FOUNDATION SCHOLARSHIP EXAMINATION 2019/20

TR062 Geography and Geosciences

As described in the College Calendar:

“The objective of the foundation scholarship examination is to identify students who, at a level of evaluation appropriate to the Senior Freshman year, can consistently demonstrate exceptional knowledge and understanding of their subjects. The examination requires candidates to demonstrate: skill in synthesising and integrating knowledge across the full range of the set examination materials; rigorous and informed critical thought; and, in appropriate disciplines, a highly-developed ability to solve problems and apply knowledge. “

The objective of the Scholarship examination in Science is to identify and reward undergraduate students with outstanding knowledge and ability in each of the four Science degree programmes (TR060, Biological and Biomedical Sciences; TR061, Chemical Sciences; TR062, Geography and Geoscience; TR063, Physical Sciences). Such students should demonstrate an understanding and knowledge of their chosen field with some degree of originality and flair, and not simply a high level of performance in basic coursework. The Scholarship examination is taken by Senior Freshman students in each degree and is based on the designated course work presented in the Junior Freshman and the first semester of the Senior Freshman years. In addition, students are examined on designated non-coursework material, which is specific for each degree.

An application form and Foundation Scholarship regulations can be accessed on the Examinations and Timetables Office webpage:

https://www.tcd.ie/academicregistry/exams/scholarship/

Candidates are examined in the subject area of each degree incorporating such additional reading as is required by the Directors of each degree. Recommendations for Scholarship will be based on the achievement of an overall first class result with first class marks in at least two of the three or four papers examined in any of the degrees (students across College will sit either 3 or 4 papers, depending on their degree) and a mark of 65% or over in each paper.

Important Scholarship Dates (TBC)

- Submission of online applications 15 – 29 October 2019
- Submission of online withdrawal forms 31 October – 6 December 2019
- Foundation Scholarship Examinations will take place 6 – 10 January 2020*
- Trinity Monday, (20 April 2020) - Front Square Announcement of Election to Scholarship 2020

* *Note: It may be necessary to hold some exams in the preceding week.
TR062: Geography and Geosciences

Contact: Professor Robin Edwards (robin.edwards@tcd.ie)

The Foundation Scholarship examination in Geography and Geoscience seeks to identify exceptional students who:

1. Show a comprehensive understanding of the foundational material covered in modules up until the end of Michaelmas Term in the Senior Freshman year;
2. Demonstrate an ability to critically engage with selected topics drawn from the broader fields of Geography and Geoscience.

Candidates will sit three papers, each of 3 hours duration:

**Paper 1 (30%)**
Answer 3 questions from 6 based on material covered in GSU11001: Spaceship Earth and GSU11003: The Anthropocene.

**Paper 2 (30%)**
Answer 3 questions from 6 based on material covered in GSU11002: Planet Earth and GSU22001: Biogeochemical Cycles

**Paper 3 (40%)**
Answer 3 questions from 6 based on a selected theme, for which special reading with be set as an introduction
