INTENDED PARTICIPANTS

Prospective students must be graduates in a health or social care-related discipline with at least 3-4 years professional experience. Other applications may be considered in exceptional circumstances based on workplace experience. Short-listed applicants may be interviewed if it is not possible to make a decision based on the online application. Candidates from within and outside the EU will be eligible for enrolment onto each course, providing their primary degree is from a recognised institution.

HOW TO APPLY

Applications for admission to the course will be made online at http://www.tcd.ie/courses/postgraduate/a2/course.php?id=OCDMU-SCI1-1PG.

The closing date for applications for entry to the course will be the end of June of the year of admission, however late applications will be considered in the event of places not being filled.

INTRODUCTION

The Postgraduate Certificate in Implementation Science course has been designed to improve the knowledge and skills of health, social care and education professionals in the area of Implementation Science (IS), with regard to the core principles of IS and their application to the complex environment of the health and social services. This internationally accredited course is aimed at the broad range of professionals working in health, social care and education who have responsibility for implementation of policies, programmes or projects.

AIMS

The aims of the course are as follows:
1. To impart the core theory of Implementation Science to health, social care and education practitioners and to support the application of Implementation Science in the health, social care and domains of practice.
2. To analyze the factors impeding implementation in a variety of settings.
3. To foster multi-disciplinary learning in an academic setting where the multi-disciplinary and multi-organisational backgrounds of the students will be developed as a source of learning.
4. To provide a firm foundation for those who wish to undertake research in IS.
