Student Name _____

Primary Supervisor _____

Working dissertation title _____

Please attach a 1–2 page description of the current status of your dissertation on the basis of a recent discussion with your supervisor about your progress.

This brief report should describe:

1. the progress you have made in relation to your original research proposal,
2. the progress made since you filed your previous report,
3. an outline of work remaining to be done to complete the thesis,
4. the progress you are making toward submitting your work for publication in a peer-reviewed journal, as discussed with your supervisor (esp. second years and above), and
5. fourth year (and above) students should please include an explicit discussion of the date (year and month) on which you plan to submit a draft thesis for examination or, as the case may be, your progress with post-*viva* revisions to your thesis.

If, for any reason, a student is unable to discuss their thesis progress with their supervisor sufficiently recently (two months, for example) before submitting a thesis progress report, they should record this on this covering page when the progress report is submitted.

I have recently discussed my dissertation progress with my supervisor and submit the attached dissertation progress report:
