 Designed to help students become skilled digital marketing strategists, this programme focuses on how companies do business in a digital world. Students will also learn about digital design, the user experience and how to plan and implement digital strategies.

The strong industry focus and partnership approach means that a variety of leading digital companies are represented by expert guest speakers and faculty, including multinational companies such as Google, Facebook, Twitter, HubSpot and Microsoft.

"Our graduates gain the cutting-edge technical skills, the business acumen and the strategic vision needed to become effective marketing strategists in the workplace.

Our expert industry practitioners who teach on the programme often hire our graduates. If you have a passion for digital marketing, this programme will kick start your career."

Career Services & Development

Trinity Business School has a dedicated career development team to help identify your ideal career path and provide advice on how to achieve your goals. Services include workshops, one-to-one coaching, career psychometric tests and visits from top global employers.

“...This programme allowed me to develop practical competencies via hands-on real life projects whilst learning the latest trends and practices in the digital market. Everyone at Trinity Business School - the programme director, professors and staff - were very welcoming.

Trinity’s unique location at the heart of the city along with its exceptional facilities and unlimited extracurricular activities make it ideal for any student. I have no doubt that this qualification helped me secure my current job with Google in Dublin.”

Esera Kocak
Graduate of 2017
This two year part time programme is designed to provide the knowledge and tools required to become a highly skilled digital marketing strategist. Taught via weekly evening classes, it enables students to combine their study and professional life.

This course is also offered as a one year full time option. The strong industry focus and partnership approach means that a variety of leading digital companies are represented by expert guest speakers and faculty, including multinational companies such as Google, Facebook, Twitter, HubSpot and Microsoft.

This programme is designed specifically for students with a quantitative background who want to develop the analytical and technical skills required to succeed in modern financial services. Trinity Business School is partnered with the Chartered Alternative Investment Analyst Association and the Chartered Financial Analyst Institute – both of whom have recognised the academic rigour and industry-relevant skills taught in this programme. Delivered by expert faculty and leading finance practitioners, students gain skills through Bloomberg training and real-life case studies to give them the edge in the competitive job market.

“...This programme blends academic rigour and practical skills and includes finance simulations in trading and portfolio management. This blended learning combined with our links to industry and global reputation means that our graduates highly employable. The internationally recognised CAIA and CFA affiliated programme, international faculty and diverse range of students prepare our graduates for the world of global business.”

This rigorous programme introduces you to the tools and skills of modern financial risk management, including the key themes that influence all industries, such as market, credit and operational risk.

Industry professionals, practitioners and consultants from around the world teach students how to forecast, react and minimalise risk. Students will also gain practical skills through Bloomberg training and real-life case studies to give them the edge in a competitive job market.

Dr. Ranadeva Jayasekera, Programme Director

“...Our expert faculty and industry practitioners bring cutting edge expertise to the classroom. Our graduates are ideally placed to embark in a variety of careers, such as investment banking, hedge fund management and risk oversight.

Furthermore, they are prepared for GARP - FRM examinations (the globally recognized professional designation for financial risk managers) helping them to maximize their career potential in this exciting industry.”
Career Services & Development

Trinity Business School has a dedicated career development team to help identify your ideal career path and provide advice on how to achieve your goals. Services include workshops, one-to-one coaching, career psychometric tests and visits from top global employers. After graduation, students can move on to complete their exams with PRMIA (Professional Risk Managers’ International Association) or FRM (Global Association of Risk Professionals).

Financial Risk Managers are an essential component to every company worldwide and positions in this field continue to be in high demand. An internship in Canary Wharf will be provided for the highest performing student on the programme, where they will learn from trading practitioners in a live environment and gain unprecedented experience to move forward in their career.

MSc in Marketing

Accelerate your career in marketing with our leading industry experts

This programme focuses on marketing strategy, branding, consumer psychology and the communication skills required for graduates to excel in their choice of specialised marketing career.

Through a mix of highly interactive lessons, expert faculty and leading marketing practitioners, students will develop their communication and negotiation skills, deal with real-life case studies and work on specialised group projects.

“With a blend of traditional and contemporary thinking, we ensure that our students understand the fundamental building blocks of ‘how to market’ in the 21st century and the modern technologies that connect businesses to their consumers today. This includes themes such as branding and advertising management, data analytics, globalisation and sustainability. Our highly interactive lessons provoke discussion and develop vital communication and negotiation skills.

The marketing profession is changing rapidly with new ways of engaging and communicating developing almost daily. This programme enables our students to be forward thinking in their approach and future career.”

This programme equips students with the tools and expertise to manage supply chain processes and their connected operations in a global and increasingly digitalised marketplace. Monitoring risk, leveraging innovation and managing collaboration are some of the core themes embedded in this programme.

As well as the solid theoretical expertise gained in the classroom, students will gain first-hand experience working directly with the major digital and financial companies locally. Operations and supply chain management are important areas for businesses to understand in order to deliver their products and services as effectively and efficiently as possible.

"Supply chains exist for every product and service that we consume, directly or indirectly. This programme allows students to develop a strategic and analytical perspective of global, interconnected supply chains and their increasing complexity. There is a strong demand in the marketplace for graduates with the skills and modes of thinking to address key challenges across a variety of business sectors. The programme also embraces contemporary issues such as innovation, risk management and data analytics."

Sinead Roden, Programme Director
Who can apply for this course?

We don’t require students to have a business degree or any existing knowledge of operations or supply chain. We suggest it’s suitable for students who have an interest in this area and have good quantitative skills.

Postgraduate Diploma in Accounting

Fast track your career with a professional accounting degree

Designed for non-accounting graduates, this conversion course fast tracks students towards becoming a qualified accountant and focuses on the fundamentals of financial accounting, management accounting, corporate finance, audit, taxation and related areas.

Students gain significant exemptions from professional accountancy examinations which would otherwise take up to three years to complete.

This programme enables students to fast track their accountancy career. On completion, students enjoy significant exemptions from the exams of Chartered Accountants Ireland, ACCA, CIMA, and other professional bodies.

Our faculty come from practitioner backgrounds so students gain the technical skills and commercial know-how needed to succeed in accountancy. Our students are in demand by accountancy firms, the vast majority of our 2016/17 class had secured job offers or training contracts before they had even graduated.

Neil Dunne, Programme Director

Partners

Official Programme Partners CIMA, Chartered Accountants Ireland, ACCA, Irish Tax Institute

Fast Track

8 Month Conversion Programme
The programme is a very intense but very rewarding experience and qualified me for a number of professional exemptions, which was a valuable asset in securing a training contract. Having previously studied Biochemistry, I was grateful to find a programme specially designed for non-majors.

The fact that everyone started on the same level built a wonderful sense of camaraderie, and it’s a lasting bond that will exist beyond our time at Trinity Business School.

Vivian Zeng, Graduate Trainee Chartered Accountant with Pfizer
