified; the wearing of caps is optional. Casual attire, jeans, trainers, etc. are not permitted.

Please note that candidates who do not comply with the above dress code may be denied permission to proceed with conferral on the day.

Candidates for bachelors’ and masters’ degrees take their seats in the Public Theatre at the same time.

Full details of the Commencements schedule are available at the following link: [http://www.tcd.ie/academicregistry/graduation/application/](http://www.tcd.ie/academicregistry/graduation/application/).

**IV FEES**

1 There is a Commencements fee of €135.

2 No grace for a degree is presented to the Senate unless candidates have paid all amounts due by them to the College and have given notice in accordance with section III, §2.

3 Testimoniums of degrees are presented to candidates for degrees at Commencements, and are sent as soon as possible after Commencements to candidates who have received degrees in absentia.

Application for a duplicate degree certificate may be made to the Academic Registry and should be accompanied by a fee of €105.

A duplicate degree certificate may be issued provided applicants declare in writing that to the best of their belief their original certificate has been destroyed, or has been lost for more than twelve months, or (the degree having been conferred in absentia) did not reach them through the post; and that if the original certificate is found they will return the duplicate to the Academic Registry.

3 A certificate and diploma graduation fee of €75 is payable by all students in their first year of study registering on certificate or diploma courses.

4 Application for a duplicate diploma certificate may be made to the Registrar and should be accompanied by a fee of €105.

   A duplicate diploma certificate may be issued provided applicants declare in writing that to the best of their belief their original certificate has been destroyed, or has been lost for more than twelve months, or (the diploma having been awarded in absentia) did not reach them through the post; and that if the original certificate is found they will return the duplicate to the Registrar.

5 Academic dress for the award of diplomas is as follows:

   Undergraduate diplomates: undergraduate gown with a blue epitogue
Student Services

DEAN OF STUDENTS

The overall experience of students at Trinity is based on a mixture of the academic programmes, student led activities, and the student services. The role of the Dean of Students is primarily to develop policies and initiatives that integrate the co-curricular and extra-curricular activities with the academic programme in order to provide a well rounded and balanced student experience. Thus the Dean is, inter alia, Chair of the Student Life Committee, one of the main functions of which is to consider how the student experience should develop in the future. Members include representatives of student unions, societies, sports clubs as well the library, academic registry and student services (including in alphabetical order: careers, chaplaincy, counselling, day nursery, disability, health, postgraduate advisory service, sport, student learning development and tutorial services).

CAREERS ADVISORY SERVICE

In 1902 a University Appointments Association was formed to assist students and graduates of the University to obtain appointments and employment at home and abroad.

In 1953 the work was transferred to the Appointments Office, under the control of an executive committee and a full-time appointments staff.

In 1971 the title was changed to Careers and Appointments Service with a further change in title in 1995 to Careers Advisory Service.

The Careers Advisory Service is Trinity College’s central unit with responsibility for assisting students to identify and put into action their career plans using a wide variety of activities, services and resources. Our core function is to provide careers education, information, advice and guidance to students and graduates to enable them to connect with employers or postgraduate programme providers. As an integral part of Trinity Teaching and Learning we continuously strive to enhance the quality and scope of our activities to connect ‘Trinity Talent’ to national and international enterprises. By ensuring that our graduates remain a key resource in attracting and retaining foreign direct investment we contribute to Ireland’s economic and social development.

Our vision is to be the natural choice for careers education, information, advice and guidance and for facilitating student and graduate recruitment to our key stakeholders (students, alumni, employers and academic staff).

This vision is achieved through the provision of specific services including: individual advice, aptitude, personality and interest testing, skills workshops, CV/LinkedIn clinics, practice interviews on video, computerised vocational guidance, the use of social networking tools and the publication of vacancies at the Careers Service website (www.tcd.ie/careers/).

It is important that undergraduates should make contact with the Service early in the first term in their final year in College. Much recruitment of prospective graduates takes place early in the academic year and the closing date for application for some postgraduate awards is as early as November in the year before graduation.

The Service operates all the year round including limited opening during the summer vacation. The pressure on the individual advice service during the period from October to March inclusive is severe so people who make contact outside that period help to reduce waiting times.

Regulations

Any past or present member of the College may register, subject to the following regulations:

1. Individuals must register at the My Career section of the website (www.tcd.ie/careers/).
Student services

There is no registration fee for undergraduates, graduates or postgraduates. However nominal charges may be made for specific services and details of these are available from the receptionist.

CHAPLAINCY

The chaplains are representatives of the main Christian churches in Ireland who work together as a team, sharing both the College Chapel and the Chaplaincy in House 27. The Chaplaincy is a place of welcome and hospitality for all members of the university community. It assists students and staff in any way that they can, always providing a friendly listening ear. To those who seek it, the Chaplaincy offers pastoral guidance and spiritual accompaniment through a programme of faith development, seminars, discussion, prayer groups and pilgrimages organised each term. The Chaplaincy promotes a deeper understanding of Christian faith and spirituality, and promotes compassionate care for all staff and students of all faiths and none.

Traditional worship in various traditions is carried in the chapel on a regular basis, and contemporary worship and discussion events also take place around the campus. Several key ecumenical events take place every year, and the chaplaincy provides a haven for students every day providing free tea, coffee and biscuits – every Tuesday during term there is also a free student lunch.

DAY NURSERY

Established in 1969, the Day Nursery was the first on-site workplace nursery in Ireland. It is a recognised College service, catering for the children of College students and staff. It takes care of children from 3 months to 4½ years of age in five rooms.

The fees for the Day Nursery are €145 per week for students and €223 per week for staff. There is also a sibling rate for two children, €262.50 for students and €404 for staff.

Funding Programmes a parent might qualify for

1 ECCE – Early Childhood Care and Education scheme, also known as the free preschool year. The parent is entitled to 38 weeks of part-time childcare for free, usually 3.5 hours a day. In the Day Nursery, as it is generally a full time service, we apply a €62.50 reduction in fees for 38 pre-approved weeks. This results in the student paying €82.50 per week for 38 weeks and €145 per week for the remaining weeks. For staff this is €160.50 for 38 weeks, for the remaining weeks the fee is €223 per week. For more information follow this link: http://www.dcy.gov.ie/viewdoc.asp?fn=%2Fdocuments%2FECCE-Scheme%2FIntro.htm&mn=chit&nID=2.

2 CCS – Community Childcare Subvention scheme. This funding is based on the social welfare benefits that the parent/parents are in receipt of. Depending on the band they fall under a parent can receive €50 reduction in the weekly fee over the space of 51 weeks or parents can receive €95 reduction in their childcare fees over the space of 51 weeks. Normally student parents are the main benefactor to this funding as staff parents do not receive enough of the social welfare benefits. See: http://www.dcy.gov.ie/viewdoc.asp?fn=%2Fdocuments%2Fchildcare%2FFCCSDocsJune2012%2FCCSMainPage.htm&mn=chit&nID=3.

3 CETS – Childcare Education and Training Support. This scheme is available to those who are engaged in FAS or VEC training programmes. Parents who qualify for this funding are eligible to a reduction of €145 per week. Further information is available at the following link http://www.dcy.gov.ie/viewdoc.asp?fn=/documents/ecce-scheme/20140903guidetoTECProg.htm#6.

The Day Nursery is situated in House 49/50, basement level. Further information can be obtained from the Manager (tel. 896 2277).

DEPARTMENT OF SPORT AND RECREATION

The Department of Sport and Recreation was established in 2000, a year following the appointment of the first ever Director of Sport. ‘Trinity Sport’ is the shared identity of the Department of Sport and Recreation and the Dublin University Central Athletic Club (D.U.C.A.C). Trinity Sport’s mission is to provide a first class sporting, participation, performance, administration and leadership experience for students, staff, graduates and partners; creating the most engaged communities internally and externally. Links and collaborations exist with other College services to maximise the contribution sport can make to the entire College community. Trinity Sport provides top class sporting facilities, programmes and services to students, staff, graduates, members of the public, and communities. Trinity College Dublin has a proud sporting tradition and the impressive portfolio of sporting facilities at the university includes indoor and outdoor provision as follows:

Sports centre opened in 2007 and outdoor main campus facilities comprising:
Main and ancillary sports hall
Climbing wall
Fitness theatre and studio, wellness studio, spinning studio, high performance gym
Swimming pool (25m x 6 lanes) with adjustable floor and deck level steam room and sauna
Orthopaedics and sports medicine clinic and treatment rooms (massage, physiotherapy etc.)
Board room (for meetings and seminars)
Synthetic tennis courts / futsal pitch (on campus)
Natural grass floodlit rugby pitch (on campus)
Swimming pool (25m x 6 lanes) with adjustable floor and deck level steam room and sauna
Orthopaedics and sports medicine clinic and treatment rooms (massage, physiotherapy etc.)
Board room (for meetings and seminars)
Synthetic tennis courts / futsal pitch (on campus)
Natural grass floodlit rugby pitch (on campus)
Camping pitch and athletics (summer) – soccer and hockey (winter)

Santry sports grounds
Located on Santry Avenue, the main outdoor sports facility is approximately 5km from the campus and provides five natural grass pitches for soccer, rugby, GAA (with small viewing terrace), ultimate frisbee and american football, one floodlit water based pitch for hockey, changing rooms, and function room facilities.

Islandbridge boathouse
Situated two miles upstream from the campus, Islandbridge is home to the men’s and ladies’ boat clubs. As well as a training base for crews, the boathouse hosts the annual Trinity Regatta that involves crews from all over Ireland and dates back to 1898, with storage, a dining hall, and function area.

There are almost fifty sports clubs in Trinity, including hockey, soccer, swimming, rugby, basketball, volleyball, tennis, rowing, gaelic games, cricket, and martial arts, among others. The sports clubs’ governing body is known as Dublin University Central Athletic Club (D.U.C.A.C.) and information on the sports clubs may be obtained at http://www.tcd.ie/Sport/student-sport/clubs/.

Trinity Sport provides a high performance programme for focus sports and sport scholarships to assist talented students and clubs to achieve sporting excellence alongside academic success. Trinity Sport also places a key focus on the recreational sporting opportunities available to students, as fundamental to the health and well-being of the campus community. Trinity Sport also engages widely with the general public and local community.

DISABILITY SERVICE

The Disability Service was formally established in 2000. It provides supports and services to College students and staff with disabilities. The ethos of the Disability Service is to move from a transactional model of provision - where students are passive recipients of supports - to a transformational model of resource usage, where students take an active part in planning their educational journey.

Calendar 2017-18
Student services

Students with a disability are encouraged to register with the Disability Service to seek supports where the disability could affect their ability to participate fully in all aspects of the course, including clinical and professional placements.

College is committed to a policy of equal opportunity in education and to ensuring that students with a disability have as complete and equitable access to all facets of College life as can reasonably be provided. College has adopted a code of practice which is applicable to all students with disabilities studying in College. This is in accordance with the Disability Act 2005, the Equal Status Act, 2000 (as amended) and the Universities Act, 1997.

The Disability Service is available throughout the year to all registered students of the College, Monday through Friday.

HEALTH SERVICE

The Health Service is available to all registered students throughout the year, Monday to Friday. Sessions, attended by one of the medical officers, are held daily and appointments should be made with the secretary on 01 896 1591/1556. The psychiatrist is also in attendance for a number of sessions each week and will see students referred by one of the medical officers or student counsellors. The physiotherapist is in attendance throughout the year in the Physiotherapy Department, situated beside the Health Service on the ground floor of House 52.

Emergency cover

Outside office hours in cases of emergencies students should contact DUBDOC, weekdays 6 p.m. – 10 p.m., weekends and bank holidays 10 a.m. – 7 p.m. The telephone number for this service is 01 4545607. The service is based in St James’s Hospital. The DUBDOC triage nurse will give telephone advice, arrange a house call or offer emergency consultation with a GP on duty in St James’s Hospital. Students (with the exception of non-Irish E.U. students with medical card eligibility or students with medical cards) will be responsible for any fees incurred for consultation or home visit. Outside these hours please telephone Mediserve Homecare Ltd. 01 453 9333, who will send a doctor on request. Students (with the exception of medical card holders) will be responsible for any fees incurred for home visits.

Hospital treatment

Hospital treatment is supplied under the Hospital Services Scheme. The student will be responsible for any charges and fees incurred as a public or private patient while in hospital.

Certificates

Medical certificates will only be issued following consultation at the Health Service for those students with symptoms who have been certified for an absence of four or more days. All medical information is confidential and will not be disclosed without the student’s permission.

Overseas students

All U.K. and E.U. students who are entitled to health benefits under E.U. legislation are requested to present their National Health Service card or European Health card on each visit to the Health Service. Overseas students not eligible for health benefits under E.U. regulations are required to take out private medical insurance in order to cover medical costs which they may incur during their period of study here.

Charges

Attendance at the Health Service is available free to full-time registered students. There are charges to cover the costs for vaccinations, cryotherapy, pregnancy tests, emergency contraception and blood tests. Staff members are facilitated normally by appointment for a GP consultation fee of €45. With regard to physiotherapy, there is a charge of €20 per visit for students and €40 for staff.

The Health Service is not responsible for medical attention not sanctioned by one of its medical officers.
POSTGRADUATE ADVISORY SERVICE

The Postgraduate Advisory Service is a unique and confidential service available to all registered postgraduate students at Trinity College Dublin. It offers a comprehensive range of academic, pastoral, and professional supports dedicated to enhancing the student experience. Confidential meetings with the dedicated student support officer are available by appointment.

The postgraduate student support officer provides ‘frontline’ support for all postgraduate students at Trinity College Dublin. S/he acts as a first point of contact and a source of support and guidance, both on arrival in College and during the student’s stay. The service provides support in supervision, appeals, discipline, withdrawals, and financial assistance.

In addition to the dedicated postgraduate student support officer, each faculty has three members of their academic staff, with substantive experience of research supervision, designated to provide local support to the postgraduate students for whom the faculty is responsible.

TRINITY STUDENT COUNSELLING, LEARNING DEVELOPMENT AND STUDENT 2 STUDENT SERVICES

The purpose of the Trinity Student Counselling, Learning Development and Student 2 Student Services, is to empower students to develop personal, interpersonal and academic skills necessary for University and life after graduation. The services work together and collaborate with other schools and services in support of the University’s strategic plan, to assist students in their transitions, progression and development of graduate skills and attributes, to enhance their Trinity experience.

STUDENT COUNSELLING SERVICE

The Counselling Service works proactively and collaboratively within the University to promote positive student mental health, wellbeing and resilience, supporting students with their academic, personal and continuing professional development.

The Counselling Service is available throughout the year, free of charge to all registered students of the College. The service aims to provide an initial assessment appointment within two weeks of request. Students are then referred depending on need to one or more of the following options: wellbeing workshops and outreach activities, online programmes, mindfulness training, therapeutic groups, confidential professional counselling, or referred to an appropriate external agency. Emergency or crisis intervention appointments are provided on a daily basis. Counselling appointments are normally limited to eight sessions per academic year and can be made by calling in person or by telephoning (01) 896 1407. Opening hours are 9am–5.30pm except Fridays when the service closes at 5pm, and Tuesdays and Wednesdays when it is open during term time until 8pm. The service also operates in Trinity Hall during term time. The service is staffed by professional accredited counselling or clinical psychologists and psychotherapists, interns, assistant psychologists and trainees who adhere to a code of ethics and confidentiality.

Consultation, advice and training is provided for tutors, wardens and other members of staff to assist and support them in their role of caring for students. Additional training may be organised for schools or services on request.

The provision of services is governed by available resources as well as regulations and policies, including the director’s obligations concerning the exclusion of students. The service operates in adherence with a code of professional ethics.

STUDENT LEARNING DEVELOPMENT

Student Learning Development enables undergraduate and postgraduate students to develop study skills necessary to ensure successful transition, progression and career readiness. Workshops and events are delivered on a range of academic skills throughout the year, including self-management skills, study and exam skills, effective presentations, academic writing, critical thinking, successful group work and viva preparation. Generic and tailored workshops are
**Student services**

provided and available to schools on request. Drop-in clinics and one to one appointments are also available to students, along with online study skills resources accessible via Blackboard.

Student Learning Development comprises staff with specialisms in educational and occupational psychology, occupational therapy and IT in education. They are supported by a volunteer cohort of retired senior academics and collaborate with student services, academic departments and other University services, such as the Library and Careers Advisory Service.

**STUDENT 2 STUDENT**

Student 2 Student (S2S) is a student-led initiative designed to facilitate student engagement, transition and progression. It offers trained student mentors to every incoming undergraduate and visiting student at orientation, in groups who continue to support them throughout the year.

S2S also delivers the Peer Support programme – skilled one-to-one listening and support for all undergraduate and postgraduate students in Trinity College, available on request.

Approximately eight hundred S2S volunteers are trained and supported in their roles annually by staff in the S2S office, and have the option of becoming members of the S2S society. They are given further opportunities to engage in leadership and decision-making roles, facilitating the enhancement of their graduate attributes and career-ready skills. The S2S staff have a combined experience of over twenty five years in volunteer training, peer-engagement, community development and active listening and support work.

Along with Student Counselling and Student Learning Development, S2S collaborates closely with the Transition to Trinity Officer, the Senior Tutor’s Office and the Students’ and Graduate Students’ Unions to enhance Trinity’s student experience and to develop an inclusive campus community.

**TUTORIAL SERVICE**

The tutorial system in Trinity is one of the oldest structures of student support in College dating from the very beginning of the College. On entry, an undergraduate student is placed in a ‘chamber’ under the care and responsibility of a voluntary member of the academic staff, called the tutor. The tutor offers a confidential, personal relationship to advise and guide on academic progress and personal growth and also acts, as appropriate, as an advocate for the student in certain matters pertaining to College regulations and decisions. In addition, the tutor is often a useful gateway to a range of student services in College, such as counselling, the health centre, the disability service, careers office, student learning and development, and financial aid. Students will find the name and contact details of their tutor on the **student web portal**.

THE UNIVERSITY ART COLLECTIONS

Curator. Catherine Giltrap, M.A., catherine.giltrap@tcd.ie

Trinity College Dublin possesses a significant art collection acquired over a period of some three hundred years, including a distinguished collection of historic portraits and sculptures by Irish and international artists. In addition, the College holds important collections of silver spanning four centuries of the University’s history.

Actively collecting contemporary Irish and international visual art, the ‘Modern Collection’ comprises paintings, prints, photographic works and sculptures. Most major Irish artists from the 1950s onwards are represented alongside international counterparts. Works by world-renowned Irish and international sculptors also feature. For further information please consult The Modern Art Collection Trinity College Dublin compiled by David Scott (Dublin: Trinity College Dublin Press, 1989) and George Dawson: An Unbiased Eye. Modern and Contemporary Art at Trinity College Dublin since 1959 edited by Catherine Giltrap (Dublin: Associated Editions, 2010). The art collections are dispersed throughout the College, enhancing communal areas, staff offices, residential guest rooms and student rooms.

Loan scheme

The College Gallery, as it has been known since its inauguration in 1959 by the late George Dawson, Professor of Genetics, is a sub-collection of the main College art collections, featuring original paintings, drawings, and prints which may be hired annually during Michaelmas term by students and staff who have rooms and offices in College. The loan scheme was founded with a grant from the Trinity Trust and received substantial support from the Gulbenkian Foundation and the Arts Council. A number of individuals have given pictures to the scheme and many are from the collection of Professor Dawson.

BOTANIC GARDEN

Director. John Adrian Naicker Parnell, B.Sc., M.A., Ph.D.
Curator/Administrator. Stephen Waldren, B.Sc., PH.D.

The College Botanic Garden is situated on the Trinity Hall site. The purpose of the garden is to support botanical teaching and research, and the collections and facilities reflect this. There is a walled garden, arboretum, glasshouses, specialised growth facilities, and a laboratory/office complex. The garden also houses the ‘Threatened Irish Plant Genebank’, a store of deeply frozen seeds of rare plants. Several species in the living collection are not in cultivation elsewhere. Although not a public garden, the Botanic Garden welcomes visitors and groups by arrangement with the curator. Further information is available at http://www.tcd.ie/Botany/botanic-garden/.

JOHN GABRIEL BYRNE COMPUTER SCIENCE COLLECTION

Curators. Brian Coghlan, B.E., PH.D., Dan McCarthy, B.E., PH.D.

This remarkable collection is located in the School of Computer Science and Statistics. Its title is in recognition of Professor John Gabriel Byrne (1933-2016), who founded and led the Department of Computer Science during its first 40 years of rapid development, and has been called both a "genuine Renaissance Man, with a huge range of interests" and "the father of computing in Ireland, responsible, directly or indirectly, for most of the extraordinary success of the Irish software sector". Over his entire life he gathered an impressive and invaluable collection of early computing books and documents, sliderules, software, instruments and machines, which form the basis for the collection. With further donations there are now about three thousand items, see the online catalog at: https://www.scss.tcd.ie/SCSSTreasuresCatalog/.

The collection exists to further scholarly research and teaching; to arrange a visit please contact coghlan@cs.tcd.ie or mccarthy@cs.tcd.ie.

DOUGLAS HYDE GALLERY*

Chair. Linda Elizabeth Doyle, B.E., M.SC., PH.D.
Director. Georgina Jackson, B.A., PH.D.
Gallery administrator. Rachel McIntyre, B.A.

The Douglas Hyde Gallery opened in the Arts Building in 1978, and has since become one of the chief venues in Dublin for temporary exhibitions of contemporary art. It is now an independent company limited by guarantee, with a Board of Directors partly appointed by the Board of the College. The main focus of the Gallery continues to be exhibitions by significant contemporary artists, most of whom (with the exception of Irish residents) have not held one-person shows in this country before. The programme is highly considered in the international art world, having featured artists such as Marlene Dumas, Peter Doig, Luc Tuymans, Felix Gonzales-Torres, Louise Bourgeois and Alice Neel. The Gallery is also known for its publications, which are sold and distributed worldwide.

GEOLOGICAL MUSEUM

Curator. Patrick Nevill Wyse Jackson, M.A., PH.D., SC.D., H.DIP.ED.

The Geological Museum is located in Unit 24 of the Trinity Enterprise Centre, Pearse Street (http://www.tcd.ie/Geology/museum/).

The geological collections were first assembled in 1777 and now number over 200,000 specimens. The main palaeontological holdings include Irish Silurian and Carboniferous invertebrates, Mesozoic ostracods, and Upper Palaeozoic miospores, and Pleistocene mammals. The rock and mineral collections largely date from the 1820s and contain both Irish and foreign specimens. They include the important collection of minerals assembled by the Hon. George Knox, M.P. for Dublin University (1797-1807).

Currently the collections are on display in two locations: in the main gallery on Pearse Street and in the entrance hallway of the Museum Building. The former contains the exhibition The Story of the Earth that provides a general overview of the geological sciences, while the latter campus exhibition contains skeletons of the iconic Pleistocene mammal, the Giant Irish Deer, as well as some topical geological exhibits.

The geological collections are available for teaching and research, and have been utilised in developing online resources for schools and universities.

Visiting scholars, school parties, and members of the public are welcome to visit, by appointment with the curator (email: wysjcknp@tcd.ie).

TRINITY HALL

Warden. Roja Fazaeli, B.A., M.PHIL., PH.D.

In the year 1908 the house and grounds, now known as Trinity Hall, were acquired by the University. The adjoining house and grounds were purchased in 1910 by John Purser Griffith, MICE, and Mrs Griffith, and presented to the University in memory of Frederick Purser, M.A., F.T.C.D. A further five acres were acquired in 1966 when the Dublin University Botanic Garden was transferred to part of the grounds of Trinity Hall.

Trinity Hall was originally used for women students but is now a residence for all students, with some accommodation for married students and staff. Domestic matters in the Hall are the concern of the Warden, the Assistant Wardens and the Accommodation Officer (Trinity Hall).

HERBARIUM

Curator. John Adrian Naicker Parnell, B.SC., M.A., PH.D.

Though the herbarium (http://www.tcd.ie/Botany/herbarium/) and associated library houses the earliest known collections of Irish plant material (those of Caleb Threlkeld dating from ca. 1722) it was only formally established in 1840.

The herbarium’s nucleus was the personal collection of Thomas Coulter, its first curator, after whom both Bigcone Pine (Pinus coulteri) and Romneya coulteri are named. However, the herbarium is really the creation of William Henry Harvey (curator 1844–1866). Harvey was incredibly hard-working. He writes, "I rise at five a.m. or before it and work until half-past eight on the Antarctic Algae....": this led to the accumulation of 100,000 specimens. More recently the herbarium has focussed on the Flora of Europe (under D.A. Webb: curator 1950-1983) and on the Flora of Thailand (under J.A.N. Parnell: curator 1983-).

Following a grant from Lord Iveagh the existing herbarium building was added as an annex to the School of Botany in 1910. The herbarium is now of international importance and scope. It contains ca. 300,000 specimens with about 1,500 specimens being added annually. Its holdings include a large number of type specimens (those on which the original description of a species is based), the biggest international collection of plants in Ireland, one of the largest and most important collections of algae (seaweeds) in the world and core reference collections of plants from all continents on Earth. It is particularly rich in material from South-east Asia (notably A.F.G. Kerr’s from Thailand), Southern Africa, Australia, North America and Europe. It is the only herbarium in Ireland to have digitised any part of its collections: http://plants.jstor.org. The official designation of the herbarium is TCD.

SCIENCE GALLERY

Director. Lynn Scarff, B.A., M.SC.

In 2008, a car park in a forgotten corner of Dublin was transformed into a living experiment called Science Gallery at Trinity College Dublin. Through a cutting-edge programme that ignites creativity and discovery where science and art collide, Science Gallery Dublin encourages young people to learn through their interests. Since opening in 2008, over two million visitors to the gallery have experienced more than 37 unique exhibitions ranging from living art experiments to materials science and from the future of the human race to the future of play. Science Gallery Dublin develops an ever-changing programme of exhibitions and events fuelled by the expertise of scientists, researchers, students, artists, designers, inventors, creative thinkers and entrepreneurs. The focus is on providing programmes and experiences that allow visitors to participate and facilitate social connections, always providing an element of surprise. Science Gallery Dublin is kindly supported by the Wellcome Trust as founding partner, and by ‘Science Circle’ members — Deloitte, ESB, Google, ICON, NTR Foundation, and Pfizer. Science Gallery Dublin receives support from programme partners Bank of Ireland, Intel Ireland, The Ireland Funds and The Marker Hotel. It also receives government support from the Department of Arts, Heritage and Gaeltacht and Science Foundation Ireland. Science Gallery Dublin’s media partner is The Irish Times. WEINGREEN MUSEUM OF BIBLICAL ANTIQUITIES

Curator. Zuleika Rodgers, B.A., PH.D.

The museum is located in the Arts and Social Sciences Building, and received its present title in 1977 in recognition of Dr Weingreen’s efforts in the creation of the museum.

The museum consists mainly of pottery and other artefacts from the ancient near east. The collection was started in 1952 with an important gift of pottery and small objects from the Wellcome Trust, while from the year 1953 allocations were received from the Jericho and Jerusalem archaeological expeditions, to which the College had made annual contributions. Another substantial gift was received from the Wellcome Trust in 1956. A collection of Egyptian and Babylonian antiquities was added in 1957. In 1961 the late Lord Crookshank bequeathed a collection of Egyptian antiquities, Greek and Roman coins, Roman lamps, and leaves from seventeenth and eighteenth century Torah scrolls to the museum. Some pottery from excavations at Buseirah, Jordan, was added in 1977. Further donations have been made by the Hebrew University of Jerusalem, Professor Anne Crookshank, Dr D.B. Harden and Dr C.-M. Bennett. Loans of relevant antiquities for temporary display are welcome; the museum currently has on loan from Mrs J. L’Amie a Samaritan Pentateuch and a Hebrew Scroll of Esther. The museum is a member of the Irish Museums Association.

The museum exists to further scholarly research and teaching. Posters and postcards of some major exhibits are available. Visiting scholars, school parties, and members of the public, are welcome to visit, by appointment, during teaching term. Applications should be made in writing to the Curator of the Weingreen Museum, Arts and Social Sciences Building, Trinity College, Dublin 2 or by email to rodgersz@tcd.ie.

ZOOCLOGICAL MUSEUM

Curator. Martyn Joseph Linnie, M.A., PH.D.

The Zoological Museum (https://www.tcd.ie/Zoology/museum/) owes its origins to the establishment of the Dublin University Museum in 1777. The collection was transferred to the Zoology Building in 1876 and following many years of change is now located in a refurbished area on the first floor.

There are over 25,000 objects in the collection, many of which are over 200 years old. A feature of the museum is the many examples of extinct and endangered species including Ireland’s last Great Auk (declared extinct in 1844), the Tasmanian Wolf and the Great Indian
Museums and other institutions

Rhinoceros. All the main animal groups are represented in the collection which also contains a rare set of the famous Blaschka glass models of marine life dating from approximately 1880.

The museum has three main functions centered around research, teaching and outreach. While the main purpose of the museum is to provide undergraduate training in animal systematics, biodiversity and taxonomy, it has become a popular visitor attraction in the summer months offering guided tours, school workshops and specialised talks based around a unique interactive experience.

In 2015, the museum was awarded full accreditation of the Museums Standards Programme for Ireland. This achievement reflects the commitment of the Zoological Museum to the long-term care and development of its valuable and historic collection.

The Students’ Union is the only representative body for all students in the College. It has the dual and complementary functions of representing students’ interests both inside and outside College and of providing student services. The elections for President, Education Officer, Welfare Officer, Communications Officer, Editor of the University Times, and Entertainments Officer are held annually in Hilary term and they hold office from the beginning to the end of the academic year.

The Union’s offices, shop and employment and accommodation bureau are situated in Mandela House, No. 6, College. ISIC and student travel cards and passport photograph services are also available. The Union also runs the shop at the main entrance to the Hamilton Building and the SU café in Goldsmith Hall. The Union is affiliated to the Union of Students in Ireland (USI).

Trinity’s Graduate Students’ Union (GSU) is the representative body for all postgraduate students in Trinity College Dublin, the University of Dublin. The two sabbatical officers of the GSU work full-time and represent postgraduate students on all major committees including Board, Council, Student Life, Graduate Studies, and Research Committees. The executive committee which includes representatives from all faculties convene on a monthly basis and more often when required. The objective of the Union is to represent postgraduate students within the university, advocate on behalf of union members on issues that impact postgraduate education internally and nationally; and to protect the interests of our union members during their studies. Activities of the Union include: providing social and recreational facilities for postgraduate students; monitoring and developing the study and recreational facilities of the 1937 Reading Room; providing a graduate common room for postgraduate students, and to provide and manage lockers for students in the 1937 Reading Room (rental is organised through the front office in House 6).

The GSU produces an academic and peer reviewed journal on an annual basis, the *Trinity Postgraduate Review*, and a literary magazine, *College Green*. It also produces a postgraduate handbook for students with information on supports and services available to postgraduate students. The GSU President works in the area of policy and strategy. The GSU Vice-President acts as the Welfare and Education Officer for postgraduates in TCD and provides confidential one-to-one advice, advocacy and support. The GSU Communications Officer informs students on a weekly basis of information, events, and updates from the university and the wider metropolitan community through the medium of a digital newsletter titled *Postgrad News*.

The GSU website [http://www.tcdgsu.ie](http://www.tcdgsu.ie) provides the latest updates from the GSU, information on elections, campaigns, and connections to the Union’s social media platforms. Students can arrange meetings with the sabbatical officers via emailing either the GSU President Shane Collins at president@tcdgsu.ie or the GSU Vice-President Madhav Bhargav at vicepresident@tcdgsu.ie or by contacting the office landline at (01) 896 1169.

**SOCIETIES AND CLUBS**

The Capitation Committee is a sub-committee of the Student Life Committee. Its role is to apportion the Capitation Fund which is committed to it on the basis of the historically approved allocation procedure by Board to the capitated bodies; to have responsibility for the formulation of the recommendations which is presented to Board by the Student Life Committee in respect of the possible introduction and implementation of levies relating to capital projects and their subsequent recurrent costs; and of levies funding the internal operation of the capitated bodies and their dependent organisations; to ensure the observance of all regulations pertaining to the capitated bodies and their dependent organisations, as published in the University Calendar; and to carry out such other functions as may from time to time be delegated to it by the Student Life Committee.

Funds are allocated to the Central Societies Committee (who oversees the activities of College societies), the D.U. Central Athletic Club (who oversees the activities of College clubs), the Students’ Union, the Graduate Students’ Union, and Trinity Publications. The committee enforces rules for the accountability and control of monies which must be observed by officials of societies.
Students’ Unions, Societies and Clubs

The Students’ Union and any College society or club planning to hold a concert or gig in College must apply for permission to do so at least two weeks in advance of the function. Permission is granted by the Junior Dean, (application form available from the Junior Dean’s website at http://www.tcd.ie/Junior_Dean/events/index.php).

Permission to hold a party or reception in College must be obtained from the Junior Dean at least five working days in advance. Application form available from the Junior Dean’s website at http://www.tcd.ie/Junior_Dean/events/index.php.

Societies or clubs wishing to hold dances outside the College must apply for the Senior Dean’s permission by writing to the Senior Dean at least three weeks before the proposed date.

CENTRAL SOCIETIES COMMITTEE*

Chair. Benn Ó hÓgáin
Treasurer. Dahnan Spurling
Secretary. Fiona May
Amenities Officer. Jimmy Kavanagh
Honorary Treasurer. Ronan Hodson, M.A., M.Sc.

The C.S.C. acts as the coordinating body to promote the interests of student societies and to act as their representative within the University of Dublin and Trinity College. Its principal functions are to consider applications for, and to grant, recognition as College societies; to regulate the continuing recognition of such societies; to distribute grants to societies out of the money allocated to the C.S.C. by the Capitation Committee; to oversee the usage of said monies; and to oversee the auditing of the accounts of societies.

The committee consists of the treasurers of all recognised College societies. An executive committee of five officers and eight ordinary members is elected at the annual general meeting held in Hilary term.

DUBLIN UNIVERSITY CENTRAL ATHLETIC CLUB* 

Chair. His Hon. Judge Donagh McDonagh, S.C.
Senior Treasurer. Brian O’Ruairc, B.A.
Secretary. Christina Connaughton

D.U.C.A.C. is the administrative body for sports clubs in College and is located in the Sports Centre. The executive consists of twenty-two members elected annually at the annual general meeting held in October. D.U.C.A.C. distributes to the clubs the monies allocated by the Capitation Committee.

TRINITY PUBLICATIONS*

Chair. Patrick Joseph Moloney
Secretary. Dylan Joyce-Ahearne
Treasurer. Jennifer McCallill

Trinity Publications operates as the overall coordinating body for College student publications and is responsible for the distribution and monitoring of funds allocated to it by the Capitation Committee. It also provides facilities and information to College student publications and interested parties. The committee consists of five executive officers and the editors of all recognised publications. The officers are elected annually at the annual general meeting.

TRINITY DEVELOPMENT AND ALUMNI*

Trinity Development and Alumni, through the effective development and management of Trinity College Dublin’s fund-raising activities, promotes T.C.D. as a community of academic excellence. It assists College in the strategic planning and continued development of its links with the world of business and industry. In conjunction with the T.C.D. Association and Trust, Trinity Development and Alumni organises alumni events and publishes the annual alumni magazine, Trinity Today.

Honorary Treasurer. Clodagh Jane Bowen, B.A.

The Trinity College Dublin Association (established 1928) and the Trinity College Dublin Trust (established 1955) were incorporated in 1987 into a single organisation known as the Trinity College Dublin Association and Trust.

The Association exists to foster contacts between its members and Trinity College Dublin and to support the College inter alia by promoting the purposes of the Trinity College Dublin Trust.

Membership is open to all Fellows and Honorary Fellows of the College and graduates and honorary graduates of the University of Dublin. Applications for membership are also welcomed from all former undergraduates of the University who kept at least three terms’ lectures, and any other former students at the University who attended lectures regularly for at least three terms or resided in Trinity College or at Trinity Hall for at least three terms. Membership is also open to all members and former members of the academic staff of the University who have held their appointment for at least twelve months. Undergraduates are not eligible for membership.

To register for membership, please email alumni.relations@tcd.ie giving your full name, address, degree and year of graduation and your student number (if known). The annual general meeting is held in College on the Monday of Trinity Week. Members are entitled to such College facilities as may be made available from time to time, may wear the tie and blazer of the Association, and may attend the dinners and other functions organised by the Association in Trinity College and by branches throughout the world.

*Societies and institutions which are recognised by the College but in respect of whose activities the College does not accept any responsibilities are marked with an asterisk. They are listed in this section for information purposes only.

Trinity College Dublin Trust*
(Trinity College (Dublin) Educational Endowment Fund)

The Trinity College Dublin Trust was established in 1955 to continue and amplify the work of the Trinity College (Dublin) Educational Endowment Fund, which owed its inception to the initiative of the late Sir Robert Woods. The aim of the Trust is both to build up a capital sum large enough to augment substantially the existing endowments of the College, and to make grants to the College for the promotion of research or education in its widest sense.

The funds of the Trinity College Dublin Trust are administered by the standing committee of the Trinity College Dublin Association and Trust.

Subscriptions and donations to the Trinity College Dublin Trust may be sent to the Financial Secretary, Trinity College Dublin Association and Trust, East Chapel, Trinity College, Dublin 2.

Cheques should be made payable to the Trinity College Dublin Trust.

Grant applications are only considered at the meetings of the standing committee of the T.C.D. Association and Trust held in November, March and May of each year.

The deadlines for the receipt of applications are as follows: 9 October for the November meeting, 29 January for the March meeting and 8 April for the May meeting.

All applications must be made on the official form obtainable from the Secretary, Trinity College Dublin Association and Trust, East Chapel, Trinity College, Dublin 2. Website: http://www.tcd.ie/alumni/groups/special-interest/#tcda.

UNIVERSITY OF DUBLIN U.S.A. FUND*

The University of Dublin U.S.A. Fund is a trust organised in 1954 under the laws of New York State to support 'the educational purposes of the University of Dublin, whether in Ireland or the United States'. Contributions to the fund are tax-deductible in the U.S. and can be sent to: University of Dublin U.S.A. Fund, c/o Joan Murtagh Frankel, Cahill Gordon & Reindel LLP, 80 Pine Street, New York, NY 10005-1702, U.S.A.
TRINITY COLLEGE DUBLIN ASSOCIATION BRANCHES

Trinity College Dublin has a large network of alumni branches throughout the world, enabling graduates to stay in touch with one another. These branches regularly organise activities and social events and are a great way for alumni to make new connections or meet old friends. Branches also provide a channel of communications between members and the College so alumni can stay up to date with the latest College news. To find out more about the branch network, please visit http://www.tcd.ie/alumni/groups/.

TRINITY WOMEN GRADUATES’ ASSOCIATION (TWG)* (FMRMLY DUBLIN UNIVERSITY WOMEN GRADUATES’ ASSOCIATION (DUWGA))

Vice-President. Grace O’Malley, M.PSYCH.SCI., DIP.CORP.GOV.
Secretary (Acting). Grace O’Malley

The TWG (Trinity Women Graduates’ Association) was established in 1922 to enable the University’s women graduates to keep in touch with Trinity, with each other, and with women graduates all over the world. Membership is open to women graduates of any recognised university.

TWG is affiliated to the Irish Federation of University Women (IrFUW), the University Women of Europe (UWE) and the International Federation of University Women (IFUW) and participates in lobbying activities through these organisations.

TWG arranges lectures and social events for members. The association supports a bursary fund and other causes as well as an annual award to a female TAP (Trinity Access Programme) student. Within the Irish Federation TWG runs a public speaking competition for girls aged under fifteen.

TWG participates in graduate events organised by Trinity Development and Alumni and the T.C.D. Association and Trust.

BOOK SALE COMMITTEE*

Chair. Charles John Benson, M.A., PH.D.
Secretary. Paul Ferguson, B.A.
Treasurer. Ellen Hanley, B.A.
Book donations. Siobhán McBennett, M.A., G.I.BIOL.

The Book Sale Committee was established in 1989 by a group of graduates and staff under the auspices of the T.C.D. Association and Trust, in association with the Friends of the Library. The committee organises an annual sale of second-hand books to support research in the College by providing funds for the purchase of research materials by the Library and departmental libraries. Books may be delivered throughout the year to the sorting centre in the Goldsmith Hall. The sale is usually held in the Public Theatre. Applications for grants should be made through the Book Sale Committee. Successful applications are then administered by the T.C.D. Association and Trust. Further information is available at http://www.tcd.ie/booksale. Email booksale@tcd.ie.

TRINITY RETIREMENT ASSOCIATION*

Chair. Mike Jones
Secretary. Ruth Potterton
Treasurer. Gay Duffy
Membership Secretary. Norah Kelso
Other members. Joe Carroll, Denise Leahy, Tom McCabe, Doreen MacRaois, Kay O’Neill

The Trinity Retirement Association (TRA) was launched in April 2014 following feedback from the College’s retired members of staff, to enable former staff members to keep in touch with Trinity, with each other, and the wider Trinity community. In January 2017 the association had 217 members. The association is open to all the College’s pensioners and their spouse/partner.

The aims of the association are to promote a focal point for members to meet and engage in educational, cultural, sporting and social activities; to promote a spirit of self-help and independence and to encourage members to use their energy, talents, skills, knowledge and experience to benefit each other and the College; to encourage positive attitudes to ageing and retirement; and to provide general information of interest to members.

The association is governed by a constitution and operates on an autonomous, self-financing basis.

Full details can be found on the TRA website at http://tcdretired.ie/, email info@tcdretired.ie.

DUBLIN UNIVERSITY WOMEN’S CLUB*

President. Lesley Penney
Vice-President. Geraldine Ryan
Honorary Secretary. Mary Sweeney
Joint Treasurers. Mary Higgins, Kay O’Neill
Committee members. Daphne Gill, Corinne Harrison, Catherine Lynch, Gaye O’Hara

Membership is open to: (a) wives and partners of past and present staff of the University, (b) women who are staff of the University, and (c) women connected with the University on nomination by the committee.

The club, which was established in 1947, is mainly social and cultural, enabling members to keep in touch with each other and with the University.
Special and Public Lectures and Courses

SPECIAL LECTURES

Elementary Irish

A course in Irish for beginners is given each year. It is, as a rule, confined to members of staff, students on the College books and graduates of the University.

PUBLIC LECTURES

The Cocker lecture in chemistry

In 2007 the late Professor Wesley Cocker bequeathed a sum of money to the College for the benefit of the School of Chemistry. The income from this bequest is used to support an annual lecture on a topic of public interest related to chemistry. The speaker, eminent in the field of chemical science, is chosen by staff of the School of Chemistry.

The Godfrey Day memorial lectures

The Godfrey Day memorial lectureship was founded by the Board on 9 December 1939. Each year a lecture (or lectures) on a missionary theme is organised. The Board appoints the lecturer on the nomination of the Missionary Council of the Church of Ireland which is at all times advised by the committee of the Dublin University Far Eastern Mission.

The Donnellan lectures

The Donnellan lectures were founded by the Board on 22 February 1794, to carry out the intentions of Miss Anne Donnellan, of the parish of St George, Hanover Square, Middlesex, spinster, who bequeathed £1,243 to the College ‘for the encouragement of religion, learning, and good manners; the particular mode of application being left to the Provost and Senior Fellows’. The subject is presented in not less than two lectures.

The Edmund Burke lecture

The annual Edmund Burke lecture was instituted in 2014 by the Trinity Long Room Hub arts and humanities research institute thanks to a generous endowment from the Fallon family in honour of Trinity graduate Padraic Fallon (B.A. 1969). The lecture was established to mark Trinity College Dublin’s deep connection with the 18th-century philosopher, historian and politician Edmund Burke. This lecture is to be delivered by a leading public intellectual on a topic that engages with current challenges and in doing so keep Edmund Burke’s manifold legacies alive in considering the type of society we want to live in and the traditions, perspectives and values we need to draw on in the shaping of our future.

The E.S. and R. Duthie lecture in microbiology

In 1984 the late Mrs Ruth Duthie made a gift of £1,000 to the College, which she augmented in 1989 by a further £1,000, to fund a lecture to be delivered once every two years, the lecturer to be chosen by the Professor of Microbiology and the Head of Clinical Microbiology.

The Hely-Hutchinson memorial lecture

In 1976 the Earl of Donoughmore, together with members of the Hely-Hutchinson family, endowed a visiting lectureship in memory of John Hely-Hutchinson who established the Professorships of Modern Languages and Literature in 1776 (during his term as Provost). The lectures are given every second year by a scholar or writer of the highest distinction in the modern languages and literature field.
Public Lectures

The Joly memorial lectures

After the death of John Joly, F.T.C.D., Sc.D., F.R.S., Professor of Geology and Mineralogy 1897-1933, a number of his friends subscribed a sum of money to found a series of lectures in his memory.

The John Kirker memorial lecture in epilepsy

Dr John Kirker (1922-2011), a graduate of the University of Dublin, was consultant neurologist in Sir Patrick Dun and Beaumont hospitals. He was instrumental in the development of clinical services in epilepsy in Ireland. Dr Kirker cared deeply about Trinity. In 2013 his family provided an endowment to fund an annual John Kirker memorial lecture in epilepsy to be organised by the School of Medicine.

The James Lydon lectures in Medieval history and culture

The Lydon lectures provide a platform for a distinguished lecturer to reflect on these issues and to convey specialist findings to a mixed audience of academic specialists, students and members of the public. The series, which is published by Cambridge University Press, is named for Professor James Francis Lydon, Department of History, who died in 2013. The inaugural Lydon lecture was Professor John Gillingham (Emeritus Professor of History at the London School of Economics) in 2014.

The second series of Lydon lectures took place in April 2017 and was delivered by Professor Robert Bartlett (St Andrews), who spoke on the subject: ‘Dynasties: family politics in Medieval Europe’.

The MacNeill lectures

This lectureship was founded in 1970 from a benefaction provided by the Engineering School Trust Fund to commemorate Sir John MacNeill, the first professor of civil engineering in the University. A public lecture is delivered every year by a lecturer appointed by the Board.

The Normanby lecture in microbiology

Founded in 1996 by the Department of Microbiology in recognition of the generous support given to the department by the Dowager Marchioness of Normanby and her family, which includes funding the construction of the Moyne Institute of Preventive Medicine in 1953 and the provision of additional research facilities within the institute since then. The lecture is delivered annually by a research scientist who has made an outstanding contribution to the field of microbiology.

The O'Donnell lectures in Celtic history and literature

These lectures take their name from Charles James O'Donnell 1850-1934, who bequeathed a sum of money to found annual lectures in the Universities of Oxford, Wales and Edinburgh, the National University of Ireland, and the University of Dublin. In the British universities the lectures are on the Celtic element in the English language and population; in the Irish universities they are on Irish history since Cromwell, with special reference to the history of ancient Irish families since 1641.

The first O'Donnell lecture given in the University of Dublin was in 1957.

The Royal Dublin Society lecture

In 1981, on the occasion of its 250th anniversary, the Royal Dublin Society commemorated the College meeting to which it traces its origins by endowing a biennial lecture on aspects of Irish social and economic policy and history with special reference to the contribution of individuals and institutions.

The Schrödinger lecture series

In 1995 the School of Physics, together with the Austrian Embassy and the Dublin Institute of Advanced Studies, hosted the first Schrödinger lecture. The lecture series is an annual event
Public Lectures

commemorating the famous lecture series entitled ‘What is Life?’ given by Erwin Schrödinger in Trinity College Dublin in 1943.

The W.B. Stanford memorial lectures

These lectures were founded in 1988 from funds provided by subscription to commemorate William Bedell Stanford, Regius Professor of Greek 1940-80, and Chancellor of the University 1983-4. A series of three public lectures is delivered twice every three years by a lecturer appointed by the Board. It is intended that the lectures shall be published.

The John Lighton Synge public lecture

This lecture was established in 1992 from funds subscribed by friends and past colleagues and students to honour John Lighton Synge, F.R.S., M.R.I.A. [Scholar (1916), Fellow and Professor of Natural Philosophy (1925-30), Honorary Fellow (1954-95)]. The lecture is delivered once every two years by a lecturer appointed by the School of Mathematics.

The Hilda and Robert Tweedy lecture series

This lecture series was established in 2007 in honour of Mr and Mrs Robert and Hilda Tweedy by Dr Jean M. Tweedy Walker, a Trinity alumna and daughter of Hilda and Robert. It consists of biennial lectures alternatively addressing peace, gender and human rights, and environmental issues. These topics reflect long-time interests of Hilda and Robert Tweedy.

The H.O. White memorial lectures

These lectures were founded in 1964 from funds provided by subscription to commemorate Herbert Martyn Oliver White, Professor of English Literature 1939-60. A public lecture is delivered every two or three years by a lecturer appointed by the Board and is followed by a seminar for senior students in English literature.

The White social policy lecture series

This lecture series was established in 2004 from funds given by Tony White, former student of the College, to honour Emeritus Senior Lecturer in Social Policy, Anthony Coughlan.

PUBLIC LECTURES IN THE SCHOOL OF MEDICINE

The Mary Louisa Prentice Montgomery lectures in ophthalmology

The John Mallet Purser lectures

The Frederick Price lectures

The T.J.D. Lane lectures

For details see FACULTY OF HEALTH SCIENCES.

Records

Special record volumes are published from time to time as the Board may direct, the most recent being in 2006. It contains lists of scholars (1951-2000), honorary degrees conferred (1949-2000), degrees conferred and qualifications awarded (1949-2000), moderators and respondents (1950-2000).

BURKITT MEDAL

Established in 2013, the Burkitt Medal is designed to recognise people with the integrity, compassion and dedication matching that of Denis Burkitt, a Trinity graduate, who is known for his discovery of Burkitt lymphoma.

The Burkitt Medal represents an opportunity for Trinity to acknowledge outstanding achievements of practitioners and researchers in cancer, preferably connected with Trinity or with a potential to establish closer links. It is also a channel for raising profile of the quality work conducted by Trinity academics and of Trinity’s rich heritage.

Award recipients:
Barbacid, Mariano, PH.D. (2017 awardee)
Brennan, Paul, PH.D. (2016 awardee)

GLOBAL ENGAGEMENT AWARDS 2016-17

Established in 2015, the Global Engagement Awards are held annually and are designed to recognise the exceptional contribution made by staff to global education, cultural understanding and global experiences that directly benefits the Trinity community, raising the College’s profile and supporting the development of students into global citizens.

Up to three awards will be given each year and will be open to both current and past academic and administrative staff members. Each awardee will receive €2,000 each. It is envisaged that this will support the awardees in the advancement of their professional endeavours and engagement in a region strategic to their School or profession, in collaboration with the Global Relations Office. Winners and their nominator will be invited to an awards ceremony that will take place in April, hosted by the Provost.

Award recipients:
Alexander, Doris - Trinity Research and Innovation/
Taaffe, Jennifer - Office of the Provost (joint award)
Foley, Brian - School of Engineering
Gormley, John - School of Medicine
Hannon, Cliona - Trinity Access Programmes

Certificates of excellence:
Keating, Mary - Trinity Business School
Robertson, Ian - School of Psychology

PROVOST’S PROFESSIONAL STAFF AWARDS

Established in 2016, the Provost's Professional Staff Awards acknowledge the contribution of exceptional professional staff, including all administrative, technical and support staff employed in Trinity College Dublin, the University of Dublin.
Records

The awards create a formal process to celebrate outstanding contributions by Trinity’s professional staff, providing a high profile example of how Trinity delivers its mission of encouraging all to achieve their full potential.

These bi-annual awards are an opportunity to celebrate Trinity’s professional staff whose hard work, creativity and dedication are an important element in the continuing success of the University. They provide an opportunity to capture and promote enhancement initiatives that are ongoing at local level, but which may not be known or recognised beyond the local area.

PROVOST’S TEACHING AWARDS 2016-17

The Provost's Teaching Award Scheme is designed to recognise and reward those who have made an outstanding contribution in the pursuit of teaching excellence. The prestige of the award reflects the value which Trinity places on promoting teaching as a scholarly activity and the importance placed on enriching the learning opportunities of its students. The scope of the initiative is broad, covering all aspects of teaching, learning and assessment, and seeks to:

- Provide recognition for excellent teaching
- Reward teaching staff who are creative in their approaches to teaching and learning and who use a variety of mechanisms to achieve their learning outcomes
- Share best practice across College and encourage teaching staff to consider other approaches to course design, delivery and assessment
- Reaffirm that curriculum development, teaching, learning, assessment and evaluation, are important activities in College requiring high level expertise
- Encourage teaching staff to reflect critically on their teaching practice

Each award is to the value of €1,500 to a departmental account. At least one will be an Early Career Award for nominees with not more than five years full-time third-level teaching experience at the time of nomination (or equivalent as determined by the committee). If an applicant meets the existing criteria and additionally demonstrates in their application ‘evidence of sustained commitment to teaching excellence, supporting learning and it is clear that the scholarship of the nominee has been inspirational and/or influential among academic colleagues within or beyond the institution’ the nominee may also be considered for a Lifetime Achievement Award.

It is requested that the award winners would contribute to the CAPSL programme of events in the following academic year.

Award recipients:
Brady, Mairead - Trinity Business School
King, Michael - School of Social Sciences and Philosophy (Early Career Award)
Morris, Marie - School of Medicine
O’Callaghan, Susan - School of Medicine (Early Career Award)
O’Donovan, Anita - School of Medicine

Shortlisted candidates:
Ferreira, Mauro - School of Physics
Holland, Celia - School of Natural Sciences
Lyons, Ronan - School of Social Sciences and Philosophy
