Practice Placement Education Risk of Failure Review Form

- This form is to be completed by the student coordinator and/or educator and/or academic staff member (PEC) in discussion with the student.
- It is an official record of the review of a student who is at risk of failing their practice placement education.
- This form comprises one part of the assessment process therefore; meeting all of the performance indicators on the risk of failure form does not automatically ensure the placement will be passed.
- The student, student coordinator or educator and the university must be provided with copies of this form.
