**BD/23-24/116 Major Strategy Item: Strategic Plan 2025-2030 – Preliminary Discussion**

The Vice-Provost/Chief Academic Officer invited the Board’s attention to her presentation dated 21 February 2024 that had been circulated in advance. She noted that the current strategic plan concludes in December 2024 and that the purpose of the item was to indicate the commencement of planning for the development of the next strategic plan. She highlighted that while the role of Academic Services Division is to coordinate and oversee the implementation of the strategic plan, the strategic plan belongs to the university and the role of the Board in making inputs and in helping to formulate the vision for the next strategic plan will be important.

She informed the Board that new statutory requirements have been introduced under the HEA Act 2022 that will have implications for the development of the strategic plan and its timeframe, consultation and content. Regarding the timeframe, there is a statutory requirement to have a new strategic plan in place within 3 months of the expiry of the previous plan, i.e., by the end of March 2025. She advised that she is seeking an extension from the HEA to extend the deadline to the end of June 2025 on the basis that the current strategic plan was not officially launched until March 2020.

The Vice-Provost/Chief Academic Officer noted that in developing the next strategic plan, certain commitments and constraints will need to be taken into account, such as financial, capital projects, sustainability, strategies, charters and initiatives.

She drew the Board’s attention to the update on the current strategic plan that had been included in the documentation and which had been presented in detail at a previous meeting of the Board.

The Chairperson advised that the strategic plan will be a standing item on the Board agenda from now on and invited comments from Board members.

In the course of discussion, a summary of comments made were as follows:

- The development of the strategy should not be constrained but rather should embrace the opportunity to set out strengths and trade-offs, and to put in writing the decisions and the hard choices that need to be made over the 5 years of the plan;
- Scenario planning of the external environment would be useful for external Board members;
- The new strategic plan could focus on the need for greater investment in digital and IT;
- The Board needs to be involved in developing the strategy; its vision should not be hampered by constraints but rather should be viewed as an opportunity to shape the future of the university, the country and even the world into the future;
- It is an opportunity to implement democracy, accountability and governance;
- It should look at how to give practical expression to academic freedom and collegiality in a meaningful way;
- Constraints help to frame the core principles, making it easier to identify solutions and reflect...
what it is wanted to achieve in the longer term;
- The focus should draw from the Provost’s manifesto and place the emphasis onto students and staff rather than capital projects.

In response to the comments made by Board members, the Vice-Provost/CAO clarified that Board members will be included on the working groups set up to develop the plan and that she would welcome nominees in this regard. She advised that in taking a pragmatic approach which takes into account the constraints and boundaries within which the university operates, nonetheless there will be ample scope to challenge ourselves, to re-imagine Trinity in line with the Provost’s manifesto and to enshrine more strongly the principles of collegiality, with a positive focus on our staff and students.

The Chairperson closed the discussion and requested four volunteers to join a Strategic Development Team, comprised of internal and external Board members, with names to be submitted to the Secretary to the College/Director of Governance by lunchtime of the following day.

It was agreed that an initial strategic plan workshop ‘away day’ would be held after the March Board meeting, which would comprise essential business only in order to facilitate this.

**Action/Decision**

116.01 The Board noted the memorandum from the Vice-Provost/Chief Academic Officer dated 21 February 2024.

116.03 Four volunteers comprising internal and external members of Board, are to submit their names to the Secretary to College/Director of Governance to be part of a Strategic Development Team by lunchtime on 29 February 2024.
116.04 A strategic plan workshop ‘away day’ will be held after the March Board meeting.

**BD/23-24/117 People and Culture Matters**

(i) **Report from the Chair of the People and Culture Committee**

Professor Jones, as Chair of the People and Culture Committee, introduced this item by giving a verbal report summarising the work of the People and Culture Committee to date. He advised that the Committee had met three times, in November, January and February, and had approved a revised Terms of Reference, which would be brought to the Board for final approval, as well as a work programme for 2023/24 and beyond. The work of the Committee also included consideration of the Senior Academic Promotions Call, Interim Changes to the existing Senior Academic Promotions Policy and the Setting up of a Project Team for the next phase of the Senior Academic Promotions Project, and Reward, Recognition and Successful Careers for Professional Staff. He noted that these three items had been recommended for approval by the Committee and were on the Board agenda.

(ii) **Senior Academic Promotions Call**

The Provost introduced this item with reference to her memorandum, dated 28 February 2024, that had been tabled, which requested the approval of a financial envelope to support the Senior Promotions backlog from the four previous calls (2018-2021) of those who achieved a final agreed score where they met the threshold but who were not promoted due to financial constraints. The Board was advised that the approval sought was pending the approval of an item recommended for approval by the People and Culture Committee and on the Board agenda under section A.2: Interim Changes to the existing Senior Academic Promotions Policy and the Setting up of a Project Team for the next phase of the Senior Academic Promotions Project.

The Provost advised that the financial envelope is intended to cover the backlog from the four previous calls (2018-2021) and also a new senior academic promotions call in 2024 and that it is tightly balanced in order to achieve that while also ensuring that investment in academic promotions can be matched by investment in professional staff recognition and development. The aim has been to ensure fairness and equitable treatment of staff within the available funding envelope. Given the financial challenges expected in the year ahead, it represents the best approach within current
financial constraints. The Provost confirmed that the funding envelope available for the new call is broadly in line with that of previous years.

It was noted that following detailed discussions with a staff representative group that broad consensus had been reached regarding the funding envelope. However, a Board member asked for it to be noted that the agreement reached with the Unions had been predicated on a larger funding envelope.

In response to a query from a Board member, it was confirmed that those who achieved a final agreed score where they met the threshold but who were not promoted due to financial constraints will not need to re-apply under the new call in order to be recommended for promotion and that this will be communicated to those persons at the same time as the new promotions call is being issued.

The Board approved the memorandum from the Provost, dated 28 February 2024, and approved the financial envelope presented as well as a new round of Senior Academic Promotions, with an implementation date of 1 October 2024 (with no retrospection), pending approval of the item on Interim Changes to the existing Senior Academic Promotions Policy and the Setting up of a Project Team for the next phase of the Senior Academic Promotions Project.

**Action/Decision**

**BD/23-24/119 Risk and Compliance Matters**

**Report from the Chair of the Risk and Compliance Committee**

Professor Cunningham, as Chair of the Risk and Compliance Committee, introduced the item by providing an update on the work of the Risk and Compliance Committee to date. He advised that the Committee had met twice in November and January and would be meeting in the following week. He informed the Board that the Chair of Coiste na Gaeilge, Professor Noel Ó Murchadha, had agreed to represent Coiste na Gaeilge on the Risk and Compliance Committee but that student members have still not been identified and the Secretary to the College/Director of Governance is working with the Registrar on this. He reported that an external member with risk expertise has been identified and that he will provide an update to the Board at the next meeting. He advised that a high-level work programme for 2023/24 had been approved which included inputs from Safety Committee, Coiste na Gaeilge and the Risk Management Group as well as standing items which will come annually, such as the Annual Governance Statement and HEA Oversight Agreement. With regard to these latter two items, he informed the Board that these would go to Board following consideration and approval at
Board Minutes of 28 February 2024

Incorporating any amendments approved at subsequent Board meetings.

The Annual Governance Agreement will be signed off by the Provost and submitted to the HEA and the HEA Oversight Agreement will be signed by the Provost and the Chairperson of the Board.

He reported that the Secretary to the College/Director of Governance had presented an overview of regulatory compliance at Trinity and that work was ongoing to compile a composite log of all areas mapping their specific regulatory compliance requirements that would be used as the basis to provide assurance to the Committee, and ultimately to the Board.

He noted that training in the areas of governance, risk and compliance was being organised for the Committee. He completed the update by advising that the Committee was looking to understand fully the top five risks of the university, and the mitigations and treatments of each, and in that regard the Director of IT Services and Information Security Manager would present on the cyber security risk at the March meeting of the Committee.

A matter was raised by a Board member regarding an alleged invitation to the campus related to research and Professor Cunningham advised that in light of a potential reputational risk, he had already liaised with the Secretary to the College/Director of Governance on this matter but would liaise further with her and the Junior Dean.

In response to a request from a Board member, the Secretary to the College/Director of Governance undertook to investigate the potential to amend the Research Support System (RSS) drop-down funding list.

With regard to risk associated with capital projects, Professor Cunningham undertook to consider how this might be best dealt by the Committee.

In response to a query from a Board member, he confirmed that the University risk register will be brought to the Board.
