Every year since 1997, the MND community worldwide mark 21st June as the Global Day of recognition of MND - a disease that affects people in every country of the globe. 21st June is a solstice - a turning point - and each year the MND community undertake a range of activities to express their hope that this day will be another turning point in the search for cause, treatment and cure of this disease. Global Awareness Day allows us to recognise that we are not alone in our fight against MND and many, many others are all part of this fight.

The Irish Motor Neurone Disease Association (IMNDA) and TCD MND Research are once again joining forces to host a special “Drink Tea for MND” event in the lead up to MND Global Awareness day (21st June).

**Location:** Knowledge Exchange, Trinity Biomedical Sciences Institute, Pearse Street, Trinity College, Dublin 2

**Date:** Tuesday 17th June 2014

**Time:** 1pm – 5pm

Professor Orla Hardiman and her team will be presenting the latest updates on the research programmes currently been undertaken by TCD MND Research. We invite our MND community to come together, drink tea and join the global fight against Motor Neurone Disease.

All welcome - please kindly RSVP for catering purposes:
