

## Schedule 3

### *Committees of Academic Units*

To be provided by Board after the adoption of the Restatement.

The Statutes Review Working Party recommends that the elements of this Schedule should broadly follow a common pattern.

[Section 3 requires only that the governing principles of academic units should be set out in this Schedule. This means that it would be acceptable for this Schedule to define the general elements of the governing principles of the unit committees, without having to set out individual details for each individual unit. Of course, there may be circumstances where such extra detail would be desirable in the governing principles of a committee of an academic unit, and this Schedule would then be the appropriate place for it. The point of this note is that such detail will not always be necessary to fulfil the terms of the third subsection above.]
