HUMAN FACTORS & SAFETY MANAGEMENT CONFERENCE. (TRINITY COLLEGE DUBLIN & KRATIS TRAINING & CONSULTING)

About this Event

Trinity College Dublin and Kratis Training and Consulting presents the 2020 Human Factors & Safety Management Conference.

The fields of **human factors** and safety management are constantly evolving. This conference will bring you up to date with the cutting edge of current research and practice in both fields across different sectors.

Topics Include:

- Human Factors Training – Current Practice and Future Trends
- Making Uncertainty Work For You – An Interactive Workshop
- Ensuring Regulations Happen
- Learning From Other Industries: Lessons and Challenges
- Managing Risk and Ensuring Accountability
- New Training Techniques and Facilitation Skills

Who This Conference Is For?

Managers, quality personnel, investigators, planners, regulators, auditors, trainers, certifying staff, human factors practitioners and trainers, engineers, technicians, health and safety personnel – anyone whose decisions and actions influence the management of risk in an organisation.

Certificate:

- Certificate Attendance issued to all attendees
- The Conference has also been designed to meet your Part 147 HF, SMS Continuation Training Requirements.

Dates, Duration & Cost:

The conference will be held on Thursday 5th and Friday 6th March 2020. A highly interactive two day conference held at the Trinity College Dublin campus. The cost per person is €650 and includes refreshments and lunch each day.

Trinity College Dublin /Centre for Innovative Human Systems (CIHS):

As an industry leader in addressing safety, quality, reliability and improvement in organisations we deliver **Human Factors** training to aviation, pharmaceutical, healthcare, emergency services, financial services, maritime, transport and process industries.

CIHS offers a suite of **Human Factors** related courses, grounded in cutting edge research, by Senior Organisational Psychologists with an in-depth knowledge of the issues facing personnel in risk critical industries. CIHS have established tools and methodologies which have been implemented, matured and refined within a cutting edge research environment. The course was validated and tested through the research process in its original development, with the aim of developing top quality human factors training.
