SafeZone

A **FREE** safety App

What is SafeZone?
This Trinity App increases the security and safety of students and staff while in a Trinity location. It provides immediate access to Trinity resources to provide assistance in cases of emergencies or when an alert is raised.

What is SafeZone used for?
SafeZone enables you to raise alerts (by pressing the emergency button on the App) or seek assistance when onsite in Trinity. Once an alert is raised, the user's location is shared with our security team who then respond. The App allows users to check-in for specific time periods and if they do not check-out within that period, an alert is automatically sent to security.

Further functionality will be delivered over the coming months, including sending Trinity notifications to our SafeZone registered students and staff.

How do I access SafeZone?
Just download the SafeZone app from the iOS or Android App stores, enter your TCD username and password, complete the registration form and you are good to go. You can opt to check in automatically (recommended) or manually check-in when required.

First Aid Call
For when you need medical assistance

Help
For when you need non-urgent assistance

Emergency
If you feel threatened or need urgent assistance
