

# Microbiology Publications in Trinity Student Scientific Review (TSSR)

22 March 2016

Congratulations to Microbiology Sophister students Kelly Murray and Kevin Lyons on the publication of articles in the peer-reviewed undergraduate science journal *Trinity Student Scientific Review (TSSR)*.

Senior Sophister Kelly Murray published a review entitled "A thief's toolbox: bacterial strategies to acquire iron from the human host". This is Kelly's second *TSSR* publication; she published "Immunoglobulin binding proteins of *Staphylococcus aureus*" in 2015.

*Kelly Murray*

Junior Sophister Kevin Lyons published a review article entitled "Elongation, termination and anti-termination: the final stages of transcription in *Escherichia coli*". Kevin won the 2016 Prize for Best Overall Essay. This is a remarkable achievement, won against stiff competition from across all disciplines in science. The Provost presented Kevin with his award.

*Amy Worrall (TSSR Life Sciences Editor), Kevin Lyons (Best Overall Essay), Dr. Patrick Prendergast (Provost)*

The School of Genetics and Microbiology is very proud of its published student essayists and wishes them every success in their forthcoming examinations.
