

Poems from which citations appear in *IGT* and/or *BST*.

This is an index to the first lines of poems from which citations appear in the medieval Irish Grammatical and Syntactical Tracts. The arrangement of items is as follows: number of poem in this index (not the same as the numbering in Ériu publications), first line of poem, poet (if known), number of quotations found, (source: (where this is not given it can be checked in the full list of poems in the database, file INDEX), quatrain reference in poem = citation in Irish Grammatical Tracts (i - vi) or Syntactical Tracts (BST)). An explanation of the abbreviations used will be found at the end of the file. For the text of all the citations in these tracts see the file CITATIONS.
