In response to comments from a Board member in relation to the refurbishment of the Old Library, the Bursar/Director of Strategic Innovation advised that she and the Librarian/College Archivist are scheduled to meet and discuss the project with the Fellows in the coming weeks. She also advised that there would be no long-term visual disruption to Fellows Square on completion of the project and that she would be happy to make the project plans available for viewing once they were finalised.

Responding to a query from a Board member, the Bursar/Director of Strategic Innovation advised that discussions regarding potential collaborations with other universities in respect of the Trinity St James’s Cancer Institute were underway and that learnings from similar projects in New York and the United Kingdom were also being taken in to consideration.

In response to comments from a Board member regarding the recent Future of Higher Education debate, the Secretary to the College advised that it is proposed to collate the sections relating to higher education as taken from the manifestos of the seven main political parties and to circulate this information to all staff members and students in the college. The Provost concluded the discussion by summarising some of the main differences in the stances of some of the political parties in respect to higher education.

**BD/19-20/131  Board Review Working Group - Update**

The Chair of the Working Group, Mr Dermot McCarthy and Project Advisor, Ms Sinéad Ryan joined the meeting for this item.

The Provost welcomed Mr McCarthy and Ms Ryan to the meeting. The Secretary to the College with reference to the memorandum prepared by himself and Mr McCarthy, dated 22 January 2020, which had been circulated in advance, invited the Board’s attention to the presentation, dated 29 January 2020. He provided Board members with a summary of the rationale for the establishment and remit of the Board Review Working Group. The Secretary to the College, noting that the Group had four meetings to date, advised that the Group’s approach was to first consider the values and principles which should underpin Trinity’s overall governance and then move to look at the particular role to be played by the Board in that context. The Group would then consider the competencies required for Board members and then develop recommendations on the optimal future composition of the Board. He also informed Board members that a draft set of Governance Values and Principles were before them for approval and summarised the next steps for the work of the Group.

Mr McCarthy, commending the support being provided by the Secretary to the College and by Ms Ryan, advised the Board that the fact that the establishment of the group was as a result of a self-evaluation strengthened the process. He also noted that by the time any legislative changes proposed by the Government are finalised, Trinity will have robustly examined its governance structures and made comprehensive recommendations.

In response to comments from a Board member welcoming the ‘Values and Principles Underpinning our Governance’ document, Mr McCarthy clarified that the initial focus of the work of the Group was on the underpinning principles and values and the importance of collegiality and internal stakeholders was acknowledged.

Responding to a query from a Board member, Mr McCarthy suggested that the Government’s focus may not be related to Trinity in particular but may arise from a greater emphasis on governance and oversight across the public sector as a whole in addition to 3rd level institutions.

Following comments from Board members on the text, it was noted that consideration could be given to including appropriate reference to the unique legal structure and ownership model in place in Trinity. It was suggested that the text should include Academic Freedom in the list of principles as well as in the list of values. The importance of autonomy in setting and advancing Trinity’s strategic objectives while taking account of the wider environment and national policies was also acknowledged. A greater focus on the value of internal stakeholder engagement is also to be included in the text.
In response to a query from a Board member, Ms Ryan advised that the Group had reviewed governance best practice in Universities nationally and internationally and it had been observed that, in general, the majority of the boards have in the region of 20 - 22 members, the majority of which are external members in some cases.

The Provost thanked Mr McCarthy and Ms Ryan who left the meeting at this point.

**Action/Decision**

131.01 The Board considered and approved the memorandum from Chair of the Board Review Working Group and the Secretary to the College, dated 22 January 2020, and the attached Governance “Values and Principles” document subject to some amendments.

The Chief Operating Officer introduced this item with reference to her memorandum and presentation, both dated 29 January 2020, which had been circulated in advance. She provided Board members with an overview of the review process to date and summarised her and the Director of IT Services’ response to the review. Summarising the recommendations relating to IT Services alone, the Chief Operating Officer noted that they had been categorised in to six themes, and some of which could be actioned by IT Services immediately. She gave an overview of the proposed plan of action and associated timeline for each recommendation and concluded by summarising the three specific requests before the Board for approval.

In response to comments from a Board member, the Chief Operating Officer, noting the current financial position of the university, advised that additional resource opportunities may arise from the implementation of the new Strategic Plan 2020-2025 and the review of the Baseline Budgeting Model. Mr Magee advised that there were sufficient resources maintained at the IT Services Helpdesk. Approximately 70% of items are resolved on the first call and that additional expertise is engaged if an issue could not be resolved in the first ten minutes of support. He also advised that with all teaching spaces now recorded in the University space management and booking systems, service arrangements and standards could be consolidated.

Following comments from a Board member, the Vice-Provost/Chief Academic Officer advised Board members that as Chair of the Quality Committee he is very aware of the importance of ensuring that external reviewers understand the Trinity structures and that the Committee learns from the experience and feedback provided by quality reviews.

**Action/Decision**
