

List of uncatalogued non-TCD manuscripts on microfilm

TCD MIC 1 –

The following is a list of Trinity College Library Dublin's microfilm copies of manuscripts not located in the Manuscripts Department and not owned by the Library. The majority of these do not appear in the Library catalogue. Their "shelfmark" is the MIC no. which appears in this list beside the items description. They are not listed in any particular order.

They are kept in Cabinet No.27 in the Multimedia Resource Area, which is locked. The key is available from staff at the BLU counter.

Printing from these microfilms is never allowed without a letter of permission from the owning institution.

Usually the films are of manuscripts held in other Libraries or in private collections. Occasionally they are films of manuscripts held in other parts of Trinity College, or they are films of items that are, or have been, "on deposit" in the Manuscripts Department.

Recently these MIC films have been referred to as NON TCD MIC, but if MIC is always in capitals, the fact that they are TCD-owned microfilms can be stated without implying TCD ownership of the manuscript in the film.

* Please note that the Library also holds some other commercially produced collections of non-TCD manuscripts on microfilm in the Multimedia Resource Area, but these have records in the Library catalogue.
