# Careers Fair Computing and Technology

**10th October 2019, Sports Hall**

[www.tcd.ie/careers](http://www.tcd.ie/careers)

Trinity Careers Service

# welcome

Dear Student,

Welcome to the Computing and Technology Careers Fair 2019! The fair is run by the Careers Service, and this booklet gives you an introduction to the organisations which are attending to meet you today.

Our Computing and Technology Fair is a perfect opportunity for you to meet with prospective employers, ask questions to find out more about these companies and their opportunities, and to hone your networking skills. Employers appreciate receiving applications that demonstrate a good understanding of their business and your motivation to work there, so the information you gather today can help you create really strong, tailored applications. You will also benefit from learning more about the culture of the organisations here today and whether they seem like a good fit with your career aspirations.

This fair is just one of many employer events organised by the Careers Service throughout the academic year. Keep an eye out for other opportunities to meet with potential employers by logging on to MyCareer ([mycareerconnect.tcd.ie](http://mycareerconnect.tcd.ie)).

Finally, remember we are here to help with career decision-making, job applications and interviews throughout the year. Simply go to our website ([www.tcd.ie/careers](http://www.tcd.ie/careers)) to access lots of advice and resources or log on to MyCareer to book a one-to-one appointment with the Careers Consultant for your School.

## Banach Technology

Summary of Business:

Banach Technology are an Irish founded and Dublin based technology business, specialising in the development of real time simulation based models for the sports betting industry. Our product offering focuses on core pre-match and in running pricing with a strong emphasis on innovation, pricing accuracy and reduced suspension times. We work with a range of international tier one bookmakers on delivering game changing products covering sports such as soccer, American football, basketball, baseball and ice hockey. Our highly skilled team of software engineers and quantitative analysts use the latest technologies to offer cutting edge solutions to our customers.

Graduate & Internship Opportunities:

We're looking for motivated, talented graduates with a software or quantitative background to join our team. You will be given the opportunity to hit the ground running from day one, working with our skilled and experienced teams and delivering products with real customer impact.

Join our team, and help us to build world class betting products, using cloud based technology combined with industry leading mathematical modelling. If you are a Computer Science, Engineering or Maths & Science graduate, we are currently hiring for the following roles: Software Engineers, Cloud Engineers, Support Engineers, Quantitative Analysts

Method of Application:

Visit our website at [www.banachtechnology.com](http://www.banachtechnology.com) to view open roles or send a CV to [careers@banachtechnology.com](mailto:careers@banachtechnology.com).

Target Groups:

4th years, postgrads and 3rd years

Web Address:

[www.banachtechnology.com](http://www.banachtechnology.com)

Company Name:

## Bank of America Merrill Lynch

Summary of Business:

Bank of America is one of the world's leading financial institutions, serving individual consumers, small- and middle-market businesses, large corporations and governments with a full range of banking, investing, asset management and other financial and risk management products and services.

Graduate & Internship Opportunities:

At Bank of America, we offer a variety of exciting opportunities for anyone looking to start a career in banking. From apprenticeships to internships, industrial placements to full time roles, there's something for anyone who's looking for a challenging and fulfilling career.

Method of Application:

Apply online at [campus.bankofamerica.com](http://campus.bankofamerica.com)

Assessments for our Internship and Full Time programmes take place on a rolling basis throughout the year. The online process for most programmes has two stages and both must be completed before the application deadline.

- Stage 1: Complete an online application form, competency questions and upload your CV
- Stage 2: Video Interview

Successful candidates will then be invited to an assessment centre for competency-based exercises. If you are applying for a place on a full time programme, the assessment may include an initial telephone interview.

Target Groups:

First and penultimate year students.

Web Address:

<https://campus.bankofamerica.com/events>.

Company Name:

## Bank of Ireland

Summary of Business:

Established in 1783, the Bank of Ireland Group is a diversified Financial Services Group. A traditional, relationship-driven retail and commercial bank with a conservative business philosophy, we have a clear and compelling strategy to:

- Transform the Bank – improving our culture, systems and business model
- Serve customers brilliantly – by being the #1 for service
- Grow sustainable profits – through growing our revenue and optimising our cost base

We are governed by our strong purpose: Enabling our customers, colleagues and communities to thrive!

Graduate & Internship Opportunities:

Whether you're coming from Business, IT, Arts, Engineering or Science we have a Graduate Programme for you! In fact, we're dedicated to bringing in diverse people from various academic, societal and geographical backgrounds to help us grow. We offer opportunities to students who have achieved, or are expected to achieve, a minimum 2:1 Honours Degree or Masters from all disciplines.

Method of Application:

Please apply via our website: <https://careers.bankofireland.com/graduates/programmes>

Target Groups:

For our Graduate Program offerings, we seek applications from final year students and postgrads. We would encourage students from all year groups to register their interest in our internship opportunities.

Company Name:

## Career Boost Programme

Summary of Business:

InterTradelreland FUSION programme supports SMEs across the Island, North and South to recruit for Project Manager roles. Focused in the Science, Engineering, Technology and Innovation sectors, the jobs are for 12/18months and provide work in innovation, including new product development, process improvement or new process design. This real hands on responsibility gives you direct experience of managing an innovation project delivering real results. To help you deliver real results, you have an academic partner who provides expert mentoring and support. While working in the company on the project, you also have the opportunity to study and achieve a fully funded Postgraduate Diploma in Business Management awarded from QUB. Every year there are over 60 opportunities available from Dublin to Belfast, Cork to Donegal, Sligo to Limerick, Antrim to Waterford. InterTradelreland is funded by both NI & ROI Governments to support SMEs identify and develop North/South trade and innovation opportunities. The programme has been running since 2001 and to date has successfully placed over 600 graduates.

Graduate & Internship Opportunities:

As the FUSION programme is all-island, basic eligibility criteria for each job requires applicants MUST have a Visa which enables them to work in either the Republic of Ireland/Northern Ireland and a Visa which enables them to study in Northern Ireland. Jobs are advertised and recruited on a rolling basis every year. Applicants should ensure they meet the essential criteria for the post for which they are applying. To find out more about the programme and to hear from graduates who have worked with businesses on the programme, check out, <https://intertradeireland.com/graduate-programme/graduate-programme-current-vacancies/> InterTradelreland FUSION, a great opportunity to earn work and learn!

## European Central Bank

Summary of Business:

The European Central bank (ECB) is the central bank of the 19 European Union countries that have the euro. In the Directorate General Information Systems it's our job to provide the ECB with the information it needs to carry out its tasks of keeping prices stable and safeguarding the financial system.

Graduate & Internship Opportunities:

We want the drive, unique insights and innovative ideas you can bring to an institution that has a significant impact on the lives of the people of Europe. We need your skills in Data Science, IT Architecture, Project Management, Automation, Testing, Quality Management, and your business acumen to help us manage all of our service providers. We offer a traineeship programme and a graduate programme. Both programmes give you:

- Individualised assignments in delivering IT projects and services, which take your development needs into account;
- A chance to immerse yourself in the technical and governance areas of the ECB and gain first-hand experience of working for an IT department delivering high-quality services and projects;
- Challenging tasks with which you can hone your analytical, technical and business skills;
- Mentors and leaders willing to share their experience with you;
- An opportunity to meet people from all over Europe in the dynamic, international and multicultural environment of the ECB.

The ECB is an inclusive employer and we strive to reflect the diversity of the population we serve. We encourage you to apply irrespective of your gender, gender identity, ethnicity, sexual orientation, age, religion, disability or other characteristics.

Method of Application:

Apply online: <https://www.ecb.europa.eu/careers/vacancies/html/index.en.html>

## First Derivatives plc

Summary of Business:

First Derivatives (FD) is a leading provider of products and consulting services to some of the world's largest finance, technology and energy institutions. FD is the developer of the world-leading database technology kdb+. Focused on financial institutions that work cross-asset, often with multi-system and/or high volume trading activities, the Company scopes, designs, develops, implements and supports a broad range of mission critical data and trading systems across front, middle and back-office operations. The Company's software is also used in a range of industries including telecoms, digital marketing, pharma and utilities to help organisations solve their most demanding data management and analytics challenges.

Graduate & Internship Opportunities

FD's distinct competitive advantage derives from its unique combination of knowledge of financial markets and expertise in financial services technologies. The Company believes that its consultants need to fully understand the client's business requirements in order to produce the right technical solution. This saves our clients development time, and ultimately money. We are widely renowned for the quality of our service and our product portfolio and for our pragmatic and commercial approach. Our growth is the direct result of the importance we attach to our clients, understanding their businesses and building and maintaining strong relationships. Key to our market position is continuing our strong track record of profit growth and our international reputation for the quality of our services in our target sectors. We know that ensuring our people are well motivated, well rewarded and have the opportunity to develop their true potential is critical to meeting our varied client needs and our continued commercial success.

## About FTI Consulting

FTI Consulting is a global business advisory firm that provides multidisciplinary solutions to complex challenges and opportunities.

FTI is a fortune 500 company with over 4,700 employees worldwide. With the full power of our unique depth of thought combined with the global expertise of leading professionals, we are committed to protecting and enhancing the enterprise value of our clients.

## Our Areas of Expertise

- Analytics
- Enterprise Data Management
- Business Transformation
- Customer Value Management
- Digital Transformation

## What qualifications are required?

FTI are looking for graduates with a minimum 2.1 honours degree across business, technical and mathematical disciplines who have:

- Excellent leadership and communication skills
- Strong analytical and problem solving skills
- Possess an understanding of the project lifecycle
- In-depth knowledge of MS Office
- Proven capability to manage and analyse large volumes of data

## About our Dublin office.

Our office in Dublin brings all the advantages of the global business but has all the benefits of a more intimate and personal office environment with over 50 specialists. Our people are passionate, innovative and committed. Our reputation is built on the professionalism, creativity, and expertise that our team consistently deliver. As we are part of a multinational company there are also opportunities to travel.

## So why FTI Consulting?

At FTI we pride ourselves on the quality of our graduates and the fact that these graduates stay with us for many years. At FTI we don't just offer a graduate training programme we offer a career.

Here is what some of our recent graduate hires had to say

*"I really enjoyed the interview process with FTI. I immediately felt welcome even though I was only at the office for an interview. Everyone here is friendly and always willing to help you in any way they can."*

*"I joined FTI because it offers graduates more exposure to projects from the start. It's smaller office means that no one is a stranger but you know you are part of a larger organisation."*

From the day you start your consulting role at FTI you will have exposure and opportunities to get involved in projects and to put your expertise to work. Because of the smaller size of the Dublin office you work closely with senior management and have your own career development manager who is committed to supporting you in developing your career.

From a social perspective we place a large emphasis on bringing people together for various events, from internal communication sessions to company away days and from go-karting to tag rugby – we think it's important to get together as a team not only to work, but to have fun and a lot of it!

## What to Expect

- As an employee, you can expect permanent position with competitive reward, job satisfaction and intellectual challenge.
- As a business we will invest in training and we will support your development so that our clients benefit from your continuous improvement and advancement.

## How to Apply

- Please send your application letter and CV to [recruitment@fticonsulting.ie](mailto:recruitment@fticonsulting.ie)

EXPERTS WITH IMPACT

## About FTI Consulting

FTI Consulting is an independent global business advisory firm dedicated to helping organisations manage, change, mitigate risk and resolve disputes: financial, legal, operational, political, regulatory, reputational and transactional. ## Guidewire

Summary of Business:

Guidewire InsurancePlatform™ is the P&C industry platform that unifies software, services, and partner ecosystem to power our customers' business. InsurancePlatform provides the standard upon which insurers can optimize their operations, be more digital, use data in new ways, embrace insurtech, and simplify IT. Software: Guidewire's software applications support the entire insurance lifecycle—from digitally engaging with customers to optimizing core operations to enabling smart decision-making. Learn more about our products. Services: Guidewire services provide implementation, support, and operational services, including simplifying IT through cloud services to support customers after go-live. Learn more about our Cloud Services and Professional Services. Partner Ecosystem: Our partner ecosystem provides access to applications and content from established players and insurtechs, promoting insurers' ability to innovate quickly. Learn about the Guidewire Marketplace

Graduate & Internship Opportunities:

At Guidewire, we give interns and graduates a chance to solve complex problems in an agile way using best-in-class techniques in a modern software company. Our Graduate Program provides a blend of classroom-based and instructor-led learning, along with mentoring and working on real projects embedded with our teams. In return, you receive competitive pay, a laptop, a Guidewire mentor, holidays and much more!

Build your career path: Start your path in product development by writing code that helps some of the world's largest insurers respond to disasters. Or work on the analytics and data services team, where you'll help stop cyber breaches before they happen.

Love solving complex technical problems and writing code? Depending on your role, you could find yourself working with Java, AWS, React, Angular JS, SQL and more. Want to see the direct impact of your work? Build and/or implement the next generation of cloud products to run the operations of the biggest insurance companies in the world. ## IMC Trading

Summary of Business:

IMC is among the world's leading technology-driven trading firms, and a market maker in securities listed on exchanges across the globe. Our cutting-edge technology drives everything we do. High performance algorithms, smart strategies and collaborative teams are the core of our business. Today, IMC is 500+ people working together to build software and trade financial products in our offices in Amsterdam, Chicago and Sydney. What does this mean for you? The chance to join a multi-national, multi-cultural team of exceptional individuals, focused on making IMC the world's best trading firm. We are at the core a trading firm, however we value trading and technology equally and we believe that cooperation between traders and technologists is one of our great strengths. At IMC it's not the hierarchy but the idea that prevails. So, we've done away with artificial barriers and built a company that has very little bureaucracy. As a result our people can explore their potential without limits, developing and implementing the systems and strategies that have made us one of the world's leading liquidity providers.

Graduate & Internship Opportunities

- Graduate Trader
- Graduate Software Engineer
- Software Engineer Intern

Method of Application:

Apply through our website (<https://www.imc.com/eu/careers/>) with resume and cover letter.

Target Groups:

We are mostly targeting students in their final year of study/penultimate year of study in the following areas: Physics, Statistics, Mathematics, Computer science, Engineering, Econometrics

Web Address:

<https://www.imc.com/eu/>

Company Name:

## Inscribe

Summary of Business:

We are an early stage, fast-growing startup changing the way businesses trust their customers, by automating the detection of fraud.

We graduated from Y Combinator's Summer 2018 batch, and raised a \$3.2M seed round from some of Silicon Valley's best investors, including Crosslink Capital, Uncork Capital, and SV Angel.

Our engineering team is based in Dublin, and we're looking to grow further.

Graduate & Internship Opportunities:

Software Engineer (Fraud Detection): you will work on our core fraud detection systems and build new technical solutions to uncover fraud. You will be responsible for end-to-end delivery: from initial concept to production usage.

Software Engineer (Full Stack): you will design, build, and maintain APIs, services, and systems that power our fraud detection efforts at scale. We use some of the latest technologies such as VueJS on our frontend and Terraform to manage our infrastructure.

We offer equity and a competitive salary in a flexible and friendly working environment.

Method of Application:

Applications can be made through our website at <https://inscribe.ai/careers>

Target Groups:

Final year, Masters, and Ph.D. students. Our current employees have backgrounds in Computer Science, Engineering and Mathematics, but we're interested in anyone who is technically proficient, autonomous, and skilled at problem-solving.

Web Address:

[www.inscribe.ai](http://www.inscribe.ai)

Company Name:

## ION Group

Summary of Business:

ION provides mission-critical trading and workflow automation software solutions to corporates, central banks and financial institutions. We are pioneers and visionary innovators of automation technology. Our mission is to simplify complex processes, streamline businesses and give a competitive advantage to our customers. Our products help leading organizations around the world do more, in a better and simpler way than ever before.

ION develops the technology and applications to automate corporate treasury, commodity management, fixed income and currency trading and processing:

- More than 40% of the world's largest companies use our solutions to manage their cash, commodities, trading and risks

- Over 100 of the world's leading banks use our electronic trading platforms

With over 6,500 employees and offices in more than 40 cities around the globe, ION is a rapidly expanding and dynamic group.

ION's success stems from a core belief in partnership with our employees and our customers. We take a long-term view in the markets where we compete and envision how, through innovations in technology and processes, we can reinvent the way business is done. ION is also the leading consolidator in our space, acquiring companies to add to our scale and product portfolio. With an ever-expanding global footprint, cutting edge products, and over 2,200 customers worldwide, ION provides an unparalleled experience for those who share our vision.

Graduate & Internship Opportunities:

A unique opportunity has arisen to join our in-house Lean / Automation function OR Legal/Commercial function as part of our graduate program.

Method of Application:

<https://jobs.lever.co/ion/58de47e6-bc36-442d-bdd2-52f80ab9f5f2>

Target Groups:

3rd/4th years

Web Address:

Company Name:

## Liquidnet

Summary of Business:

We're passionate about the power of technology to change the lives of our customers and the world beyond. Liquidnet prides itself on standing at the nexus of Wall Street and Silicon Valley. But, with fewer than 600 employees globally, Liquidnet is more like a startup than any dusty old bank or overgrown tech giant. It's a culture where everyone has an opportunity to make a difference—and to make someone's day a little brighter. If this sounds exciting to you, and if you're smart, accomplished, and one of the friendliest people in the room, we'd love to talk to you about working with us.

Graduate & Internship Opportunities

We have full-time Graduate opportunities as well as internships in departments such as Technology and Product, Business Operations, Sales, Marketing and Client Services. We are hiring specifically across our London and Dublin offices.

Method of Application:

Applications are received directly through our careers website: <https://www.liquidnet.com/open-positions>

Target Groups:

2nd year & 3rd year for Internship Opportunities  
4th year students for Graduate positions & Postgrads  
Mainly focusing on Technology hires, but also students from other courses

Web Address:

<https://www.liquidnet.com/>

Company Name:

## LMI Ericsson

Summary of Business:

At Ericsson, we develop wireless network technology that enables the next generation of smart devices and the Internet of Things. We believe that everybody and everything can be connected; it's what we call The Networked Society. Networks powered by our technology are enabling self-drive cars, reducing our carbon footprint through smarter energy use in the home and connecting people even though they are thousands of miles apart. We are looking for technical students with inquiring minds who can contribute to our industry-leading solutions. At the beginning of your career, we can offer you everything you need to learn, grow, develop and fulfill your potential. Why are we different? We're a global company that can give you support, resources and outstanding training. Yet at the same time, offer you something too: we do the kind of work that can inspire.

Graduate & Internship Opportunities:

We offer graduate opportunities in Software Development, R&D, Network Engineering and Integration Engineering. This is an opportunity to work for the global leader in telecoms networks using the most up to date and cutting-edge technologies as well as continuous training and development throughout all stages of your career. It is a chance to build a career in a challenging yet supportive environment which fosters initiative and personal growth.

- **Diversity & Inclusion:** It is our diversity and inclusion that brings us closer together and helps us make a difference. We sponsor a number of initiatives globally as well as foster internal initiatives such as our Women's Network and Ericsson GLOBE (our LGBTQ network)
- **Innovation:** We are leading the digital revolution and have the industry's strongest patent portfolio. If you have an idea, big or small, you can bring it to our Innovation Den and discuss its further development and evolution with our senior consultants and leadership team
- **We Support, You Learn:** As well as a mentor, you will have access to an extensive scholar program to support you in your continuous learning. Our career paths are well established; initiative and hard work are recognised and very quickly rewarded.

Method of Application:

Apply online to [ericsson.com/careers](http://ericsson.com/careers)

Company Name:

## Mazars

Summary of Business:

Mazars is one of Ireland's leading professional services firms offering careers to graduates in Audit & Assurance, Consulting & Enterprise Risk Management, Internal Audit, IT Audit & Security and Tax.

We have brilliant people who work together to bring the shared experience and knowledge of the firm to our clients. We believe in providing a working environment which is supportive and inclusive. Where people develop professionally, enjoy their work and are proud of their contribution. This promotes a team spirit that is good for our people and our clients.

### Consulting & Enterprise Risk Management

The role primarily involves analysing the existing organisational problems and developing plans for improvement. You will train as a certified management consultant and at the end of your training you will be a technical and sectoral expert as well as an experienced business professional across a number of service lines.

Graduate & Internship Opportunities:

### IT Audit & Security

IT audit & security examines applications, data, IT processes and IT structures to determine where risk lies. Your training contract will provide you with internationally recognised qualifications and hands on practical training. Mazars is one of the leaders of IT audit & security in Ireland and your training contract will provide you with an excellent platform from which to develop an exciting career.

## Three Ireland

Summary of Business:

We reinvented the Irish mobile market when we launched in 2005. Now, after almost €2 billion in investment, we carry more mobile data than any other mobile company in Ireland. And we're not slowing down. To be Ireland's best network, we need people who share our passion to make it count. Working at Three is a journey full of opportunities to grow while delivering projects that matter. You'll have three eight-month rotations with three talented teams and three managers during the programme (we like doing things in threes). It's a diverse experience, but always links back to your field of study.

Graduate & Internship Opportunities:

People at Three come from many backgrounds, but we all share a passion for customers and a desire to help each other achieve. We value openness, honesty and people who want to make it count. We have opportunities across all of our business. From Engineering, IT, Business, Data Analytics, Marketing, Customer Relationship Management and so much more.

People at Three come from many backgrounds, but we all share a passion for customers and a desire to help each other achieve. We value openness, honesty and people who want to make it count. - Compete for a unique prize

**Where are we?**  
Located on 2nd floor,  
7-9 South Leinster Street

## About the Trinity Careers Service

The Trinity Careers Service ([www.tcd.ie/careers](http://www.tcd.ie/careers)), which is part of Trinity **Teaching and Learning**, supports students and recent graduates to explore their career ambitions for the future and plan how to achieve them using a wide variety of activities, services and resources. The Service operates in a fast-changing and outward-facing environment with the flexibility to be responsive to the needs of our key stakeholders (undergraduate and postgraduate students, graduates, academic staff and employers).

We provide careers education, information, skills and guidance to students and recent graduates to enable them to realise their career potential, to connect with employers and/or postgraduate programme providers, and to equip them with the skills to succeed in the workplace of the future.

We help them to identify and articulate how their learning experiences, both formal (through their programme learning outcomes) and informal (through their co- and extra-curricular activities), contribute to their intellectual and personal development. We also engage and collaborate with national and international organisations to ensure local and global employment opportunities for students and graduates.
