Identified by Time magazine as one of Europe’s most influential women in Science, Prof. Helga Nowotny President of the European Research Council, will be highlighting the role the ERC has taken to incorporate gender policy within European research.

WiSER Public Lecture:

European Research Council: Strategies for incorporating Gender Policy in Research

Speaker: Prof. Nowotny, President, European Research Council
Chair: Prof. David Lloyd, Chairperson, Irish Research Council

Date: 24th May
Time: 9.15am-10.15am
Location: The Knowledge Exchange, Trinity Biomedical Sciences Institute

Prof. Nowotny will discuss the issues identified by ERC in incorporating gender policy, actions taken, and what lessons can be transferred to other national and international research funding institutions.

The ERC’s mission is to support frontier researchers across Europe, irrespective of nationality, gender or age. An ERC Gender Equality Plan, based on mainstreaming gender with the focus on excellence, has been approved and is being implemented within the organization.

To register your place click here or mail the Centre for Women in Science and Engineering Research wiser@tcd.ie by Wednesday 23rd May. Please feel free to circulate this invitation, all are welcome to attend.

Kind Regards,
The WiSER Team
