# Coláiste na Tríonóide Baile Átha Cliath agus an Ghaeilge

## Oifigeach na Gaeilge agus Coiste na Gaeilge

Tá Coláiste na Tríonóide Baile Átha Cliath tiomanta do chur chun cinn na Gaeilge i ngach réimse de shaol na hOllscoile. Léirítear an tiomantas seo trí obair Choiste na Gaeilge, fochoiste de Bhord na hOllscoile, agus trí fhostú Oifigeach Gaeilge lánaimseartha. Oibríonn an tOifigeach Gaeilge i gcomhar leis an gCumann Gaelach, le hAontas na Mac Léinn agus le Roinn na Gaeilge agus na dTeangacha Ceilteacha chun a cuid aidhmeanna a chur i gcrích.

## Acht na dTeangacha Oifigiúla agus na Scéimeanna Teanga

Leagann Acht na dTeangacha Oifigiúla 2003 dualgais ar leith ar an Ollscoil lena n-áirítear dualgais maidir le comharthaíocht, stáiseanóireacht, foilseacháin áirithe, fógraí taifeadta béil, srl. Ina theannta sin, tá gealltanais tugtha ag an Ollscoil sna trí Scéimeanna Teanga atá foilsithe go dtí seo go gcuirfear lena réimse seirbhísí dátheangacha trí ghníomhaíochtaí éagsúla.

## Scéimeanna Cónaithe

Tá dhá scéim cónaithe Gaeilge san Ollscoil trína gcuirtear cóiríocht ar fáil do mhic léinn. Tá scéim amháin lonnaithe ar an gcampas agus an ceann eile (do mhic léinn na chéad bhliana agus na dara bliana amháin) i Halla na Tríonóide, Dartraí, Baile Átha Cliath 6. Cuireann baill na scéimeanna cónaithe an Ghaeilge chun cinn san Ollscoil trí fheachtais agus imeachtaí éagsúla a reáchtáil i rith na bliana.

## Ranganna Gaeilge

Cuireann Coláiste na Tríonóide ranganna Gaeilge saor in aisce ar fáil do bhaill foirne agus do mhic léinn araon le linn na bliana acadúla. Fógraítear na ranganna seo ag tús an tearma acadúil. Tacaítear chomh maith le baill foirne agus le mic léinn tabhairt faoi scrúduithe TEG (Teastas Eorpach na Gaeilge).

## Éigse na Tríonóide agus Imeachtaí Gaeilge

Buaicphointe na bliana is ea Éigse na Tríonóide; féile seachtaine ina gcuirtear go leor ócáidí cultúrtha agus sóisialta ar siúl do phobal na hOllscoile lena n-áirítear ceolchoirmeacha, díospóireachtaí, aoichainteoirí, srl. Eagraítear feachtais agus imeachtaí Gaelacha eile i gcaitheamh na bliana chomh maith.

E8 Calendar 2020-21

### Professors, Associate Professors, Assistant Professors, Clinical and other Officers

Staff are shown under faculty and school headings. Functional titles and group descriptions are shown e.g. 'DIRECTOR OF ...'. Individual academic ranks are shown in the form '*Professor* ...' and are in order of appointment to the rank; this type is also used for individual appointments within group headings. It has not been possible, however, to achieve total consistency due to the complexity of the institutional relationships.

The academic titles – of Professor, Associate Professor, and Assistant Professor – used throughout this Calendar are those provided for in the Schedule on Titles to the Chapter on Academic Staff in the Consolidated Statutes of Trinity College Dublin and of the University of Dublin, 2010. The use of these titles in this Calendar does not, however, preclude members of the academic staff from using the Statutory academic titles – of Professor, Associate Professor, Senior Lecturer – in their day-to-day work.

The dates given after the titles of certain offices are those when the posts, or posts with which they are continuous, were founded. For further details the *Trinity College Dublin Record volume* 1991 may be consulted. Where not otherwise indicated, the degrees stated have been conferred by the University of Dublin. The names of persons not on the ordinary full-time staff e.g. appointments for terms of years are marked with a '†' (other than Research Fellows and Visiting Research Fellows). The names of part-time members of the staff are marked with an asterisk.

For Assistant Professors, the original date of appointment to a full-time post (academic or equivalent grade) is indicated under the column 'Appointed': this information does not indicate whether the holder is, or is not, still subject to the normal review procedures relating to confirmation in appointment. Dates are shown for part-time appointments involving periods in excess of one academic year: no dates are shown where appointment is made annually.

CENTRE FOR RESEARCH ON ADAPTIVE NANOSTRUCTURES AND NANODEVICES (CRANN)

The Centre for Research on Adaptive Nanostructures and Nanodevices (CRANN) comprises a team of three hundred researchers from over forty-five different countries, led by eighteen principal investigators and seventeen investigators, each of whom is an internationally recognised expert in his/her field of research. CRANN principal investigators are based across multiple disciplines including physics, chemistry, medicine, biochemistry and immunology, engineering and pharmacy. CRANN works at the frontiers of nanoscience developing new knowledge of nanoscale chemical and physical phenomena, with a particular focus on new device and sensor technologies for the ICT, biotechnology and medical sectors.

CRANN has two state-of-the-art buildings both custom designed and constructed for the purpose of leading edge nanoscience research. The Naughton Institute is a 6000m² research facility on the campus of TCD. The CRANN Advanced Microscopy Laboratory (AML) was completed in 2009. This facility on Pearse Street houses Ireland's most advanced microscopy instrumentation, enabling Ireland to compete internationally in this capability.

Through the SFI funded Centre for Science, Engineering and Technology (CSET), CRANN had a specific remit to work with industry. This lead to CRANN leading the €58 million AMBER (Advanced Materials and BioEngineering Research) centre award, where TCD, UCC, RCSI, DCU, UL and NUIG researchers partner with industry to collaboratively address materials related research programs. This award is SFI funded, based on industry direct cash and in-kind contribution. CRANN has been very successful in obtaining non-Exchequer funding (e.g. European Union Frameworks, H2020, ERC's) that enabled the establishment of an extensive academic partnership network involving over a hundred European universities and one hundred and sixty universities globally.

CRANN has been funded predominately by Science Foundation Ireland and has also obtained competitive funding from the Higher Education Authority, Enterprise Ireland, industry, the EU Commission, and philanthropic sources, notably Dr Martin Naughton.

### THE TRINITY LONG ROOM HUB

The Trinity Long Room Hub (TLRH) is the research institute for the arts and humanities at Trinity College Dublin. Founded in 2006, the TLRH is comprised of a community of researchers drawn from the university's nine arts and humanities schools as well as the Trinity College Library. It is dedicated to supporting research excellence and advancing interdisciplinary research in the arts and humanities. It is also committed to promoting the importance of this research for society and raising the profile of Trinity's arts and humanities internationally. It organises the work of the institute around a number of key research themes and supports the delivery of research on major questions facing society through a variety of means such as international visiting research fellowships, competitive research funding, hosting over 200 research related events and activities a year, and supporting forty-four of its partnering schools research students and postdoctoral fellows each year.

# TRINITY BIOMEDICAL SCIENCES INSTITUTE (TBSI)

The Trinity Biomedical Sciences Institute (TBSI) is the largest research institute in Trinity and is one of the premier biomedical research institutes in Ireland. TBSI currently accommodates seventy principal investigators (PIs), over one hundred postdoctoral fellows, and over two hundred postgraduate researchers from five schools, the School of Biochemistry and Immunology, the School of Chemistry, the School of Medicine, the School of Engineering (Bioengineering) and the School of Pharmacy and Pharmaceutical Sciences.

TBSI is recognised internationally as a leading centre for ground breaking research discoveries on the fundamental mechanisms of human diseases, leading to new treatment approaches for these diseases. TBSI researchers collaborate extensively with researchers in other institutions throughout the world. The original vision put forward for TBSI when founded in 2012 was for a biomedical research institute focused on three areas: immunology, cancer and medical device technology. These focus areas have facilitated cross-disciplinary research leading to scientific discoveries of biomedical importance, ultimately giving rise to better patient care. TBSI is an innovative and interdisciplinary institute, where PIs and their teams are driving world class translational research on the mechanistic basis for a range of diseases, including infectious and inflammatory diseases, such as arthritis, asthma/allergy and type 2 diabetes, neurological diseases, such as motor neurone disease and multiple sclerosis, and different forms of cancer. There have been several innovative advances in tissue engineering for corneal replacement, bone and joint replacement, and treatment of different forms of cancer.

To facilitate research excellence, the institute has established a wide range of core technologies of the highest standard, including flow cytometry, confocal microscopy, transgenics, nuclear magnetic resonance spectrometry (NMR), biological transmission electron microscopy (TEM) and x-ray crystallography. A category 3 facility is available for research into hazardous biological agents such as HIV and hepatitis C. TBSI also houses significant biomedical teaching facilities, including lecture theatres, seminar rooms and teaching laboratories. Over 1,100 undergraduate students attend classes in TBSI each year, including Senior Sophister students of biochemistry and immunology and preclinical students of medicine. Over ninety students undertake M.Sc. courses, including bioengineering and immunology.

The institute also supports several spin out companies and has a growing number of partnerships with pharmaceutical and medical device companies. TBSI researchers have raised about 20 per cent of all of the research funding in TCD in the last five years (€16.5m total grant income for the 2017/18 academic year) and significantly more ERC and SFI investigator-led research grants than any similar sized cohort of biomedical scientists in Ireland. In 2018, four TBSI PIs were named as Clarivate highly cited researchers. TBSI PIs and their research teams have produced over 1,000 peer reviewed publications over the past five years with national, international and industrial collaborators. TBSI aims to continue to foster a spirit of interaction, exploration and collaboration on the frontiers of biomedical research, such that truly ground-breaking discoveries can be made.

# TRINITY COLLEGE INSTITUTE OF NEUROSCIENCE (TCIN)

The Trinity College Institute of Neuroscience (TCIN) is a Trinity research institute with about fifty Principal Investigators (PIs) and 250 researchers from a wide range of disciplines including psychology, psychiatry, physiology, pharmacology, medicine, biochemistry, engineering, and genetics, among others. These diverse disciplinary origins contribute to its core activities:

promoting and supporting interdisciplinary basic and translational research, as well as teaching, public engagement, and national leadership in neuroscience.

The administrative and scientific hub of TCIN is based in the Lloyd Building on the Trinity College campus. The Lloyd Building houses several TCIN-managed advanced research technologies, including two high-field human and small animal magnetic resonance imaging (MRI) systems. TCIN PIs use and maintain preclinical cell and animal models, as well as molecular, cell biological, biochemical, behavioral, physiological and genetic technologies to study both humans and model organisms.

The institute provides a gateway for internal and external connectivity between basic and applied neuroscience. TCIN facilitates access to advanced research and diagnostic technologies as well as to patient populations, biosamples, and genotyping required for translational neuroscience, which prominently and deeply involves clinical PIs based in St James's, St Patrick's and Tallaght hospitals. St James's additionally houses CAMI, a clinical neuroimaging facility as well as the Wellcome Trust/Health Research Board clinical research facility for clinical trials.

TCIN houses strong research programmes funded by Science Foundation Ireland, the Wellcome Trust, the Health Research Board, the European Research Commission/Horizon 2020 framework programmes, as well as multiple philantropic and industrial sponsors. In 2016, Trinity College Dublin launched the Global Brain Health Institute (GBHI), a major collaboration between Trinity College Dublin and the University of California San Francisco led in Ireland by TCIN PIs Brian Lawlor and Ian Robertson. This highly collaborative, training and research programme, created through a \$170 million investment from Atlantic Philanthropies, aims to prevent and improve management of global dementia. It has the recruitment of outstanding new PIs, as well as increased focus on the cognitive ageing.

TCIN PIs teach an interdisciplinary undergraduate programme leading to a B.A. (Mod.) in Neuroscience, as well as having a leading role in the popular M.Sc. in Neuroscience (the only one in Ireland). The institute hosts a popular public lecture series annually, and it has initiated and participated in major exhibitions in Trinity College's Science Gallery. New initiatives are planned in neuroscience teaching as well as in collaborations with humanities, social sciences and public engagement, funded in part through a new Wellcome Trust Institutional Strategic Support Fund award that is coordinated and managed by TCIN.

The institute supports and connects strengths in different disciplinary strands, to create new and impactful actions in all areas related to national and international neuroscience.

# TRINITY TRANSLATIONAL MEDICINE INSTITUTE (TTMI)

The Trinity Translational Medicine Institute (TTMI) is located within the St James's Hospital campus in Dublin 8. However, TTMI extends to include researchers at the Meath Foundation Research Laboratory at the Trinity Centre, Tallaght Hospital, the Coombe Women and Infants University Hospital, and Our Lady's Children's Hospital, Crumlin. TTMI's constitutent partners are the Schools of Medicine, Chemistry, and Pharmacy and Pharmaceutical Sciences. They are represented by research scientists and clinicians committed to prioritising patient driven clinical research. The substantive co-operative institute currently houses over forty principal investigators and one hundred and fifty scientists.

The creation of TTMI fills a major strategic gap in TCD through the development of a centre for excellence geared towards translating transformative biomedical research to a clinical setting and consolidating links within our hospital sites.

The Institute opens a gateway for internal and external connectivity acting as a conduit between basic science and discovery, industrial collaboration and enhanced clinical service delivery. The location of TTMI within the acute hospital setting, facilitates the study of a broad spectrum of disease states underpinned by engagement between our hospital partners, patients, clinical and basic researchers. The close proximity of the Wellcome Trust – HRB Clinical Research Facility enables the expedient translation of clinical research breakthroughs into opportunities for regulated clinical trials. Our consolidated approach ensures an efficient pathway for bridging basic biomedical discovery research with improvements in clinical medicine. TTMI facilitates access to state-of-the-art research tools, diagnostic technologies and pipelines, in addition to access to patient populations and an extensive curated biorepository.

TTMI offers core facilities including next generation sequencing, flow cytometry, and high content analysis screening to carry out research at the intensity and level of excellence that is

needed to produce fundamental disruptive breakthroughs, build better understanding of those factors that engender well-being, uncover key insights into disease progression, and make translational advances, to enhance health and well-being.

### ADAPT CENTRE FOR DIGITAL CONTENT TECHNOLOGY

The ADAPT Centre for Digital Content Technology is a Science Foundation Ireland funded research centre that aims to lead on the development of digital content technologies that will revolutionise the way people interact with content, systems and each other to achieve unprecedented levels of access, efficiency and empowerment. ADAPT has significant commercial knowledge and actively collaborates with industry to create breakthroughs in the global content industry.

ADAPT's research areas include localisation, social media analysis, multimodal interaction, intelligent content and media, and informal and formal learning. In 2015 the centre, which was formerly known as CNGL (Centre for Global Intelligent Content), was re-branded as ADAPT to highlight the extension of its research expertise which covers all aspects of the digital content lifecycle.

ADAPT is led out of Trinity College Dublin and combines the world-class expertise of researchers at Dublin City University (DCU), University College Dublin (UCD), Technological University Dublin (TU Dublin), Athlone Institute of Technology (AIT), Cork Institute of Technology (CIT) and Maynooth University (MU).

# ADVANCED MATERIALS AND BIOENGINEERING RESEARCH (AMBER)

AMBER is a Science Foundation Ireland funded centre that provides a partnership between leading researchers in material science and industry. Materials science has been described as the science of stuff! The centre researches materials that will transform everyday products of the future, from mobile phones to knee implants, batteries to beer bottles. AMBER brings together

Ireland's leading material science researchers working across the disciplines of Physics, Chemistry, Bioengineering and Medicine; with an international network of collaborators and companies.

The clustering of material science research expertise, state of the art infrastructure, and a team of professional support staff has enhanced Ireland's international reputation in materials science research and driven increased investment from industry. Ireland's international ranking in the areas of nanoscience and materials science has increased from 6th and 8th respectively in 2013 when the centre was established, to 1st and 3rd in 2017. This ranking is based on publications and citations.

AMBER is jointly hosted in Trinity College Dublin by CRANN and the Trinity Centre for Biomedical Engineering, in collaboration with University College Cork, Royal College of Surgeons in Ireland, Dublin City University, University of Limerick and NUI Galway.

#### INSTITUTE OF POPULATION HEALTH

The Institute of Population Health (IPH) was opened in August 2016, based at the Russell Centre, Tallaght Cross in Dublin 24. It is a joint initiative of the Schools of Medicine and Nursing and Midwifery. Among the priority actions will be to provide an academic backdrop to the primary care centre and general practitioners who share the premises with the IPH. Focus will be on prevention and chronic disease prevention and management. A range of new postgraduate courses will be run from the IPH. Public health advocacy will also be a priority, together with major interaction with the community in Tallaght.

#### LEARNOVATE CENTRE

Learnovate is one of Europe's leading research and innovation centres in learning technologies. An industry-led technology centre funded by Enterprise Ireland and hosted by Trinity College Dublin, Learnovate connects world-class academic research with entrepreneurs at the leading edge of the global learning technologies sector. Learnovate research fuses expertise in technology, the learning sciences, product design, user experience and strategic innovation to drive commercial success for our industry partners.

The aim of Learnovate is to maximise the growth potential of individual companies working in the EdTech and e-learning sector and enhance Ireland's competitiveness as a global leader for learning technology innovation. Learnovate's industry-led collaborative research programme develops and exploits breakthrough learning technologies for the collective benefit of Ireland's learning technologies sector. Member companies actively set the research agenda and receive preferential licensing opportunities for intellectual property arising from core research programmes.

Learnovate offers strategic research and innovation services to individual companies that develop learning technologies; and companies that acquire and use learning technologies. The centre's expertise and experience encompasses a wide range of learning contexts including corporate learning, higher-ed learning, school learning, and non-formal learning. Learnovate helps identify, secure and maximise the value of funding for member companies through innovation vouchers and innovation partnerships with Enterprise Ireland.

#### CONNECT

CONNECT, formerly known as CTVR, is Ireland's Future Network and Communications research centre. Funded by Science Foundation Ireland, it is headquartered in Trinity College Dublin and brings together nine other academic institutions (Maynooth University, University of Limerick, Technological University Dublin, University College Cork, Dublin City University, University College Dublin, Tyndall National Institute, Cork Institute of Technology (Munster Technological University from January 2021) and Waterford Institute of Technology with TSSG (Telecommunication Software and Systems Group). CONNECT is also partnered with thirty-five companies ranging from large ICT multi-nationals to smaller and emerging indigenous companies.

CONNECT's mission is to research, develop and innovate new communication solutions to address many of the challenges facing society. At the core of the CONNECT research vision is the idea that the network will be performed into existence in response to service needs. CONNECT focuses on service-aware networks, network-aware services, responsive things and integration.

#### TRINITY IMMIGRATION INITIATIVE

The Trinity Immigration Initiative (TII) brought together key strands of Trinity College Dublin's research in order to support the development of a more inclusive, multicultural Ireland. A key initiative in the TII was a major *Research Programme* on *Diversity, Integration and Policy.* This programme was designed to stimulate a quantum leap in research activity in relation to immigration, helping to generate evidence relevant to local and national policy and contributing to international debates and the development of international practice.

# TRINITY INTERNATIONAL DEVELOPMENT INITIATIVE (TIDI)

The Trinity International Development Initiative (TIDI) was established in 2007 by researchers at Trinity College Dublin (TCD) to maximise the university's contribution to understanding and addressing the major global development challenges of our time through research, teaching and outreach activities.

Through a vibrant outreach programme, TIDI raises awareness among the wider community of development issues and of TCD's role in addressing these global development challenges. TIDI's vision is that TCD will be internationally renowned for excellence in development research and education and for the provision of practical solutions to real-world challenges.

### **Trinity Research Centres**

# TRINITY ACADEMIC GASTROENTEROLOGY GROUP RESEARCH CENTRE (TAGG)

The Trinity Academic Gastroenterology Group (TAGG) is an active research and clinical team working collaboratively at Tallaght Hospital, St James's Hospital Dublin and Trinity College Dublin. TAGG is affiliated with Trinity Health Ireland (THI). Our vision is of excellence and innovation in service delivery and research in all fields of gastroenterology. The team is multidisciplinary comprising gastroenterologists, surgeons, medical physicists, nutritionists, nurses, engineers, scientists and allied health professionals. Our principal investigators (PIs) collaborate with national and international colleagues across Europe, North America, Canada and Ireland as well as with small and medium sized enterprises (SMEs) and industry partners.

# TRINITY AGEING RESEARCH CENTRE (TARC) (FORMERLY TRINITY ENGAGE – CENTRE FOR RESEARCH IN AGEING)

Through strategic investment over the last decade, Trinity has developed a strong research capacity in ageing. Over one hundred and ten Trinity researchers are engaged in ageing-related research spanning fields of biology, public health, medicine, informatics, macroeconomics, finance, urban planning, engineering, technologies, globalisation and migration, the law, sociology, business and philosophy. The centre will create a unique hub of ageing-related research that will shape policies and programmes and foster multi-disciplinary collaborations, transforming Trinity from being world class to world leading in this field.

#### TRINITY CENTRE FOR ASIAN STUDIES

The Trinity Centre for Asian Studies provides a structure for multidisciplinary education in Asian Studies and integrates the university's actions in developing Chinese, Korean and Japanese Studies as well as other regionally-based scholarship and pan-Asian research. Located in the School of Linguistic, Speech and Communication Sciences, the centre acts as a focal point for Asian Studies and creates cross-College opportunities for collaboration and outreach. It's teaching and research focus on contemporary society and culture, language learning, diaspora studies, and comparative studies including Asian-European studies. The centre's aim is to promote Asian Studies nationally and internationally, and in so doing, to be the leading knowledge centre in Ireland for policy-makers, business leaders and scholars in the field. The centre organises regular seminars and public lectures.

#### TRINITY CENTRE FOR BECKETT STUDIES

The Trinity Centre for Beckett Studies was founded in 2017 and promotes and co-ordinates research activity in Beckett studies amongst staff and postgraduate students at Trinity College Dublin. The centre builds upon both the Samuel Beckett Summer School – which began in 2011 and was a joint venture between the School of English and the School of Creative Arts – and the Samuel Beckett Laboratory. The centre is the only research centre of its kind in Ireland. It places Trinity College at the forefront of academic research, artistic practice, and public engagement involving the works of one of its most famous alumni, and will help the university capitalise upon the Library's significant holdings of Beckett manuscripts. The Library has the greatest collection of Beckett's correspondence and its Beckett collection has been an area of significant investment

by the Library over several years. The centre encourages interdisciplinary approaches to Beckett and is also involved in a number of international collaborations.

#### Director

Nicholas Johnson, B.S. (NORTHWESTERN), PH.D.

#### TRINITY CENTRE FOR BIBLICAL STUDIES

The Trinity Centre for Biblical Studies continues Trinity's interest and investment in biblical studies over the past four centuries by providing a focus for a range of research activities and projects in this discipline. In keeping with the growing breadth of biblical studies as a discipline and the range of expertise and interests at Trinity, the centre promotes research in a variety of areas, including the study of the Bible in its ancient contexts, its interpretation in late Antiquity and the Medieval period, and its reception in the visual and performing arts. The centre facilitates and disseminates research in these areas by drawing upon the expertise of its staff and associates within and beyond Trinity, as well as the rich resources of Trinity College's library and the Chester Beatty library.

# TRINITY CENTRE FOR BIODIVERSITY AND SUSTAINABLE NATURE-BASED SOLUTIONS (NATURE+)

The Trinity Centre for Biodiversity and Sustainable Nature-based Solutions (formerly the Trinity Centre for Biodiversity Research) was launched in December 2008 by Sir David Attenborough. Based in the School of Natural Sciences, the centre brings together researchers from across Trinity College Dublin to provide a broad base of expertise in a range of biodiversity research areas, enabling research to cross traditional disciplinary boundaries to encompass biological, social, economic, legal and political aspects of biodiversity. From basic blue skies research to practical solutions and applications for stakeholders, we use state of the art and innovative approaches to deliver excellence in biodiversity knowledge for capacity building and increased public awareness. This exciting combination of researchers allows novel synergistic collaborations that are crucial for the development of national, European and international policy, and strategic recommendations to ensure global environmental sustainability.

#### Director

Marcus Collier, B.A. (N.U.I.), M.SC. (N.U.I.), PH.D. (N.U.I.)

#### TRINITY CENTRE FOR BIOMEDICAL ENGINEERING

The centre was established in May 2002 and has principal investigators drawn from the Schools of Engineering, Medicine, Dental Science and Natural Sciences in Trinity College, and from the Royal College of Surgeons in Ireland, Dublin City University, and University College Dublin. The aim of the centre is to facilitate the development of bioengineering research and to support interdisciplinary teaching initiatives in the field of biomedical engineering. The specific areas of research focus at present are: biomechanics and mechanobiology, tissue engineering and regenerative medicine, neural engineering, medical devices, and advanced drug delivery.

on cancer projects as part of a vibrant interdisciplinary research community. Research in cancer incorporates basic biomedical and biomolecular research based at the Trinity Biomedical Sciences Institute and the Institute of Molecular Medicine, along with clinical research based in the teaching and affiliated hospitals, including St. James's, Tallaght, Coombe Women and Infants University Hospital and Our Lady's Hospital for Sick Children, Crumlin. The centre is part of the Trinity St James's Cancer Institute [TSJCI], which is a member of the Organisation of European Cancer Institutes [OECI].

#### TRINITY INSTITUTE OF CARDIOVASCULAR SCIENCE

In June 2004, Trinity College established the Institute of Cardiovascular Science, a partnership between the College and its two main teaching hospitals: Tallaght Hospital and St James's Hospital. The aims of the institute are to increase the understanding of cardiovascular disease in order to improve and develop prevention, diagnostic, treatment and rehabilitation strategies. While the main focus of the institute is research; it is also engaged in the development and delivery of education and in co-ordinated service development. It offers an M.Sc. in Cardiology on the St James's campus.

# TRINITY CENTRE FOR DIGITAL BUSINESS

The Trinity Centre for Digital Business is to conduct research in all aspects of digital mediation and interactions between businesses and people. Its purpose is to showcase and galvanise inhouse expertise, facilitate cross-disciplinary collaboration, and increase research funding opportunities through industry sources and possibly research grants applications. The research centre intends to study how digital technologies are transforming key area of business research topics such as entrepreneurship (e.g. digital start-up, share economy), strategy (e.g. digital business models), consumer behaviour and marketing (e.g. digital advertising and data mining), business ethics (e.g. data privacy), finance (e.g. fintech) and human resources (e.g. management of millennials).

#### TRINITY CENTRE FOR THE ENVIRONMENT

Founded in 1979, the Trinity Centre for the Environment (TCE) acts as a focus for interdisciplinary research in environmental sciences. It provides a diverse range of laboratory and field support to a large community of academics and researchers. The TCE provides critical research infrastructure for the School of Natural Sciences, and acts as a focus for visiting academics and researchers. The centre is managed by the director, who also chairs the management committee comprising the resident members, as well as representatives of the student body and School. It is located in the former anatomy building in the heart of College.

#### TRINITY CENTRE FOR ENVIRONMENTAL HUMANITIES

The centre focusses on the history of human agency in planetary change. We promote multidisciplinary research in a collaborative work space, and provide teaching at undergraduate and postgraduate levels both within the School of Histories and Humanities in Trinity, and beyond. Main fields of research are the history of the marine and coastal environments, climate, and wetlands. We have expertise in methodologies such as digital humanities, mixed methods (quantitative/qualitative), geographical information systems, research on research, and outreach and inter-sectoral communication. We house a number of international (H2020, ERC) and national (IRC) research projects.

## TRINITY FUTURE CITIES: CENTRE FOR SMART AND SUSTAINABLE CITIES

The centre fosters research-led innovation in smart approaches to optimising cities' resources, reducing their environmental impact, and improving citizens' quality of life within urban environments. Its research is multi-disciplinary, including researchers from computer science, statistics, information systems, engineering, natural sciences, social science, chemistry, English, nursing and midwifery, business and law. The centre provides a focus point for leveraging existing activities and collaborations, as well as seeking new opportunities for funding.

#### TRINITY CENTRE FOR GENDER EQUALITY AND LEADERSHIP

The Trinity Centre for Gender Equality and Leadership (TCGEL) was established in 2017 to deliver the university's strategic objectives to advance gender equality. Recognising the work done by WiSER (Centre for Women in Science and Engineering Research) to recruit, retain, return and advance women in academic science, engineering and technology, its remit has been extended to all disciplines and support areas across the university through TCGEL. The centre seeks to deliver sustainable structural and cultural change, and a working environment which exemplifies good practice and equality throughout, building on the success of the Athena SWAN Bronze Institutional Award.

# TRINITY IMPACT EVALUATION UNIT (TIME)

The Trinity IMpact Evaluation Unit (TIME), is a research centre based in the Department of Economics in Trinity's School of Social Sciences and Philosophy. TIME brings together researchers in economics, development practitioners, and policy makers in a collective effort to estimate the impact and understand the underlying mechanisms of development projects, aid, and investments. TIME contributes to the global debate on development. Our vision is to provide strong evidence to inform policy, so that better investments with a real impact on the development process can be made. The central objective of TIME is to produce research of the highest academic standard while, at the same time, facilitating the dissemination of research more widely and providing training to development practitioners on rigorous methods of impact evaluation. The current portfolio of TIME projects spans a wide set of relevant issues, such as financial products and technology, health and nutrition interventions, community engagement and urban pollution, solar lighting and education, organised crime and media bias. TIME has entered a partnership with Irish Aid/Department of Foreign Affairs and Trade (DFAT) which will help establish Ireland as a key player in international development research in Europe. The partnership with Irish Aid/DFAT provides support for an annual workshop in development economics and a summer school on impact evaluation which focuses on developing the skills

required to conduct, evaluate and manage programmes on impact evaluation. The workshop which attracts leading development economists from across the globe, examines issues such as climate change, conflict and migration.

#### HAMILTON MATHEMATICS INSTITUTE

The Hamilton Mathematics Institute fosters mathematics by creating an environment in which researchers can meet, collaborate, discuss and explain the frontiers of fundamental mathematics and related disciplines to each other. It also facilitates interaction between leading researchers and talented young people, appoints researchers working on fundamental aspects of mathematics and theoretical physics who are funded by local and international funding agencies, organises international workshops and conferences, public lectures to communicate the challenge and excitement of fundamental research and engages in dialogue both with other disciplines and society at large.

# TRINITY CENTRE FOR THE STUDY OF IMMUNOLOGY (TCI)

The area of immunology is one of the fastest-growing disciplines in biomedical research and is a key component of the biotechnology industry. The aims of the TCI are to promote the development of immunology in College; to foster links between immunologists within College; to provide a focus for the raising of funds; and to co-ordinate present and future teaching in immunology. This initiative builds on what is already a strong aspect of research in College, the aim being to build on Trinity's reputation as one of international renown for research in the field of immunology.

#### TRINITYHAUS RESEARCH CENTRE

TrinityHaus was formed in 2008 to provide innovative solutions for buildings, neighbourhoods and cities. It is staffed by a diverse range of researchers with professional and academic expertise in architecture, computer science, engineering, management science, and soil science. Current projects include a HRB research project into design of dementia friendly hospitals and COST Action TU1204 into 'People friendly cities in a data rich world' with twenty-eight European partners resulting in urban living laboratory studies carried out in Dublin, Glasgow, Lucca, Reykjavik and Vilnius.

# CENTRE FOR INNOVATIVE HUMAN SYSTEMS

The mission of the centre is to foster innovative design and organisational change to improve performance and reduce risk in critical systems – in a variety of domains, including transport, manufacturing, resources, health and other services. It is multi-disciplinary – spanning individual, group and organisational activity; technologies, information systems and knowledge; operational processes and business processes; system performance. The role of the centre is to foster an effective innovation cycle working with industry and other partners through research, education training, and consultancy.

This centre was established to promote and facilitate the study of Irish art and architecture, and began operations in October 2003. Located in the renovated Provost's House Stables, it serves as a focus for academic research and is responsible for organising seminars, conferences and postgraduate courses, including a taught M.Phil. specialising in Irish art history. It also has responsibility for a visual archive. By exploiting the exceptional resources available in the centre of Dublin, both in Trinity College and in the major cultural institutions nearby, the centre builds on the Department of the History of Art's existing achievements in the field of Irish art.

#### TRINITY CENTRE FOR LITERARY AND CULTURAL TRANSLATION

The centre was established in 2013 in order to develop, promote and support literary translation in Ireland. It is a partnership, bringing together the School of Languages, Literatures and Cultural Studies in Trinity College Dublin with Literature Ireland, formerly Ireland Literature Exchange (ILE). Historically this initiative was the result of Trinity College's commitment through the Creative Arts, Technologies and Culture Initiative to create a dynamic network of interconnectivity in education, research, creative practice and entrepreneurship at the heart of the city. Now, the centre acts as a focal point for all translation-related research and outreach in Ireland.

#### TRINITY CENTRE FOR MEDIEVAL AND RENAISSANCE STUDIES

The centre promotes interdisciplinary collaboration between scholars working in the fields of Medieval and Renaissance studies both within and outside Trinity, with a view to raising the profile of Medieval and Renaissance studies at a national and an international level. The centre organises conferences, seminars and public lectures on a regular basis, and also runs a number of international research networks: early modern gardens; Chaucer in context; Byzantine studies; early modern women in Europe; Irish conflict archaeology; and the arts and politics of virtue in Medieval and early modern Europe. It has a refereed publication series, 'Court cultures of the Middle Ages and Renaissance' (published by Peter Lang). It has developed close ties with a number of other institutions, works closely with the Chaucer Hub, the Society for Renaissance Studies and Medium Aevum and is a member of CARMEN (the Confederation for the Advancement of Research through a Medieval European Network).

# TRINITY CENTRE FOR MEDITERRANEAN AND NEAR EASTERN STUDIES (MNES)

The aim of the centre is to investigate how, at local, national and international level, peoples, ideas, and practices in these two highly important cultural zones have lived together in peaceful and hostile relationships; and how the multiple identities thus negotiated and given expression have led to either conflict or accommodation. Combining literary, historical, philosophical, archaeological and scientific methodologies, the core of the centre's research activities brings together scholars, both local and international, from classics and archaeology, biblical, New Testament and Jewish studies, philosophy and history. The Plato Centre is a constituent member of MNFS.

#### TRINITY CENTRE FOR SOCIAL INNOVATION

The Trinity Centre for Social Innovation, which was formerly the Trinity Centre for Nonprofit Management, has as its mission to create a TCD space that fosters research on social entrepreneurial action, generating opportunites to study impactful engagement in society and to disseminate that research to all stakeholders. The centre will create opportunities for individuals and teams across College and beyond to work together towards generating greater impactful research-led engagement in all aspects of their work and research. Taking the three core pillars of research, teaching, and incubation, the Trinity Centre for Social Innovation will seek out, facilitate, support and promote the impactful engagement interactions that occur and actively endeavour, through the centre's overall research agenda, to investigate the diversity, complexity and scale of impact created.

#### TRINITY CENTRE FOR PSYCHOLOGICAL HEALTH

The centre brings together a critical service-focused research capacity to develop, implement and evaluate psychological interventions to enhance health and well-being. The centre fosters research-led innovation to help services optimise client quality of life and advance the science of clinical practice. Through external collaborations and with innovative models of working with

service users, the centre is uniquely positioned to meaningfully engage with society in addressing core issues related to enhancing well-being.

Director

David Hevey, B.A. (N.U.I.), M.A. (N.U.I.), PH.D.

### TRINITY CENTRE FOR RESEARCH IN I.T. IN EDUCATION (CRITE)

The Centre is a collaboration between the School of Education and the School of Computer Science and Statistics. Its research agenda is to explore how technology can be used to enhance teaching and learning, and it does so largely through the lenses of constructionism and social constructivism. A pragmatic action research approach is followed and a guiding principle is that the field of technology enhanced learning needs to move beyond boutique interventions and tackle core issues arising in the transformation of learning in a systemic and sustainable fashion. Through its partnership with the Trinity Access Programmes the centre has a particular focus on working with schools in areas of socio-economic disadvantage.

# TRINITY CENTRE FOR TRANSPORT RESEARCH AND INNOVATION FOR PEOPLE (TRIP)

The aim of TRIP is to initiate and develop interdisciplinary research in transport focusing on a set of theme areas; balancing transportation supply and demand/need, the use of information and communication technologies (ICT) in transportation, environmental impacts of transportation, safety and quality of life.

Director

Margaret Mary O'Mahony, B.E. (N.U.I.), M.A., D.PHIL. (OXON.), C.ENG., FIEI, MICE, F.T.C.D. (2001)

#### TRINITY CENTRE FOR URBAN AND REGIONAL STUDIES

The centre is a joint initiative of the Departments of Economics and Geography in order to meet the need for an expanded research programme in urban and regional development and the built environment. The centre addresses a wide spectrum of economic, social and environmental issues. In addition to research, the centre organises conferences, seminars and meetings relating to urban and regional affairs. In particular, it attempts to cater for the needs of communities and organisations in the Dublin area.

the School of Histories and Humanities with convergence on three areas in particular: the Thirty Years War and the wars in Britain and Ireland in the seventeenth century; the Revolutionary and Napoleonic Wars, 1792-1815; and the era of the two world wars, 1914-1945. While the cultural history of war is a special strength of the centre, the study of all aspects of war – from military operations to politics, society and the economy – is supported.

Director

Patrick Houlihan, B.A. (PENN. STATE), M.A. (CHIC.), PH.D. (CHIC.) Associate Director Fergus Robson, B.A., PH.D.

#### IRISH CENTRE FOR EUROPEAN LAW

The centre seeks to promote the knowledge, understanding and good practice of EU law and the law of the European Convention on Human Rights. To this end, the centre organises conferences, seminars and refresher courses on substantive areas of Union and Convention law as well as on the Union's institutional framework and on the interrelationship between the Union legal order and that of its Member States.

Chair

The Hon. Mr John D. Cooke, Retired Judge of the High Court Director Stephen Brittain, Barrister-at-Law

## TRINITY MEDIEVAL HISTORY RESEARCH CENTRE

The centre is designed to promote research in the history and archaeology of Ireland and Europe in the Middle Ages. It provides facilities for the interaction and exchange of ideas among postgraduate students, postdoctoral researchers and staff (from inside and outside College), while also furnishing a forum where relevant research from other disciplines can be aired and discussed from a historical viewpoint. In addition to hosting externally-funded projects, the centre also offers a taught M.Phil. in Medieval History.

# TRINITY CENTRE FOR PEOPLE WITH INTELLECTUAL DISABILITIES (TCPID)

The Trinity Centre for People with Intellectual Disabilities is one of Trinity College Dublin's most innovative initiatives. Formerly known as the National Institute for Intellectual Disability, this Trinity centre promotes the rights of people with intellectual disabilities with its mission of inclusion through education, research and pathways. Since its inception in 2004, it has aimed to create a paradigm shift in opportunity, policy and service provision with the objective to enable people with intellectual disabilities to be empowered and become active participants in Irish society. This work is aligned within the overarching framework of the 2006 United Nations Convention on the Rights of Persons with Disabilities. From an educational perspective, the two-year programme, entitled the 'Certificate in Arts. Science and Inclusive Applied Practice' provides

adults with an intellectual disability an opportunity to experience tertiary level education and the richness of life as a college student. Following ten productive years as part of the School of Social Work and Social Policy, Trinity Centre for People with Intellectual Disabilities moved to the School of Education in October 2014, where it has been fully integrated into the core teaching and learning activities and research programme of the 'Inclusion in Education and Society' research group.

Director (under the remit of the Inclusion in Education and Society research group)

# TRINITY CENTRE FOR EXCELLENCE IN AGEING AND INTELLECTUAL DISABILITY (TCAID)

TCAID aims to address the inequalities and health disparities that occur for people with intellectual disability as they age. It achieves this through rigorous engaged research on the physical and social determinants of health and wellbeing, and through translating its findings to inform models of policy and practice. TCAID is underpinned by the Intellectual Disability Supplement to TILDA (IDS-TILDA), which is internationally recognised as the first national longitudinal parallel study on the ageing, health and wellbeing of older adults with an intellectual disability. TCAID is also creating an innovative and progressive teaching environment, in order to contribute to the preparation of future practice leaders, working with government, intellectual disability service providers as well as people with an intellectual disability and their families. # TRINITY OSCAR WILDE CENTRE FOR IRISH WRITING

The centre was opened in January 1998 as the teaching and research centre for both the M.Phil. in Irish Writing and the M.Phil. in Creative Writing. Devoted to writing and research, the centre's main focus is on providing an academic yet lively environment for students of both M.Phil. graduate courses. As an interface between College and community, the centre plays a key role in bringing the achievement and ambition of writers and scholars to the attention of a wider public both at home and abroad.

#### Research Institutes and Centres

### TRINITY RESEARCH IN CHILDHOOD CENTRE (TRICC)

The centre's mission is to integrate and promote research in all aspects of childhood, and in children's biological, psychological, cognitive, and socio-emotional development and well-being across College. The centre builds on and takes forward the work of the former Children's Research Centre (CRC), and the Trinity Children's Research Forum, in establishing a wide network of researchers across Trinity schools and faculties. The centre incoporates both the functions of the CRC and the Forum to provide a new organisational structure within Trinity to enable capacity building with respect to the production of research of international reach. The aim of TRICC is to promote Trinity as a centre of excellence in childhood research via the production of high level research and gathering of knowledge and skills to contribute to the improvement of children's health, wellbeing, development and learning. TRICC is also home to the Children's Research Network, bringing together researchers from many disciplines across the island of Ireland.

# Representation of the University in Seanad Éireann

By the provisions of the Seanad Electoral (University Members) Act, 1937, the University of Dublin became a constituency for the election of three members of Seanad Éireann.

The above Act prescribes that every person who is a citizen of Ireland, is not subject to any legal incapacity and has received a degree (other than an honorary degree) in the University of Dublin, or has obtained a foundation scholarship or a non-foundation scholarship in the said University and (in any case) has attained the age of eighteen years, shall be entitled to be registered as an elector in the Register of Electors for the University of Dublin constituency.

The Register of Electors is published annually on 1 June. Any person who is not entered on the electors' list, and claims to be entitled to be so entered, and all graduates and scholars who fulfil the above-mentioned conditions, may obtain forms of claim to be registered as university electors from the Academic Registry, Trinity College. All correspondence should be addressed to the Academic Registry.

Trinity Development and Alumni is administered by Trinity Foundation, an independent charity (CHY10898) established in 1994, and charged with responsibility for, and exists solely to support, the development (fundraising) and alumni relations activities of Trinity College Dublin.

Trinity Development and Alumni was established with the objective of raising funds to support the development of Trinity College Dublin. It plays a vital role in ensuring that Trinity College has the financial resources to remain a leading, internationally recognised university. In the nine month period, 1 October 2019 to 30 June 2020, Trinity Development and Alumni was successful in raising funds (cash and pledges) of €16.9 million from 2,388 donors.

The Trustees of Trinity Foundation join the Provost, Fellows and Scholars of Trinity College in thanking all supporters of the University. Significant philanthropic donations, which have been used to support College activities, were received and this funding is a testament both to the quality of the projects and to the generosity of our dedicated supporters.

Special thanks are due to those who donated through the U.K. Trust for Trinity College Dublin, the University of Dublin Fund in the U.S.A. and all alumni who contributed to the Trinity Annual Fund.

See also Library of Trinity College for gifts of books and materials.

# Trinity College Dublin: A Short History

Trinity College Dublin was created by royal charter in 1592, at which point Dublin Corporation provided a suitable site, the former Priory of All Hallows. Its foundation came at a time when many universities were being established across western Europe in the belief that they would give prestige to the state in which they were located and that their graduates, clergy for the most part, would perform a vital service as civil administrators. By the 1590s England had two long-established universities, each with an expanding group of colleges, and Scotland four. The idea of a university college for Ireland emerged at a time when the English state was strengthening its control over the kingdom and when Dublin was beginning to function as a capital city. The group of citizens, lay and clerical, who were main promoters of the scheme believed that the establishment of a university was an essential step in bringing Ireland into the mainstream of European learning and in strengthening the Protestant Reformation within the country.

The organisational design of the new institution was influenced by Oxford, Cambridge and continental precursors, but from the beginning it was an autonomous corporation governed by 'provost and fellows', committed to teaching and to scholarship, the first and (as it turned out) only college of the degree-awarding University of Dublin. The College site, lying some distance east of the small walled city, was far larger than the small community of fellows and students required, and the first brick buildings of the 1590s occupied only a small part of what is now Front Square. But from the beginning the College's library was a priority, and the energy with which early Trinity scholars (notably Luke Challoner and James Ussher) assembled the initial collections of books marked Trinity out from other sixteenth-century foundations. Many of its early graduates, well grounded in philosophy and theology, proceeded to clerical ordination in the state church, the Anglican Church of Ireland.

During the next fifty years the community grew: endowments, including landed estates, were secured, new fellowships founded, a curriculum devised and statutes determining internal governance were framed. The international reputation of Ussher, one of its first alumni, helped place the College on the European map. But its existence was gravely threatened at two points in the seventeenth century, first when central government collapsed in the wake of the 1641 rising, followed by the temporary eclipse of the Church of Ireland in the wake of Cromwell's victories; secondly, with the roller-coaster events of 1689-91, when Tyrconnell's short-lived Catholic government closed the university, expelled the fellows and students, and converted the buildings into a Jacobite barracks. The library however was spared.

Despite such dramatic interruptions, the College had become a much more substantial institution by the end of the seventeenth century. Many of the early buildings had recently been replaced, and a number of the fellows, notably William Molyneux and St. George Ashe were centrally involved in the Dublin Philosophical Society, a small body that was closely in touch with the 'new learning' in London.

The following century was an era of political stability in Ireland, thanks to the firm monopoly on political power held by the land-owning and largely Church of Ireland upper class, and the College was in material terms a great beneficiary from this state of affairs: its landed income grew very substantially in the course of the century and it enjoyed the recurring patronage of the Irish parliament across College Green, evident in the scale and quality of its new buildings. The first structure dating from this era was a massive new library (1712-32), initiated while George Berkeley, another celebrated alumnus of the College, was librarian; its size, far greater than then required, reflected long-sighted enlightenment ambitions, and it was followed by a string of other classical buildings on the western half of the campus: the Printing House (1733-4), the West Front (1752-9), the Dining Hall (c.1760-65), and the Provost's House (1759-61). During the second half of the century Parliament Square slowly emerged, shaped by the Public Theatre (1777-86) and the new Chapel (1787-98), which were designed from afar by George Ill's

architect, Sir William Chambers. The great building drive was completed in the early nineteenth century by the residential quadrangles of Botany Bay and New Square.

These buildings reflected a seriousness of purpose absent from English universities of that era. The fellows were generally hard-worked, both as teachers and administrators; the general curriculum was adapted, albeit slowly, and most of the outstanding Irish politicians and writers of the eighteenth century (Swift, Burke, Goldsmith, Grattan, Fitzgibbon, Tone) were Trinity graduates, the influence of their university discernible in their writings and speeches.

Since the early days, the power of College provosts to re-shape the university had been very considerable: most of them were ordained clergy, but two eighteenth-century laymen who held the office stand out: Francis Andrews (1758-74), whose chief monument is the sumptuous Provost's House, but who also encouraged science with his endowment of a chair of astronomy and an observatory; and his successor, John Hely-Hutchinson (1774-94), who was an enlightened lawyer but an adversarial public figure: he oversaw the foundation of chairs of modern languages and widened the composition of the student body; Catholics were permitted to enter and take degrees from 1793. Not for the last time, political controversy in the world outside came to be powerfully reflected among the student body in the lead-up to the 1798 rebellion, in which ex-students were involved on both sides, most famously Wolfe Tone.

The undergraduate curriculum was a prescribed general course, embracing classics, mathematics, a limited exposure to science and some philosophical texts. This began to change from the 1830s when it became possible to specialise for degrees with honors, or moderatorships, in mathematics, in ethics and logic, and in classics. In 1851 a moderatorship in experimental science was added (embracing physics, chemistry and mineralogy at first, and later geology, zoology and botany, which in 1871 was split into two moderatorships, natural and experimental science). And new humanities disciplines emerged as moderatorship subjects at the same time – in history and modern literature.

The professional schools were also transformed in the course of the nineteenth century: divinity had been taught since the foundation of the College, but this was now systematised. The Law School was reorganised, and medical teaching placed on a much stronger footing, helped by the emergence early in the century of a group of medical teachers who gained international eminence (notably James Macartney, Robert Graves and William Stokes), practitioners who divided their time between clinical teaching and the lecture theatre. The Engineering School was established in 1842 and was one of the first of its kind in the English-speaking world. Student numbers overall increased in the post-Waterloo generation, and the vibrancy of the institution is evident from the variety of associations and clubs in the city that were dominated by the university. The *Dublin University Magazine* (1833-82) became one of the most widely circulating monthly reviews in Ireland or Britain, conservative in its politics, highly original in its literary coverage and on occasions quite subversive, not unlike its original College sponsors.

Between 1830 and 1900 twenty new professorial chairs were founded, and individual scholarship flourished as never before: in mathematics and science William Rowan Hamilton, the Lloyds, George Salmon, George Fitzgerald and John Joly spent most of their working careers based in the College, and in the humanities it was the classicists who led the field in terms of international celebrity.

The expansion of the College's teaching activity during the nineteenth century was evident in the changing campus landscape, most strikingly with the Museum Building (1853-7), designed to accommodate civil engineers and geologists. By the late nineteenth century the College had gone some way to fill the ancient site with an ensemble of academic buildings and recreational facilities, museums and terraces of student residences. And new buildings to the east of the College Park reflected the increasing importance of science and medicine in College priorities. However purpose-built science laboratories came late; it was thanks primarily to the philanthropy of the Guinness family that some really fine architecture began to grace the East End when the Physics and Botany buildings appeared c.1903-06.

Behind its high iron railings the Victorian university had become something of a self-contained community, out of sympathy with the increasingly nationalist city and focused on an expanding

British empire for opportunities for its graduates. During the sixty-year war of attrition between British governments and the Catholic hierarchy over higher education policy in Ireland, Trinity struggled to accommodate itself to what was a changing Ireland. Between 1873 and 1908 a variety of schemes were proposed that would have made the College a member of a federated Irish (or Dublin) university; these were strenuously and effectively resisted as threats to its independence. As part of this, the College gradually re-positioned itself to become a non-denominational institution: in 1873 all religious tests (except those connected with the Divinity School) were abolished. However despite this, the fractious struggle to retain the College's separate identity meant that when the battle over Irish higher education was finally resolved in 1908 with the creation of the federal National University, it left a difficult legacy for the defenders of the older institution.

Power within the College was slowly changing too. The creation in 1874 of the University Council, a body representative of non-fellow professors, gave control over the shaping of courses and appointments to the teaching departments, and in 1911 membership of the College Board itself was somewhat widened. But power remained with the senior fellows until the provostship of Albert McConnell (1951-74), who managed to widen the collegiate governance of the College and initiate major administrative reform. More momentously, women students became part of the College: admitted for the first time in 1904, within a decade they amounted to 16 per cent of the student body. But it was not until 1958 that the first female professor sat on the Board, and 1972 before female students could reside within the campus (a women's hall of residence had however been established in 1908). In 1986 women accounted for more than half of the full-time student body, and have retained that ascendancy ever since.

The First World War marked a general turning point in the College's fortunes, the human cost recognised in the hall of honour (1928), erected in Front Square. The Easter Rising of 1916 had engulfed the College environs, and Trinity was lucky to escape serious physical damage. However wartime inflation and the drastic erosion of its assets threatened the College's peacetime future. In the new Free State that emerged after the War of Independence in 1922, Trinity lacked the benign support of government that it had always enjoyed, and the new national administration, financially weak and recovering from civil war, had more pressing priorities. Therefore, at a time when the newer universities in Britain were growing in strength and prestige, Trinity found itself without the revenues required to advance research and scholarship in what was an increasingly science-centred world.

Student numbers however held up well in the inter-war period, but with very limited philanthropic support and none from the state, Trinity's capacity to develop was severely constrained. Some new disciplines were introduced at little cost, notably degree courses in commerce, economics and politics, and the first night-school diplomas, ranging from art history to public administration, were very successful. But it was only after the end of the Second World War that the university once again sought financial support from government; it was promptly given. That modest agreement in 1947 marks the beginnings of Trinity's transition towards becoming a large state-funded university, although this was not apparent until the 1970s. In the meantime, cramped by continuing church restrictions on Catholic attendance, the College increased its enrollment of students from Britain and the United States at a time when overall numbers were falling below pre-war levels. In some years around 1960, nearly half the student body was coming from outside Ireland (north and south).

The overall student population remained small until the mid-1960s, when the cap was raised by a third to 4,000. At that same point the Irish government became involved in capital investment within the College, sharing the costs of building a new library with the College's fundraisers. In the same period private philanthropy, again led by the Guinness family, and international philanthropic trusts, notably the Wellcome, were dramatically improving the stock of medical and science buildings, and enabling the development of new disciplines such as biochemistry, genetics and preventive medicine.

The real growth in student numbers began in the 1970s, reflecting the introduction of free second-level education and of third-level student grants, the removal of the Catholic episcopal

'ban' (in 1970), the widening career opportunities for women and a stronger underlying economy in Ireland. Trinity's recruitment field became much more heavily concentrated within the Republic of Ireland, and College policy in the early 1970s was to bring down the non-Irish proportion to 15 per cent. The new 'massification' of higher education took physical form with the construction of a large Arts and Social Sciences Building on the south side of the campus (opened in 1978). This was almost entirely funded by the national exchequer.

The diversification of the curriculum continued in the last quarter of the century, with the mushroom growth of information science and computing, the medical therapies, nursing, and teacher training, the latter developed in conjunction with the three Dublin teacher-training colleges with which Trinity had become associated in the 1970s. The College also became involved in the oversight and accreditation of technical degree courses delivered across Dublin by the Vocational Colleges (until the Dublin Institute of Technology (now Technological University Dublin) was established as an independent degree-awarding body). But a more generic change was the huge expansion of postgraduate activity, both of taught courses and research degrees, many of these closely related to the professions. And by the 1990s post-doctoral researchers, scattered across all disciplines, had become a new segment of the academic community, reflecting the scale and complexity of research teams and the opportunities for research funding at national and European levels.

In the new scheme of things, as the university came to depend on the state it became publicly accountable. Oversight of the universities became the responsibility of the Higher Education Authority, established as a statutory body in 1971, its role and powers being greatly extended by the 1997 Universities Act. The state by the late 1990s had become the principal source of the College's revenues, both through the direct grant and as a consequence of the state's adopting a 'free fees' policy for undergraduate tuition. But despite the ever-increasing involvement of the state in directing higher education, the contribution of the state grant to the College's total income began to decline in the following decade, falling to 27 per cent by 2010 and actually counting for less than the College's research income (much of the latter coming of course from Irish state agencies). Research income from all sources had contributed a mere one million pounds in 1981, whereas in 2009 it peaked at just under 90 million euro.

There have been two major internal waves of academic reorganisation over the last fifty years: the incorporation in 1968 of all academic departments into six faculty units, headed by deans, and the integration of academic departments into schools in 2004-08, with in turn a reduction in the number of faculties to three. Faculty deans have now come to play a strategic role in the management of the university. These changes since the 1960s facilitated the incorporation of many new teaching departments (including Business Studies, Dentistry, Drama and Film Studies, History of Art, Linguistics, Mechanical and Manufacturing Engineering, Pharmacology and Pharmacy, Occupational Therapy, Physiotherapy, Psychology, Sociology and Statistics). And the recent programme of academic restructuring facilitated the establishment of five large transdisciplinary research institutes in areas of particular international strength, one focusing on Adaptive Nanostructures and Nanodevices (CRANN), one on Neuroscience (TCIN), one on International Integration Studies (IIIS), one on research in the Arts and Humanities (the Trinity Long Room Hub), and the Trinity Biomedical Sciences Institute (TBSI).

In the wake of the huge growth in Irish student numbers attending the College, there was a new commitment to internationalisation in recent years and a move back towards the recruitment of international students, initially in the field of medicine, latterly across all disciplines, with a particular focus on Asia. The College was an early supporter of undergraduate exchange programmes (notably the E.U.-supported Erasmus/Socrates scheme), which have been in operation since the 1960s, and it has long been a favoured destination for U.S. visiting students. By 2019-20, 10.3 per cent of the student population came from other E.U. countries (including Iceland, Norway and Switzerland, excluding Ireland), 5.8 per cent from the United States of America, and 12.5 per cent from other parts of the world (not the E.U., Ireland or the United States of America); in all, the College's population of 18,941 registered undergraduate and postgraduate students was drawn from some 120 nationalities (outside of Ireland).

# Trinity College Dublin - a short history

In 1993 the College also began to boost recruitment from within Dublin city by developing a series of access programmes (TAP). The aim was to raise the number of young adults from socio-economic and ethnic groups underrepresented in higher education coming to university. At the same time, new efforts were made to recruit mature students. In 2019, approximately 25 per cent of Irish entrants to the university were 'non-traditional' students, comprising young adults from under-represented socio-economic groups, students with a disability, and mature students.

Another major change in the second half of the twentieth century was in the composition of the academic staff: it became progressively more international. Until the 1930s the great majority had been doubly indigenous, being Irish-born and Dublin University graduates, including many who returned, like Ernest Walton who came back from Cambridge in 1934 and shared the Nobel Prize for Physics in 1951, arising out of his work two decades earlier on splitting the atom. The dominance of indigenous graduates in the academic community had all but disappeared by the 1980s, and the increasingly cosmopolitan character of the College helped drive change in the curriculum, in research, and in the general appetite for innovation across the institution. And there was meanwhile an utter transformation in the scale of the academic community, from the modest group of 125 who had made up the total academic staff in 1950.

In terms of physical development since that time, the College contributed to the small stock of fine modernist architecture in Dublin, beginning with the Berkeley Library (1965-6), the Arts Building (1977-8), the O'Reilly Institute (1989), the Dental Hospital (1995-8), the Ussher Library (1999-2001) and the Long Room Hub (2008-10). But by 2000 the College had begun to burst out of its campus home, what with a huge expansion of its halls of residence off campus and with Nursing, Drama, and the Social Sciences putting down new roots a short distance away. But the most ambitious construction project in the College's history, the Trinity Biomedical Sciences Institute in Pearse St (2008-11), has become the strongest physical statement of the College's outward movement. The opening of this development, which now houses five academic schools, coincided with the development of the Trinity Academic Medical Centre, an alliance between the university and its two main teaching hospitals, St James's and AMNCH, Tallaght. And west along Pearse St, the Science Gallery was opened in 2008 as part of the new Naughton Institute: within a short time the Gallery has become a highly successful centre for 'science outreach' and artscience collaboration, exploiting to the full the potential for creative interaction between college and capital city. Strategic redevelopment along Pearse St is continuing, notably with the construction of a new Business School, completed in 2019, which will be followed by a major new student residential block that is being built further west along Pearse St on the campus perimeter. And now, along at the eastern end of Pearse St, the College is playing a lead role in the development of the Grand Canal Innovation District, a hugely ambitious project that when it is complete promises to transform the spatial configuration of the university.

# Buildings of Trinity College Dublin

The architectural character of Trinity derives largely from its role as a city-centre metropolitan college. It was Dublin Corporation, for instance, that granted the land in the late 16th century; the principal front of the College makes a monumental contribution to the closest thing which the city has to a public piazza; its extensive College Park is the resort of citizens who otherwise have little or no contact with the College, while its library attracts nearly a million visitors a year. Offering residence to nearly 700 students and staff within the walls (a number to be increased by a further 250 with the completion of a block of new residences along Pearse Street, designed by McCullough Mulvin Architects), it lends vibrant life and business to the city, both by day and by night.

Over the centuries, Trinity—in its buildings and open spaces with their planting and sculpture (by Henry Moore, Alexander Calder, Arnaldo Pomodoro and others)—has risen architecturally to the challenges and opportunities thus offered. In Christine Casey's words "Trinity has the largest group of monumental 18th-century buildings in Ireland and is the most complete university campus of the period in these islands". In the 19th century it erected one of the most distinguished landmarks of pioneering Ruskinian gothic. And its Berkeley Library of the 1960s is a landmark of Irish architectural modernism.

But what of the earlier buildings of this 16th-century university? Where is the evidence of the 12th-century priory given to the College in 1592, or of the College buildings which predated the earliest surviving ones, the Rubrics of c. 1700?

Very little is known of these early buildings, but much could be learned from an archaeological excavation of the site they occupied in Front and Library Squares (most of which has not been built upon). The vestiges must survive a few feet below the cobbles and lawns.

What characterises the buildings and open spaces on these 40 acres of central Dublin?

Most obvious, perhaps, is the division of the site into western (largely classical building, with extensive use of granite and Portland stone) and eastern (mostly 19th-century buildings and later, devoted to the sciences). These two parts lie on either side of the College Park and its playing fields.

The whole site is a deep rectangle, lying east—west, between Nassau Street, Pearse Street and Westland Row. The 18th-century buildings and squares to the west are off the grid of this rectangle, and this has led to some unreconciled difficulties. Buildings such as Physics and Botany (both by W.C. Marshall, 1904— and 1906—) for instance, are aligned with the distant western squares, while nearby buildings follow—at an angle—the line of Westland Row. Ahrends Burton and Koralek's Arts Building (opened 1978) in Fellows' Square solves the problem neatly with a wedge-shaped plan.

The College presents itself to the city in two notable ways. First, the perimeter along Nassau Street is remarkable, with a spectacular quarter of a mile of monumental cast iron railings (John and Robert Mallet, 1842), offering to the city views over the College Park and the Museum Building. More conventionally notable is the West Front (Theodore Jacobsen, 1752–) facing College Green. Withdrawn behind two curved lawns, with statues of Oliver Goldsmith and Edmund Burke (John Henry Foley, 1864 and 1868), this is a flamboyant tribute to the generosity of the mid 18th-century Irish Parliament.

The banishment in the 1820s of Anatomy and its cadavers as far away as possible probably explains the eventual relegation of many of the sciences to the east end. These are housed in some worthy late 19th-century buildings which nod deferentially to the Museum Building across the cricket pitch: such is Chemistry (McCurdy and Mitchell, 1885–) and Zoology and Physiology (John McCurdy, completed 1876). Others such as Scott Tallon Walker's Institutes (Smurfit, Panoz, O'Reilly), along with their Watts and Hamilton Buildings (1988–2000) which follow the line of Westland Row, rehabilitated the street's 19th-century houses and linked these to new, elegant,

austere buildings facing College Park by means of a spatially exciting internal street, in a handsome contribution to both conservation and modernism.

Much more expressive are the extensions (Grafton Architects, 1996, 2005) for Mechanical Engineering to the Parsons Building behind the Pavilion. Here the architects display on a small scale the sculptural intrepidity which made their university buildings in Milan and Peru famous throughout the world.

The Business School (Scott Tallon Walker Architects) was opened in 2019. Like the Biomedical Sciences Institute (RKD Architects, opened 2011), it is a monumental example of the easterly development of the College. Discreet on its north front where planting softens the entrance from Pearse Street, its challenge was to contribute to the coherence of the north-east corner of the College's island site. Conscientiously 'green', with its planted brise-soleil, roof-top solar panels and rain-water salvage and distribution, it offers spectacular views of the College and of the city from roof-top terraces. More significantly, it houses the College board room, reflecting the recent shift of the centre of gravity of the College from west to east.

In the view westwards from the Moyne Institute (Desmond Fitzgerald, 1953), three fine buildings can be seen on the far side of the College Park: the Ussher Library (McCullough Mulvin Architects with KMD Architecture, 1998), the Berkeley Library (ABK Architects, completed 1968) and the Museum Building (Deane and Woodward, 1853–7). Acknowledging the classical and cruciform grid of the western end of the College which was originally determined by the plan of the 12th-century priory, happily none of these was cowed by the pressure of tradition. The Museum Building broke, more dramatically than we can easily realise today, from the overwhelmingly classical language of the mid 19th-century College. Instead of Doric or Ionic or Corinthian (like its recent dull neighbours of the 1830s in New Square by Frederick Darley), Deane and Woodward looked to gothic Venice, and the Alhambra, and to John Ruskin, in a building whose radicalism, polychromy and sculptural variety landed them the commission for the Oxford Museum a few years later. The same independent approach to the architecture of the past led them (1859) to transform the Long Room in Thomas Burgh's Old Library (1712–32) from Augustan splendour to thrilling Romanesque.

The same confidence was shown by the expressed intention on the part of the College in building a new library to be placed between the Museum Building and the Old Library. It was specified that the new building was to be as fine a representative of the 20th century as its neighbours had been of the 18th and 19th centuries. Paul Koralek's Berkeley Library (completed 1967) is universally acknowledged to be one of the finest modern buildings in the country. In 2010, the Long Room Hub, designed by McCullough Mulvin Architects, was established in its setting as the research institute for the Arts and Humanities.

Front Square, extending from the West Front to the Rubrics, is—apart from the success of its individual buildings—the only example in the country of extensive formal planning, involving different buildings related to one another along axes and cross-axes, where they, with planned focal points and the spaces between them, are composed and managed to scenic effect. This is the architecture of Greenwich Hospital or of the Place de la Concorde. This is the only 18th-century example in Ireland of such Beaux Arts planning.

Passing from the spaciousness of College Green through the strategic constriction of Front Gate, the view ahead is suddenly formal and suggestive, and is partly screened by the advance to right and left of the Examination Hall and Chapel (both by William Chambers, 1777– and 1787–). Straight ahead is the focal point of the Campanile (Charles Lanyon, 1852–), beyond which the view of lawns and trees is closed by the warm colour of the brick Rubrics (probably Thomas Burgh, c. 1700).

This glorious mise-en-scène is only partly due to conscious planning: numbers 1–10 and the West Front were intended to form three sides of a square (Parliament Square) to be closed by a range of building on the line joining the present Chapel and Examination Hall. Chambers's Chapel and Examination Hall put paid to an enclosed Parliament Square. The Provost's House (1759–), a neo-Palladian residence, and a Dining Hall (1760–65) soon followed the completion of Parliament Square.

# **Buildings of Trinity College Dublin**

And Library Square was, until the 1830s, enclosed by a range like the Rubrics along the line of the present Campanile. It was the London architect Decimus Burton who suggested the opening of Library Square to the rest of Front Square. And thus one of the very finest academic squares, or quads, or courts, came into being, the happy joint creation of design and chance. The success of this decision rested on the fact that the immense scale of the Old Library (excessive for its early 18th-century neighbours) was adequate to hold its own in the newly opened-up square.

And the architects of all this?

In the 18th century the College missed the chance of employing the two most distinguished architects resident in Ireland, Edward Lovett Pearce and James Gandon. But they managed to attract William Chambers for the Examination Hall and Chapel, at least until he was tempted to abandon Trinity in favour of the commission to build Somerset House in London. Richard Castle, the German architect of Russborough and Powerscourt, built the Printing House (1734), and a Bell Tower which did not survive the century. He built, too, a Dining Hall (1741–) but all that survives of this is probably the basement Buttery of the present Dining Hall (Hugh Darley, c. 1760–65). Theodore Jacobsen, architect of the West Front–for which he wanted an octagonal dome over Front Gate—was an amateur architect recommended, perhaps, by his design of the Foundling Hospital in London. And he seems to have given the design free of charge.

The most distinguished Irish architect to be employed in the 19th century was Benjamin Woodward, a partner in the firm of Deane and Woodward. Woodward died young, but the Deane family maintained a connection with the College as late as the Hall of Honour and 1937 Reading Room by Thomas Manly Deane. Another knighted architect of the establishment, Thomas Drew, designed the Graduates' Memorial Building (c. 1900), as a not entirely successful tribute to Burgh's Old Library on the other side of Library Square.

The College, in other words, has over the centuries chosen architects of varying accomplishment: some brilliant, some recommended by personal contact, some dull enough, some radical, some conventional. Many of these have battled with the task of designing their buildings to sit happily beside great traditional architecture. The most successful ones were not overawed into pastiche.

There has been nothing straightforward about the evolution of the architecture of Trinity. Parliament Square, like Library Square, was designed to be enclosed; the West Front was to be domed; the Wellington Testimonial was to go up in the College Park (an idea soon scotched, to be replaced c. 1840 by the proposal to run a viaduct across what is now the rugby and cricket pitches); Lanyon's Campanile was to be part of an arcade along the west side of Library Square; the architects McCurdy and Mitchell wanted to replace the Rubrics by a neo-renaissance block of residences; the Dining Hall was destroyed by fire in 1984 (but of course rebuilt with the help of de Blacam and Meagher Architects); Paul Koralek's successful design in the competition for the Berkeley Library was only one of 218 entries. Many a plan has been made, considered and abandoned.

In this, the College shares the kind of evolutionary history of the city to which it owes-and contributes-so much.

# The Library of Trinity College Dublin

Librarian & College Archivist. Helen Shenton, B.A. (LOND.), M.A., F.R.S.A., F.I.I.C.

The Library's history dates back to the establishment of the College in 1592. Today it has six and a half million printed volumes with extensive collections of journals, more than half a million maps and very large collections of manuscripts and music reflecting over four hundred years of academic development. More recently, it has established a collection of over 100,000 electronic journals, providing access to 44 million articles, and over 370,000 electronic books. It is the largest library in Ireland and has been a legal deposit library for Ireland and the United Kingdom since 1801. The Library has access to 4 million journal articles and 450,000 monographs through the UK electronic legal deposit. The Library continues to add to its collections through purchases, private donations, acquisitions and as a library of legal deposit.

The Library serves the needs of the College's teaching, learning and research activities of the undergraduate and postgraduate students and of the academic staff. It is a research library of international repute, making available much rare material to scholars from all parts of the world; and in addition it provides an information service to government departments, to research organisations and to technical, industrial and commercial bodies within Ireland. The Library's Digital Collections is making many of Trinity's unique materials available to scholars in digital format through an ongoing programme.

Six of the Library's buildings are located on the College campus. The Old Library, completed in 1732, now contains the Department of Manuscripts, the Department of Early Printed Books and Special Collections, the Long Room, The Colonnades and the Treasury. The Berkeley (1967), Lecky (1978) and James Ussher (2002) Libraries form a linked complex of buildings which functions as a single library housing collections in arts, social sciences, business studies, law, nursing, geography and geology. It also contains the Glucksman Map Library and Conservation Department, the Library's main service and administrative areas and a closed access bookstack. The Hamilton Library (1992) houses collections in science, engineering and systems sciences and health sciences. The 1937 Reading Room serves as a study centre for postgraduate students and the Stearne Medical Library is at St James's Hospital. Less heavily used material is stored in a book repository at Santry.

The Library's online catalogues give access to all the modern collections and the majority of the historical collections. Catalogues covering manuscripts collections and digital archives are in development and cover much material. All the Library's catalogues and further information on services and facilities are available from the Library home page at www.tcd.ie/library.

#### Admission of readers

Members of the College staff and students of the College may be admitted to the Library on production of a current College Identity Card or Trinity authorised identity.

Holders of an ALCID<sup>2</sup> card may apply for a visiting reader card on production of a current Identity Card from their home institution.

Other persons engaged in study or research may be admitted as readers, with the approval of the Librarian, who shall also determine the period for which their admission shall be valid.

<sup>&</sup>lt;sup>1</sup>The privilege was first given in the year 1801 (41 Geo. III, *c.* 107). The latest act for British books is of the year 2003 Legal Deposit Libraries Act (2003, *c.* 28). By the Industrial and Commercial Property (Protection) Act of the Irish Free State 1927, the copyright privilege of the Library was continued in respect of books published in Ireland. It is continued under the terms of the Copyright and Related Rights Acts, 2000 and 2004.

<sup>&</sup>lt;sup>2</sup>The ALCID scheme (Academic Libraries Co-operating in IrelanD) provides library cards for postgraduate students and staff members of fourteen academic institutions in Ireland.

All readers are required to observe the terms of the Library declaration and the other Library regulations as set out under the *Calendar*, PART II - GENERAL REGULATIONS AND INFORMATION.

# Hours of opening — reading rooms

The opening hours of the Library's reading rooms are available on the Library's website at: www.tcd.ie/library.

Generally, during term, the reading rooms are open Monday to Friday, 9 a.m. to 10 p.m. and Saturday mornings with some extensions for student access at weekends.

Out of term, the reading rooms close at 5 p.m. and are generally closed on public and other holidays.

Opening hours and service levels are subject to ongoing review and details are maintained on the Library's website.

Kinsella Hall in the Ussher Library has swipe card access for overnight study for all Trinity staff and students when the Library is closed.

The 1937 Postgraduate Reading Room is available on a 24-hour basis by swipe card access for postgraduate students.

The Old Library — admission of members of the public

The areas of the Old Library which are open to the public are the Treasury, where the Book of Kells and other manuscripts are displayed; The Colonnades, a gallery for temporary exhibitions; the Long Room, and the Library Shop. There is a charge for admission to areas other than the Shop. The Old Library is open to the public as follows:

Mondays to Saturdays	9.30 a.m. – 5 p.m.
Mondays to Saturdays (May to September)	8.30 a.m 5 p.m.
Sundays (October to April)	12 noon – 4.30 p.m.
Sundays (May to September)	9.30 a.m 4.30 p.m.

Opening hours on public and other holidays are given on the Library's website.

#### **Donations**

The Librarian is indebted to the many governments, international agencies, universities, libraries, firms, societies, private persons in various parts of the world, and to members of the College staff who have presented material during the year.

# TRINITY CLOSET PRESS

Trinity Closet Press is a hand press run by members of the Library's Department of Early Printed Books. It was founded in 1973 as a teaching tool to give students and staff first-hand experience of book production methods in the hand-press period. In the past, it has provided practical work for M.Phil. students in early modern history and in textual and visual studies. The Press is housed in the basement of the Printing House.

### FRIENDS OF THE LIBRARY\* 3

President. Patrick John Prendergast, B.A., B.A.I., PH.D., SC.D., C.ENG., FIAE, HON. F.A.S., F.R.ENG., M.R.I.A.

Chair. Peter Costello, B.A.

Hon. Secretary. Elizabeth Louise Fleeton

Hon. Treasurer. Bryan O'Sullivan, B.COMM., F.C.A.

The society known as the Friends of the Library was founded in 1945 to promote an interest in the general welfare of the Library and to provide an income for the purchase of books and manuscripts. The annual programme of the society includes lectures, meetings and a summer outing. The Friends also sponsor exhibitions in the Library and the society publishes *Long Room*.

#### II REGULATIONS GOVERNING THE AWARD OF DEGREES

### Bachelors

# Bachelor in Arts and other Bachelor degrees

- 1 See TRINITY JOINT HONORS PROGRAMME, TWO-SUBJECT MODERATORSHIP COURSES AND HONOR COURSES.
- 2 In the majority of undergraduate degree courses, students who have passed the Junior Sophister year may have the ordinary degree of B.A. conferred if they do not proceed to the Senior Sophister year or if they do not pass the Senior Sophister year/final degree assessments. Except by special permission of the University Council, on the recommendation of the court of examiners, the ordinary degree of B.A. may normally be conferred only on candidates who have spent at least three years in the University. In the case of advanced entry into the Senior

Freshman or Junior Sophister year of a student's degree course, the degree of ordinary B.A. may be conferred only on candidates who have spent at least two years in the University, subject always to the successful completion of the Junior Sophister year. See GENERAL REGULATIONS AND INFORMATION for further information. In addition, specific requirements are laid down for students of engineering, dental science and medicine with respect to the conferral of the ordinary degree of B.A.

3 *B.D.* Candidates for the degree of Bachelor in Divinity must be graduates of the University of Dublin, or of a recognised university. (See PART III OF THE CALENDAR — GRADUATE STUDIES AND HIGHER DEGREES.)

#### Master in Arts

4 Bachelors of the University of at least three years' standing may be conferred with a Master in Arts (*i.e.* an M.A. (*Dubl.*)). This is a title of academic rank and not an examined academic qualification. In the University of Dublin, Masters-level courses of study or research in the Faculty of Arts, Humanities and Social Sciences lead to the award of an M.Litt. or M.Phil., not an M.A; there are many other Masters-level degrees in each Faculty; and they are all set out in PART III of the *Calendar* — GRADUATE STUDIES AND HIGHER DEGREES. However, none is styled an M.A. In other words, the M.A. (*Dubl.*) is nominal and unexamined, and it is not an academic qualification in the sense that an M.Litt. or an M.Phil. is.

The M.A. (*Dubl.*) has the same functions and status as an M.A. (*Oxon.*) or an M.A. (*Cantab.*), and in none of these functions is it an academic qualification. In Oxford, in Cambridge and in Trinity, there were previously many privileges associated with M.A. status as opposed to B.A. status. For example, in medieval times, the M.A. constituted a licence to teach in the university, and it was awarded to those graduates who had remained on for several years for this purpose. The most important remaining consequences are listed below:

- It is a basis on which the recipient becomes a member of the Senate of the University.
   The Senate has a role in formal University decision-making, so membership allows graduates to have some influence on University business.
  - Since the degree can be obtained only after three years have passed since the conferral of the B.A., it indicates seniority on the part of the recipient.
- II. It is an indicator of academic rank and precedence in academic institutions on formal occasions: it defines the academic regalia which the recipient wears on such occasions, and the role (if any) which the recipient can or must play.
- III. As the B.A. is incorporated into the M.A, the formal effect of the M.A. is to supersede the B.A. Hence, a recipient should be styled Joe Bloggs, M.A. (*Dubl.*), rather than Joe Bloggs, B.A. (Mod.) (*Dubl.*), However, a recipient should not be styled Joe Bloggs, B.A. (Mod.) (*Dubl.*), M.A. (*Dubl.*).

On an historical note, the award of M.A. as an exclusively academic qualification seems always to have been the practice in universities in the USA; but, on this side of the Atlantic, the M.A. was first introduced as a formal academic qualification in the nineteenth century by the University of London. Universities founded thereafter followed the London nomenclature. This was the practice adopted when the various colleges which became the National University of Ireland (N.U.I.) were founded in the mid-1800s. Hence, what are called M.Litt.s and M.Phil.s in Trinity are called M.A.s in the N.U.I. (University College Dublin (U.C.D.), University College Cork (U.C.C.), etc). This has become the standard practice, with the result that the Oxford/Cambridge/Trinity model is now less common, sometimes leading to erroneous assumptions about the nature of the M.A. (Dubl.).

Finally, the M.A. (*Dubl.*) may also be awarded in special cases, such as *honoris causa*, *jure officii*, and *ad eundem gradum* (see §5,7,11).

Candidates wishing to be conferred with M.A. (*Dubl.*) must give notice on the prescribed form which is available from the Academic Registry. The form must be returned so as to reach that

P6 Calendar 2020-21

office not later than the specified closing date for a Commencements session. The fee for the M.A. is €637¹ and should be paid to the Academic Registry. The fee is waived in the case of eligible staff and graduates of fifty or more years' standing.

# Degrees awarded in special cases

# Degrees honoris causa

5 A meeting of the Senate for the consideration of names proposed for honorary degrees is held in Michaelmas term. Attention is called to this meeting a week before by a notice at the front gate of the College and by post to members of the Senate who have requested notification.

# Degrees jure dignitatis

6 Subject to such regulations as may from time to time be made by the Board, with the approval of the Senate, the Board may, at its discretion, at any time submit to the Senate a grace for conferring a doctorate in divinity or laws, *jure dignitatis*, upon any graduate of the University who has been appointed to such public position as may seem to the Board sufficiently distinguished; provided always that every such grace must receive the approval of not less than two-thirds of the members of the Board present when it is proposed. After admission to the said degree *jure dignitatis* the person admitted is eligible for membership of the Senate on fulfilling the prescribed conditions.

# Degrees jure officii

7 The Board may submit to the Senate a grace for conferring, *jure officii*, the degree of Master in Arts upon permanent full-time members of staff of the University or College, on the following conditions:

- (a) graces for admission of Fellows, Professors and holders of the offices of Secretary, Treasurer, Librarian and Chief Operating Officer may be proposed at a meeting after their admission to office;
- (b) graces for admission of other members of the academic staff of at least the status of Assistant Professor serving in the College for a period of not less than three years including full-time service prior to obtaining permanency may be proposed at a meeting after they have achieved this service to College;
- (c) graces for admission of staff on administrative officer grades who have given notable service for a period of not less than ten years including full-time service prior to obtaining permanency may be proposed at a meeting after they have achieved this service to College;
- (d) graces for admission of Chief Technical Officers, Chief Medical Scientists, and Senior Experimental Officers who have given notable service for a period of not less than ten years including full-time service prior to obtaining permanency may be proposed at a meeting after they have achieved this service to College; and
- (e) graces for admission of members of staff who do not come within sub-sections (a) to (d) who have not less than thirty-five years' employment with the College may be proposed at a meeting after they have achieved this notable service to College.
- 8 The Board may submit to the Senate a grace for conferring, *jure officii*, the degree of Master in Arts upon permanent, part-time members of the staff of the University or College who had previously come within the terms of §7 (to ensure that long-serving members of the staff who for family or similar reasons opt to work on a permanent, part-time basis are not, by doing so, rendered ineligible for the degree of Master in Arts, *jure officii*).
- 9 The Board may submit to the Senate a grace for conferring, *jure officii*, the degree of Master in Arts upon members of staff of the University or College, on the conditions stated in §§7 and 8, notwithstanding that they are not permanent members of staff of the University or College,

<sup>1</sup>Fee is currently under review.

provided that they hold either a full-time contract of at least three years' duration as an officer specified in the Chapters and Schedules of the Statutes, or a contract of indefinite duration.

- 10 The Board may submit to the Senate a grace for conferring, *jure officii*, the degree of Master in Arts upon permanent full-time members of staff of any academic institution, where work in the said institution is accepted in part fulfilment of the requirements for a degree in any faculty in the College, on the following conditions:
- (a) graces for admission of Professors may be proposed at a meeting after their appointment to the said institution; and
- (b) graces for admission of other members of the academic staff of at least the status of lecturer serving in the said institution for a period of not less than three years may be proposed at a meeting after they have achieved this service to the said institution.

# Degrees ad eundem gradum

- 11 Graduates of the Universities of Oxford and Cambridge are eligible to apply for corresponding degrees of this University ad eundem gradum. The Board has ruled that only persons who either
- (a) wish to register for a higher degree at this University, or
- (b) are members of the academic staff
- will be considered, and that no degree will be awarded above the standing of M.A.
- 12 Applications are referred to the Board for consideration. They should be made to the Senior Proctor, to whom the necessary certificates of graduation must be submitted, with a College testimonial as to character, and a statement of the reasons why the degree is sought.
- 13 The fees payable are €1,204 for all bachelors' degrees. All fees are paid to the Treasurer/Chief Financial Officer.
- 14 Candidates who have paid the fee for a degree *ad eundem* may present themselves for the examination for a higher degree before the *ad eundem* degree has been conferred, on payment of the regular examination fee; and, if they are successful, the higher and lower degrees may be conferred at the same Commencements.
- 15 For the purpose of ascertaining the date at which a higher degree may be taken, candidates are reckoned as having taken the lower degree *ad eundem* on the date at which they obtained the corresponding degree at their own university.

### Degrees post obitum intempestivum

16 Subject to regulations made in this respect by Board, Board may submit to the Senate a grace for conferring a degree *post obitum intempestivum* upon a recently deceased student, who had successfully completed all required examinations and all required course work for a degree and was a candidate for that degree, but whose untimely death preceded the relevant Commencements ceremony.

### Degrees in absentia

- 17 Students of the University may be allowed, although not presenting themselves personally at Commencements, to proceed to their degree upon the following conditions:
- (a) the academic qualifications required for degrees to be conferred in absentia are the same as those required for degrees conferred in person:
- (b) the requirement as to fitness of character is also the same as that required for degrees conferred in person, i.e. that before passing any grace for a degree in absentia the Board shall require such evidence as it may deem necessary to secure that no unworthy candidate is presented to the Senate;
- (c) subject to the foregoing, the Board may, in special cases, pass a grace for a degree in absentia (i) for any candidate resident outside Ireland, or (ii) for any candidate resident within

P8 Calendar 2020-21

Ireland, who submits reasons for non-attendance in person which seem to the Senior Proctor to be sufficiently urgent. All requests should be submitted with the completed notice of candidature form by the specified closing date for a Commencements session.

#### III CONFERRING OF DEGREES

### General procedure at Commencements

- 1 Degrees are publicly conferred under the student's registered name, within degree class, by the Chancellor, or a Pro-Chancellor, in the Senate or Congregation of the University, at the ceremony known as Commencements.
- 2 Candidates for a particular Commencements must give notice, an invitation to the Commencements is issued to the undergraduate graduating class via their my.tcd.ie portal or on the prescribed form which is available for download at www.tcd.ie/academicregistry/graduation. The form must be returned so as to reach the Academic Registry not later than the specified closing date for a Commencements session<sup>2</sup>.

The Student Levies and Charges (SLC) fee<sup>3</sup> consists of the the Commencements fee, as well as the student Sports Centre charge, the U.S.I. membership fee (optional), and the student space and centre levy, and is payable by all undergraduate and postgraduate students annually. Eligible graduands for whom the Commencements fee is outstanding must pay in full at the time of application for conferral. Conditional notice may be lodged at any time but must be confirmed fourteen days prior to the ceremony. Primary degree results must be published at least fourteen days prior to the first date of the Commencements ceremonies.

Senior Sophisters and other final year students who have passed their final examinations are required to return all books to the Library within one month following their examinations. The Library will return records of books and fines outstanding to the Academic Registry, for the purpose of alerting students to their obligation to clear their Library records so that they may proceed to Commencements.

3 The grace for a degree in any faculty, having first been sanctioned by the Board, must be approved by the Senate of the University. Any member of the Caput may veto any proposed grace for a degree. The Proctors, in a prescribed form of words, supplicate the Senate for their public grace for the degrees to be conferred. If the *placets* are in the majority the candidates for degrees are presented by a professor of the faculty in which the degree is to be taken, or by one of the Proctors; they then advance in order before the Chancellor, who confers the degree according to a formula fixed by the University Statutes, after which the candidates subscribe their names in the Register. Except in special cases (see section II, §17 above) candidates for degrees must appear at Commencements and have the degrees for which they are qualified publicly conferred on them.

<sup>&</sup>lt;sup>2</sup>Please note that this process is curently being reviewed and subject to change; please refer to the Academic Registry website for updates: www.tcd.ie/academicregistry/graduation.

<sup>&</sup>lt;sup>3</sup>See COLLEGE CHARGES for full details of the SLC and rates payable.

### Detailed procedure at Commencements

- 4 The Chancellor announces the opening of the Comitia. At the Autumn Commencements the Senior Master Non-Regent is elected on the proposition of the Chancellor and the Provost; and the two Proctors and Registrar make the statutory affirmation, if they have not already done so.
- 5 The Junior Proctor supplicates for the degree of Bachelor in Arts. The Senior Proctor supplicates for the other ordinary degrees.
- 6 The Senior Lecturer introduces the moderators to the Chancellor. They are then presented for their degrees by the Junior Proctor. The Chancellor hands them their medals and/or certificates and admits them. The Senior Lecturer then introduces the Respondents who are in turn presented by the Junior Proctor and admitted by the Chancellor.
- 7 Candidates for degrees with honors and for ordinary degrees are presented by name, within degree class, and admitted. Candidates are presented by the Proctors or by the professors of their respective faculties. In presenting the candidates the following order is observed:

# Student Services

### DEAN OF STUDENTS

The overall experience of students at Trinity is based on a mixture of the academic programmes, student led activities, and the student services. The role of the Dean of Students is primarily to develop policies and initiatives that integrate the co-curricular and extra-curricular activities with the academic programme in order to provide a well rounded and balanced student experience. Thus the Dean is, *inter alia*, Chair of the Student Life Committee, one of the main functions of which is to consider how the student experience should develop in the future. Members include representatives of student unions, societies, sports clubs as well the library, academic registry and student services (including in alphabetical order: careers, chaplaincy, counselling, day nursery, disability, health, postgraduate advisory service, sport, student learning development and tutorial services).

#### CAREERS ADVISORY SERVICE

The Careers Advisory Service (www.tcd.ie/careers), which is part of Trinity Teaching and Learning, supports students to explore their career ambitions and plan how to achieve them. The service operates in a fast-changing and outward-facing environment with the flexibility to be responsive to the needs of its stakeholders (undergraduate and postgraduate students, graduates, academic staff and employers). It provides careers education, information, skills and guidance to students and recent graduates to enable them to realise their career potential and equip them with the skills to succeed in the workplace of the future. It also works in partnership with external partners (e.g. national and multinational employers, government, SMEs, not-for-profit organisations) to ensure local and global opportunities for students and graduates, and provides specific services including:

career planning and preparation (how to plan your career and prepare for your job search through individual advice and guidance sessions, CV/LinkedIn clinics, practice interviews); careers education (credit and non-credit bearing programmes to develop key skills and personal and career insight);

MyCareer (our online career management portal which allows appointment and event bookings and viewing of job opportunities);

access to employers and alumni through careers fairs, sectoral fora and events; alumni-to-student mentoring:

careers information on the labour market, graduate employment outcomes and job profiles; online careers resources and tools;

employability awards, scholarships and bursaries.

While the service is open all year round to students across all years and all programmes (undergraduate and postgraduate), it is particularly important that final year undergraduates make contact with the service early in the first term to enable them to meet the early graduate recruitment and postgraduate course closing dates for application.

### Regulations

Any past or present member of the College may register with the service, subject to the following regulations:

- 1 Individuals must register at the MyCareer section of the website (www.tcd.ie/careers).
- 2 While there is no fee for registration, nominal charges may apply for specific services (see www.tcd.ie/careers for further information).

#### Student services

#### CHAPLAINCY

The chaplains are representatives of the main Christian churches in Ireland who work together as a team, sharing both the College Chapel and the Chaplaincy in House 27. The Chaplaincy is a place of welcome and hospitality for all members of the university community. It assists students and staff in any way that they can, always providing a friendly listening ear. To those who seek it, the Chaplaincy offers pastoral guidance and spiritual accompaniment through a programme of faith development, seminars, discussion, prayer groups and pilgrimages organised each term. The Chaplaincy promotes a deeper understanding of Christian faith and spirituality, and promotes compassionate care for all staff and students of all faiths and none.

Traditional worship in various traditions is carried in the chapel on a regular basis, and contemporary worship and discussion events also take place around the campus. Several key ecumenical events take place every year, and the chaplaincy provides a haven for students every day providing free tea, coffee and bicuits – every Tuesday during term there is also a free student lunch.

### DAY NURSERY

Established in 1969, the Day Nursery was the first on-site workplace nursery in Ireland. It is a recognised College service, catering for the children of College students and staff. It takes care of children from 3 months to 4½ years of age, operating five classrooms.

The fees for the Day Nursery are €145 per week for students and €23 per week for staff. There is also a sibling rate for two children, €262.50 for students and €404 for staff.

# Funding Programmes a parent might qualify for

- 1 ECCE Early Childhood Care and Education scheme, also known as the free preschool year. The parent is entitled to 38 weeks of part-time childcare for free, usually 3.5 hours a day. For a child to be eligible for this they must be in the Day Nursery, as it is generally a full time service, we apply a €62.50 reduction in fees for 38 pre-approved weeks. This results in the student paying €82.50 per week for 38 weeks and €145 per week for the remaining weeks. For staff this is €160.50 for 38 weeks, for the remaining weeks the fee is €223 per week. For more information follow this link: www.gov.ie/en/publication/2459ee-early-childhood-care-and-education-programme-ecce.
- 2 NCS National Childcare Scheme service users can apply for the scheme by setting up a profile on the mygov.ie website. This scheme is means tested, providing a minimum funding of €20 toward your childcare costs per week. Assessment is based on the reckonable family income, this is calculated using the net family income, and deducting allowable items such as multiple child discount. It includes payments from DEASP, after tax, USC, and PRSI have been deducted. Further information about this funding scheme can be found at this link: ncs.gov.ie/en.

Note: A parent cannot be in receipt of the NCS and ECCE at the same time, the two schemes are designed to provide wraparound care for families. Once a child is the correct age for the ECCE scheme they will graduate to this funding scheme.

The Day Nursery is situated in House 49/50, basement level. Further information can be obtained from the Manager by calling (01) 896 2277 or by emailing coxao@tcd.ie.

# DEPARTMENT OF SPORT AND RECREATION

The Department of Sport and Recreation was established in 2000. 'Trinity Sport' is now the shared identity of the Department of Sport and Recreation and the Dublin University Central Athletic Club (D.U.C.A.C). Trinity Sport's mission is to provide a first class sporting, participation, performance, administration and leadership experience for students, staff, graduates and partners; creating the most engaged communities internally and externally. Links and collaborations exist with other College services to maximise the contribution sport can make to the entire College community. Trinity Sport provides top class sporting facilities, programmes and

Q2 Calendar 2020-21

services to students, staff, graduates, members of the public, and communities. Trinity College Dublin has a proud sporting tradition and the impressive portfolio of sporting facilities at the university includes indoor and outdoor provision as follows:

Indoor sports facilities:

Sports centre (6,000 sq.m)

Main hall (two basketball courts size) and ancillary sports hall (one basketball court size) Climbing wall

Fitness theatre and studio, wellness studio, spinning studio, high performance gym Swimming pool (25m x 6 lanes) with adjustable floor and deck level steam room and sauna Orthopaedics and sports medicine clinic and treatment rooms (massage, physiotherapy etc.) Board room (for meetings and seminars)

Trinity Hall (4,500 sq.m)

Sports hall (badminton court size), two squash courts and a fitness theatre

Outdoor sports facilities:

On campus

College Park

Cricket pitch and athletics (summer) – soccer and hockey (winter) Three synthetic tennis courts / one converts to futsal pitch Natural grass floodlit rugby pitch Natural grass croquet lawn

Off campus

Santry sports grounds

Located on Santry Avenue, the 34-acre sports facility is approximately 5km from the campus and provides five natural grass pitches for soccer, rugby, GAA (with small viewing terrace), ultimate frisbee and American football, one floodlit international standard water based pitch for hockey, changing rooms, and function room facilities.

#### Iveagh grounds

Located on Crumlin Road, the 17-acre sport facility site recently aquired provides for GAA, soccer, rugby, hockey and bowls, with a bar and function area, and changing room space. The site will be developed to provide for better training, flood lit, with artificial training surfaces.

# Islandbridge boathouse

Situated two miles upstream from the campus, and at just under seven acres, Islandbridge is home to our rowing clubs. As well as a training base for crews, the boathouse hosts the annual Trinity Regatta that involves crews from all over Ireland and dates back to 1898, with storage, and a dining and function area.

There are almost fifty sports clubs in Trinity, including hockey, soccer, swimming, rugby, basketball, volleyball, tennis, rowing, gaelic games, cricket, and martial arts, among others. The sports clubs' governing body is known as Dublin University Central Athletic Club (D.U.C.A.C.) and information on the sports clubs may be obtained at http://www.tcd.ie/Sport/student-sport/clubs/.

Trinity Sport provides a high performance programme for focus sports and sport scholarships to assist talented students and clubs to achieve sporting excellence alongside academic success. Trinity Sport also places a key focus on the recreational sporting opportunities available to students, as fundamental to the health and well-being of the campus community. Trinity Sport also engages widely with the general public and local community groups.

#### Student services

#### DISABILITY SERVICE

The Disability Service was formally established in 2000. It provides supports and services to College students and staff with disabilities. The ethos of the Disability Service is to move from a transactional model of provision - where students are passive recipients of supports - to a transformational model of resource usage, where students take an active part in planning their educational journey.

Students with a disability are encouraged to apply for reasonable accommodations with the Disability Service to seek supports where a disability could affect their ability to participate fully in all aspects of their course, placements and internships included.

College is committed to a policy of equal opportunity in education and to ensuring that students with a disability have as complete and equitable access to all facets of College life as can reasonably be provided. College has, in accordance with the Disability Act 2005, the Equal Status Act, 2000 (as amended) and the Universities Act, 1997, adopted a reasonable accommodation policy and associate code of practice that applies to all students with disabilities studying in College.

The Disability Service is available throughout the year to all registered students of the College, Monday through Friday.

#### HEALTH SERVICE

The Health Service is available to all registered students throughout the year, Monday to Friday. Sessions, attended by one of the medical officers, are held daily and appointments should be made with the secretary on 01 896 1591/1556. The psychiatrist is also in attendance for a number of sessions each week and will see students referred by one of the medical officers or student counsellors. The physiotherapist is in attendance throughout the year in the Physiotherapy Department, situated beside the Health Service on the ground floor of House 52.

#### Emergency cover

Outside office hours in cases of emergencies students should contact DUBDOC, weekdays 6 p.m. – 10 p.m., weekends and bank holidays 10 a.m. – 7 p.m. The telephone number for this service is 01 4545607. The service is based in St James's Hospital. The DUBDOC triage nurse will give telephone advice, arrange a house call or offer emergency consultation with a GP on duty in St James's Hospital. Students (with the exception of non-Irish E.U. students with medical card eligibility or students with medical cards) will be responsible for any fees incurred for consultation or home visit. Outside these hours please telephone Mediserve Homecare Ltd. 01 453 9333, who will send a doctor on request. Students (with the exception of medical card holders) will be responsible for any fees incurred for home visits.

# Hospital treatment

Hospital treatment is supplied under the Hospital Services Scheme. The student will be responsible for any charges and fees incurred as a public or private patient while in hospital.

#### Certificates

Medical certificates will only be issued following consultation at the Health Service for those students with symptoms who have been certified for an absence of four or more days. All medical information is confidential and will not be disclosed without the student's permission.

# Overseas students

All U.K. and E.U. students who are entitled to health benefits under E.U. legislation are requested to present their National Health Service card or European Health card on each visit to the Health Service. Overseas students not eligible for health benefits under E.U. regulations are required to take out private medical insurance in order to cover medical costs which they may incur during their period of study here.

Q4 Calendar 2020-21

### Charges

Attendance at the Health Service is available free to full-time registered students. There are charges to cover the costs for vaccinations, cryotherapy, pregnancy tests, emergency contraception and blood tests. Staff members are facilitated normally by appointment for a GP consultation fee of €45. With regard to physiotherapy, there is a charge of €20 per visit for students and €40 for staff.

The Health Service is not responsible for medical attention not sanctioned by one of its medical officers.

#### POSTGRADUATE ADVISORY SERVICE

The Postgraduate Advisory Service (PAS) was established in 2009 to extend Trinity's historic and unique tutorial service to the postgraduate community. PAS offers free, independent, and confidential support, guidance and, in certain circumstances, advocacy to registered postgraduate students at Trinity College Dublin. PAS provides support in all aspects of the postgraduate experience and lifecycle at Trinity including, *inter alia*, supervision, appeals, discipline, withdrawals, and financial hardship.

Specifically our services include:

providing frontline confidential and free support, information, and referral via the Postgraduate Student Support Officer:

providing, on referral, named academics to provide independent advice, advocacy, and assistance via the panel of postgraduate advisors;

providing a suite of complementary supports including informal mediation, workshops, and training;

administering financial assistance to eligible postgraduates.

PAS is also available to help advise members of staff seeking clarification or guidance on postgraduate cases.

The Postgraduate Student Support Officer may be contacted by email at pgsupp@tcd.ie or by calling (01) 896 1417.

# TRINITY STUDENT COUNSELLING, LEARNING DEVELOPMENT AND STUDENT 2 STUDENT SERVICES

The purpose of the Trinity Student Counselling, Learning Development and Student 2 Student Services is to provide a range of student development services, supporting students through collaboration, connection and compassion. Our vision is to be an internationally accredited service delivering accessible social, academic and emotional wellbeing initiatives across the Trinity community, keeping students at the centre of everything we do. We offer expert training, peer-based interventions, academic and learning development support, therapeutic groups and individual clinical appointments to all registered Trinity students. We also offer consultation, training and crisis intervention strategies to staff cross-institutionally. All of our services are delivered in line with the university strategy and IACS (International Association of Counselling Services) accreditation standards.

# STUDENT COUNSELLING SERVICE

The Counselling Service works proactively and collaboratively within the university to promote positive student mental health, wellbeing and resilience, supporting students with their academic, personal and continuing professional development.

The Counselling Service is available throughout the year, free of charge to all registered students of the university. The service aims to provide an initial assessment appointment within two weeks of request. Students are then referred, depending on need, to one or more of the following options: wellbeing workshops and outreach activities, online programmes, mindfulness training, therapeutic groups, confidential professional counselling, other internal services (such as Disability or College Health), or referred to an appropriate external agency. Emergency or crisis

#### Student services

intervention appointments are provided on a daily basis. Counselling appointments can be made by emailing student-counselling@tcd.ie. Opening hours are 9am-5.30pm (including lunch times) except Fridays when the service closes at 5pm, and Tuesdays and Wednesdays when it is open during term time until 8pm. The service also operates in Trinity Hall during term time. The service is staffed by professional accredited counselling or clinical psychologists and psychotherapists, interns, assistant psychologists and trainees. The Student Counselling Service offers telephone and video counselling during the SARS-CoV-2 (COVID-19) crisis.

Consultation, advice and training is provided for tutors, wardens and other members of staff to assist and support them in their role of caring for students. Additional training may be organised for schools or services on request.

The provision of services is governed by available resources as well as regulations and policies, including the director's obligations concerning safety. The service operates in adherence with a code of professional ethics and confidentiality.

# STUDENT LEARNING DEVELOPMENT

Student Learning Development assists undergraduate and postgraduate students to develop academic skills and competencies to improve performance and facilitate successful transition, progression and career readiness. Workshops and events are delivered on a range of academic skills throughout the year, including self-management skills, study and exam skills, effective presentations, academic writing, critical thinking, successful group work and *viva* preparation. Generic and tailored workshops are provided and available to schools on request. Drop-in clinics and one to one appointments are also available to students, along with online study skills resources accessible via Blackboard. All Student Learning Development services can alternatively be delivered online on request.

Student Learning Development comprises staff with specialisms in educational and occupational psychology, occupational therapy and IT in education. They are supported by a volunteer cohort of retired senior academics and collaborate with student services, academic departments and other university services, such as the Library and Careers Advisory Service.

#### STUDENT 2 STUDENT

Student 2 Student (S2S) is a student-led initiative designed to facilitate student engagement, transition and progression. It offers trained student mentors to every incoming undergraduate and visiting student at orientation, in groups who continue to support them throughout the year.

S2S also delivers the Peer Support programme – skilled one-to-one listening and support for all undergraduate and postgraduate students in Trinity College, available on request.

Approximately eight hundred S2S volunteers are trained and supported in their roles annually by staff in the S2S office, and have the option of becoming members of the S2S society. They are given further opportunities to engage in leadership and decision-making roles, facilitating the enhancement of their graduate attributes and career-readiness skills. The S2S staff have a combined experience of over thirty five years in volunteer training, peer-engagement, community development and active listening and support work.

Along with Student Counselling and Student Learning Development, S2S collaborates closely with the Transition to Trinity Officer, the Senior Tutor's Office and the Students' and Graduate Students' Unions to enhance Trinity's student experience and to develop an inclusive campus community.

#### TUTORIAL SERVICE

The tutorial system in Trinity is one of the oldest structures of student support in College dating from the very beginning of the College. On entry, an undergraduate student is placed in a 'chamber' under the care and responsibility of a voluntary member of the academic staff, called the tutor. The tutor offers a confidential, personal relationship to advise and guide on academic progress and personal growth and also acts, as appropriate, as an advocate for the student in certain matters pertaining to College regulations and decisions. In addition, the tutor is often a

# THE UNIVERSITY ART COLLECTIONS

Curator and Head of the University Art Collections. Catherine Giltrap, M.A.

Trinity College Dublin possesses a significant art collection acquired over a period of some three hundred years, including a distinguished collection of historic portraits and sculptures by Irish and international artists. Additionally, the College holds important silver artefacts, many collected for commemorative and continued ceremonial purposes. Further information is available at www.tcd.ie/artcollections and *Paintings and Sculptures in Trinity College Dublin* by Anne Crookshank and David Webb (Dublin: Trinity College Dublin Press, 1990) plus *The Silver Collection. Trinity College Dublin* by Douglas Bennett (Dublin: Trinity College Dublin Press, 1988).

Actively collecting contemporary Irish and international visual art, the 'Modern Collection' comprises sculpture, paintings, prints, drawings, and, more recently, photographic and digital media. Many major Irish artists from the 1950s to today are represented alongside international counterparts, with campus sculpture being a particular highlight. Information may be sought from www.tcd.ie/artcollections; George Dawson: An Unbiased Eye. Modern and Contemporary Art at Trinity College Dublin since 1959 edited by Catherine Giltrap (Dublin: Associated Editions, 2010); and The Modern Art Collection Trinity College Dublin compiled by David Scott (Dublin: Trinity College Dublin Press, 1989). The art collections are dispersed throughout the College, enhancing communal areas, staff offices, student and guest rooms. Contact artcollections@tcd.ie.

# The College Gallery

The *College Gallery*, as it has been known since its inauguration in 1959 by the late George Dawson, Professor of Genetics, is a sub-collection featuring artworks traditionally hired during Michaelmas term by students and staff who have rooms and offices in College. Acquisitions are funded by means of a nominal hire fee, bolstered, initially, by a grant from the Trinity Trust, the Gulbenkian Foundation and the Arts Council. In addition, artworks are also donated by individuals, including many given by Professor Dawson and artists. The scheme is suspended in 2020-21, facilitating a restructure to significantly increase the number of available artworks and their distribution, in particular, by further increasing encounters with visual art in student areas.

# SAMUEL BECKETT THEATRE

### Theatre Manager, Tim Scott, B.A.

The Samuel Beckett Theatre (www.tcd.ie/beckett-theatre), named after one of the most innovative playwrights of the twentieth century, was opened in 1992 to celebrate Trinity's quatercentenary. It is the campus theatre of the School of Creative Arts. During the academic year, the theatre showcases the work of academics, practitioners and students within the School and outside term time it hosts visits from some of the most prestigious dance and theatre companies from Ireland and abroad.

Regular events at the Samuel Beckett Theatre include performances within the Dublin Theatre Festival, the Dublin Fringe Festival and the Dublin Dance Festival.

The Samuel Beckett Centre, the building in which the theatre is situated, also houses academic and administrative offices, a seminar room and a rehearsal studio, as well as Players' Theatre, the studio theatre of Dublin University Players, Trinity's student drama society.

#### **BOTANIC GARDEN**

Director. Jennifer McElwain, B.A., PH.D. Curator/Administrator. Stephen Waldren, B.SC., PH.D.

The College Botanic Garden is situated on the Trinity Hall site. The purpose of the garden is to support botanical teaching and research, and the collections and facilities reflect this. There is a walled garden, arboretum, glasshouses, specialised growth facilities, and a laboratory/office complex. The garden also houses the 'Threatened Irish Plant Genebank', a store of deeply frozen seeds of rare plants. Several species in the living collection are not in cultivation elsewhere. Although not a public garden, the Botanic Garden welcomes visitors and groups by arrangement with the curator. Further information is available at www.tcd.ie/botany/botanic-garden.

### JOHN GABRIEL BYRNE COMPUTER SCIENCE COLLECTION

Curators. Brian Coghlan, B.E., PH.D., Dan McCarthy, B.E., PH.D.

This remarkable collection is located in the School of Computer Science and Statistics. Its title is in recognition of Professor John Gabriel Byrne (1933-2016), who founded and led the Department of Computer Science during its first 40 years of rapid development, and has been called both a "genuine Renaissance Man, with a huge range of interests" and "the father of computing in Ireland, responsible, directly or indirectly, for most of the extraordinary success of the Irish software sector". Over his entire life he gathered an impressive and invaluable collection of early computing books and documents, sliderules, software, instruments and machines, which form the basis for the collection. With further donations there are now about three thousand items, see the online catalog at: www.scss.tcd.ie/SCSSTreasuresCatalog.

The collection exists to further scholarly research and teaching; to arrange a visit please contact coghlan@cs.tcd.ie or mccarthy@cs.tcd.ie.

### DOUGLAS HYDE GALLERY\*

Chair. Linda Doyle, B.E., M.SC., PH.D.
Director. Georgina Jackson, B.A., PH.D.
Gallery manager. Rachel McIntyre, B.A.
Learning and engagement curator. Fernando Sanchez, B.A.

In a unique partnership, the Douglas Hyde Gallery was co-founded by the Arts Council and Trinity College Dublin. It opened to the public in March 1978 as the first publicly funded space dedicated to contemporary art and the first university gallery in Ireland. It is now an independent company limited by guarantee, with a board of directors partly appointed by the Board of the College. Throughout its history, the gallery has brought artists of significant international standing to Ireland for the first time, including Marlene Dumas, Gabriel Kuri, and Alice Neel, and presented pivotal exhibitions by Irish artists including Sam Keogh, Kathy Prendergast and Eva Rothschild.

Housed in the University's Arts building, the gallery contains two spaces: the cavernous Gallery 1, designed by Paul Koralek of ABK, which is approached down a staircase, from above, and the more intimate Gallery 2, designed by McCullough Mulvin, which was opened in 2001. The Douglas Hyde Gallery is a space for challenging and ambitious contemporary art. A key focus is the production and commissioning of contemporary art; supporting international and Irish artists to make bold new work and presenting pivotal solo exhibitions by significant artists of the present and the future. Audiences are profoundly engaged through these exhibitions, as well as artist projects, talks, events, screenings and publications. Standing at the meeting point between the city of Dublin and the leading research university in Ireland, the Douglas Hyde Gallery values excellence, enquiry, experimentation and diversity; knowing that art deepens our understanding of ourselves and gives us new ways of thinking and of seeing the world.

#### GEOLOGICAL MUSEUM

Curator. Patrick Nevill Wyse Jackson, M.A., PH.D., SC.D., H.DIP.ED.

The Geological Museum is located in Unit 24 of the Trinity Enterprise Centre, Pearse Street (www.tcd.ie/geology/about/geologymuseum.php).

The geological collections were first assembled in 1777 and now number over 200,000 specimens. The main palaeontological holdings include Irish Silurian and Carboniferous invertebrates, Mesozoic ostracods, and Upper Palaeozoic miospores, and Pleistocene mammals. The rock and mineral collections largely date from the 1820s and contain both Irish and foreign specimens. They include the important collection of minerals assembled by the Hon. George Knox, M.P. for Dublin University (1797-1807).

Currently the collections are on display in two locations: in the main gallery on Pearse Street and in the entrance hallway of the Museum Building. The former contains the exhibition *The Story of the Earth* that provides a general overview of the geological sciences, while the latter campus exhibition contains skeletons of the iconic Pleistocene mammal, the Giant Irish Deer, as well as some topical geological exhibits.

The geological collections are available for teaching and research, and have been utilised in developing online resources for schools and universities.

Visiting scholars, school parties, and members of the public are welcome to visit, by appointment with the curator (email: wysjcknp@tcd.ie).

#### TRINITY HALL

Warden. Roja Fazaeli, B.A., M.PHIL., PH.D.

In the year 1908 the house and grounds, now known as Trinity Hall, were acquired by the University. The adjoining house and grounds were purchased in 1910 by John Purser Griffith, MICE, and Mrs Griffith, and presented to the University in memory of Frederick Purser, M.A., F.T.C.D. A further five acres were acquired in 1966 when the Dublin University Botanic Garden was transferred to part of the grounds of Trinity Hall.

Trinity Hall was originally used for women students but is now a residence for all students, with some accommodation for married students and staff. Domestic matters in the Hall are the concern of the Warden, the Assistant Wardens and the Accommodation Officer (Trinity Hall).

#### **HFRBARIUM**

Curator. John Adrian Naicker Parnell, B.SC., M.A., PH.D.

Though the herbarium (www.tcd.ie/botany/herbarium) and associated library houses the earliest known collections of Irish plant material (those of Caleb Threlkeld dating from ca. 1722) it was only formally established in 1835.

The herbarium's nucleus was the personal collection of Thomas Coulter, its first curator, after whom both Bigcone Pine (*Pinus coulteri*) and *Romneya coulteri* are named. However, the herbarium is really the creation of William Henry Harvey (curator 1844–1866). Harvey was incredibly hard-working. He writes, "I rise at five a.m. or before it and work until half-past eight on the Antarctic Algae....": this led to the accumulation of 100,000 specimens. More recently the herbarium has focussed on the Flora of Europe (under D.A. Webb: curator 1950-1983) and on the Flora of Thailand (under J.A.N. Parnell: curator 1983-).

Following a grant from Lord Iveagh the existing herbarium building was added as an annex to the School of Botany in 1910. The herbarium is now of international importance and scope. It contains ca. 300,000 specimens with about 1,500 specimens being added annually. Its holdings include a large number of type specimens (those on which the original description of a species is based), the biggest international collection of plants in Ireland, one of the largest and most important collections of algae (seaweeds) in the world and core reference collections of plants from all continents on Earth. It is particularly rich in material from South-east Asia (notably A.F.G. Kerr's from Thailand), Southern Africa, Australia, North America and Europe. It is the only

herbarium in Ireland to have digitised any part of its collections, see: plants.jstor.org. The official designation of the herbarium is TCD.

### SCIENCE GALLERY

Director (Interim). Gerard McHugh, M.A., PH.D.

In 2008, a car park in a forgotten corner of Dublin was transformed into a living experiment called Science Gallery at Trinity College Dublin. Through a cutting-edge programme that ignites creativity and discovery where science and art collide. Science Gallery Dublin encourages young adults to learn through their interests. Since opening in 2008, over 3.8 million visitors to the gallery have experienced more than 48 unique exhibitions ranging from design and violence to light and love, and from contagion and intimacy to the futures of the human species and life at the extremes. Science Gallery Dublin develops an ever-changing programme of exhibitions and events fuelled by the expertise of scientists, researchers, students, artists, designers, inventors, creative thinkers and entrepreneurs. The focus is on providing programmes and experiences that allow visitors to participate and facilitate social connections, always providing an element of surprise. In 2012, the Science Gallery Network was launched with the support of Google.org. This initiative oversees the development of Science Gallery projects in locations all around the world, with the first new gallery opened in London in 2018 and activity in Atlanta, Bengaluru, Detroit, Melbourne, Rotterdam and Venice also underway. Science Gallery Dublin is kindly supported by the Wellcome Trust as founding partner, and by 'Science Circle' members -Accenture. The Dock, and ICON, Science Gallery Dublin receives support from programme partners Intel Ireland, The Ireland Funds and The Marker Hotel. It also receives government support from the Department of Arts, Heritage and Gaeltacht and Science Foundation Ireland. Science Gallery Dublin's media partner is The Irish Times. # WEINGREEN MUSEUM OF BIBLICAL ANTIQUITIES

Curator. Zuleika Rodgers, B.A., PH.D.

The museum is located in the Arts and Social Sciences Building, and received its present title in 1977 in recognition of Dr Weingreen's efforts in the creation of the museum.

The museum consists mainly of pottery and other artefacts from the ancient near east. The collection was started in 1952 with an important gift of pottery and small objects from the Wellcome Trust, while from the year 1953 allocations were received from the Jericho and Jerusalem archaeological expeditions, to which the College had made annual contributions. Another substantial gift was received from the Wellcome Trust in 1956. A collection of Egyptian and Babylonian antiquities was added in 1957. In 1961 the late Lord Crookshank bequeathed a collection of Egyptian antiquities, Greek and Roman coins, Roman lamps, and leaves from seventeenth and eighteenth century Torah scrolls to the museum. Some pottery from excavations at Buseirah, Jordan, was added in 1977. Further donations have been made by the Hebrew University of Jerusalem, Professor Anne Crookshank, Dr D.B. Harden and Dr C.-M.

Bennett. Loans of relevant antiquities for temporary display are welcome; the museum currently has on loan from Mrs J. L'Amie a Samaritan Pentateuch and a Hebrew Scroll of Esther. The museum is a member of the Irish Museums Association.

The museum exists to further scholarly research and teaching. Posters and postcards of some major exhibits are available. Visiting scholars, school parties, and members of the public, are welcome to visit, by appointment, during teaching term. Applications should be made in writing to the Curator of the Weingreen Museum, Arts and Social Sciences Building, Trinity College, Dublin 2 or by email to rodgersz@tcd.ie.

#### ZOOLOGICAL MUSEUM

Curator. Martyn Joseph Linnie, M.A., PH.D.

The Zoological Museum (www.tcd.ie/zoology/museum) owes its origins to the establishment of the Dublin University Museum in 1777. The collection was transferred to the Zoology Building in 1876 and following many years of change is now located in a refurbished area on the first floor.

There are over 25,000 objects in the collection, many of which are over 200 years old. A feature of the museum is the many examples of extinct and endangered species including Ireland's last Great Auk (declared extinct in 1844), the Tasmanian Wolf and the Great Indian Rhinoceros. All the main animal groups are represented in the collection which also contains a rare set of the famous Blaschka glass models of marine life dating from approximately 1880.

The museum has three main functions centered around research, teaching and outreach. While the main purpose of the museum is to provide undergraduate training in animal systematics, biodiversity and taxonomy, it has become a popular visitor attraction in the summer months offering guided tours, school workshops and specialised talks based around a unique interactive experience.

In 2015, the museum was awarded full accreditation of the Museums Standards Programme for Ireland. This achievement reflects the commitment of the Zoological Museum to the long-term care and development of its valuable and historic collection.

It has the dual and complementary functions of representing students' interests both inside and outside College and of providing student services. The elections for President, Education Officer, Welfare Officer, Communications Officer, Editor of the University Times, and Entertainments Officer are held annually in Hilary term and they hold office from the beginning to the end of the academic year.

The Union's offices, shop and employment and accommodation bureau are situated in Mandela House, No. 6, College. Computer and mobile phone repairs, ISIC, and student travel cards are also available. The Union also runs the shop at the main entrance to the Hamilton Building and the SU café in Goldsmith Hall. The Union is affiliated to the Union of Students in Ireland (USI).

Trinity's Graduate Students' Union (GSU) is the representative body for all postgraduate students in Trinity College Dublin, the University of Dublin. The two sabbatical officers of the GSU work full-time and represent postgraduate students on all major committees including Board, Council, Student Life, Graduate Studies, and Research Committees. The executive committee which includes representatives from all faculties convene on a monthly basis and more often when required. The objective of the Union is to represent postgraduate students within the university, advocate on behalf of union members on issues that impact postgraduate education internally and nationally; and to protect the interests of our union members during their studies. Activities of the Union include: providing social and recreational facilities for postgraduate students; monitoring and developing the study and recreational facilities of the 1937 Reading Room; providing a graduate common room for postgraduate students, and to provide and manage lockers for students in the 1937 Reading Room (rental is organised through the front office in House 6).

The GSU produces an academic and peer reviewed journal on an annual basis, the *Trinity Postgraduate Review*, and a literary magazine, *College Green*. It also produces a postgraduate handbook for students with information on supports and services available to postgraduate students. The GSU President works in the area of policy and strategy. The GSU Vice-President acts as the Welfare and Education Officer for postgraduates in TCD and provides confidential one-to-one advice, advocacy and support. The GSU Communications Officer informs students on a weekly basis of information, events, and updates from the university and the wider metropolitan community through the medium of a digital newsletter titled *Postgrad News*.

The GSU website www.tcdgsu.ie provides the latest updates from the GSU, information on elections, campaigns, and connections to the Union's social media platforms. Students can arrange meetings with the sabbatical officers via emailing either the GSU President at president@tcdgsu.ie or the GSU Vice-President at vicepresident@tcdgsu.ie or by contacting the office landline at (01) 896 1169.

#### SOCIETIES AND CLUBS\*

The Capitation Committee is a sub-committee of the Student Life Committee. Its role is to apportion the Capitation Fund which is committed to it on the basis of the historically approved allocation procedure by Board to the capitated bodies; to have responsibility for the formulation of the recommendation which is presented to Board by the Student Life Committee in respect of the possible introduction and implementation of levies relating to capital projects and their subsequent recurrent costs; and of levies funding the internal operation of the capitated bodies and their dependent organisations; to ensure the observance of all regulations pertaining to the capitated bodies and their dependent organisations, as published in the University Calendar, and to carry out such other functions as may from time to time be delegated to it by the Student Life Committee.

S2 Calendar 2020-21

Funds are allocated to the Central Societies Committee (who oversees the activities of College societies), the D.U. Central Athletic Club (who oversees the activities of College clubs), the Students' Union, the Graduate Students' Union, and Trinity Publications. The committee enforces rules for the accountability and control of monies which must be observed by officials of societies and clubs and, in particular, by treasurers, who should when elected to office make themselves familiar with these rules.

The Students' Union and any College society or club planning to hold a concert or gig in College must apply for permission to do so at least two weeks in advance of the function. Permission is granted by the Junior Dean, (application form available from the Junior Dean's website at www.tcd.ie/junior\_dean/events).

Permission to hold a party or reception in College must be obtained from the Junior Dean at least five working days in advance. Application form available from the Junior Dean's website at www.tcd.ie/junior dean/events.

Societies or clubs wishing to hold dances outside the College must apply for the Senior Dean's permission by writing to the Senior Dean at least three weeks before the proposed date.

#### CENTRAL SOCIETIES COMMITTEE\*

Treasurer. Eada Hogan
Secretary. Ben McConkey
Amenities Officer. Katie Holmes
Honorary Treasurer. Ronan Hodson, M.A., M.SC.

Administrative Officer. Emma Matthews Finance Officer. Lucy O'Connell Strategic Development Officer. Joseph O'Gorman, M.A., M.PHIL., F.R.A.S.

The C.S.C. acts as the coordinating body to promote the interests of student societies and to act as their representative within the University of Dublin and Trinity College. Its principal functions are to consider applications for, and to grant, recognition as College societies; to regulate the continuing recognition of such societies; to distribute grants to societies out of the money allocated to the C.S.C. by the Capitation Committee; to oversee the usage of said monies; and to oversee the auditing of the accounts of societies.

The committee consists of the treasurers of all recognised College societies. An executive committee of five officers and eight ordinary members is elected at the annual general meeting held in Hilary term.

The C.S.C. Office acts as an information centre for those interested in societies. Office hours are posted on the C.S.C. website: www.trinitysocieties.ie.

# Alumni and other Societies

#### TRINITY DEVELOPMENT AND ALUMNI\*

Trinity Development and Alumni, through the effective development and management of Trinity College Dublin's fund-raising activities, promotes T.C.D. as a community of academic excellence. It assists College in the strategic planning and continued development of its links with the world of business and industry. It maintains relationships with the College's 120,000 alumni worldwide via an annual programme of communications and events. It is responsible for *Inspiring Generations*, the largest philanthropic campaign in the history of the state, which aims to raise support for transformative projects across Trinity.

Trinity Development and Alumni coordinates the large network of alumni chapters throughout the world which enables graduates to stay in touch with one another. These chapters regularly organise activities and social events and are a great way for alumni to make new connections or meet old friends. Chapters also provide a channel of communications between members and the College so alumni can stay up to date with the latest College news. To find out more about the branch network, please visit www.tcd.ie/alumni/groups/branches.

Trinity College Dublin Trust\*
(Trinity College (Dublin) Educational Endowment Fund)

The Trinity College Dublin Trust was established in 1955 to continue and amplify the work of the Trinity College (Dublin) Educational Endowment Fund, which owed its inception to the initiative of the late Sir Robert Woods. The aim of the Trust is both to build up a capital sum large enough to augment substantially the existing endowments of the College, and to make grants to the College for the promotion of research or education in its widest sense.

Subscriptions and donations to the Trinity College Dublin Trust may be sent to the Financial Secretary, Trinity College Dublin Association and Trust, East Chapel, Trinity College, Dublin 2.

Cheques should be made payable to the Trinity College Dublin Trust.

Grant applications are only considered at the meetings of the executive committee of the Trust held in the eighth week of Michaelmas Term and the eighth week of Hilary Term.

The deadlines for the receipt of grant applications are as follows: 4 October 2019 for the Michaelmas Term meeting and 14 February 2020 for the Hilary Term meeting.

All applications must be submitted by the relevant deadline and on the official webform: www.tcd.ie/alumni/groups/aandt/a-and-t-form.

TRINITY WOMEN GRADUATES' ASSOCIATION (TWG)\*

President. Meadhbh Hand, PH.D.
Vice-President. Sandra O'Connell

Treasurer. Teresa Trainor Secretary. Sharon Bowers

Established in 1922 as the Dublin University Women Graduates Association (DUWGA), at a time when women had to be off campus by 6pm and could not dine in the Dining Hall. What began as a way for a small group of women to keep in touch with Trinity, and each other, has flourished into a vibrant inclusive community with a varied programme of events throughout the year. Membership is open to women graduates of any recognised university.

TWG is affiliated to the Irish Federation of University Women (IrFUW), the University Women of Europe (UWE), Graduate Women International (GWI) and the International Federation of University Women (IFUW) and participates in lobbying activities through these organisations.

TWG arranges lectures and social events for members. The association supports a bursary fund, a TAP (Trinity Access Programmes) scholarship and other causes as well as an annual award to a female TAP student. Within the Irish Federation TWG runs a public speaking competition for girls aged under fifteen.

TWG participates in graduate events organised by Trinity Development and Alumni and the T.C.D. Association and Trust.

Book donations. Siobhán McBennett, M.A., G.I.BIOL.

The Book Sale Committee was established in 1989 by a group of graduates and staff under the auspices of the T.C.D. Association and Trust, in association with the Friends of the Library. The committee organises an annual sale of second-hand books to support research in the College by providing funds for the purchase of research materials by the Library and departmental libraries. Books may be delivered throughout the year to the sorting centre in the Goldsmith Hall. The sale is usually held in the Public Theatre. Applications for grants should be made through the Book Sale Committee. Successful applications are then administered by the T.C.D. Association and Trust. # Special and Public Lectures and Courses

#### SPECIAL LECTURES

# Elementary Irish

A course in Irish for beginners is given each year. It is, as a rule, confined to members of staff, students on the College books and graduates of the University.

#### **PUBLIC LECTURES**

## The Cocker lecture in chemistry

In 2007 the late Professor Wesley Cocker bequeathed a sum of money to the College for the benefit of the School of Chemistry. The income from this bequest is used to support an annual lecture on a topic of public interest related to chemistry. The speaker, eminent in the field of chemical science, is chosen by staff of the School of Chemistry.

# The Godfrey Day memorial lectures

The Godfrey Day memorial lectureship was founded by the Board on 9 December 1939. Each year a lecture (or lectures) on a missionary theme is organised. The Board appoints the lecturer on the nomination of the Missionary Council of the Church of Ireland which is at all times advised by the committee of the Dublin University Far Eastern Mission.

#### The Donnellan lectures

The Donnellan lectures were founded by the Board on 22 February 1794, to carry out the intentions of Miss Anne Donnellan, of the parish of St George, Hanover Square, Middlesex, spinster, who bequeathed £1,243 to the College 'for the encouragement of religion, learning, and good manners; the particular mode of application being left to the Provost and Senior Fellows'. The subject is presented in not less than two lectures.

#### The Edmund Burke lecture

The annual Edmund Burke lecture was instituted in 2014 by the Trinity Long Room Hub arts and humanities research institute thanks to a generous endowment from the Fallon family in honour of Trinity graduate Padraic Fallon (B.A. 1969). The lecture was established to mark Trinity College Dublin's deep connection with the 18th-century philosopher, historian and politician Edmund Burke. This lecture is to be delivered by a leading public intellectual on a topic that engages with current challenges and in doing so keep Edmund Burke's manifold legacies alive in considering the type of society we want to live in and the traditions, perspectives and values we need to draw on in the shaping of our future.

# The E.S. and R. Duthie lecture in microbiology

In 1984 the late Mrs Ruth Duthie made a gift of £1,000 to the College, which she augmented in 1989 by a further £1,000, to fund a lecture to be delivered once every two years, the lecturer to be chosen by the Professor of Microbiology and the Head of Clinical Microbiology.

#### The Helv-Hutchinson memorial lecture

In 1976 the Earl of Donoughmore, together with members of the Hely-Hutchinson family, endowed a visiting lectureship in memory of John Hely-Hutchinson who established the Professorships of Modern Languages and Literature in 1776 (during his term as Provost). The lectures are given every second year by a scholar or writer of the highest distinction in the modern languages and literature field.

Calendar 2020-21 U1

#### Public Lectures

# The Joly memorial lectures

After the death of John Joly, F.T.C.D., SC.D., F.R.S., Professor of Geology and Mineralogy 1897-1933, a number of his friends subscribed a sum of money to found a series of lectures in his memory.

# The John Kirker memorial lecture in epilepsy

Dr John Kirker (1922-2011), a graduate of the University of Dublin, was consultant neurologist in Sir Patrick Dun and Beaumont hospitals. He was instrumental in the development of clinical services in epilepsy in Ireland. Dr Kirker cared deeply about Trinity. In 2013 his family provided an endowment to fund an annual John Kirker memorial lecture in epilepsy to be organised by the School of Medicine.

# The James Lydon lectures in Medieval history and culture

The Lydon lectures provide a platform for a distinguished lecturer to reflect on these issues and to convey specialist findings to a mixed audience of academic specialists, students and members of the public. The series, which is published by Cambridge University Press, is named for Professor James Francis Lydon, Department of History, who died in 2013. The inaugural Lydon lecture was Professor John Gillingham (Emeritus Professor of History at the London School of Economics) in 2014.

## The MacNeill lectures

This lectureship was founded in 1970 from a benefaction provided by the Engineering School Trust Fund to commemorate Sir John MacNeill, the first professor of civil engineering in the University. A public lecture is delivered every year by a lecturer appointed by the Board.

# The Normanby lecture in microbiology

Founded in 1996 by the Department of Microbiology in recognition of the generous support given to the department by the late Dowager Marchioness of Normanby and her family, which includes funding the construction of the Moyne Institute of Preventive Medicine in 1953 and the provision of additional research facilities within the institute since then. The lecture is delivered annually by a research scientist who has made an outstanding contribution to the field of microbiology.

# The O'Donnell lectures in Celtic history and literature

These lectures take their name from Charles James O'Donnell 1850-1934, who bequeathed a sum of money to found annual lectures in the Universities of Oxford, Wales and Edinburgh, the National University of Ireland, and the University of Dublin. In the British universities the lectures are on the Celtic element in the English language and population; in the Irish universities they are on Irish history since Cromwell, with special reference to the history of ancient Irish families since 1641.

The first O'Donnell lecture given in the University of Dublin was in 1957.

# The Royal Dublin Society lecture

In 1981, on the occasion of its 250th anniversary, the Royal Dublin Society commemorated the College meeting to which it traces its origins by endowing a biennial lecture on aspects of Irish social and economic policy and history with special reference to the contribution of individuals and institutions

# The Schrödinger lecture series

In 1995 the School of Physics, together with the Austrian Embassy and the Dublin Institute of Advanced Studies, hosted the first Schrödinger lecture. The lecture series is an annual event commemorating the famous lecture series entitled 'What is Life?' given by Erwin Schrödinger in Trinity College Dublin in 1943.

#### The W.B. Stanford memorial lectures

These lectures were founded in 1988 from funds provided by subscription to commemorate William Bedell Stanford, Regius Professor of Greek 1940-80, and Chancellor of the University 1983-4. A series of three public lectures is delivered twice every three years by a lecturer appointed by the Board. It is intended that the lectures shall be published.

# The John Lighton Synge public lecture

This lecture was established in 1992 from funds subscribed by friends and past colleagues and students to honour John Lighton Synge, F.R.S., M.R.I.A. [Scholar (1916), Fellow and Professor of Natural Philosophy (1925-30), Honorary Fellow (1954-95)]. The lecture is delivered once every two years by a lecturer appointed by the School of Mathematics.

#### The Hilda and Robert Tweedy lecture series

This lecture series was established in 2007 in honour of Mr and Mrs Robert and Hilda Tweedy by Dr Jean M. Tweedy Walker, a Trinity alumna and daughter of Hilda and Robert. It consists of biennial lectures alternatively addressing peace, gender and human rights, and environmental issues. These topics reflect long-time interests of Hilda and Robert Tweedy.

# The H.O. White memorial lectures

These lectures were founded in 1964 from funds provided by subscription to commemorate Herbert Martyn Oliver White, Professor of English Literature 1939-60. A public lecture is delivered every two or three years by a lecturer appointed by the Board and is followed by a seminar for senior students in English literature.

# The White social policy lecture series

This lecture series was established in 2004 from funds given by Tony White, former student of the College, to honour *Emeritus* Senior Lecturer in Social Policy, Anthony Coughlan.

#### The Whitfield Drama Series

This series of events incorporating academic talks from visiting lecturers and workshop masterclasses from visiting practitioners was established in 2019 from funds given by Needham Whitfield in memory of his wife Brigid Pike Whitfield, a Trinity graduate in modern languages and a life-long lover of the performance arts.

#### PUBLIC LECTURES IN THE SCHOOL OF MEDICINE

The Mary Louisa Prentice Montgomery lectures in ophthalmology
The John Mallet Purser lectures
The Frederick Price lectures
The T.J.D. Lane lectures

# Records

Special record volumes are published from time to time as the Board may direct, the most recent being in 2006. It contains lists of scholars (1951-2000), honorary degrees conferred (1949-2000), degrees conferred and qualifications awarded (1949-2000), moderators and respondents (1950-2000).

#### BURKITT MEDAL

Established in 2013, the Burkitt Medal is designed to recognise people with the integrity, compassion and dedication matching that of Denis Burkitt, a Trinity graduate, who is known for his discovery of Burkitt lymphoma.

The Burkitt Medal represents an opportunity for Trinity to acknowledge outstanding achievements of practitioners and researchers in cancer, preferably connected with Trinity or with a potential to establish closer links. It is also a channel for raising profile of the quality work conducted by Trinity academics and of Trinity's rich heritage.

Award recipient 2019: Bissell, Mina J., Ph.D.

#### GLOBAL ENGAGEMENT AWARDS

Established in 2015, the Global Engagement Awards are designed to recognise the exceptional contribution made by staff to global education, cultural understanding and global experiences that directly benefits the Trinity community, raising the College's profile and supporting the development of students into global citizens.

Up to three awards will be given each year and will be open to both current and past academic and administrative staff members. Each awardee will receive €2,000 each. It is envisaged that this will support the awardees in the advancement of their professional endeavours and engagement in a region strategic to their School or profession, in collaboration with the Global Relations Office. Winners and their nominator will be invited to an awards ceremony that will take place in April, hosted by the Provost.

Award recipients 2020: Lawlor, Brian - Global Brain Health Institute Broderick, Brian - School of Engineering

## PROVOST'S PROFESSIONAL STAFF AWARDS

Established in 2016, the Provost's Professional Staff Awards acknowledge the contribution of exceptional professional staff, including all administrative, technical and support staff employed in Trinity College Dublin, the University of Dublin.

The awards create a formal process to celebrate outstanding contributions by Trinity's professional staff, providing a high profile example of how Trinity delivers its mission of encouraging all to achieve their full potential.

These bi-annual awards are an opportunity to celebrate Trinity's professional staff whose hard work, creativity and dedication are an important element in the continuing success of the University.

They provide an opportunity to capture and promote enhancement initiatives that are ongoing at local level, but which may not be known or recognised beyond the local area.

#### TRINITY EXCELLENCE IN TEACHING AWARDS

The Trinity Excellence in Teaching Awards are designed to recognise and reward those who have made an outstanding contribution in the pursuit of teaching excellence. The prestige of the award reflects the value which Trinity places on promoting teaching as a scholarly activity and the importance placed on enriching the learning opportunities of its students. The scope of the initiative is broad, covering all aspects of teaching, learning and assessment, and seeks to:

- Provide recognition for excellent teaching
- Reward teaching staff who are creative in their approaches to teaching and learning and who use a variety of mechanisms to achieve their learning outcomes
- Share best practice across College and encourage teaching staff to consider other approaches to course design, delivery and assessment
- Reaffirm that curriculum development, teaching, learning, assessment and evaluation, are important activities in College requiring high level expertise
- Encourage teaching staff to reflect critically on their teaching practice

Each award is to the value of €1,500 to a departmental account. At least one will be an Early Career Award for nominees with not more than five years full-time third-level teaching experience at the time of nomination (or equivalent as determined by the committee). If an applicant meets the existing criteria and additionally demonstrates in their application 'evidence of sustained commitment to teaching excellence, supporting learning and it is clear that the scholarship of the nominee has been inspirational and/or influential among academic colleagues within or beyond the institution' the nominee may also be considered for a Lifetime Achievement Award.

It is requested that the award winners would contribute to the CAPSL programme of events in the following academic year.
