Programme and Curriculum Design and Approval Policy

1. Context
All programmes leading to an award from Trinity College Dublin and/or the University of Dublin are delivered in line with the statutory requirements of the Qualifications and Quality Assurance (Education and Training) Act 2012 (QQI Act 2012) and are aligned with an appropriate level on the National Framework of Qualifications (NFQ) and with the Joint Sectoral Protocol between QQI and Designated Awarding Bodies.

All programmes leading to an award, modules delivered for credit, and micro-credentials, are subject to appropriate design and approval processes to ensure that a Trinity education delivers a student experience based on academic excellence.

2. Purpose
This policy requires that all new programmes, programme strands, subjects, modules, and micro-credentials, and significantly re-configured curricula at programme, strand, subject, and module levels undergo an appropriate approval process.

3. Benefits
3.1 Guidance and support are made available to Trinity academic staff in relation to programme and curriculum design and approval processes.

3.2 Programmes leading to awards are aligned to the appropriate level of the National Framework of Qualifications.

3.3 Trinity, its students and graduates, its partner institutions, and the wider public, can be confident of the quality of its educational offerings and its awards.

3.4 Alignment with the requirement of the Joint Sectoral Protocol, as agreed between QQI and Designated Awarding Bodies, is evidenced.

3.5 Compliance with the requirements of professional accreditation and/or professional registration bodies is evidenced.

4. Scope
4.1 This policy applies to all new programmes and programme strands delivered by Trinity.

4.2 This policy applies to all new subjects (undergraduate) delivered by Trinity.

---

1 Degrees are conferred by the University of Dublin and non-degree awards, e.g., certificates and diplomas, are awarded by Trinity College Dublin. Within this policy, Trinity College Dublin, the University of Dublin will be referred to as Trinity, apart from where this distinction is relevant.
4.3 This policy applies to all new programmes delivered collaboratively with other institutions, which lead to an award.

4.4 The design and approval of programmes delivered collaboratively with Trinity leading to Dual/Joint awards are covered by this policy and are also subject to the Dual and Joint Awards Policy, and the Partnership Framework Agreement, if one has been agreed.

4.5 This policy applies to existing programmes undergoing significant curriculum review such as structural changes resulting in a new programme strand.

4.6 This policy applies to new stand-alone modules delivered for credit.

4.7 This policy applies to new or significantly revised modules for existing programmes.

4.8 This policy applies to micro-credentials.

4.9 This policy applies to credit-bearing modules for structured Ph.D. programmes that do not fall under other sub-sections within section 4.

4.10 The approval of programmes that are designed and delivered by Linked Providers and validated by Trinity is subject to section 7.4 of this policy.

4.11 Programmes delivered under CHARM-EU University Alliance are out of scope of this policy.

5. Principles

5.1 The approval of proposals concerning the design and delivery of new programmes, programme strands, undergraduate subjects, micro-credentials, and standalone modules for credit is based on a rigorous assessment of each proposal in terms of its rationale, academic merits, market research, and financial implications.

5.2 Curriculum design and approval processes are appropriate, collaborative, coherent, and rigorous.

6. Definitions

Definitions of relevant terminology are available from the Curriculum Glossary.

7. Policy

7.1 General

7.1.1 Trinity supports the incorporation of inclusive teaching and learning practices into curriculum design.

7.1.2 Trinity requires that proposals for all new and revised programmes, programme strands, undergraduate subjects, micro-credentials, and modules adhere to curriculum design considerations and utilise the appropriate templates available from Academic Affairs, Trinity Teaching and Learning (TT&L). Guidelines,
resources, and supports are provided to Schools by a number of areas including Academic Affairs, Academic Practice, the Trinity Careers Service, and the Trinity Inclusive Curriculum Project.

7.1.3 A review of the delivery of programmes/programme strands/undergraduate subjects/micro-credentials and modules should take place each academic year, with student feedback and external examiner input taken into consideration to ensure that the curriculum is up-to-date and inclusive, offers a range of learning experiences to support achievement of the learning outcomes, and meets students’ needs.

7.1.4 Changes to programmes/programme strands/undergraduate subjects, micro-credentials, and modules may arise following periodic Quality Reviews or Professional Body Reviews, or in response to changes in legislation or European Directives that impact on specific disciplines.

7.1.5 Changes to programmes/programme strands/undergraduate subjects, micro-credentials, and modules will be implemented as set-out in Appendix I: ‘Oversight of Programme and Curriculum Changes’.

7.2 Programme/Programme Strand/Subject and Micro-credential Design and Approval

7.2.1 Trinity requires that new programmes, programme strands, undergraduate subjects, and micro-credentials align with the strategic plans of the University and the Schools (s) in which they are to be delivered; follow the general regulations and requirements of the University; statutory requirements, and any professional and statutory body accreditation requirements that may apply.

7.2.2 The design process is a consultative process informed by the perspectives of academic staff, professional staff, students, external experts, and other stakeholders, as appropriate.

7.2.3 The lead-in time for the completion of the design and approval process will give due regard to the requirement for internal and external consultation and review, the schedules for academic committee meetings, internal marketing and student recruitment deadlines, and deadlines set by external bodies e.g. Central Admissions Office (CAO) and collaborative partners for marketing and recruitment purposes.

7.2.4 Programmes/programme strands/undergraduate subjects/micro-credentials follow the approval process set down by Trinity and are endorsed by the Head of School(s), Faculty Dean(s)/Faculty Executive(s), School Executive Committee (s), Undergraduate Studies Committee (including relevant sub-committees as appropriate), and/or the Graduate Studies Committee (including relevant sub-committees as appropriate) prior to approval by the University Council.

7.2.5 Prior to submission for approval by the University Council, all new undergraduate
and postgraduate programme proposals, undergraduate programme strands, and subject proposals are sent for external review; postgraduate programme strand proposals are sent for external review at the discretion of the Dean of Graduate Studies.

7.2.6 Programmes to be delivered jointly with collaborative partners are subject to the same robust design and approval process as those to be delivered wholly by Trinity. Where such programmes are to lead to dual or joint awards, the provisions for the design and approval of programmes in this policy should be read in conjunction with the Dual and Joint Awards Policy, and the Partnership Framework Agreement, if one has been agreed.

7.2.7 Advertising will not take place prior to the approval by the University Council.

7.2.8 Specific Undergraduate Considerations.

7.2.9 Specific Postgraduate Considerations.

7.2.10 Specific Micro-credential Considerations (see section 7.2.10 in Postgraduate Considerations)

7.3 Module Design and Approval

7.3.1 Stand-Alone Modules\(^2\) (for credit) for External Applicants\(^3\)

New undergraduate/postgraduate stand-alone module (for credit) proposals\(^4\) for external applicants are submitted to the Undergraduate Studies Committee (USC), and the Graduate Studies Committee (GSC) for approval, as appropriate. The Dean of Undergraduate Studies/Senior Lecturer and the Dean of Graduate Studies have discretion as to whether the stand-alone module should be sent for external review.

7.3.2 Undergraduate module (including stand-alone module) design and approval is discussed further in section 7.3.2 of Undergraduate Considerations.

7.3.3 Postgraduate module (including stand-alone module) design and approval is discussed further in section 7.3.3 of Postgraduate Considerations.

7.4 Validated Programmes/Strands

7.4.1 Trinity requires that new programme proposals submitted for approval and validation by Trinity align with any professional and statutory accreditation requirements that may apply.

7.4.2 Trinity requires that proposals for new validated programmes adhere to Guidelines for Proposals for New Undergraduate / Postgraduate Programmes.

---

\(^2\) A Standalone Module for Credit is a module offered with a defined academic credit value which may be taken on its own or within a programme of study (e.g., UG Trinity Elective). Normally these have no pre- or co- requisite modules.

\(^3\) In certain situations, Ph.D. students may enrol on stand-alone postgraduate modules designed for external applicants.\(^4\) Postgraduate stand-alone modules are not typically offered to external applicants.\(^4\) Postgraduate stand-alone modules are not typically offered to external applicants.
7.4.3 The lead-in time for the completion of the validation process will give due regard to the requirement for internal and external consultation and review, the schedules for the Associated Colleges Degrees Committees (ACDC), academic committee meetings, deadlines set by external bodies e.g., Central Admissions Office (CAO) and the partner institution’s marketing and recruitment timetable.

7.4.4 Programmes submitted for validation follow the approval process of the institution concerned and are considered by the related Trinity School(s), by the relevant ACDC, and recommended to the USC or GSC, as appropriate, prior to approval by the University Council.

7.4.5 Prior to submission for approval by the University Council, all new undergraduate and postgraduate programme proposals are required to be sent for external review.

7.4.6 Where a new strand is being added to an existing undergraduate programme, the approval process for new undergraduate programmes is followed and the proposal is normally sent for external review.

7.4.7 Where a strand is being added to an existing postgraduate programme and where more than 30 ECTS of the taught modules are new, the strand is normally sent for external review. The Dean of Graduate Studies has discretion as to whether a new strand should be sent for external review.

7.4.8 Changes to programmes/strands/subjects, and modules will be implemented as set-out in Appendix I: ‘Oversight of Programme and Curriculum Changes’.

7.4.9 Programmes will not be advertised prior to their approval by University Council.

8. Responsibility

8.1 The responsibility for this policy lies with the Senior Lecture/Dean of Undergraduate Studies, the Dean of Graduate Studies, and the Registrar, as appropriate.

Notes:
- Programme Directors/module coordinators will ensure that approved changes are communicated to AR and that SITS is updated accordingly. Changes will also be notified to the UCAO, the CTU, and the Micro-credentials Programme Office where appropriate.
- All changes will be reflected in programme handbooks, School websites, and College prospectuses.
Programme and Curriculum Design and Approval Policy

7.2.8 Undergraduate Considerations

7.2.8.1 Trinity requires that proposals for the design and approval of new undergraduate programmes, strands, and subjects, and significantly revised programmes, adhere to the Guidelines for Proposals for New Undergraduate Programmes.

7.2.8.2 Proposals for new degree programmes are required to adhere to the Curriculum Principles and to align to one of the approved programme architectures and, where specified for a particular architecture, provide different pathway opportunities and curriculum space for breadth.

7.2.8.3 In designing new or reconfiguring existing programmes and subjects, modules must be compliant with the undergraduate module size regulations.

7.2.8.4 Existing programmes, strands, and subjects, which are significantly re-configured will follow the approval process outlined in Appendix I: ‘Oversight of Programme and Curriculum Changes’.

7.2.8.5 New undergraduate degree programmes are required to comply with the University’s progression and awards regulations.

7.2.8.6 Requirements for non-degree programmes, that is, those leading to undergraduate certificates or diplomas, should be discussed with Academic Affairs.

7.2.8.7 New undergraduate strands follow the approval process for new undergraduate programmes and are normally sent for external review.

7.3.2 Trinity Electives, Open Modules, and Modules of Existing Programmes

Trinity Electives

7.3.2.1 Proposals for new Trinity Elective modules are submitted to the Trinity Elective Sub-Committee (TESC) for review and recommendation to USC for approval.

7.3.2.2 Trinity Elective proposals which have gained the support of the Undergraduate Studies Committee are appended to the relevant set of meeting minutes for noting and final approval by the University Council.

7.3.2.3 Proposed changes to Trinity Electives will follow the approval process presented in Appendix I: ‘Oversight of Programme and Curriculum Changes’.

Open Modules

7.3.2.4 Proposals for Bespoke Open Modules are submitted to the Undergraduate Common Architecture Governance Committee (UCAGC) for review and recommendation to USC for approval.
7.3.2.5 New modules offered as standard Open Modules and Designated Open Modules are approved by the course/curriculum committee of the programmes to which they belong.

7.3.2.6 Proposed changes to Open Modules will follow the approval process presented in Appendix I: ‘Oversight of Programme and Curriculum Changes’.

Modules for Existing Programmes (Undergraduate)

7.3.2.7 New and revised modules should be developed in the context of the programme(s) to which they belong. They should contribute to the overall aims of the programme and their learning outcomes should map to the overarching programme learning outcomes.

7.3.2.8 Proposed changes to modules of existing programmes will follow the approval process presented in Appendix I: ‘Oversight of Programme and Curriculum Changes’. Significant changes to an existing module will not be implemented without reference to the overall programme learning outcomes of the programme to which it belongs.

7.3.2.9 The module descriptor template will be used for the creation of new modules and the module(s) should map to the overall programme learning outcomes using the mapping tool.

7.3.2.10 Schools involved in programmes, as partners or through the provision of service teaching modules or by otherwise sharing modules, will have due regard to any existing agreements they have in place with other Schools or institutions in relation to delivering specific module content and enabling approved learning outcomes.

7.3.2.11 Where a module is shared with other programmes, planned module changes should be communicated to those responsible for those programmes and should be discussed at the relevant designated course/curriculum committee to ensure continued fit.

7.3.2.12 Where there are staffing, space or other resource implications, new modules should also be discussed and approved by the School Executive Committee of the owning school.

7.3.2.13 The above process does not apply to the sharing of undergraduate modules via the Open Module mechanism. Further information on standard Open Modules is available here: https://www.tcd.ie/tjh/open-modules/.
Programme and Curriculum Design and Approval Policy

7.2.9 Postgraduate Considerations

7.2.9.1 Trinity requires that proposals for the design and approval of new postgraduate programmes adhere to the Guidelines for a new Postgraduate Programme Proposal.

7.2.9.2 In designing new or reconfiguring existing programmes, the credit volume at the taught module level is normally 5 or 10 ECTS whereas the research component module, where present, comprises 30 credits.

7.2.9.3 1 ECTS is equivalent to 25 student effort hours. Module credit volume is expressed in ECTS values.

7.2.9.4 Normally, postgraduate certificate courses comprise 30 ECTS, Postgraduate Diploma courses comprise 60 ECTS, and a Masters course comprises 90 ECTS.

7.2.9.5 New postgraduate degree programmes shall comply with the University’s progression and awards regulations.

7.2.9.6 Postgraduate taught courses such as Postgraduate Diplomas and Masters lead to National Framework of Qualifications (NFQ) level 9 Major awards whereas Postgraduate Certificates lead to NFQ level 9 non-major awards, such as Minor or Special Purpose Awards.

7.2.9.7 Existing programmes and strands which are significantly re-configured will follow the approval process outlined in Appendix I: ‘Oversight of Programme and Curriculum Changes’.

7.2.9.8 Where a new postgraduate programme replaces an existing one causing its closure, that cessation is stated in the new programme proposal.

7.2.9.9 New taught Master strands normally comprise 60 ECTS credits of taught modules, share 30 ECTS credits of the research module already present in the existing ‘parent’ programme, and follow the approval process for a new postgraduate programme.

7.2.9.10 Where a strand is added to the existing programme and where more than 30 ECTS of the taught modules are new, the strand is normally sent for external review. The Dean of Graduate Studies has discretion as to whether a new strand should be sent for external review.

7.2.10 Micro-credentials

7.2.10.1 Micro-credentials comprise a 5 ECTS or 10 ECTS credit volume.
7.2.10.2 New micro-credentials are submitted to the Micro-credentials Sub-committee (MCSC) for review and approval, and once approved are recommended to GSC for approval.

7.2.10.3 The design of micro-credentials has a focus on innovative pedagogy, promotes flexible learning, has clear links to enterprise and sectoral needs, and comprises real-world assessments.

7.2.10.4 Proposed changes to micro-credentials follow the approval process presented in Appendix I: ‘Oversight of Programme and Curriculum Changes’.

7.2.10.5 The micro-credential proposal template is used for the creation of new micro-credentials.

7.3.3 Postgraduate Taught Modules and Structured PhD Modules

Postgraduate Taught Modules

7.3.3.1 Proposed new/changes to postgraduate taught modules follow the approval process presented in Appendix I: ‘Oversight of Programme and Curriculum Changes’.

7.3.3.2 The module descriptor template will be used for the creation of new modules and the module(s) will map to the overall programme learning outcomes using the mapping tool.

Structured Ph.D. Modules Refer to the five categories of credit-bearing modules.

7.3.3.3 Modules delivered as part of an existing approved taught postgraduate programme do not require further approval to be used as Structured Ph.D. modules.

7.3.3.4 Proposed changes to modules follow the approval process presented in Appendix I: ‘Oversight of Programme and Curriculum Changes’.

The following are endorsed by GSC and approved by University Council.

7.3.3.5 All new credit-bearing Structured Ph.D. modules.

7.3.3.6 Category 2 modules (research skills) offered locally to student groups in a School or discipline, whether new or existing.

7.3.3.7 Category 3 Bespoke modules tailored specifically to an individual student’s needs, whether new or existing. Bespoke generic modules called ‘PGR External’ can be set up by a School to be used for postgraduate research students to enable the assigning of credit for work completed outside the University (not normally an internship).
7.3.3.8 Category 4 modules that are not owned by a Trinity School (e.g., offered by Academic Practice, the Trinity Careers Service, Library, or Tangent) are coded to the Office of the Dean of Graduate Studies.

7.3.3.9 Category 5 modules offered by an external body or other Higher Education Institution in collaboration with a School or discipline in Trinity.
