

Trinity College Dublin

Council Meeting 28 September 2016

Document for consideration under Section A

Confidentiality status:

Council members only: Confidential College circulation only: Unrestricted:

Title:	Senior Lecturer's Annual Report 2014/15
Author:	Dean of Undergraduate Studies/Senior Lecturer
Date of Document:	20 September 2016
Purpose:	To provide Council, and the wider College community, with the statistical information needed to make informed policy decisions about undergraduate education in College. It also assists in the process of review and evaluation, and provides a valuable long-term record about changes and developments in the areas of admissions and the undergraduate curriculum.
Link to Strategic Plan (if relevant)	Renewal of the Trinity Education
Previous consultation /consideration:	
Action required of Council:	For Council to consider and suggest areas for future action.

MEMORANDUM

To Council
From Dean of Undergraduate Studies/Senior Lecturer
Date 20 September 2016
Reference Senior Lecturer's Annual Report 2014/15

This is the 20th Senior Lecturer's Annual Report to the University Council. Together with reports from previous years, it provides Council and members of the College community with the statistical data which can help to inform policy decisions about undergraduate education in College.

The report includes some of the main developments during the year 2014/15 which will impact on undergraduate education. It encompasses admissions data from 2015/16. Areas of interest in the report include the data on applications to Trinity, on the profile of applicants, and on retention and progression. Additionally, the report includes updates on the Northern Ireland Engagement Programme, the Feasibility Study, the Trinity Education Programme, student cases, and Foundation Scholarship. Information is also provided on the new International Foundation Programme.

I invite Council to consider the content of the report and welcome discussion and feedback on any of the issues contained therein.

Dean of Undergraduate Studies / Senior Lecturer's Annual Report 2014/15

A. INTRODUCTION AND OVERVIEW

Introduction

This is the twentieth Senior Lecturer's Annual Report to the University Council providing data on applications and the admission of undergraduate students and developments in the area of undergraduate studies. The report provides the University Council, and the wider College community, with the statistical information needed to make informed policy decisions about undergraduate education in the College and assists in the process of review and evaluation. Statistical data cover the period 2014/15 and admissions data relate to the 2015/16 academic year.

The Role of the Dean of Undergraduate Studies / Senior Lecturer

The Senior Lecturer/Dean of Undergraduate Studies is the academic officer with responsibility for undergraduate admissions, as well as for the progression and examination of undergraduate students. The Senior Lecturer is administratively supported by staff in the Office of the Vice-Provost, Trinity Teaching and Learning and the Academic Registry.

Undergraduate Studies Committee

The Undergraduate Studies Committee (USC) is an academic committee of the University Council and is chaired by the Senior Lecturer. It was established in October 2008 and amalgamates the work of the old Undergraduate Teaching and Learning Committee, and the Centre for Academic Practice and Student Learning Committee. The membership and terms of reference of the committee can be found online at www.tcd.ie/vpcao/council/undergraduate_studies.php.

In 2014/15, there were 8 meetings of the Undergraduate Studies Committee. Minutes of these meetings are available at www.tcd.ie/teaching-learning/council/usc.agenda-minutes.php. During the year the Committee discussed a number of areas of interest to the general College community, including the following:

Northern Ireland Engagement Programme

The Trinity Northern Ireland Engagement Programme (NIEP) was established by the Provost in September 2013, with the aim of increasing the number of undergraduate students from Northern Ireland studying at Trinity. NIEP is seeking to increase the percentage of new entrants from Northern Ireland from around 3% of the undergraduate intake to 8% (i.e., ca. 300 students each year). One measure to drive this initiative is the Feasibility Study in A-level Admissions, to be tested in the first instance in relation to students from Northern Ireland. The study was launched on 3 July 2014 with the objective of exploring whether there is a fairer way of admitting A-level students to courses in Trinity. It was hoped that it would also stimulate discussion within the third-level sector on the need for more far-reaching reform.

During 2014/15 Trinity has continued to reconnect with schools across Northern Ireland through visits and attendance at fairs, which have been undertaken by NIEP ambassadors, accompanied by student ambassadors. There has also been engagement with alumni: the Dean of Undergraduate Studies/Senior Lecturer attended and spoke at the annual dinner of the TCD Northern Ireland Association on 7 November 2014, whilst the Provost addressed the AGM of the TCD Northern Ireland Association on 12 May 2015.

Recruitment data for 2015/16 – the first intake to include Feasibility Study applicants – show an increase in the number of NI student applications: 755 applications were received (see Table B3) compared with 601 in 2014/15. Of the 755 applicants, 212 also submitted a Feasibility Study application form. Thirty-two per cent of applicants received an offer via the standard CAO and feasibility routes, with some 48% of Feasibility Study applicants and 42% of standard applicants accepting offers. Whilst the figures underline the contribution of the Feasibility Study to the overall increase in number of registrations in 2015/16, they also highlight the need to close the gap in terms of the conversion of offers to acceptances and registrations.

As noted above, it had been hoped that the Feasibility Study would stimulate a review within the sector of A-level entry to third-level courses in the Republic of Ireland. Thus, it was significant that during the 2014/15 academic year, a rebalancing of the A-level conversion scores for entrants in 2016/17 was approved at sectoral level. This will create a more level playing field for all A-level applicants.

The Trinity Education

Building on the extensive work carried out during the 2013/14 academic year in advance of the launch of the College Strategic Plan 2014-2019, the first meeting of The Trinity Education Project (TEP) Steering Committee, chaired by the Provost, took place on 23rd March 2015. TEP is a core component of the Strategic Plan and will involve a far-reaching review of Trinity's education and curriculum over the next 18-24 months. The Steering Committee began its work by seeking to identify the Trinity graduate attributes, specifically, the attributes of Trinity graduates ten years hence and how the achievement of these attributes might impact on programme architecture, curriculum design and assessment. Discussion also took place at the Undergraduate Studies Committee and University Council. In June 2015, a discussion paper on graduate attributes and on the implications for their achievement was brought to University Council with the aim of using the feedback obtained from Council members to inform the consultation process with the wider College community during 2015/16.

Scholarship

In 2013/14, the Senior Lecturer was tasked by Board to develop proposals to address the increase in the number of scholars. At the last meetings of University Council and Board during the 2013/14 academic year, a policy was approved, requiring that in 2014/15 all courses must set a subject-specific general paper as one of their three or four papers. It was subsequently decided that the implementation of this policy in time for the Scholarship examinations in 2014/15 would pose academic and logistical challenges and would not facilitate consultation in an effective way. Further, Calendar changes would be necessary. Thus, the introduction of the policy was postponed to the 2015/16 academic year.

In 2014/15, 454 students presented for the Foundation Scholarship examination. It was the second year in which the examination was only open to Senior Freshman students on foot of a

recommendation of the 2012 Scholarship Review. A total of 68 Foundation and Non-Foundation scholarships were awarded, representing 15% of candidates who sat the examination. This figure was lower than in 2013/14 when 100 scholars (22% of those sitting the examination) were elected. In terms of gender breakdown, 32 scholarships were awarded to females and 36 to males (in 2013/14 the gender breakdown was 47 female and 53 male). Although the number of female students who apply and achieve Scholarship is lower than the number of male students, the percentage of attendees achieving Scholarship is higher for female students than their male counterparts. In 2014/15, 16.16% of female attendees were awarded Scholarship in comparison to 13.28% of male attendees.

Trinity Prospectus

The prospectus remains the most important source of information about Trinity's courses amongst new entrants. Recognising that the prospectus needed to be refreshed, a review was carried out during 2014/15 on its content, design, and overall visual appeal. Based on this review, a new prospectus for 2016 was developed by the Admissions Liaison Officer with input from academic and administrative colleagues and the SU Education Officer. The result is a much livelier and appealing document, which places greater emphasis on the student perspective, whilst not compromising on the richness of the information provided to potential applicants.

External Examiner reports

The external examiner process is an integral part of the quality assurance of programmes in Trinity. The process was reviewed by Trinity Teaching and Learning at the request of the Quality Committee and included the design of a single report template, quality assurance of the issues reported by external examiners, receipt and dissemination of reports, and payment of external examiners. The new report template, which was presented to the relevant committees during the 2014/15 academic year, was developed in consultation with the Dean of Undergraduate Studies/Senior Lecturer, the Dean of Graduate Studies and the Senior Academic Developer (CAPSL), with further input from nominees of the Deans prior to circulation to USC and GSC. The new report template is in use for the 2015/16 academic year.

Reports were received in relation to the academic year 2014/15 from 77 % of external examiners (See Table E6). This percentage compares with 73% for 2013/14. However, it is worth noting that reports are in some cases received well into the following academic year. It is hoped that the new online report template and clearer lines of communication in relation to submission of reports will impact positively on returns.

New Course Proposals

In 2014/15, the Undergraduate Studies committee discussed and recommended the following new course proposals:

- BBS in Business Studies;
- B.Sc. in Early Childhood Education, which was developed and will be offered by Marino Institute of Education (the degree will be awarded by the University of Dublin).

These were subsequently approved by the University Council.

In addition, within TSM, the separate entry routes for Greek and Latin were bundled into 'Classical Languages'. Students applying to enter College in 2016/17 will now apply to Classical Languages and be assigned to either Latin or Greek following admission.

The Undergraduate Studies Committee and University Council also discussed and approved the discontinuation of the Moderatorship in Irish Studies. This degree programme had its first intake in 2007, but, in recent years, has seen declining applications, first preferences, and registrations. The last intake to this programme will be in 2015/16.

Student Cases

The Senior Lecturer has responsibility for deciding on undergraduate student cases. In 2013/14, 3,197 decision memoranda were issued, representing a very significant increase of 49.8% on the previous year. In 2014/15, the number remained at an elevated level, with 3118 decision memoranda being issued (2.4% lower than 2013/14). A total of 610 memoranda were issued in the period October to December 2015 due to the backlog of cases which had built up during the preceding months, in particular, around the annual examination session. The number of cases coming to Courts of First Appeal (Table E4 (a)) in both the annual and supplemental sessions decreased slightly in 2014/15 to 234 from 258 in the preceding year. By contrast, the number of cases going to Academic Appeals (Table E4 (b)) rose to 50 at the supplemental session, compared with 37 in 2013/14 and 15 in 2012/13. Although not represented in the figures presented in the report, 29 cases proceeded directly to Academic Appeals without having been considered by Courts of First Appeal due to the very tight turnaround between publication of results and submission of documentation to Courts of First Appeal. Taking account of the backlog of student cases and the volume of appeals, a working group, chaired by the Dean of Undergraduate Studies/Senior Lecturer was convened in October 2015 to review how the procedures and the systems impacting on the processing of appeals could be managed more effectively and to propose to the Undergraduate Studies Committee (USC) and Council interim relief measures. Recommendations were presented to and approved by USC in December 2015 and University Council in January 2016. Their impact will be monitored during the 2015-16 examination sessions.

Award of Gold Medals

There was a continuing increase in the number of students achieving first class honors in 2014/15: 527 compared with 376 in 2013/14 and 397 in 2012/13 (page 74). In 2013/14, the number of Gold Medallists declined to 49 from 78 in 2012/13. However, in 2014/15 the number rose to 67. The chart on page 74 demonstrates the percentage of students achieving first class honors that were awarded a Gold Medal: 12.7% in 2014/15, 13% in 2013/14 and 19.6% in 2012/13.

Study Group International

For non-EU students seeking entry to Trinity whose second-level qualifications do not fulfil the University's matriculation requirements, a 9-month foundation programme has been provided externally since 2011 by Study Group International. Students who successfully complete the foundation programme and achieve the required entry standards may progress to a limited range of undergraduate programmes in Trinity. The number of students entering Trinity by this route fell to 16 in 2015/16 from 23 in 2014/15 and 26 in 2012/13 (Tables B20(a – b)). In light of decreasing numbers and taking other factors into consideration, it was decided that Trinity should establish its own foundation programme. The International Foundation Programme was jointly developed

by Trinity and Marino Institute of Education and will be delivered in MIE and validated by Trinity. It was approved by University Council in January 2016 and will have its first intake of students in September 2016. Students successfully completing the programme will be awarded the Certificate in International Foundation Studies for Higher Education.

Summary of Admissions Data

In 2015, Trinity received 7, 816 first preference applications within the CAO system (11% of first preference applications in the CAO system). This constitutes an increase of 5% from 7, 437 in 2014, but remains below the 2012 level of 7, 919. A total of 70, 476 students applied for Level 8 courses in HEIs through the CAO in 2015. Of this total, 18, 169 listed Trinity as one or more of their CAO course preferences. This is 2% higher than the figure for 2014 (17, 795). Looking across the other universities, UCC, UL and DCU also recorded increases, although the issue of comparability arises in relation to DCU due to the incorporation of St Patrick's College Drumcondra and Mater Dei in 2015. UCD, NUIG and Maynooth show a decrease.

Analysis of Applicants

Table B3 provides the gender breakdown of all the CAO applicants from the island of Ireland who listed Trinity as one of their ten preferences, as well as the geographical breakdown of where they were applying from. Applications came from all counties on the island of Ireland, although 7, 012 out of a total of 16, 442 were from Dublin. Applications from Northern Ireland (6 counties) amounted to 755. In terms of the gender profile of all CAO applicants, Trinity continues to attract a significantly higher proportion of female applicants (61%) than male applicants (39%). The overall student population (including undergraduate and postgraduate students) for Trinity is 58% female and 42% male (See Section C: Student Population).

Analysis of Students admitted

In 2015, 66 % of new entrants were admitted to their first preference CAO course choice and 87% were admitted to one of their first three preferences. The acceptance rates (CAO Round 1) can fluctuate significantly from year to year, e.g., Classics 40% in 2015, 20% in 2014, 30% in 2013, 12% in 2012, 43% in 2011; Maths 67% in 2015, 80% in 2014, 46% in 2013, 76% in 2012, 63% in 2011(see Table B9).

The Trinity Feasibility Study in Admissions (TAFS) was launched in 2013 to investigate if there is a better and fairer way to admit students to third-level. Twenty-five places were set aside in three courses for the study: Law (10 places), History (10 places), and Ancient and Medieval History and Culture (AMHC) (5 places). A total of 242 applications were received in 2015 (270 in 2013/14) and these were assessed on the basis of three equally weighted modalities: Leaving Certificate results, Relative Performance Rank, and personal¹ contextual data. In September 2015, 21 students were admitted via TAFS to the three courses: 10 were admitted to Law, 7 to History, and 4 to AMHC.

¹ RPR refers to the performance of the applicant relative to other applicants from their school who have applied through the CAO to any course in any college.

Retention and Progression

Of all the Junior Freshman students who entered Trinity in 2014/15, 95% were retained. This figure includes those who progressed to the Senior Freshman year, those who repeated the year and those who transferred to another course within College. Detailed information is provided in Section G (Table G5 (b)).

In terms of progression, 94% of students who entered full-time degree courses in 2014/15 were successful in their annual or supplemental examinations and progressed.

B. APPLICATIONS AND ADMISSIONS 2015

Student Applications and Admissions

A total of 70,476 applicants applied through the CAO for Level 8 courses in Irish higher education institutions, an increase of 1.9% on the 2014 application figures (69,218). In 2015, 18,169 (17,795 in 2014 and 18,161 in 2013) mentioned Trinity as one or more of their CAO course preferences – an increase of 2% on 2014. There are up to 10 preferences on each application form and applicants may apply to more than one institution. Therefore, the figure 18,169 refers to the number of applicants who indicated a preference for one or more courses in Trinity College Dublin, the University. The total number of applications to courses (all preferences) in Trinity College was 39,395 compared to 37,732 in 2014 and 39,455 in 2013.

TOTAL APPLICATIONS:			7009	11160	18169

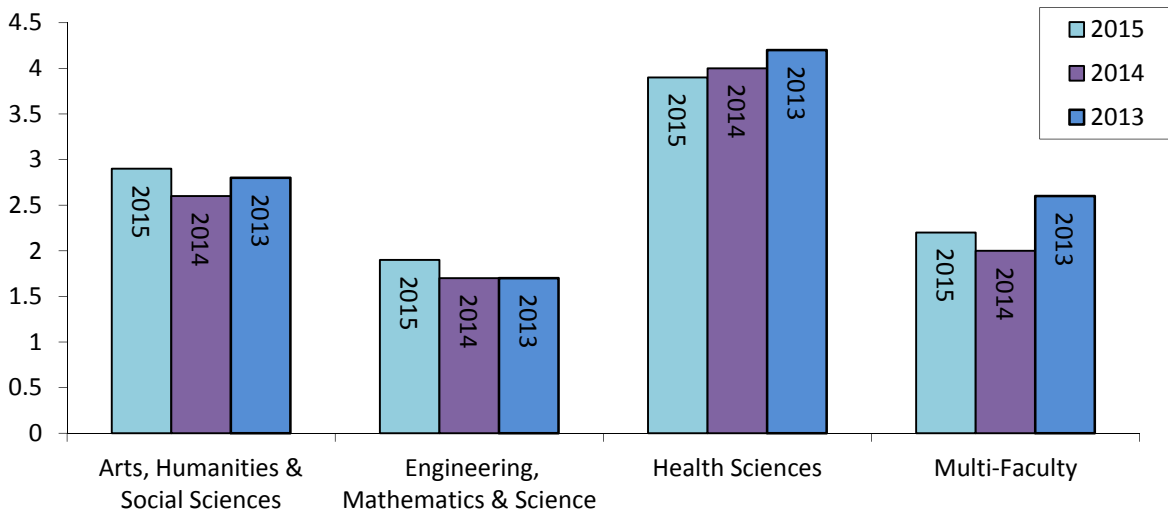

In 2015, the ratio of applications (all preferences) to quotas ranged from 1.2:1 in TSM Early Irish to 45:1 in TSM Psychology. The overall College ratio was 13.6:1 (13:1 in 2014). Trinity continued to attract a substantial proportion (11%) of first preference applications in the CAO system (11% in 2014 and 12% in 2013). The number of first preference applications to Trinity College was 7,816 representing an increase of 5% on the 2014 figures (7,437 in 2014).

**Total number of CAO applications to full-time undergraduate degree courses in Trinity
(all preferences and first preferences)
2015, 2014, 2013**

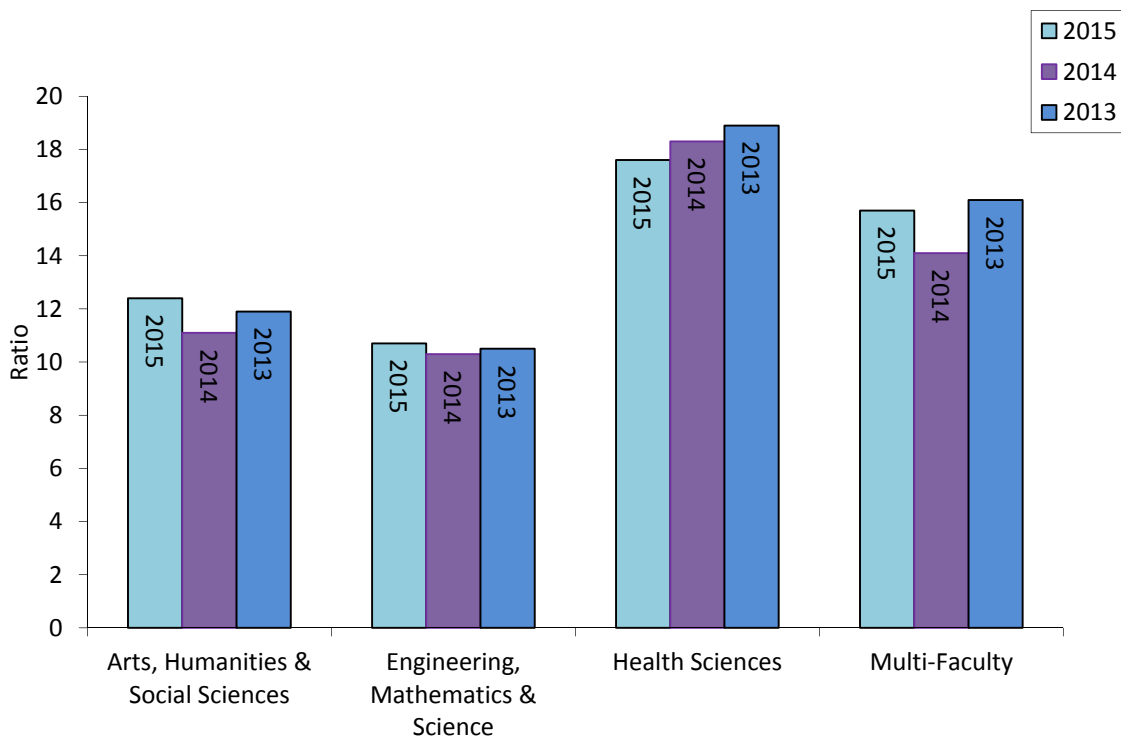

In general, course quotas were met. In comparing the numbers of students registered with course quotas it must be noted that achieving an exact match through eight rounds of CAO offers and acceptances is a delicate and indeterminate process. The College's overall ratio of first preference applications to quota was 2.7:1 (2.6:1 in 2014). The Faculty of Health Sciences had the highest this year at 3.9:1 (4:1 in 2014). However, it is important to note that the overall ratio of eligible first preference applications to quota was 1.9:1 (1.7:1 in 2014). The term 'eligible applications' refers to applications that satisfy the matriculation requirements of the university, and, where appropriate, course requirements. As can be seen from the tables that follow, there is a significant difference in the ratio of eligible applications to quota and the ratio of all applications to quota.

Ratio of Eligible First Preference CAO Applications to Quotas 2015, 2014, 2013

Ratio of Eligible CAO Applications (all preferences) to Quota 2015, 2014, 2013

#Quota changed in 2013 as part of the strategic planning process.

Minimum Points:

^^ The points shown are the minimum for the subject but not for all combinations

* Random selection: not all students with this number of points were offered a place.

***Entrance test/Interview required

New Entrant CAO Preferences

Analysis shows that in 2015 66% of new entrants were registered on their first preference CAO choice, with 14% and 7% registered on their second and third choice respectively. Students registering on courses which represented a lower preference (4-10), accounted for 13% of new entrants.

New Entrant Data – analysis of preference of registered course

Admissions Preference Data – number of students registered in each faculty according to CAO preference

Admissions Preference Data - number in each faculty, according to CAO preference, as a percentage of total new entrants in each faculty

* New entrants are students who have not previously attended Trinity and this is different to all registered students which includes students who may have previously attended Trinity

Acceptance rates for courses can vary, sometimes quite dramatically, from year to year. The below tables show the percentage trend of acceptances to Round 1 offers from 2011 to 2015. They range from 40% to 100% in 2015 and sometime show significant variance from year to year. Acceptance rates are only one of the key factors taken into account when determining the numbers of offers to be made; this variation adds some uncertainty to the admissions process.

Table B9: Percentage rate of acceptances to offers 2015 - 2011 (CAO round 1)

Out of a total of 58 undergraduate full-time single and joint honor CAO courses (excluding TSM), 5 (9%) did not meet their quota because of insufficient eligible applications, and of 26 TSM subjects, 5 (19 %) did not meet their quota for the same reason.

Table B12 (a): Courses not meeting quota in 2015 due to insufficient eligible applications

Entry to Medicine

The allocation of places for Medicine is determined on the basis of a weighted combination of the Leaving Certificate Examination (LCE) score and the HPAT-Ireland score. Applicants to Medicine who achieve above 550 LCE points are credited with 550 points, plus an additional 1 point for every 5 LCE points attained, e.g. students who attain 600 LCE points are credited with 560 points. In addition, applicants may attain up to 300 points from the HPAT test, resulting in a combined maximum of 860 points. The scaling down of points in excess of 550 is intended to strike a balance between the perceived pressures on students to achieve maximum grades in the Leaving Certificate Examination while at the same time recognising excellence when it has been achieved.

Following an interim analysis of three years data, a number of changes were made which were introduced for those taking the test in 2014.

1. HPAT-Ireland scores are valid for one year only.
2. Prior to 2014 all sections of the test were equally weighted. From 2014 onwards Sections 1 and 2 have a weighting of 40% and Section 3 of 20%.

The first HPAT-Ireland test took place in February 2009. In 2008, students were required to present a minimum of 580 points to gain admission to Medicine. The table below shows the minimum scores required for entry for the last three years.

Table B13: Minimum scores required for Entry to Medicine 2015 – 2013

	2015	2014	2013
No. of Places	121	121	123
Min. Leaving Cert. score	540	530	525
Min. HPAT-Ireland score	168	170	186

Entrance Exhibitions 2015

Four hundred and sixty (460) students were awarded an entrance exhibition in 2015 representing 16% of the Junior Freshman class for 2015/16. Of this figure, 424 were Leaving Certificate, 22 were A-level students and 14 students held other EU qualifications.

Fifty-four percent (54 %) of all entrance exhibitioners were female in 2015 (54% in 2014 and 59% in 2013). Receptions for all entrance exhibitioners, their parents/guardians and school principals were held over three evenings on 16th, 17th and 18th November 2015.

Entrance Exhibitions 2014

Four hundred and twenty two (422) students were awarded an entrance exhibition in 2014 representing 15 % of the Junior Freshman class for 2014/15. Of this figure, 381 were Leaving Certificate students, 27 were A-level students and 14 students held other EU qualifications.

Fifty-four percent (54 %) of all entrance exhibitioners were female in 2014 (59% in 2013 and 56% in 2012). Receptions for all entrance exhibitioners, their parents/guardians and school principals were held over three evenings on 17th, 18th and 19th November 2014.

Entrance exhibition awards 2015, 2014, 2013

Matriculation Examination

A matriculation examination is held in Trinity College every year, usually in March/April, in a limited range of subjects. Since 2003, only two subjects are examined, namely, Geology and Biblical Studies. Forty (40) candidates presented for the Geology examination (19 in 2013/14) and twelve (12) candidates presented for Biblical Studies in 2014/15 (10 in 2013/14).

Table B14: Trinity Matriculation Examination 2015 – 2012

	2015	2014	2013	2012
Biblical Studies	12	10	14	12
Geology	40	19	20	14
Total	52	29	34	26

Alternative Admission Routes and Access Initiatives

Alternative admissions and access applications to the university are categorised into three principal types: (a) students with a disability, (b) mature students applying for admission under the mature student dispensation scheme, and (c) socio-economically disadvantaged students. In addition to applying through the CAO, applicants in these three groups are invited to submit separate applications directly to the university.

College's Strategic Plan is committed to increasing the number of students from under-represented groups to undergraduate programmes. The Strategic Plan 2014-19 makes a commitment to increase the proportion of students from under-represented groups to 25% of CAO new entrants by 2019.

In 2015, a total of 586 (692 in 2014) students from underrepresented groups registered on undergraduate degree programmes, representing 20% of the CAO intake. Eighteen percent (18%) of these are mature students.

a) Students with a Disability

The Disability Access Route to Education (DARE) scheme was formally launched in 2010. Eighteen third-level institutions currently participate in the scheme. Applicants who disclose that they have a disability on the CAO application form are required to provide additional information and certain documentation to the CAO. Applicants are assessed for eligibility for the scheme and, if deemed eligible, they may be granted a concession on points, if required.

It should be noted that many applicants with a disability do not disclose this information on the CAO form, but subsequently register with the Disability Service on entry to college. Students may register with the Disability Service at any time during their college career; therefore statistics reflect student numbers at a particular data point. In 2015/16, 190 first year students entered Trinity with a disability and of these, 142 students accepted a place under the DARE scheme on reduced points, and 48 students with a disability entered on full points.

Table B15 (a): Profile of undergraduate new entrants by key access criteria per faculty 2015/16

Category of Student	Arts, Humanities & Social Sciences	Engineering, Mathematics & Science	Health Sciences	Multi-Faculty	Totals
Socio-economically disadvantaged	82	73	65	36	256
Mature students	49	15	25	20	109
Students with a disability	90	48	51	32	221
Totals	221	136	141	88	586
Total CAO Entrants	921	792	643	482	2838
Total as a % of Faculty new entrants - CAO	24.0%	17.2%	21.9%	18.3%	20.6%

Table B15 (b): Analysis of new entrants registered with the Disability Service by Faculty 2015/16*

Category of Student	Arts, Humanities & Social Sciences	Engineering, Mathematics & Science	Health Sciences	Multi-Faculty	Totals
Specific Learning Difficulty	19	13	20	7	59
Other difficulties	71	35	31	25	162
Totals	90	48	51	32	221

Total number of new entrants with a disability ^	190	221	174

* includes new DARE entrants who deferred from 2014

^ 2015 data as at 1 December

b) Students Applying for Admission under the Mature Student Dispensation Scheme

Applicants under this scheme must be over 23 years of age and are assessed on the basis of their complete academic profile, taking account work and life experiences. In 2015, 765 mature applicants applied under the Mature Student Dispensation Scheme and 100 (13%) were offered places. 109 students were subsequently registered – this figure includes entrants progressing via the “facilitated entry” scheme through the Trinity Access Programmes (TAP) Foundation and Partnership Courses for Mature Students.

Mature students are also admitted to the undergraduate degrees in Nursing and Midwifery under the Mature Student Dispensation Scheme. Applicants to these courses are assessed externally by the Nursing Career Centre. In 2015, 79 mature students registered on degree courses in Nursing and Midwifery (79 in 2014).

Table B17 (a): Number of students admitted under the Mature Students Dispensation Scheme by Faculty 2015 – 2011

	2015	2014	2013	2012	2011
Number of applicants	764	766	916	860	928

Number of students registered in Nursing and Midwifery	79	79	76	74	71
Total students registered	79	79	76	74	71

(c) Socio-economically disadvantaged students

(i) Post-entry Progression Programme

In response to recognised student needs, TAP has developed a range of post-entry supports. These include an orientation programme, academic supports including extra tuition, a laptop lending service, a Writing Resource Centre and Mathematics Help Room, and the TAP Studio – a designated study space equipped with IT resources. TAP also provides financial assistance, as well as social and personal supports from dedicated TAP advisors. TAP has also created a number of links with private sector companies in many areas including business, law, and technology and has established a career development programme for students to aid them in making the transition to a graduate career. This includes workshops and skills sessions, mentoring and internship programmes. TAP also provides training and development to its group of dedicated volunteers - the TAP Ambassadors - in areas such as: Child Protection Training, Listening Skills, CV Building and Presentation skills. TAP works closely with the Library and other support services in College including the Student Counselling Service, the Disability Service, the College Health Service, the Accommodation Office and the Tutorial Service.

(ii) School and Community Outreach Links (SCOL)

The School and Community Outreach Links initiative enables the involvement of Trinity College with schools and communities where there is little or no tradition of progression to third-level. TAP is assisted by Schools in College each year in developing and delivering activities to over 39 primary and second-level schools and a selection of community groups. Primary school activities begin with fifth class pupils and continue throughout the second-level school cycle.

In 2015/16 TAP is continuing to implement the **Trinity Access 21 project** across 11 partner schools in collaboration with Bridge21, the School of Computer Science & Statistics and the School of Education. The project uses an Irish adaptation of a model developed by a US based educational NGO, 'College for Every Student' (CFES) in addition to the Bridge21 model for developing technology-mediated, team based learning. It focuses on engaging students in a suite of activities across four core practices: Pathways to College, Leadership through Service, Mentoring, and 21st Century Teaching & Learning. The mentoring aspect of the programme involves over 300 TAP Trinity undergraduates and alumni with over 1,100 third year, second-level students. The project resources have been developed into a digital tool-kit for use in the inaugural 21st Century Schools of Distinction award scheme, which aims to

support and incentivise educational change in schools with low progression rates to further and higher education nationwide.

The project includes delivery of a Postgraduate Certificate in 21st Century Teaching & Learning. Over 80 teachers completed this Certificate in 2015 and 35 of them have progressed to either the Masters in Education or the MSc Technology & Learning. In 2015/16, there are an additional 82 teachers registered for the Postgraduate Certificate. The Certificate focuses on leadership, inclusive education and the use of technology to transform the teaching and learning environment.

The project is expected to engage 1,000 teachers in the 2014-2017 period. It also includes a research programme to evaluate school, staff and student impact of the Trinity Access 21 project.

The second **College Awareness Week** took place in November 2015. This was a national awareness raising campaign involving schools, libraries, businesses and further/higher education institutions nationwide. Over 600 activities were organised during the week and the Tánaiste spoke at the launch. The campaign was founded by TAP Programmes Manager and has multi-sectoral leadership including the HEA, NAPD and IBEC. It is sponsored by AIB and Perrigo.

(iii) Concession on Points

Young adults who are assessed through the Higher Education Access Route (HEAR) and deemed to be socio-economically disadvantaged are eligible for a concession on points for entry to an undergraduate degree and/or diploma course. Applicants are assessed for eligibility on the basis of a multi-indicator model that aims to assess educational disadvantage. These students must satisfy the minimum matriculation requirements for entry to their course of choice.

In 2015, 231 students entered College through HEAR and other alternative entry routes (223 in 2014). This figure includes students from the TAP Foundation Course (Young Adults) and Liberties College Partnership Foundation Course.

Entrants are well distributed across the three Faculties – 94 entered AHSS, 74 entered EMS and 63 progressed to HS courses.

HEAR is managed through a small DARE/HEAR Scheme Shared Services Unit, based in the Irish Universities Association. Further information about the scheme can be found at www.accesscollege.ie.

(iv) Foundation Course for Higher Education – Mature Students

This one-year foundation course is aimed at mature students from socio-economically under-represented groups who have not yet realised their full educational potential. Students who successfully complete the course are awarded a Certificate in Foundation Studies for Higher Education and are eligible for facilitated entry to College. To be eligible for a place, students must achieve a minimum overall grade of 50%. Significantly higher grades are required for higher demand courses; for example, Social Studies requires a minimum grade of 60%, whereas Law and Physiotherapy require a minimum grade of 65%. Places are allocated on the basis of academic merit and students must select up to five College courses on their CAO preference list.

In 2014/15, 26 students registered on the Foundation course. Of these, 21 students completed the course and 16 registered to undergraduate degree courses in Trinity College. Twenty-three students have registered on this foundation course for the 2015/16 academic year.

(v) Foundation Course for Higher Education – Young Adults

This is a one-year foundation course that caters for young adults (17-21 years old) from under-represented socio-economic groups, who have demonstrated academic potential, but who require an additional year of education to prepare for third-level. It is open to applicants from schools linked to higher education access programmes.

Students who successfully complete the course are awarded a Certificate in Foundation Studies for Higher Education and are eligible to compete for a place in College if they achieve a minimum overall grade of 50% (65% for Law or 70% for specific courses in Health Sciences). In 2014/15, 27 of the 29 registered students completed the course and 26 progressed to undergraduate degree courses in Trinity.

Twenty-six students registered in September 2015 for the 2015/16 course.

(vi) Partnership Foundation Courses

Trinity College is involved in an arrangement with four City of Dublin Education & Training Board (CDETБ) colleges to develop and co-deliver a Foundation Course in the Liberal Arts for access to a wide range of undergraduate courses. The CDETБ colleges involved are the Liberties College, Dublin 8; Pearse College, Dublin 12; Plunket College, Dublin 9; and CDETБ Rathmines. The course is accredited with the QQI.

The retention rate for students on the Partnership Foundation Courses who progress to undergraduate courses in Trinity is 90% and almost all graduates achieve honours degrees. In 2015 there are 87 undergraduate students in Trinity who have progressed from these courses, with almost as many students studying in other higher and further education institutions. Fifty-six students from the courses have graduated from Trinity in the last four years.

In 2015, 22 students graduated from Trinity who had entered College via the CDETБ University Access Courses (UAC). Nineteen students achieved an overall award of Distinction, and three achieved an overall award of Merit. Twenty-five students from the CDETБ courses registered for courses in Trinity in 2015/16.

Fifty-eight students registered on a CDETБ course in September 2015.

**Table B18: Number of admissions to College through the Trinity Access Programmes
2015, 2014, 2013**

Entry Route	Number of Students		
	2015	2014	2013
HEAR - Full points	50	50	62
HEAR - Concession on points	125	129	125
HEAR / DARE / FETAC / AFS*	13	11	6
Foundation Course – Mature Students	16	17	20
Foundation Course – Young Adults	27	27	23
CDVEC Colleges:			
- Liberties Liberal Arts	13	3	7
- Pearse College	3	3	6
- Plunket College	6	9	10
- Rathmines	3	2	
Referral	0	1	0
Total	256	252	259
Percentage Increase/Decrease on previous year:	1.6%	2.7%	11.2%

* 13 students satisfied the entry criteria for the HEAR scheme and are being supported by TAP as “HEAR eligible” students, but were admitted through either the DARE/FETAC/AFS entry routes.

Mature Students Office

The Mature Student Office, part of TAP, serves to encourage and support the access and integration of mature students into College life.

This year 182 mature students registered across all Faculties in Trinity College (this figure includes Nursing and Midwifery students). Supports for registered mature students include:

- A financial information morning in July
- A four day Welcome Programme in early September
- A mature student resource centre for private and group study
- An open door policy providing advice and advocacy to registered students
- Social activities in conjunction with the Mature Student Society and the Student Parent Society

The Mature Student Officer engages in extensive external liaison with Education and Training Boards particularly in the Dublin, Border, Midlands and Western regions, to promote Trinity, to outline the opportunities available to mature learners and to support the application process. One-to-one support for applicants is also available. *Discover Trinity* events take place each November during College Awareness Week. In 2015, over 200 prospective students took part in various activities, including shadowing, tours and Further Education visits. A mature student information seminar, providing advice and guidance on the mature student application process, takes place each January.

Trinity Admissions Feasibility Study

The Trinity Admissions Feasibility Study (TAFS) was launched in 2013 to investigate whether it might be possible to admit students to Trinity using a combination of Leaving Certificate results and supplementary assessments. Twenty-five places were set aside for the study: Law (10 places), History (10 places), and Ancient and Medieval History and Culture (AMHC) (5 places). In 2015 there were 242 applications (270 in 2014) to the scheme which were assessed on the basis of Leaving Certificate results, Relative Performance Rank, and personal/contextual data.

Table B19: Number of admissions to College through the Trinity Admissions Feasibility Study

Course	2015	2014
Ancient and Medieval History and Culture (AMHC)	4	3
History	7	10
Law	10	9
TOTAL	21	22

Study Group International

In 2011 Trinity and UCD signed a contract with the UK education provider Study Group for the provision of a nine month Foundation Course for non-EU students whose second-level qualifications do not meet the matriculation requirements of the University. The Foundation course is taught at the Study Group Dublin Centre in Leeson Street, Dublin 2. The programme runs from September to June and again in January until August. In addition to taking English language course the students follow one of two streams:-

- Foundation year in Business, Economic and Social Science
OR
- Foundation year in Science and Engineering.

On successful completion of the Foundation course students then progress into the Junior Freshman year of an undergraduate programme in Trinity or UCD.

The tables below provide details of the numbers of students who entered the Foundation Course with Trinity as their designated University, the number who progressed into undergraduate programmes in Trinity, and a breakdown of the courses on which they registered.

Table B20 (a): Study Group International Entrants for 2014/15 – 2012/13 and progression to Trinity

Singapore Institute of Technology

In October 2012 an agreement was signed between Trinity College Dublin and Singapore Institute of Technology commencing a partnership between the two institutions and the launch of two programmes in Physiotherapy and Occupational Therapy which give recognition to the three-year diplomas in these disciplines from Nanyang Polytechnic.

Under the agreement students will complete a one year programme, part of which will include studies and/or placements in Ireland. On completion of the programme students will be awarded a degree from Trinity College Dublin.

The first cohort of students registered in September 2012 and graduated in June/December 2013.

In 2014 the partnership was expanded to include Radiation Therapy and introduced a new course in Diagnostic Radiography.

Table B21: Number of Singapore IT students registered in Trinity, 2015 - 2013

	2015	2014	2013
Diagnostic Radiography	20	28	0
Occupational Therapy	30	28	36
Physiotherapy	57	72	59
Radiation Therapy	4	7	0

Advanced Entry

College regulations have provision for the admission of students who have credit from other universities and colleges. Such students are allowed credit for as much of the undergraduate course as is determined by the relevant School/Department but must complete two academic years in the College to be eligible for the award of an undergraduate degree. Details of the applications, offers and registrations for 2015 are set out below in Table B22. In 2015, there were 147 applications, 30 offers made and 29 students registered.

Table B22: Advanced Entry Applications 2015

New Entrant Country of Domicile Data

In 2015, students entering full-time undergraduate course and programmes for visiting student came from 58 different countries. With the exception of Ireland the top five home countries, in order of the most student numbers, are the United States, Singapore, France, United Kingdom (Great Britain and Northern Ireland) and Brazil. The top five countries in 2014 were the United States, France, Singapore, the United Kingdom (Great Britain and Northern Ireland) and Germany. A detailed breakdown of student domicile is given below.

Total CAO and Direct entry registered students 2015

The UG Admissions Team processes all applications to undergraduate courses in the university. These are categorised as (a) CAO applications, (b) direct entry applications, (c) applications from visiting students, and (d) non-EU direct entry applications to full-time degree programmes.

Table B26: Total CAO and direct entry registered students

New Entrants	2015/16	2014/15	2013/14	2012/13

*Level 7 courses: Diploma in Dental Hygiene, Diploma in Dental Nursing, Dental Technology (Ordinary Degree), Diploma in History of European Painting

The Admissions Office processed eight hundred and twenty-four (824) applications from one-year and one-term EU and non EU Visiting students in 2015. One thousand and 24 (1024) non EU direct applications were processed from students seeking admission to Medicine and two hundred and seventy (270) from students seeking admissions to Dental Science. In addition, the Admissions Office processed 430 non-EU applications for full-time undergraduate degree programmes other than Medicine and Dental Science (381 in 2014).

Also in 2015, 16 students progressed from the International Foundation Course into Junior Freshman year of undergraduate degree programmes in Trinity.

^ Application to these Level 7 courses is via CAO. This results in a high level of applications but a lower number of genuine applicants.

* Random selection

^^ Data shown for 2013 combines EU and non EU cohorts.

New Entrants' Survey 2015

The annual new entrants' survey is distributed to students of full-time undergraduate degree programmes. A total of 892 surveys were received. Table B28 shows a profile of new entrants surveyed.

Table B28: Profile of new entrant respondents

Nationality	%	Category of Student	%
Irish	84.44	School Leaver	88
Other EU	9.70	Mature Student	12
Non EU	5.86		

The sources of information most consulted by respondents can be seen from the table below.

Table B29: Information sources on Trinity College

Information Source	% of students who used this source
Trinity Website	79.16%
Trinity printed prospectus	55.58%
Trinity Open Day	50.46%
Family member	34.17%
Guidance Counsellor	32.92%
Friend	30.41%
Alumni/Former Student	24.03%
Careers fair	22.89%
Trinity Downloadable prospectus	16.86%
School visit by Trinity	9.91%
Trinity Admissions Office	5.24%

While the Trinity website is most widely used by new entrants to gain information about Trinity, the UG prospectus is regarded as **the most important source** of information about Trinity College (44%), closely followed by the College Open Day (39%) and then the Trinity website (38%) (note that many students list more than one source as being the most important). Other choices for the most important source were: family members (34%), guidance counsellors (32%); attendance at careers fairs (23%) or school visits (10%) by Trinity.

Digital and online presence: There is a continued increase in the use of digital devices, with 95% of respondents now owning smartphones (up from 90% the previous year), nearly 100% of these students use their phones to browse the web with 54% using smartphones to browse university websites specifically. 47% percent of new entrants have a tablet device (down on previous year 54%) and 76% of these students use tablets to view university prospectuses or course information.

Most effective means of advertising: Media that students consider effective for advertising university courses are: social media 74%, websites 70%, radio 32.8%, posters on buses/Luas/DART 22.7%, bus shelters 13.3% and billboards 11%.

Most important websites: New entrants were also asked which websites they most regularly visit and the most popular websites are Facebook (used by 87.14% of students), Google 85.78%, YouTube 76.79%, Gmail 59.39%, Twitter 27.08%, and Hotmail 20.25%.

Additional information activities: New entrants were asked what other information/events Trinity should provide for second-level students and the most popular suggested additions are listed in the table below.

Table B30: Suggested developments

New information source/event	%
Course specific information evenings	77.0
More school visits	44.92
Subscribe for information via e-mails	32.20
Use an SMS to request a prospectus	7.75

Undergraduate Student Recruitment Activity 2014/15

The Admissions Liaison Officer co-ordinated a wide range of undergraduate student recruitment activities. In 2014/15 this included:

(a) Regional Student Recruitment Fairs, School Visits, and Campus Tours

A number of major regional student recruitment fairs are organised annually by the Institute of Guidance Counsellors (IGC), while some second level schools also organise smaller individual or collective fairs. In 2014/15, College was represented at 46 fairs, visited 63 secondary schools, and hosted 17 schools on campus. Ten additional fairs were visited in 2014/15 compared to 2013/14.

With a view to encouraging more applications from Northern Irish students, Trinity was again represented at the Northern Irish Careers Teacher’s (NISCA) AGM in Belfast.

College was also well represented at the largest Northern Irish student recruitment fair in the King’s Hall Belfast in March 2015, and at a number of fairs and school visits in Northern Ireland by College’s Northern Irish ambassador. In addition, a poster was sent to all Northern Irish schools providing information about how to apply to Trinity via the CAO.

Some individual Schools/Departments in College were also involved in school liaison activities, including:

- **The Schools of Mathematics and Physics** held a specific open day for their courses in November 2014 as part of Science Week with students, teachers and parents attending. Physics also ran transition year programmes in both study weeks.
- **The School of Law** held a specific Law Open Day for the second time, with students from all over Ireland attending. Small group seminars were run during the day, as well as a general presentation. A parallel session for parents and guidance teachers was also provided.
- **The School of Computer Science and Statistics** organised student shadowing sessions, and hosted transition year and other second-level students.
- **The School of Engineering** organised a summer school for secondary school girls, to introduce more girls to engineering, and also visited four secondary schools.
- **Other On-campus Programmes for Transition Year Students** were also provided by Biochemistry and Immunology, Chemistry, CRANN, Medicine, Pharmacy, the Science Gallery, and Zoology.

(b) Website for prospective students

The EU undergraduate section of the ‘Study at Trinity’ website is maintained by Admissions, and is the most popular source of information on Trinity’s undergraduate courses. A downloadable version of the undergraduate prospectus is available, which is ideal for tablet devices.

(c) Undergraduate Prospectus

The undergraduate prospectus was listed as the most important source of information about Trinity's courses by new entrants. 45,000 printed copies were distributed, and an electronic version which was available to download from the Study at Trinity website.

The Admissions Liaison Officer proposed a major restructuring and redesign of the undergraduate prospectus for 2016, along with significant improvements to course descriptions. The intention was to modernise the Trinity prospectus, and to make College and its courses more appealing to prospective students. A review of other Irish and British prospectus was conducted, and focus group sessions were held with second-level students and first year Trinity students. A set of recommendations were then presented to, and approved by, the Admissions Forum (chaired by the Senior Lecturer).

(d) College Open Day 2014

In 2014 the annual College Open Day was held on Saturday 6th December. Based on the quantity of literature distributed, it is estimated that the attendance was in excess of 10,000. Many mature students were in attendance, as were a number of A-level students and some students and parents from Belgium, France, Italy, Switzerland.

There were 175 presentations and activities on the day, including a number of research project demonstrations in the areas of Engineering, Science, Nursing, Medicine and Computer Science. Improvements included specific sessions for Northern Irish students in the Global Room, new sessions about 'Choosing the right degree', a doubling of the number of campus tours and library tours, and increasing the capacity for presentations in the Main Sports Hall from 450 to 700.

In addition to promoting the event directly to students, parents were targeted via RTE Radio 1, Metro Herald and the Evening Herald.

(e) Links with Guidance Counsellors

Staff members in the Admissions Office consider guidance counsellors to be a vital link to potential students. Activities intended to engage with guidance counsellors in 2014/15 included:

- Holding a specific information day in College for Guidance Counsellors (on 4th November 2014). Approximately 90 guidance counsellors attended the event, which focused on 'Careers for students from the non-vocational Arts, Humanities and Social Sciences courses'. This featured very interesting and insightful presentations from five graduates, about their courses of study and their careers to date (organised by Orlaith Tunney from the Careers Advisory Service). Excellent feedback was received, with one guidance counsellor saying that it was one of the best information sessions that she ever attended. A short update on the Feasibility Study in Admissions was also provided. Breakfast and lunch were provided – and these proved to be excellent networking opportunities for guidance counsellors and College staff.
- A direct mailing to all guidance counsellors, with enclosed copies of the undergraduate prospectus and an Open Day poster.
- Attendance at the careers events organised by the Institute of Guidance Counsellors (IGC).
- Participation by the Admissions Officer in the regional autumn meetings for guidance counsellors hosted by the Central Applications Office.

C. STUDENT POPULATION

In total, there were 17,080 registered students in 2014/15 (16,729 in 2013/14). Of these, approximately, 80 % were from the island of Ireland, 8% from other EU countries, 5% from North and Central America and 7% from other parts of the world (including non-EU countries in Europe). The student population was 58% female and 42% male. A total of 12,568 (73.6 %) were registered on undergraduate programmes, 4,447 (26%), on postgraduate programmes, and 65 (0.4%) on foundation courses.

D. ACADEMIC STAFF

Staff / Student Ratios

Staff/Student ratios in 2014/15 ranged from 1:15 in the Faculty of Health Science, 1:17 in the Faculty of Engineering, Mathematics and Science, to 1:23 in the Faculty of Arts, Humanities and Social Sciences. The overall College ratio was 1:19 (1:19 in 2013/14).

Further details are provided in tables D1 – D4.

FTE (full-time equivalent) Calculation

- (i) The staff FTE is calculated against a formula long prescribed by the HEA, which requires the inclusion of all **full-time academic staff**, irrespective of funding source, the **FTE of part-time and hourly-paid teaching staff** and the **FTE of demonstrators**.
- (ii) Staff FTEs are produced annually by HR as at 1st January; data is provided by Department within School. These figures, together with explanatory notes as appropriate, are sent to individual School Administrators for verification. Queries raised by Schools are discussed and resolved with HR before the staff: student ratio is calculated.
- (iii) The FTE for part-time and occasional teaching staff, and for demonstrators, is calculated against the total pay costs incurred by Schools and Departments in the previous complete financial year (i.e. the 2012/2013 FTE for this cohort is calculated against the pay value in financial year ended 30th September 2012.) It is the responsibility of Departments and Schools to ensure that casual academic staff and demonstrators are correctly coded, so that the correct factors, described at (iv) and (v) below, are applied
- (iv) The factor applied to the calculation of the part-time teaching staff is 100% of the value of the 11th point of the Lecturer scale.
- (v) The factor applied in the calculation of the FTE of Demonstrators is 100% of the value of the full-time salary of Demonstrators (i.e. the current rate for Demonstrators in Anatomy).
- (vi) In certain instances where no 'department' exists – e.g. the Biology Teaching Centre – the FTE of the whole-time Director and of the occasional Demonstrators is divided and allocated among cognate Departments. The proportion of FTE allocated to each Department is a matter determined by the Faculty.

The Provost's Teaching Awards Scheme

The Provost's Teaching Award Scheme, which is administered by Academic Practice, CAPSL, is designed to recognise and reward those who have made an outstanding contribution in the pursuit of teaching excellence. The prestige of the award reflects the value which Trinity places on promoting teaching as a scholarly activity and the importance placed on enriching the learning opportunities of its students.

Six awards were presented on 10th June 2015 to the following members of the academic staff:

- **Dr Daniel Geary, School of Histories & Humanities**
- **Dr David Kenny, School of Law (Early Career Award)**
- **Dr Ciaran O'Neill, School of Histories & Humanities (Early Career Award)**
- **Ms Cicely Roche, School of Pharmacy & Pharmaceutical Sciences (Early Career Award)**
- **Ms Sheila Ryder, School of Pharmacy & Pharmaceutical Sciences**
- **Dr Ciaran Simms, School of Engineering**

This year a total of 38 academic staff members were nominated by 92 students, 6 staff and 7 alumni.

The candidates were selected through a rigorous process involving their nomination by their students or their peers in College. The candidates were then assessed by the Provost's Teaching Award Review Panel, comprising representatives of academic staff, undergraduate and postgraduate students, the Senior Academic Developer in CAPSL, The Dean of Graduate Studies, the Senior Lecturer and an external reviewer Professor Ray Land, Durham University. The panel examined each candidate's teaching philosophy, their practice and scholarship, and assessed supporting evidence provided by the candidates before deciding on the six overall winners of this year's awards.

E. ACADEMIC PROGRESS

Student Cases

Individual student cases involve considerable consultation and interaction with College Tutors, the relevant Course Directors, Directors of Teaching and Learning (UG), Heads of Disciplines and Schools and relevant staff members in academic units. Following full consideration of the cases, the Senior Lecturer will issue a decision, via the Student Cases team, to the relevant tutor. In the academic year 2013/14, there was a sharp increase in student cases of almost 50%. The number of cases in 2014/15 has remained at a similar elevated level.

Table E1: Breakdown of number of cases logged on Daily Pipeline File

Months	2014/15	2013/14	2012/13	2011/12

Percentage Increase / Decrease on previous year:	-2.4%	49.8%	8.49%	-3.8%

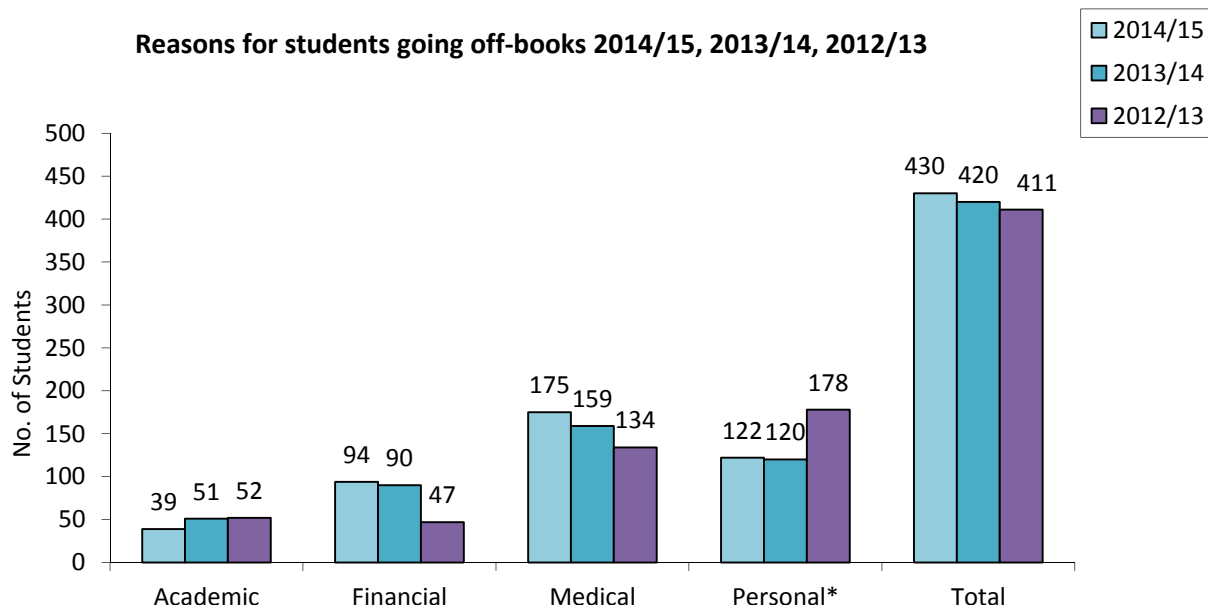

Students Off-books

In 2014/15 a total of 430 undergraduate students were off-books, compared to 420 in 2013/14 and 411 in 2012/13. The principal grounds for allowing students to go off-books in 2014/15 were medical which accounted for 41% of off-books students. In 2013/14 the principal grounds were medical at 38%.

Dean of Students' Consultative Group

A small group, chaired by the Dean of Students, was established in 2012 in order to facilitate the efficient processing of student cases which involve medical evidence. By bringing together the key experts in the area, it has enabled a faster and more effective decision-making process in certain student cases. In the academic year 2014/15, the Group met on 22 occasions and discussed a total of 141 cases.

Reasons for students going off-books 2014/15, 2013/14, 2012/13

Examinations

During the 2014/15 academic year the Examinations and Assessment Team organised approximately **86,611** examination sittings.

Table E2: Breakdown of Examination Sittings ^

Examinations	2014/15	2013/14	2012/13	2011/12
Annuals	75,966	75,186	69,270	68,295~

Totals	86,611	86,488	80,555	78,127

^ Examination sittings = number of students x number of examination papers sat

~ Excludes Colleges of Education examinations

* Others = Music Entrance Test, Matriculation, HPAT

During the 2014/15 academic year, 2,862 examinations (XIDs/Paper Codes) were scheduled. This represents a 2% decrease on the 2013/14 figure of 2,933. Examination scheduling was conducted in SITS with the exception of the Foundation Scholarship and Special examinations. The Examinations and Assessment team published student, module and room examination timetables online via the my.tcd.ie portal.

Anonymous examination numbers were once again generated in SITS for the 2014/15 academic year (36,123 in total) and were made available to students via their personal SITS portal page. Keyholder files, required to support processes for the anonymous marking of undergraduate examinations, continued to be provided via the SITS portal.

Examinations were scheduled in campus venues including Luce Hall, Examination Hall, Graduates' Memorial Building (GMB), Sports Centre, Regent House, Arts Building, Goldsmith Hall and the

Museum Building as well as several school-owned rooms and laboratories. Examinations were also held for the 15th consecutive year in the Royal Dublin Society (RDS). Due to construction work, Luce Hall became unavailable for further examinations from July 2015.

The figures for students registered with the Disability Service who required special examination accommodations rose to 778 students in the 2014/15 annual examination session. This represents a 5% increase on the 2013/14 figures of 741, and an overall increase of 8% from the 2012/13 annual examination session figure of 723. Examination timetable details were provided via the students’ portal page. An anonymous PDF file was also published on the Academic Registry website and personal timetable details were prepared individually, according to specific requirements, as advised by the Disability Service.

The majority of the scheduling and payment of invigilators was conducted in SITS. Following a SITS upgrade it became possible to schedule invigilators for disability venues in SITS, previously carried out in CMIS. The 2014/15 annual examination session saw 253 postgraduate students apply for invigilation duties with 201 of these students successful in their application (262 in 2013/14). The Examinations and Assessment Team published personal timetables for invigilators via their SITS portal page. Invigilation duties and instructions are advised annually to newly recruited and continuing postgraduate students during their compulsory training session. These instructions are supplemented with appropriate advice and procedures from the Junior Dean, the Director of the Health Service, and the Disability Service.

The Examinations and Assessment Team are responsible for the preparation of first class book tokens awarded to non-final year students who receive a first class award at the annual examination session. During 2014/15, 1,436 students were awarded first class book tokens (1,334 in 2013/14).

During the annual examination session, 68 students required examinations to be rescheduled within the annual session; this number has increased by 19% from 57 in 2014. Similarly, the number of students not registered with the Disability Service but requesting alternative examination accommodations via their Tutor saw a 12% increase to 46 in 2014/15 from 41 in 2013/14.

Table E3 (a): Re-scheduled examinations within the annual examination session 2015 - 2012

Number of Courses	25	31	27	23

Courts of First Appeal and Academic Appeals

The Courts of First Appeal convene to consider appeals on matters of academic progress arising out of examinations or other academic circumstances where a student case:

- (i) is not adequately covered by the ordinary regulations of the College; or
- (ii) is based on a claim that the regulations of the College were not properly applied in the applicant's case; or
- (iii) represents an *ad misericordiam* appeal.

If an application to the Courts of First Appeal is unsuccessful, a student may take their case to the College Academic Appeals Committee on the same grounds as listed above.

A greater number of appeals are normally processed following the supplemental examination session where Courts of Examiners have prohibited students from proceeding to the next year of their course. The number of courts of first appeal in all faculties and of academic appeals at college level after supplemental examinations has increased over the period 2010/11 to 2012/13 as can be seen from the tables below.

Foundation Scholarship Examination

A total of 454 students (out of 807 applicants) presented for the Foundation Scholarship examination in January 2015 (447 presented out of 711 applicants in January 2014). Sixty eight (68)² Foundation and Non-Foundation Scholarships were awarded in 2015 (100 in 2014), which represents 14.76% of those who attended the examination. Thirty two (32) Scholarships were awarded to females (47%) and 36 to males (53%).

² This figure includes one additional Non-Foundation Scholar approved by Board on 27 January 2016

External Examiners

External Examiners play a crucial role in ensuring the quality of degree programmes and best practice in examining. A total of 165 (148 in 2013/14) external examiners were appointed to examine undergraduate programmes in 2014/15, of whom 123 (comprising 77%) have submitted their annual report to the Senior Lecturer. Eighty-four (85%) percent of external examiners are from Ireland or the United Kingdom.

Commencements, Firsts and Gold Medal Awards

A total of 527 students received first class honors (primary) degrees in 2014/15 (409 in 2013/14).

The award of 67 Gold Medals was approved at Board for the 2014/15 academic year (49 for the 2013/14 academic year).

See below for the Gold Medal eligibility criteria which was revised during 2011/12 and approved by Board in February 2012.

New Criteria, as approved by Board on 29 February 2012		
¹ The duration of this course is 4.5 years and the final degree year is Year 5		
² A first class degree is awarded at 75% for the Human Nutrition and Dietetics course and is therefore presented in a separate category to distinguish this course from those listed in Category 1 where a first class degree is awarded at 70%		

First Class Degrees & Gold Medals Summary 2014/15 – 2012/13

Table E9: Gender Breakdown of Gold Medals awarded 2014/15 – 2011/12

Gender	2014/15	2013/14	2012/13	2011/12
Male	34	27	33	41
Female	33	22	45	39
Total	67	49	78	80

Distribution of Grades Achieved at Degree Examinations 2013/14 and 2014/15

In 2013/14, 14.8% of students achieved a first class result at their degree examination, 57% achieved a result in the second class first division, and 17% obtained a result in the second class, second division (the overall percentage for second class results does not include Health Sciences).

In 2014/15, 18.9% of students achieved a first class result at their degree examination, 54.2% achieved a result in the second class first division, 13.6% obtained a result in the second class, second division (the overall percentage for second class results does not include Health Sciences).

Irish Studies

G. UNDERGRADUATE ACADEMIC DEVELOPMENTS

The Broad Curriculum (www.tcd.ie/Broad_Curriculum)

Broad Curriculum cross-faculty modules provide students with the opportunity to study outside of their principle discipline(s). The modules are designed to promote breadth of reading at undergraduate level, are aimed primarily at students in the Senior Freshman and Junior Sophister years, and are taught over the Michaelmas and Hilary terms.

The number of students completing a Broad Curriculum cross-faculty module decreased for the first time in a number of years: 776 students completed a module in 2014/15 compared to 828 students in 2013/14.

In 2014/15, 22 modules were offered, spanning a range of subjects in the arts, humanities, social and earth sciences, and attracted students from most undergraduate programmes in College.

Broad Curriculum modules are centrally administered with regard to planning, updating the website, registrations, module choice changes and withdrawals, processing and publication of marks. Module content, teaching and assessment are the responsibility of the relevant discipline/area.

In 2014/15, 80% of undergraduate degree programmes (including individual subjects within the Two-Subject Moderatorship) provided for students to gain full academic credit in their end-of-year result by substituting a cross-faculty course for an element of the main study programme. All students taking Broad Curriculum modules in 2014/15 were doing so on a substitution basis. In order to accommodate the requirement that these modules could be substituted for credit within the total 60 ECTS credits permitted for each course year, schools provide 5 ECTS-credit options for students not wishing to take Broad Curriculum modules. All students' module choices are factored into the calculation of the annual full-time student equivalents (FTSE), thereby providing a mechanism for the allocation of resources to disciplines.

(a) Language Modules

The Centre for Language and Communication Studies (CLCS, School of Linguistic, Speech and Communications Sciences) has, since 1993, offered language modules to students who do not study a language as part of their degree course. The CLCS language modules are open to (i) all undergraduate students as an extracurricular option, and (ii) are also available to undergraduate students as part of the Broad Curriculum programme. The CLCS language modules are fully administered and taught by the CLCS, with information available both on CLCS website and on the Broad Curriculum website.

Language modules in French, German, Irish, Korean, Japanese, Spanish, Turkish and Mandarin were available in 2014/15. The objectives of the modules are (i) to develop students' communication skills for purposes of study, travel or work experience during their undergraduate years, and (ii) to enhance their academic qualifications, vocational prospects, and potential for future mobility.

In 2014/15, 55 students successfully completed a module in French, 16 in German, 20 in Irish, 37 in Japanese, 12 in Korean, 45 in Spanish, 8 in Turkish, and 20 in Mandarin.

(b) Website [www.tcd.ie/Broad Curriculum](http://www.tcd.ie/Broad_Curriculum)

The website provides up to date information for both cross-faculty modules and language modules, including module course outlines, timetable details and assessment regulations. Credit regulations for all undergraduate courses are described, and students can apply to take a Broad Curriculum module or Language module through the web pages. Assessment results are published on the web pages when available.

Academic Practice and eLearning (CAPSL) Activities 2014/15

CAPSL supports College in developing a strong and integrated framework for supporting best academic practice and the highest quality of student learning. It achieves this through:

- (a) Promoting and enhancing quality teaching and learning at institution-wide, programme and individual level, and fulfilling the Trinity Education by fostering a university-wide culture of teaching and learning excellence grounded in scholarship, critical enquiry and collaboration.
- (b) Maximising the effective use of teaching and learning resources, including learning technologies, to meet Trinity's goals and priorities.
- (c) Keeping Trinity at the centre of teaching excellence and innovation by fostering a community of peers engaged in reflection and improved student learning, and by advancing and stimulating new thinking, cross-university discussion, and the sharing of successes and lessons learnt.

Academic Practice:

Professional Special Purpose Certificate in Academic Practice

The Senior Academic Developer designed a special purpose non-major award for the professional development purposes of Trinity staff members. It was approved by Council in June 2014. The course is open to all academic-related professionals with an active teaching or learning support role in College, including researchers with some teaching responsibilities, part-time or adjunct members of staff.

This special purpose certificate is ground-breaking in its flexible design which encourages participants to shape their own professional growth through reflective participation in a suite of professional development programmes. Rather than having a rigid, linear structure it provides flexible routes to allow candidates to develop and evidence their academic practice, knowledge and values at times that are appropriate to them. It thus encourages staff members to engage in the development of the knowledge and skills most appropriate to their own professional and personal circumstances. Candidates wishing to take the modules for credit have a choice of assessment routes.

The award linked to this course will be placed at Level 9 on the National Framework of Qualifications and it carries a credit volume of 15 ECTS, providing successful candidates with a qualification in academic practice. Participants may also attend modules without seeking an award.

The Special Purpose Certificate in Academic Practice ran from February – May 2015.

Twenty places were available for each module and a total of 94 staff members attended. Five staff members successfully completed three modules and will graduate in June 2016.

Workshops and Events

In 2014/15, a total of 702 academic staff and postgraduate teaching assistants attended events in academic practice:

Provision for Postgraduate Students

Workshops on 'Introduction to Teaching' and 'Effective Presentation Skills' were held in 2014/15 and were attended by a total of 101 postgraduate students.

Provision for Academic Staff

Teaching and Learning lunchtime seminars were delivered in 2014/15 and were attended by a total of 112 academic staff members.

In association with the National Forum for the Enhancement of Teaching and Learning in Higher Education, a seminar entitled 'Connected Curriculum: Research-based Education, programme design and student transition' took place in April 2015. There were 41 attendees from Trinity and other institutions.

Research Supervisor Development Programme

This programme was hosted and developed by the Office of the Dean of Graduate Studies, Academic Practice (CAPSL) and University College Dublin. The programme was open to research supervisors in Trinity and UCD and consisted of two national 'Master Classes on Research Supervisor Support and Development' and five workshops. A total of 186 staff members from Trinity and UCD attended the workshops.

Singapore Students - Discipline of Physiotherapy

Academic Practice hosted six workshops between April and May 2015 as a Teaching and Learning module for 27 students from the Singapore Institute of Technology.

Erasmus Dare (Developing All-Round Education) and Train the Trainers

A training of trainers event was hosted by the Senior Academic Developer in February 2015 and was attended by 25-30 people from partner institutions.

CAPSL (Academic Practice) is also a partner on a Tempus European Project - LLFA (Lifelong Learning in Applied Sciences)

Thapar

Academic Practice began a partnership with Thapar University, India, to lead professional development for their staff members, and to develop a framework for teaching and learning in the University.

Turnitin Support

Academic Practice (CAPSL) continued to provide Turnitin support for students and staff.

The Senior Academic Developer held the following positions:

- Director, Special Purpose Professional Certificate in Academic Practice
- Member of the Trinity Education Steering Group; Chair of the Assessment strand
- Director of the National Academy for Integration of Research and Teaching (NAIRTL)
- Designated Contact for the National Forum for the Enhancement of Teaching and Learning

ELearning (CAPSL)

ELearning (CAPSL) leads on Trinity's mission to "develop technology-enhanced learning across the face-to-face teaching environment and assisting in the ongoing development of 21st-century learning paradigms".

The objectives of ELearning (CAPSL) are to:

- Inform and advise on policy related to technology-enhanced learning and infrastructure to meet the expectations of a digitally accomplished student community;
- Inform and implement strategies to support innovate curriculum design and development underpinned by digital scholarship;
- Promote a culture of collaboration and innovation in the design, development and delivery of technology-enhanced learning;
- Develop and deliver a professional development programme on technology-enhanced learning to the academic community including face-to-face courses and online resources.

During 2014/15, eLearning (CAPSL) performed the following activities:

- Developed and delivered a comprehensive professional development programme on technology-enhanced learning for lecturers;
- Developed and offered a number of online resources on 'Effective ELearning design', 'Delivering an Online Course' and 'Online Assessment' to the academic community;
- Worked with Trinity lecturers in a one-to-one capacity on the design and development of specific modules for on-line delivery and on implementing eLearning to blended modules
- Developed and delivered lectures for the Singaporean group on the Professional Development and Leadership in Diagnostic Radiography with recognition of specific diploma from Nanyang Polytechnic for admission;
- Contributed to events organised by the National Forum for the Enhancement of Teaching and Learning.

ELearning Projects 2014-15

Trinity College invested in additional functionality for the Blackboard Learn system. The new additions are called Blackboard Community Engagement and Blackboard Collaborate.

Community Engagement

Community Engagement allows Schools to build a community space in Blackboard above the current module level. It allows for a more personalised experience for the student and permits Blackboard administration tasks to be devolved to staff in the schools and disciplines. In order to gain these expected benefits from Blackboard, extra data has been added from SITS to the Blackboard interface.

The Implementation of the Blackboard Community Engagement allows for the manipulation of the data and offers advanced functionality for

- School Administrators;
- School Identity and branding; and
- Personalised learning for disciplines.

Blackboard Collaborate

This component offers virtual classrooms, asynchronous and synchronous learning activities and flexible collaboration and engagement. E-Learning (CAPSL) rolled out Collaborate to the Online Education courses, developed training materials on introductory and advanced use of Collaborate, and developed a number of online resources for the academic community.

Trinity College Online Education Initiative – Phase 2, 2014-15

Arising from the mid-term review of the Trinity College Strategic Plan (2009-2014), the Dean of Graduate Studies headed a taskforce in 2012/2013 to consider the academic issues and business case for Trinity to provide online/distance education for fee to new markets. In August 2013, the Associate Dean for Online Education was appointed and the Online Education Project was established.

The eLearning Manager acted as Project Manager for the Online Education project, managing the project and ensuring the implementation of the initiative in accordance with College strategy.

Teaching and Learning using Blackboard Learn

The VLE (Blackboard Learn) supports teaching and learning by allowing access to on-line modules. The system is interfaced with SITs, which guarantees that every College module has a dedicated presence and students and staff automatically have an account in Blackboard, and are enrolled to their modules.

Professional development was offered to lecturers during 2014/15 and a total of 319 lecturers attended the various topics.

Undergraduate Student Retention Analysis

Introduction

The Undergraduate Student Retention analysis has been conducted using the Higher Education Authority (HEA) 'new entrant' logic. The HEA define new entrants as 'undergraduate students entering third-level for the first time'ⁱ. Therefore the focus is on first year new entrant students, entering Trinity in 2014/15 and their transition from the Junior Freshman to Senior Freshman year in 2015/16. The data used for the basis of this analysis are a snapshot of these students as of 9 February 2016.

General Overview

There were 3,091 students who met the definition of new entrant recorded on the SITS system, as at 9 February 2015. This is an increase from 3,017 in 2013/14. Following data cleansing, 289 students were removed from the analysis, leaving 2,802 students remaining.

Table G3: Profile of New Entrant Students excluded from analysis.

	3091
One Year Diploma Students ⁱⁱ	- 35
Students entering Trinity in years other than Junior Freshmen Year	-165
Students 'Off-Books' ⁱⁱⁱ and 'Off-Books taking assessment' ^{iv}	- 89
End	2802

Table G4: Programme selection of new entrant cohort

Bachelor (Level 8 – 4 year Honors)	2,436
Integrated (4+1) Engineering & Computer Sc.	284
Diploma	67
Certificate	15
Totals	2802

Table G5(a) below outlines the distribution of new entrant students across the three Faculties, in addition to Multi-Faculty and TSM.

Table G5 (a): New Entrant Students 2014/15 at a glance

	Totals	Male	Female	EU	NEU	FT	PT	Mature	Access
AHSS	893	375	518	853	40	891	2	65	104
FEMS	817	522	295	787	30	788	29	47	101
HS	676	172	504	605	71	676	0	116	76
MF	88	51	37	84	4	88	0	1	8
TSM	328	114	214	312	16	328	0	14	35
TOTALS	2802	1234	1568	2641	161	2771	31	243	324

Table G5 (b): Outcomes for new entrant first year students 2014/15

Faculty	Total Students	Percentage of new entrants	Progressed to second year		Repeat first year		Transferred to another course		Not retained	
AHSS	893	32%	816	91%	16	2%	21	2%	40	5%
FEMS	817	29%	737	90%	30	4%	19	2%	31	4%
HS	676	24%	627	93%	4	1%	8	1%	37	5%
MF	88	3%	68	77%	7	8%	4	5%	9	10%
TSM	328	12%	274	84%	8	2%	22	7%	24	7%
Totals	2802	100%	2522	90%	65	2%	74	3%	141	5%

In 2014/15 a retention rate of **95%** was achieved. This exceeds the target of 90% in Trinity’s Strategic Plan 2014-19. Retention is defined as students who progressed to their second year (90%), repeated their first year (2%) and who transferred to another course within College (3%).

The attrition rate, i.e. the rate of new entrant students in 2014/15 not retained by College in 2015/16, was 5%.

The profile of new entrant students not retained is outlined below.

Table G6: Non retained New Entrant Student Profile

Total	Gender	Attendance	Fee Status	Mature	Access Route
141	M 76 F 65	FT 136 PT 5	EU 129 NEU 12	20	22
% of intake cohort (ref table G5a)	6% M 4% F	5% FT 16% PT	5% EU 7.5% NEU	8.23%	6.7%

Note that part – time, mature, non-EU and access route students continue to be proportionally more highly represented (>5%) in the non-retained student category.

ⁱ Schools interpreting retention numbers may query numbers as different to those on class lists in SITS for 2014/15. This results from the application of the HEA new entrant logic which may exclude students entering a degree in 2014/15, that is their second degree in Trinity.

ⁱⁱ One Year diploma students include (i) 14 students enrolled in History of European Painting; (ii) 10 students in the Diploma of Acting & Theatre; (iii) 5 students in the Diploma of Music, Teaching & Performance (RIAM) and 6 students in the Diploma of Orthodontic Therapy.

ⁱⁱⁱ Off Books (40) students are off-register for a defined period and are not included in data reported to HEA

^{iv} Off Books taking Assessment (49)
