

## Senior Academic Promotions Guidance Criteria DDUH 2024 Call

*This is guidance on criteria, setting out examples of evidence that would be required to be successful in an application for promotion. Please note that the final decisions on outcomes of the promotions process is based on merit. The promotions process is a competitive process across all faculties. Please note that this document is supplemental to, and should be read in conjunction with, the senior academic promotions policy.*

### Associate Professor

In terms of **Research & Scholarship** a successful candidate for Associate Professor will be an individual who:

- has developed a research programme of significance;
- demonstrates clear evidence of sustained research output and impact;
- has begun to develop an international reputation for research excellence;
- plays a key role in the development of inter-institutional research collaborations, national and/or international;
- has a track-record of success in research grant applications, in line with opportunities available;
- provides evidence that they are continuing on a trajectory of research excellence.

In terms of **Teaching** a successful candidate for Associate Professor will be an individual who:

- is an experienced academic with an on-going programme of scholarly activities;
- is operating independently and as a senior member of teaching teams;
- has developed successful teaching programmes or has introduced innovations of significance in existing programmes;
- has a demonstrable commitment to enhancing the teaching quality in his/her field;
- has some experience of supervision of research students.

In terms of **Service to the College and Engagement with Discipline/Society**, a successful candidate for Associate Professor will be an individual who:

- has undertaken leadership positions at Discipline, School, Faculty or College level, which may include the role of College Tutor or having acted as a Mentor;
- shows significant contribution to the School, College and field;
- shows strong contribution on outreach activities.

## Professor In

In terms of **Research & Scholarship** a successful candidate for Professor will be an individual who:

- has a substantial and sustained research output and impact;
- has shown strong leadership in research and a clear research focus;
- has a well-developed and recognised international research profile including international research collaborations of significance;
- has been awarded major research grants and has built a research team of significance (where appropriate to the discipline);
- provides evidence that they are continuing on a trajectory of research excellence;
- has made a demonstrable contribution to the research reputation of the College.

In terms of **Teaching** a successful candidate for Professor will be an individual who:

- is an excellent educator who is a dedicated and outstanding teacher and mentor;
- is a senior staff member who has demonstrated a sustained commitment to developing the undergraduate and postgraduate teaching programmes within the School;
- has demonstrated leadership in teaching, including curriculum development and innovation;
- has had an impact on the field through the supervision of PhD students and through the development of research teams (where appropriate to the discipline).

In terms of **Service to the College and Engagement with Discipline/Society**, a successful candidate for Professor will be an individual who:

- has had a key role in developing the discipline nationally and internationally;
- has the vision and leadership skills necessary to oversee the further development of the Discipline;
- is recognised as a thought-leader in the field and has made important and sustained contributions to public debate and/or public engagement;
