MSc in Management

Ranked #1 in Western Europe and #1 in Ireland for General Management*

This programme is designed for non-business graduates who want to succeed in today’s globalised business environment. Designed to complement all undergraduate disciplines, it provides a solid grounding in the practices and principles of management. The diverse class includes students from many different locations and academic backgrounds, including arts, law, science, engineering and medicine.

Through a mix of interactive discussion, expert industry speakers and case studies, students learn to critically analyse real strategic business issues, manage conflict and develop their personal leadership style.

“This programme is uniquely designed for non-business graduates to become skilled in the language of management. We approach this task in two interconnected ways. Firstly, we equip students with an in-depth knowledge of each core business function from HR to Marketing and Finance to Strategy.

Secondly, our experiential learning model that means students ‘learn by doing’ that includes a range of guest speakers, group work and presentations. Our graduates develop refined critical thinking skills, communication skills and cutting edge business acumen. They are ready to join any organisation (or set up their own) and bring a global perspective to its success.”

Louis Brennan, Programme Director

*Eduniversal, 2018
This programme opened up new areas of employment to me as it complemented my law degree. My decision to train in tax in financial services at KPMG was a result of discovering where my background in law could fit with my newly developed interest in finance.”

Aisling McGettigan
Current employment: Tax Consultant at KPMG
