

Engineering Non-EU exchange options

KEY:

Engineering students eligible to apply

Some engineering disciplines eligible to apply

Engineering students NOT eligible to apply

**Universities that have limited courses available in English.

	Number of Spaces (2016/17)	Are engineering students eligible to apply?	Have engineering students gone recently?	Restrictions for our outgoing engineers
Australia				
Australian National University	7 (2 reserved for PPES)	Yes		Engineering courses are only available to students in Engineering and some Physics programs. Thesis supervision is no longer available.
University of New South Wales	2	Yes	Yes (1 current, 2016/17)	Built Environment - Studio based courses are often limited due to space and you should be flexible with subject choices.
University of Queensland	4	Yes	Yes (2014/15)	N/A
University of Sydney	2 (potentially increasing to 6)	Yes	Yes (2015/16)	Students must be enrolled in a relevant engineering degree to take gain entry to advanced units. All units from 2nd year (2000) upwards required pre-approval (including postgraduate units of study)
University of Melbourne	7	Yes (with certain restrictions and application requirements)		There are specific application requirements for certain disciplines including Education, Engineering, Psychology, Science and Music. Please see https://study.unimelb.edu.au/how-to-apply/international-exchange-and-study-abroad-applications for details. Students from these disciplines should only apply for this exchange if they have discussed these restrictions with their Departmental Coordinators and have their express permission. This must be made clear on your application.
Singapore				
National University of Singapore	3 (1 reserved for Law). Potentially increasing to 4	Yes		Faculties and Schools at NUS are open to exchange students include Faculty of Engineering, School of Design and Environment and School of Computing. NUS does not guarantee that exchange students will get the modules that they need to fulfill their degree requirements. Therefore it is important that TCD students applying to NUS can be flexible with their module selection.
Singapore Management University	2	No		Only open to Business and Economics students
China				
China:Beihang University**	2	Yes		Unless student is proficient in Chinese, this exchange is only suitable for Electronic Engineering and Electronic/Computer Engineering: There is potential for Electronic Engineering and Electronic/Computer Engineering students to participate in this exchange. However, due to the limited number of modules delivered through English, it is important to investigate the modules on offer in consultation with your Departmental Coordinator before applying for this exchange.
Tsinghua University**	2	Yes		Very limited number of modules in English.
The Hong Kong University of Science and Technology (HKUST)	2	Yes		Some restrictions on specific module codes
The University of Hong Kong	5 (2 reserved for	No, but may be suitable for Computer Engineers		Only open to select disciplines (includes computer science & maths, but not engineering...may be suitable for computer engineers)
Peking University	2	No		Proficiency in Chinese is generally required
The Chinese University of Hong Kong	2	No		Only open to select disciplines (not including engineering)
Xi'an Jiaotong-Liverpool University	2	No		This exchange is currently only open to Business students.
University of Nottingham Ningbo, China	2	No		This exchange is NOT suitable for Civil Engineering or Computer Science students. Currently only approved for: Economics and Business.

	Number of Spaces (2016/17)	Are engineering students eligible to apply?	Have engineering students gone recently?	Restrictions for our outgoing engineers
Canada				
Canada:McGill University	3.5	Yes (excluding civil,mech)		Limited spaces in Chemical, Civil and Mechanical disciplines. This exchange is NOT suitable for students from these disciplines.
University of Toronto	4	Yes	Yes (2015/16)	Some programmes at the University of Toronto have limited capacity to hosting exchange students, including Architecture and School of the Environment (ENV)...may effect Civil Students
University of Waterloo	2	Yes (but some restrictions)		Engineering, Science: Some modules in these disciplines are restricted at uWaterloo but students of Engineering/Science may apply for this exchange if they have checked the restrictions in the below list and discussed with their Departmental Coordinators and have their express permission. This must be made clear on your application. Computer Science: This exchange is only suitable Computer Science students who may take a maximum of 3 Computer Science modules per term. For Computer Science, see Faculty of Mathematics on the below list of restricted courses.
USA				
University of California	16 (only 15% allowed from Eng/ Business, 2 reserved for drama)	Yes	Yes (3 current, 2016/17), Yes (2013/14)	BESS/Business/Economics and Engineering students may participate in this exchange but there is extremely high demand for courses in these disciplines at the UC, they require that participation from BESS, Business, Economics and Engineering students be limited to no more than 15% of any nominated cohort. Note also: One application covers all University of California campuses.
University of Madison Wisconsin	2	Yes		N/A
University of Notre Dame	2	Some disciplines (Civil, Elec)		Aero/Mechanical Engineering and computer science may NOT be studied by exchange students. It is also likely to be unsuitable for Computer Engineering students but this has yet to be confirmed. (Notre Dame also offer Civil, Electrical....which may be suitable for our students)
University of North Carolina, Chapel Hill	4 (1 for drama/film)	some disciplines (Biomed, Comp)		TCD students may only enroll in undergraduate courses (courses numbered 100-699) in the School of Arts and Sciences...including applied sciences and engineering, and computer science...appears to only have a biomedical engineering and computer science department, which would be suitable for engineers
University of Massachusetts Amherst	2	May be suitable?		May be suitable? As they appear to have some eng classes and they don't explicitly preclude engineering classes. May not have sufficient number of credits at the right level. UMass would like all prospective exchange students to be aware that acceptance into the exchange program does not guarantee entry into desired courses. Exchange students need to be flexible in their course selections as students may not get the courses they want/need.
Georgetown University	3	May be suitable for some disciplines, e.g. comp eng/ Biomed)		There don't appear to be any engineering classes. (Aside from some computer science and some Biomed/biotech)
Barnard College	3 (single spring semester)	No		It is not possible to take Engineering courses.
Boston College	1	No		They don't have an engineering school
New York University	2	No		This exchange is not open to students of Business or Engineering. (The Leonard N. Stern School of Business, Polytechnic School of Engineering and the School of Continuing & Professional Studies do not participate in the NYU International Exchange Program.)
University of Chicago	1	No		This exchange is not open to Business students or Engineering students. Business is not an undergraduate subject at the University of Chicago and Engineering is not offered at any level.
University of Pennsylvania, College of Arts and Science	2	No		TCD students may only enrol in undergraduate courses in the College of Arts and Sciences. It does not extend to UPenn's other undergraduate Schools including the School of Engineering and Applied Science.
University of Southern California	2	No		Subjects that are not open to exchange students include: Engineering, Architecture
