

## MIDWIFERY JF LIBRARY AND SEARCHING SKILLS

1. You have been told to read Chapter 5 in “Mayes’ Midwifery”. Why are there so few copies in the Library?
2. How do you read articles from the journal “Practising Midwife”?
3. Find the midwifery theses in the catalogue. How do you get the one by Valerie Smith?
4. Find this article in the Journal of Advanced Nursing - *New midwifery? A qualitative analysis of midwives' decision-making strategies*. 2007 60(5):525-34.
5. Find Joan Lalor’s article with "electronic fetal heart rate monitoring" in the title - first, find the full citation in PubMed. Is there a link to the full text? If not, what to do?
6. Run the following searches in PubMed:  
cardiotocography  
pregnancy  
prenatal  
antenatal  
fetus

How would you combine these searches together?
