What is Mentoring?

Mentoring is an interactive learning and educational experience, between alumni and students, to assist students in their personal and career development.

Mentoring in the School of Histories and Humanities

The mentors are alumni who have worked for a number of years and at the School's request have agreed to share their experience and guidance. The mentees are students of the School interested in learning from the mentor's experiences and being advised, guided and informed by them.

How does the programme work?

During the programme launch, each graduate will give a brief introduction. A reception will be held following this, where students will have the opportunity to speak with mentors one to one or in small groups and to ask questions. At the end of the event students will be asked to fill out a mentor matching form and to indicate a first, second and third choice mentor. Students who wish to participate will be matched with a mentor for the programme. Depending on demand, 1-3 students will be matched to each mentor.

Students and mentors should plan to meet approximately three times between November 2014 and June 2015 or a total of 8-10 hours to maximise the benefit of the programme. Meeting space will be made available in the Global Room, Trinity College Dublin on one to two evenings every month to facilitate these meetings. The Global Room is located in the Watts Building (beside Academic Registry on the first floor).
