GRADUATE STUDIES COMMITTEE – TERMS OF REFERENCE

Membership: The Graduate Studies Committee was established in the academic year 1965/66. Initially the members were drawn from Schools and later they were drawn from Faculties. In 2005, Board and Council approved that the membership would be changed to include the Directors of Teaching and Learning (Postgraduate) so that the membership is now: the Dean of Graduate Studies as the chair of the committee, the Dean of Research, the Directors of Teaching and Learning (Postgraduate) in the Schools, the Academic Director of Tangent, the President of the Graduate Students’ Union, and the Vice President of the Graduate Students’ Union.

In attendance are:
- Sub-Librarian, a representative of Information and Systems Services, two members nominated by the Dean of Graduate Studies may be co-opted to attend meetings of the Graduate Studies Committee.
- The Chairperson of the Graduate Studies Committee shall be the Dean of Graduate Studies.

There shall be no substitution of members of the Graduate Studies Committee.

The main functions of the Graduate Studies Committee are:

1) To initiate discussion and make recommendations on all matters of academic policy and practice relating to postgraduate study and research, and to report these discussions to the Heads of School Committee and the University Council.
2) To advise the Dean of Graduate Studies in his or her role of reporting to the University Council, including such matters as:
   a. admission, progression, and examination of postgraduate students
   b. proposals for new postgraduate degrees and diplomas, and changes to existing degree and diploma programmes and regulations.

3) To monitor, evaluate, and ensure the quality of postgraduate programmes and research degrees.

4) To assess proposals for the formation of Graduate Schools, including joining Graduate Schools with other institutions, and to make recommendations on the proposal to the Heads of School Committee or other committees in College as may be required.

5) To monitor, review and report on all aspects of the Bologna process as it relates to postgraduate studies, including European Credit Transfer Systems (ECTS).

6) To advise on the promotion of postgraduate programmes.

7) To consider and make appropriate changes to the University Calendar Part III.

8) To set up the Appeals Committee for Graduate Students as required.

9) To set up the Higher Doctorates Sub-committee as required.

VALIDATED POSTGRADUATE PROGRAMMES

This section contains specific information on postgraduate programmes validated by The University of Dublin, Trinity College Dublin.

| Programme: | Doctorate in Music Performance  
| (National Framework of Qualifications, Level 10) |
| School: | Royal Irish Academy of Music |
| Award and Exit Award: | D. Mus. Perf. |
| Admission Regulations: | Admission to the doctorate programme is administered by direct entry to the Royal Irish Academy of Music. The application deadline is January 4th and April 15th of each year. Late applications will be considered if available places remain. There is an audition procedure involving a performance and interview. Further information about the programme can be obtained directly from the RIAM [link](https://www.riam.ie/degrees-programmes/full-time/dmusperf-doctor-in-music-performance). |
| Mode of Delivery and Duration: | Four years full-time. |
| Programme Structure: | The Doctorate in Music Performance programme leads to the award of Doctor in Music Performance (D. Mus. Perf.) which is a qualification of prestige and excellence. The programme is full-time four years and combines the rigours of advanced research scholarship with the challenge of becoming a technically assured and artistically confident performing musician in the areas of instrumental, vocal or conducting studies. The programme is delivered in its entirety by the Royal Irish Academy of Music. The number of students admitted to the programme is small and therefore entry will only be open to graduates of proven excellence in music performance at an advanced professional level. The English Language requirement for entry to this programme is IELTS 6.5 or its equivalent, for further information please refer to [link](https://www.riam.ie/degrees-programmes/full-time/dmusperf-doctor-in-music-performance). |
| Assessment and Progression: | The RIAM doctorate candidate will successfully complete the following components to obtain the degree: Academic and research methodology seminars; a Dissertation of 30,000 words; a Lecture Recital; three “full-length” recitals; two Concerto Performances; a Chamber Music recital

Students who do not progress to year 3 of the Doctorate programme may exit instead with a MMusPerf. In order to receive this award student must successfully complete:

- A dissertation of 12,000 - 15,000 words for examination
- Two Solo Recitals
- One Concerto
- One Chamber Music Examination |
| Programme Director: | Deborah Kelleher, Director, Royal Irish Academy of Music |
| Programme: | Master in Music Performance (M.Mus.Perf)  
|           | (Level 9 on the National Framework of Qualifications) |
| School:   | Royal Irish Academy of Music |
| Award and Exit Award: | M.Mus.Perf. |
| Admission Regulations: | Admission to the Master programme is administered by direct entry to the Royal Irish Academy of Music. The application deadline is January 4th and April 15th of each year. There is an audition procedure involving a performance and interview. The English Language requirement for entry to this programme is IELTS 5.5 or its equivalent. Further information about the programme can be obtained directly from the RIAM https://www.riam.ie/degrees-programmes/postgraduate-courses/entry-requirements-postgraduate. |
| Mode of Delivery and Duration: | Two years full-time. |
| Programme Structure: | The Master in Music Performance is a two year full-time professional programme of study which leads to the award of Master in Music Performance (M. Mus. Perf.). The programme is delivered in its entirety by the Royal Irish Academy of Music. It is intended to provide for the academic and professional requirements of performing musicians. The number of students admitted to the programme is small and therefore entry will only be open to graduates of proven excellence in music performance. This award carries 120 ECTS credits. The primary emphasis of the programme is on practical studies (vocal, conducting or instrumental) including both solo and ensemble work. These studies are supported by classes in which the student is encouraged to pursue his/her own study of a related musical subject. Seminars in professional practice, other specialist music topics and master classes will be given by staff of the Royal Irish Academy of Music and by international visiting artists and scholars. For more details relevant to instrument/voice, please go to the following links:  
1. MMusPerf (Keyboard) | RIAM  
2. MMusPerf (Strings) | RIAM  
3. MMusPerf (Vocal Studies) | RIAM  
4. MMusPerf (Wind, Brass & Percussion) | RIAM |
| Assessment and Progression: | Students must successfully pass all the requirements of their first year in order to progress to the second year of the programme. The Board of Examiners will meet at the end of Year 1 to moderate assignment marks from four modules (Principal Study, Chamber Music, Performance Electives, Major Academic Elective) in order to record end-of-year results and to confirm each student’s progression from Year 1 to Year 2. Students who successfully complete all compulsory components for Year 1 and do not wish to advance to Year 2 or fail year 2 of the course will be awarded a Graduate Diploma of Music in Performance. Students who successfully complete all compulsory components of Year 2 will receive the degree of Master in Music Performance. |

LEVEL DESCRIPTORS FOR MAJOR AWARD TYPES

Qualifications under the categories listed below are awarded to students who have completed a programme of study in relation to each category under 1.1 to 1.7:

1 HIGHER DIPLOMAS (LEVEL 8, NATIONAL FRAMEWORK OF QUALIFICATIONS)
Those who hold this award have been able to demonstrate, through a variety of assessment procedures:

☐ a comprehension of the theory, concepts, methods and processes pertaining to a specialised field of study
☐ a detailed knowledge of this specialised area, some of it at the current boundaries of the field
☐ that they can demonstrate mastery of complex and specialised skills and tools, use and modify them to conduct closely guided research, or professional or advanced technical activity
☐ that they can use advanced skills to conduct research, or advanced technical or professional activity, and that they can apply diagnostic and creative skills in a range of contexts
☐ that they can act effectively under guidance of qualified practitioners in a peer relationship within multiple, complex and heterogeneous groups
☐ that they can act in unfamiliar learning contexts with independence, professionalism and an ethical awareness
☐ that they can communicate the results of their research or advanced technical and professional learning to both specialist and non-specialist audiences
☐ that they have developed those learning skills which are necessary for them to progress to programmes leading to Postgraduate Diplomas or Masters degrees.

2 MASTERS DEGREES (LEVEL 9, NATIONAL FRAMEWORK OF QUALIFICATIONS)
Those who hold this award have been able to demonstrate, through a variety of assessment procedures:

☐ knowledge and comprehension that is founded upon, extends and enhances that associated with the Bachelor’s level and is at the forefront of a field of learning
☐ a critical awareness of current problems and new insights, new tools and new processes within their field of learning, or the development of professional skills
☐ that they can apply their knowledge and comprehension, their critical awareness and problem-solving abilities, within the context of research, or in the development of professional skills, in broader or multidisciplinary areas related to their fields of study
☐ that they have the ability to integrate knowledge and handle complexity, to formulate judgements with incomplete or limited information, either individually or in groups, which includes (where relevant) reflecting on social and ethical responsibilities linked to the application of their knowledge and judgements
☐ that they can lead or initiate activity, and take responsibility for the intellectual activities of individuals or groups
☐ that they can communicate their conclusions, and knowledge, rationale and processes underpinning these, to specialist and non-specialist audiences clearly and unambiguously
☐ that they possess the learning skills to allow them to continue to study in a manner that may be largely self-directed or autonomous.

3 POSTGRADUATE DIPLOMAS (LEVEL 9, NATIONAL FRAMEWORK OF QUALIFICATIONS)
Those who hold this award have been able to demonstrate, through a variety of assessment procedures:

☐ a systematic comprehension of a closely defined and specialised field of knowledge at the forefront of its development
☐ a critical awareness of current problems and new developments at the forefront of the field of learning
☐ that they can demonstrate and use a range of standard and specialised research tools and techniques of enquiry
☐ that they can select appropriately from a range of complex and advanced skills and • techniques within a specialised field of learning, and develop new skills and techniques at a high level
☐ that they can act in a wide variety of professional situations which are often unpredictable and ill-defined
☐ that they can take significant responsibility for their own activity and for the activity of others, either individually or in groups, and that they can initiate such activity having due regard for the professional, social and ethical implications of their actions
☐ that they can communicate the results of their research or advanced technical and professional learning to both specialist and non-specialist audiences
☐ that they have developed those learning skills which are necessary for them to progress to programmes leading to Masters or Doctoral degrees.

4 RESEARCH DOCTORATES (LEVEL 10, NATIONAL FRAMEWORK OF QUALIFICATIONS)
Research doctorates should continue to be known as Doctor in Philosophy. Those who hold this award have been able to demonstrate, through a variety of assessment procedures:

☐ a systematic comprehension of a field of study and mastery of the skills and methods of research associated with that field
☐ that they have the ability to conceive, design, implement and adapt a substantial process of research with scholarly integrity, rigour and discrimination, which may involve the development of new skills, techniques, tools or materials
☐ that they are capable of critical analysis, evaluation and synthesis of new and complex ideas
☐ that they have made a significant contribution through original research which extends the frontiers of knowledge by developing
a body of work, some of which merits publication in national or international refereed publications

☐ that they can communicate with their peers, the larger scholarly community and with society in general about their areas of expertise in a sustained and exact manner

☐ that they can be expected to be able to promote, with due regard to ethical considerations, within academic contexts, scientific, technological, social or cultural advancement.

5 PROFESSIONAL DOCTORATES (LEVEL 10, NATIONAL FRAMEWORK OF QUALIFICATIONS)

Professional doctorates should be known by a specific title. Those who hold this award have been able to demonstrate, through a variety of assessment procedures including practice:

☐ a systematic comprehension of a field of study and practice, and mastery of the skills and methods of research associated with that field

☐ that they have the ability, either singly or as part of a team, to conceive, design, implement and adapt a process of research with scholarly integrity, rigour and discrimination, which may involve the development of new skills, techniques, tools, materials, or practices

☐ that they are capable of critical analysis, evaluation and synthesis of new and complex ideas and practices

☐ that they have made some contribution through original research that extends the frontiers of knowledge or the parameters of professional practice by developing a body of work, some of which merits publication in national or international publications

☐ that they can communicate with their peers, practitioners in their own professions, the larger scholarly community and with society in general about their areas of expertise in a sustained and exact manner

☐ that they can be expected to be able to promote, with due regard to ethical considerations, within academic, professional and practice contexts, scientific, technological, social or cultural advancement

☐ that they can be expected to receive professional accreditation and recognition, where this is available, within their appropriate areas of expertise.

6 HIGHER DOCTORATES (LEVEL 10, NATIONAL FRAMEWORK OF QUALIFICATIONS)

These awards recognise distinguished and sustained contributions to learning. They are not based on a provider’s programme, and, as such, are not subject to validation but are assessed by the awarding body for each individual learner through a stringent peer-review system. They are few and rare. Those who hold this award have been able to show:

☐ that they can develop a large and coherent body of knowledge which is, and has been over a long period of time, at the forefront of their particular field of learning

☐ that they have created seminal knowledge, through sustained and original research, which is of a quality to merit the admiration of their peers

☐ that they have to their credit a large body of work published in peer review contexts

☐ that through their research and publication they have decisively altered the paradigms and norms in their particular fields of learning

☐ that they are recognised as leading authorities in their fields of learning, influencing and guiding others over a long period of time

☐ that they have demonstrated by their scholarship that they are fitted to initiate and contribute to debates on the professional, social and ethical aspects of their fields of learning

7 PROFESSIONAL AWARDS

Degrees, Diplomas and Certificates awarded by the University of Dublin which lead to professional qualifications are subject to validation by external bodies. These bodies define criteria which holders of professional qualifications have to meet. It is therefore not appropriate that the University of Dublin should define its own learning outcomes and level descriptors in these cases and reference should be made to the appropriate validating bodies.

8 CREDIT WEIGHTING OF PROGRAMMES

The European Credit Transfer and Accumulation System (ECTS) represents the student workload required to achieve the specified objectives of a study programme. In College, 1 ECTS unit is defined as 20-25 hours of student input. The norm for full-time taught postgraduate programmes of one academic year’s duration is 60 ECTS for Postgraduate Diploma programmes, and 90 ECTS for Masters programmes (inclusive of the Masters research dissertation normally of 30 ECTS weight). The practice in College is to allow variation within the 60 ECTS band where it may be appropriate for professional or academic reasons that the ECTS credits attributed to a particular postgraduate programme may be in excess of the recommended norms.
