Designed for those with an entrepreneurial mindset, this programme provides students with the knowledge and practical ability to start a new venture, finance start-ups, support new enterprise or scale and grow existing businesses.

The programme has a unique focus on ethical behaviour and the wellbeing of the entrepreneur amidst the stressful nature of new enterprise development.

“During this intensive one-year programme, students will learn from successful entrepreneurs and international faculty about how to launch a company, scale SMEs and lead growth within MNCs.

Entrepreneurial skills are valuable to students who wish to start their own company, but also to students who wish to join global corporations in the technology, financial and consulting sector.

Trinity is Europe’s leading university in entrepreneurship and is based in one of the world’s most vibrant innovation ecosystems. Our students are some of the most successful entrepreneurs in today’s business environment.”

Giulio Buciuni, Programme Director
