DEPARTMENT OF CLINICAL SPEECH AND LANGUAGE STUDIES

'Move away from strengthening and skill training in swallowing rehabilitation'

Dr Maggie Lee Huckabee, Senior Lecturer, Department of Communication Disorders, University of Canterbury. Senior Researcher, Van der Veer Institute for Parkinson's and Brain Research in Christchurch, New Zealand

Date: Thursday, 16th October 2014

Time: 17:00-19:00

Venue: TBC

Cost: €30.00

Maggie-Lee Huckabee, Ph.D is senior lecturer in the Department of Communication Disorders, University of Canterbury and senior researcher at the Van der Veer Institute for Parkinson's and Brain Research in Christchurch, New Zealand. Her research interests focus on the complexities of behaviourally-driven neural adaptation and biomechanical change leading to swallowing recovery. Dr. Huckabee has numerous publications in dysphagia and has been a significant support to the M.Sc. Clinical Speech and Language Studies program since it began in 2004. We are delighted and honoured that she has agreed to 'kick off' our 10 Year anniversary celebrations with this evening session.
