Coláiste na Tríonóide Baile Átha Cliath agus an Ghaeilge

Oifigeach na Gaeilge agus Coiste na Gaeilge

Tá Coláiste na Tríonóide Baile Átha Cliath tiomanta do chur chun cinn na Gaeilge i ngach réimse de shaol na hOllscoile. Léirítear an tiomantas seo trí obair Choiste na Gaeilge, fochoiste den Choiste Riosca agus Comhlíontachta, agus trí fhostú Oifigeach Gaeilge agus Oifigeach Cúnta Gaeilge lánaimseartha. Oibríonn Oifig na Gaeilge i gcomhar leis an gCumann Gaelach, le hAontas na Mac Léinn agus le Roinn na Gaeilge agus na dTeangacha Ceilteacha chun a cuid aidhmeanna a chur i gcrích.

Acht na dTeangacha Oifigiúla agus na Scéimeanna Teanga

Leagann Acht na dTeangacha Oifigiúla 2003 agus Acht na dTeangacha Oifigiúla (Leasú) 2021 dualgais ar leith ar an Ollscoil lena n-áirítear dualgais maidir le comharthaíocht, stáiseanóireacht, foilseacháin áirithe, fógraí taifeadta béil, cumarsáid, earcaíocht, fógraíocht, foirmeacha oifigiúla, lógónna, srl. Ina theannta sin, tá gealltanais tugtha ag an Ollscoil sna Scéimeanna Teanga atá foilsithe go dtí seo go gcuirfear lena réimse seirbhísí dátheangacha trí ghníomhaíochtaí éagsúla.

Scéimeanna Cónaithe

Tá dhá scéim cónaithe Gaeilge san Ollscoil ina gcuirtear cóiríocht ar fáil do mhic léinn. Tá scéim amháin lonnaithe ar an gcampas agus tá an scéim eile (do mhic léinn na chéad bhliana agus na dara bliana amháin) lonnaithe i Halla na Tríonóide, Dartraí, Baile Átha Cliath 6. Cuireann baill na scéimeanna cónaithe an Ghaeilge chun cinn san Ollscoil trí ghníomhaíochtaí agus imeachtaí éagsúla a reáchtáil i rith na bliana.

Ranganna Gaeilge

Cuireann Coláiste na Tríonóide ranganna Gaeilge saor in aisce ar fáil do bhaill foirne agus do mhic léinn araon le linn na bliana acadúla. Fógraítear na ranganna seo ag tús na dtearmaí acadúla. Tacaítear chomh maith le baill foirne agus le mic léinn tabhairt faoi scrúduithe TEG (Teastas Eorpach na Gaeilge).

Éigse na Tríonóide agus Imeachtaí Gaeilge

Buaicphointe na bliana is ea Éigse na Tríonóide, féile seachtaine ina gcuirtear ócáidí cultúrtha agus sóisialta ar siúl do phobal na hOllscoile agus na cathrach lena n-áirítear imeachtaí ceoil, filíochta, díospóireachtaí, ceardlanna, srl. Eagraítear imeachtaí Gaeilge eile i gcaitheamh na bliana chomh maith.

Seomra na Gaeilge

Is spás ar leith i gcroílár an champais é Seomra na Gaeilge do mhic léinn, baill foirne agus an pobal i gcoitinne chun an teanga a labhairt, a chleachtadh agus a chur chun cinn. Bíonn sé ar oscailt do mhic léinn agus do bhaill foirne ó Luan go hAoine, agus reáchtáiltear cruinnithe agus imeachtaí Gaeilge nó imeachtaí dátheangacha ann chomh maith.

Professors, Associate Professors, Assistant Professors, Clinical and other Officers

Staff are shown under faculty and school headings. Functional titles and group descriptions are shown e.g. 'DIRECTOR OF ...'. Individual academic ranks are shown in the form *'Professor ...'* and are in order of appointment to the rank; this type is also used for individual appointments within group headings. It has not been possible, however, to achieve total consistency due to the complexity of the institutional relationships.

The academic titles – of Professor, Associate Professor, and Assistant Professor – used throughout this Calendar are those provided for in the Schedule on Titles to the Chapter on Academic Staff in the Consolidated Statutes of Trinity College Dublin and of the University of Dublin, 2010. The use of these titles in this Calendar does not, however, preclude members of the academic staff from using the Statutory academic titles – of Professor, Associate Professor, Senior Lecturer, and Lecturer – in their day-to-day work.

The dates given after the titles of certain offices are those when the posts, or posts with which they are continuous, were founded. For further details the *Trinity College Dublin Record volume 1991* may be consulted. Where not otherwise indicated, the degrees stated have been conferred by the University of Dublin. The names of persons not on the ordinary full-time staff e.g. appointments for terms of years are marked with a '†' (other than Research Fellows and Visiting Research Fellows). The names of part-time members of the staff are marked with an asterisk.

For Assistant Professors, the original date of appointment to a full-time post (academic or equivalent grade) is indicated under the column 'Appointed': this information does not indicate whether the holder is, or is not, still subject to the normal review procedures relating to confirmation in appointment. Dates are shown for part-time appointments involving periods in excess of one academic year: no dates are shown where appointment is made annually.

CENTRE FOR RESEARCH ON ADAPTIVE NANOSTRUCTURES AND NANODEVICES (CRANN)

The Centre for Research on Adaptive Nanostructures and Nanodevices (CRANN) comprises a team of three hundred researchers from over forty-five different countries, led by eighteen principal investigators and seventeen investigators, each of whom is an internationally recognised expert in his/her field of research. CRANN principal investigators are based across multiple disciplines including physics, chemistry, medicine, biochemistry and immunology, engineering and pharmacy. CRANN works at the frontiers of nanoscience developing new knowledge of nanoscale chemical and physical phenomena, with a particular focus on new device and sensor technologies for the ICT, biotechnology and medical sectors.

CRANN has two state-of-the-art buildings both custom designed and constructed for the purpose of leading edge nanoscience research. The Naughton Institute is a 6000m^2 research facility on the campus of TCD. The CRANN Advanced Microscopy Laboratory (AML) was completed in 2009. This facility on Pearse Street houses Ireland's most advanced microscopy instrumentation, enabling Ireland to compete internationally in this capability.

Through the Taighde Éireann – Research Ireland (formerly Science Foundation Ireland) funded Centre for Science, Engineering and Technology (CSET), CRANN had a specific remit to work with industry. This lead to CRANN leading the €120 million AMBER (Advanced Materials and BioEngineering Research) centre award, where TCD, UCC, RCSI, DCU, UL, TUS, Tyndall, UCD, TU Dublin and NUIG researchers partner with industry to collaboratively address materials related research programs. This award is Research Ireland funded, based on industry direct cash and in-kind contribution. CRANN has been very successful in obtaining non-Exchequer funding (e.g. European Union Frameworks, H2020, ERC's) that enabled the establishment of an extensive academic partnership network involving over a hundred European universities and one hundred and sixty universities globally.

CRANN has been funded predominately by Taighde Éireann – Research Ireland (formerly Science Foundation Ireland) and has also obtained competitive funding from the Higher Education Authority, Enterprise Ireland, industry, the EU Commission, and philanthropic sources, notably Dr Martin Naughton. THE TRINITY LONG ROOM HUB

The Trinity Long Room Hub (TLRH) is the research institute for the arts and humanities at Trinity College Dublin. Founded in 2006, the TLRH is comprised of a community of researchers drawn from the university's nine arts and humanities schools as well as the Trinity College Library. It is dedicated to supporting research excellence and advancing interdisciplinary research in the arts and humanities. It is also committed to promoting the importance of this research for society and raising the profile of Trinity's arts and humanities internationally. It organises the work of the institute around a number of key research themes and supports the

delivery of research on major questions facing society through a variety of means such as international visiting research fellowships, competitive research funding, hosting over 200 research related events and activities a year, and supporting forty-four of its partnering schools research students and postdoctoral fellows each year. TRINITY BIOMEDICAL SCIENCES INSTITUTE (TBSI)

The Trinity Biomedical Sciences Institute (TBSI) is the largest research institute in Trinity and is one of the premier biomedical research institutes in Ireland. TBSI currently accommodates seventy principal investigators (PIs), over one hundred postdoctoral fellows, and over two hundred postgraduate researchers from five schools, the School of Biochemistry and Immunology, the School of Chemistry, the School of Medicine, the School of Engineering (Bioengineering) and the School of Pharmacy and Pharmaceutical Sciences.

TBSI is recognised internationally as a leading centre for ground breaking research discoveries on the fundamental mechanisms of human diseases, leading to new treatment approaches for these diseases. TBSI researchers collaborate extensively with researchers in other institutions throughout the world. The original vision put forward for TBSI when founded in 2012 was for a biomedical research institute focused on three areas: immunology, cancer and medical device technology. These focus areas have facilitated cross-disciplinary research leading to scientific discoveries of biomedical importance, ultimately giving rise to better patient care. TBSI is an innovative and interdisciplinary institute, where PIs and their teams are driving world class translational research on the mechanistic basis for a range of diseases, including infectious and inflammatory diseases, such as arthritis, asthma/allergy and type 2 diabetes, neurological diseases, such as motor neurone disease and multiple sclerosis, and different forms of cancer. There have been several innovative advances in tissue engineering for corneal replacement, bone and joint replacement, and treatment of different forms of cancer.

To facilitate research excellence, the institute has established a wide range of core technologies of the highest standard, including flow cytometry, confocal microscopy, transgenics, nuclear magnetic resonance spectrometry (NMR), biological transmission electron microscopy (TEM) and x-ray crystallography. A category 3 facility is available for research into hazardous biological agents such as HIV and hepatitis C. TBSI also houses significant biomedical teaching facilities, including lecture theatres, seminar rooms and teaching laboratories. Over 1,100 undergraduate students attend classes in TBSI each year, including Senior Sophister students of biochemistry and immunology and preclinical students of medicine. Over ninety students undertake M.Sc. courses, including bioengineering and immunology.

The institute also supports several spin out companies and has a growing number of partnerships with pharmaceutical and medical device companies. TBSI researchers have raised about 20 per cent of all of the research funding in TCD in the last five years (€16.5m total grant income for the 2017/18 academic year) and significantly more ERC and SFI investigator-led research grants than any similar sized cohort of biomedical scientists in Ireland. In 2018, four TBSI PIs were named as Clarivate highly cited researchers. TBSI PIs and their research teams have produced over 1,000 peer reviewed publications over the past five years with national, international and industrial collaborators. TBSI aims to continue to foster a spirit of interaction, exploration and collaboration on the frontiers of biomedical research, such that truly ground-breaking discoveries can be made. TRINITY COLLEGE INSTITUTE OF NEUROSCIENCE (TCIN)

The Trinity College Institute of Neuroscience (TCIN) is a Trinity research institute with about sixty Principal Investigators (PIs) and 250 researchers from a wide range of disciplines including psychology, psychiatry, physiology, pharmacology, medicine, biochemistry, engineering, computer science, and genetics, among others. These diverse disciplinary origins contribute to its core activities: promoting and supporting interdisciplinary basic and translational research, as well as teaching, public engagement, and national leadership in neuroscience.

The administrative and scientific hub of TCIN is based in the Lloyd Building on the Trinity College campus. The Lloyd Building houses several TCIN-managed advanced research technologies, including two high-field human and small animal magnetic resonance imaging (MRI) systems. TCIN PIs use and maintain preclinical cell and animal models, as well as molecular, cell biological, biochemical, behavioral, physiological and genetic technologies to study both humans and model organisms.

The institute provides a gateway for internal and external connectivity between basic and applied neuroscience. TCIN facilitates access to advanced research and diagnostic technologies as well as to patient populations, biosamples, and genotyping required for translational neuroscience, which prominently and deeply involves clinical PIs based in St James's, St Patrick's and Tallaght hospitals. St James's additionally houses CAMI, a clinical neuroimaging facility as well as the Wellcome Trust/Health Research Board clinical research facility for clinical trials.

TCIN houses strong research programmes funded by Taighde Éireann – Research Ireland (formerly Science Foundation Ireland), the Wellcome Trust, the Health Research Board, the European Research Commission/Horizon 2020 framework programmes, as well as multiple philantropic and industrial sponsors. In 2016, Trinity College Dublin launched the Global Brain Health Institute (GBHI), a major collaboration between Trinity College Dublin and the University of California San Francisco led in Ireland by TCIN PIs Brian Lawlor and Ian Robertson. This highly collaborative, training and research programme, created through a $170 million investment from Atlantic Philanthropies, aims to prevent and improve management of global dementia. It has the recruitment of outstanding new PIs, as well as increased focus on the cognitive ageing.

TCIN PIs teach an interdisciplinary undergraduate programme leading to a B.A. (Mod.) in Neuroscience, as well as having a leading role in the popular M.Sc. in Neuroscience (the only one in Ireland). New infrastructure developments planned in neuroscience include the installation of an accelerated computing resource with secure storage to address major neuroscience research areas using machine learning/artificial intelligence, and the installation of an Optically Pumped Magnetometers-Magnetoencephalography (OPM-MEG) system, both expected to be installed in 2025.

The institute supports and connects strengths in different disciplinary strands, to create new and impactful actions in all areas related to national and international neuroscience.

TRINITY TRANSLATIONAL MEDICINE INSTITUTE (TTMI)

The main physical presence of the Trinity Translational Medicine Institute (TTMI) is located within the St James's Hospital campus in Dublin 8. St James's Hospital is the largest acute

general hospital in Ireland. TTMI's remit extends across St James's, Tallaght University Hospital, Children's Health Ireland, and The Coombe Hospital, creating the new Trinity Translational Development Pathway, based on international best practice. The location of TTMI within the acute hospital setting, enhances the study of a broad spectrum of disease states underpinned by collaborations with fundamental, translational, and clinical research practitioners and biobank/patient accessibility. The close proximity of the Wellcome Trust – HRB Clinical Research Facility enables the expedient translation of clinical research breakthroughs into opportunities for regulated clinical trials.

The substantive co-operative institute currently houses approximately fifty principal investigators (PIs) and 160 research scientists working under research themes that include infection and immunity, cancer, genomics of disease and nanomedicine. The research is supported by a range of key enabling technologies that include high content analysis, flow cytometry, single cell sequencing, next generation sequencing, and microscopy facilities (including confocal, atomic force microscopes). PIs are funded by multiple funding bodies and charities including Taighde Éireann – Research Ireland (formerly Science Foundation Ireland), Health Research Board, Irish Research Council, Enterprise Ireland, European Union, Irish Cancer Society, Breakthrough Cancer Research, and the Royal City of Dublin Hospital Trust.

ADAPT CENTRE FOR DIGITAL CONTENT TECHNOLOGY

The ADAPT Centre for Digital Content Technology is a Taighde Éireann – Research Ireland (formerly Science Foundation Ireland) funded research centre that pioneers new forms of proactive, scalable, and integrated AI-driven digital media technology that empower individuals and society to engage in digital experiences with control, inclusion, and accountability. ADAPT investigates new human centric artifical intelligence techniques and technologies including personalisation, natural language processing, data analytics, intelligent machine translation, human-computer interaction, as well as setting standards for data governance, privacy, and ethics for digital content. ADAPT's breakthrough technologies and research applications in media interaction, digital humanities, health, data governance, and fintech are being applied across multiple industry domains. ADAPT has an interdisciplinary ethos incorporating leading experts from the complementary fields of computer science, electronic engeering, social sciences, communications, commerce/fintech, ethics, law, health, environment, and sustainability.

ADAPT is led out of Trinity College Dublin and combines the world-class expertise of researchers at Dublin City University (DCU), University College Dublin (UCD), Technological University Dublin (TU Dublin), Technological University of the Shannon (TUS), Munster Technological University (MTU), Maynooth University (MU) and University of Galway (UG).

ADVANCED MATERIALS AND BIOENGINEERING RESEARCH (AMBER)

AMBER is a Taighde Éireann – Research Ireland (formerly Science Foundation Ireland) funded centre that provides a partnership between leading researchers in material science and industry. Materials science has been described as the science of stuff! The centre pioneers research into new materials that will transform everyday products of the future, from mobile phones to knee implants, batteries to beer bottles. A particular focus of the centre is developing new and more

sustainable materials to meet our climate and environmental goals. AMBER brings together Ireland's leading material science researchers working across the disciplines of Physics, Chemistry, Bioengineering and Medicine; with an international network of collaborators and companies.

The clustering of material science research expertise, state of the art infrastructure, and a team of professional support staff has enhanced Ireland's international reputation in materials science research and driven increased investment from industry. Ireland's international ranking in the area of materials science has been around eighth in the world for the past decade (Thomas Reuters ranking based on publications and citations), and many of the AMBER researchers are ranked amongst the world's best in the field.

AMBER is jointly hosted in Trinity College Dublin by CRANN and the Trinity Centre for Biomedical Engineering, in collaboration with University College Cork, Royal College of Surgeons in Ireland, Dublin City University, University of Limerick, the Tyndall National Institute, the Technical University of the Shannon, Technical University of Dublin, and NUI Galway.

CENTRE FOR ECONOMICS, POLICY AND HISTORY (CEPH)

Founded in 2022, the Centre for Economics, Policy and History (CEPH) combines Trinity College Dublin and Queen's University Belfast, two institutions with existing clusters of research excellence in economics, policy and history on the island of Ireland. CEPH is the all-Ireland centre of excellence in economics, history and policy, and is a strand II project funded under the North South Research Programme (NSRP). The NSRP is a collaborative scheme funded through the government's Shared Island Fund. It is being administered by the Higher Education Authority (HEA) on behalf of the Department of Further and Higher Education, Research, Innovation and Science.The centre helps both universities increase their capacity and enables them to lead the development of policy-relevant historical research.

The centre has three pillars:

- frontier research: researchers at the centre use historical events to understand the historical drivers of contemporary economic trends and institutions on the island and across the globe;
- capacity building: the digitisation, collection and analysis of historical data provides vital services to other disciplines, and trains new generations of researchers in a multidisciplinary setting; and
- policy and dissemination: drawing on a rich historical record, the centre offers crucial context to modern-day decision makers in government, business, and non-governmental organisations.

Understanding the deep historical roots of major challenges like global inequalities and climate change can help policymakers to address their consequences. Taking history seriously significantly enriches the study of economics and helps to deliver policy outputs relevant to meeting the United Nations sustainable development goals. The centre also provides training to new generations of economic historians, from offering internship opportunities for undergraduate students, to doctoral training and postdoctoral experience for early career researchers, to a series of outreach activities in secondary schools for pupils across the island.

INSTITUTE OF POPULATION HEALTH

The Institute of Population Health (IPH) was opened in August 2016, based at the Russell Centre, Tallaght Cross in Dublin 24. It is a joint initiative of the Schools of Medicine and Nursing

and Midwifery. Among the priority actions will be to provide an academic backdrop to the primary care centre and general practitioners who share the premises with the IPH. Focus will be on prevention and chronic disease prevention and management. A range of new postgraduate courses will be run from the IPH. Public health advocacy will also be a priority, together with major interaction with the community in Tallaght.

LEARNOVATE CENTRE

Learnovate is one of Europe's leading research and innovation centres in learning technologies. An industry-led technology centre funded by Enterprise Ireland and hosted by Trinity College Dublin, Learnovate connects world-class academic research with entrepreneurs at the leading edge of the global learning technologies sector. Learnovate research fuses expertise in technology, the learning sciences, product design, user experience and strategic innovation to drive commercial success for our industry partners.

The aim of Learnovate is to maximise the growth potential of individual companies working in the EdTech and e-learning sector and enhance Ireland's competitiveness as a global leader for learning technology innovation. Learnovate's industry-led collaborative research programme develops and exploits breakthrough learning technologies for the collective benefit of Ireland's learning technologies sector. Member companies actively set the research agenda and receive preferential licensing opportunities for intellectual property arising from core research programmes.

Learnovate offers strategic research and innovation services to individual companies that develop learning technologies; and companies that acquire and use learning technologies. The centre's expertise and experience encompasses a wide range of learning contexts including corporate learning, higher-ed learning, school learning, and non-formal learning. Learnovate helps identify, secure and maximise the value of funding for member companies through innovation vouchers and innovation partnerships with Enterprise Ireland.

CONNECT

CONNECT, formerly known as CTVR, is Ireland's Future Network and Communications research centre. Funded by Taighde Éireann – Research Ireland (formerly Science Foundation Ireland), it is headquartered in Trinity College Dublin and brings together eleven other academic institutions (Maynooth University, University of Limerick, Technological University Dublin, University College Cork, Dublin City University, University College Dublin, Tyndall National Institute, Munster Technological University, the Walton Institute at South East Technological University, the National College for Art and Design, and the Institute for Arts, Design and Technology Dún Laoghaire. CONNECT is also partnered with over fifty companies ranging from large ICT multi-nationals to smaller and emerging indigenous companies, and with five local authorities.

CONNECT's mission is to research, develop and innovate new communication solutions to address many of the challenges facing society. At the core of the CONNECT research vision is the idea that the network will be performed into existence in response to service needs. CONNECT focuses on service-aware networks, network-aware services, responsive things and integration.

TRINITY ACADEMIC GASTROENTEROLOGY GROUP RESEARCH CENTRE (TAGG)

The Trinity Academic Gastroenterology Group (TAGG) is an active translational research and clinical team working collaboratively at Tallaght Hospital, St James's Hospital Dublin, Naas General Hospital, and Trinity College Dublin. TAGG's research facilities are based in the Trinity Centre, Tallaght Hospital, including dry and wet labs and administrative support. TAGG is affiliated with Trinity Health Ireland (THI). Our vision is of excellence and innovation in service delivery and research in all fields of gastroenterology. The team is multi-disciplinary comprising gastroenterologists, surgeons, medical physicists, nutritionists, nurses, engineers, scientists and allied health professionals. The mission of the centre is to foster emerging clinical and academic talent through M.D. and Ph.D. positions to ensure a continued academic gastroenterology programme at TAGG and TCD into the future. Major research themes within the centre include *Helicobacter pylori* infection, small bowel diseases and capsule endoscopy. Principal investigators (PIs) lead a number of active projects within these major themes, collaborating with national and international colleagues across Europe, North America, Canada and Ireland as well as with small and medium sized enterprises (SMEs) and industry partners.

TRINITY ENGAGE – CENTRE FOR RESEARCH IN AGEING

Through strategic investment over the last decade, Trinity has developed a strong research capacity in ageing. Over one hundred and ten Trinity researchers are engaged in ageing-related research spanning fields of biology, public health, medicine, informatics, macroeconomics, finance, urban planning, engineering, technologies, globalisation and migration, the law, sociology, business and philosophy. The centre will create a unique hub of ageing-related research that will shape policies and programmes and foster multi-disciplinary collaborations, transforming Trinity from being world class to world leading in this field.

TRINITY CENTRE FOR AGEING AND INTELLECTUAL DISABILITY (TCAID)

TCAID addresses the inequalities and health disparities that occur for people with intellectual disability as they age. It achieves this through rigorous engaged research on the physical and social determinants of health and wellbeing, and through translating its findings to provide evaluative data on current policy initiatives and to inform future policy and practice. TCAID is underpinned by the Intellectual Disability Supplement to TILDA study (IDS-TILDA), which is internationally recognised as the first national longitudinal study on the ageing, health and wellbeing of older adults with an intellectual disability that parallels a study of the general population (TILDA). Translational efforts have resulted in the development and co-leading of the HSE-funded National Intellectual Disability Memory Service addressing prevention, assessment and post diagnostic supports for persons with intellectual disability and dementia, with additional supports for families and providers that replicates approaches being developed under the National Dementia Strategy. TCAID also leads Trinity PPI Ignite, part of a national network that is promoting and supporting meaningful partnerships between health researchers, patients and members of the public. An expanding portfolio of HRB, IRC, EU, HSE, NGO and NDA-funded and supported projects and international research linkages endorses TCAID as a premier

international research centre on intellectual disabilities and ageing. The continuing support of degree-based education, of PhD and masters students and of masterclasses for practitioners also means TCAID is an innovative and progressive teaching environment, contributing to the preparation of future practice leaders and to engagement with government, intellectual disability service providers, and people with intellectual disability and their families. TRINITY CENTRE FOR ASIAN STUDIES

The Trinity Centre for Asian Studies provides a structure for multidisciplinary education in Asian Studies and integrates the university's actions in developing Chinese, Korean and Japanese Studies as well as other regionally-based scholarship and pan-Asian research. Located in the School of Linguistic, Speech and Communication Sciences, the centre acts as a focal point for Asian Studies and creates cross-College opportunities for collaboration and outreach. Its teaching and research focus on contemporary society and culture, language learning, diaspora studies, and comparative studies including Asian-European studies. The centre's aim is to promote Asian Studies nationally and internationally, and in so doing, to be the leading knowledge centre in Ireland for policy-makers, business leaders and scholars in the field. The centre organises regular seminars and public lectures.

TRINITY CENTRE FOR BECKETT STUDIES

The Trinity Centre for Beckett Studies is based at the Trinity Long Room Hub. It was founded in 2017 to promote and co-ordinate research activity in Beckett studies amongst staff and postgraduate students at Trinity College Dublin. The centre builds upon both the Samuel Beckett Summer School – which began in 2011 as a joint venture between the School of English and the School of Creative Arts – and encompasses the activities of the Samuel Beckett Laboratory and the Beckett postgraduate reading group. The only research centre of its kind in Ireland, it places Trinity College at the forefront of academic research, artistic practice, and public engagement involving the works of one of its most famous alumni, helping the university capitalise upon the Library's significant holdings of Beckett manuscripts. The Library has the greatest collection of Beckett's correspondence, and its Beckett collection has been an area of significant investment by the Library over several years. The centre encourages interdisciplinary approaches to Beckett and is also involved in a number of international collaborations.

TRINITY CENTRE FOR BIBLICAL STUDIES

The Trinity Centre for Biblical Studies continues Trinity's interest and investment in biblical studies over the past four centuries by providing a focus for a range of research activities and projects in this discipline. In keeping with the growing breadth of biblical studies as a discipline and the range of expertise and interests at Trinity, the centre promotes research in a variety of areas, including the study of the Bible in its ancient contexts, and its later reception. The centre facilitates and disseminates research in these, and cognate, disciplines by drawing upon the

expertise of its staff, doctoral and post-doctoral researchers, and associates within and beyond Trinity.

TRINITY CENTRE FOR BIODIVERSITY AND SUSTAINABLE NATURE-BASED SOLUTIONS (NATURE+)

The Trinity Centre for Biodiversity and Sustainable Nature-based Solutions (formerly the Trinity Centre for Biodiversity Research) was launched in December 2008 by Sir David Attenborough. Nature+ is a virtual centre of multidisciplinary researchers head-quartered in the School of Natural Sciences, that make discoveries about the natural world and human interactions with nature, and develop solutions for quantifying and sustainably managing ecosystems. Human health and wellbeing depend on functional ecosystems, geosystems and atmospheric systems, and the services they provide. These are the world system's living and non-living components including air, soils, water, plants, microbes and animals. This natural system directly or indirectly facilitates economic activity, but is also impacted by it. The Nature+ group works across disciplines and multiple stakeholders including businesses, community groups and local authorities, to design future-proof solutions for sustainable ecosystems interacting with human systems that underpin health, wellbeing and economic activity. The centre finds new solutions to gain and manage sustainable relationships between humans and nature. The centre undertakes research into the discovery, valuation, sustainable use and renewal of natural systems and underlying ecosystem services and benefits. The centre investigates how natural, social, technological, built and financial resources combine to provide these benefits. The centre researches new tools and builds the knowledge base for sustainable resource use in the circular economy and bioeconomy.

TRINITY CENTRE FOR BIOMEDICAL ENGINEERING

The centre was established in May 2002 and has principal investigators drawn from the Schools of Engineering, Medicine, Dental Science and Natural Sciences in Trinity College, and from the Royal College of Surgeons in Ireland, Dublin City University, and University College Dublin. The aim of the centre is to facilitate the development of bioengineering research and to support interdisciplinary teaching initiatives in the field of biomedical engineering. The specific areas of research focus at present are: biomechanics and mechanobiology, tissue engineering and regenerative medicine, neural engineering, medical devices, and advanced drug delivery.

TRINITY CENTRE FOR THE BOOK

This centre grows out of the vibrant College research theme in manuscript, print and book cultures. It is the first research centre devoted to writing, reading and book use on the island of Ireland, and involves close collaboration with its main partners, the Trinity Long Room Hub arts and humanities research institute, and the Trinity College Library, which via the digitisation initiatives that are part of Trinity virtual library and the Old Library redevelopment, is consolidating its status as a beacon of international best practice in special collections management.

The centre combines a focus on historical questions around the origins and development of writing systems, literatures and literary cultures, with research on issues related to textuality in society like literacy, reading and wellbeing, and policy issues around maximising access to Ireland's written cultural heritage.

TRINITY CANCER RESEARCH CENTRE (TCRC)

Cancer has been identified as a priority research theme based on the quality of research that has been generated by Trinity academics. There are over one hundred and eighty researchers from the School of Medicine and other Schools and Institutes across the College actively working on cancer projects as part of a vibrant interdisciplinary research community. Research in cancer incorporates basic biomedical and biomolecular research based at the Trinity Biomedical Sciences Institute and the Institute of Molecular Medicine, along with clinical research based in the teaching and affiliated hospitals, including St. James's, Tallaght, Coombe Women and Infants University Hospital and Our Lady's Hospital for Sick Children, Crumlin. The centre is part of the Trinity St James's Cancer Institute [TSJCI], which is a member of the Organisation of European Cancer Institutes [OECI].

TRINITY INSTITUTE OF CARDIOVASCULAR SCIENCE

In June 2004, Trinity College established the Institute of Cardiovascular Science, a partnership between the College and its two main teaching hospitals: Tallaght Hospital and St James's Hospital. The aims of the institute are to increase the understanding of cardiovascular disease in order to improve and develop prevention, diagnostic, treatment and rehabilitation strategies. While the main focus of the institute is research; it is also engaged in the development and delivery of education and in co-ordinated service development. It offers an M.Sc. in Cardiology on the St James's campus.

TRINITY CENTRE FOR COMPUTING AND LANGUAGE STUDIES

The centre was founded in 1996 as a pastoral and administrative home for the interdisciplinary moderatorship (B.A.) course in computer science, linguistics and a language, and as a focus for research collaboration in related areas within College, nationally and internationally. The centre contributes to the organisation of the Dublin Computational Linguistics Research Seminar, which is the product of collaboration among Dublin City University, Technological University Dublin, University College Dublin and Trinity College Dublin.

TRINITY RESEARCH CENTRE FOR CULTURES, ACADEMIC VALUES AND EDUCATION (CAVE)

CAVE focuses its research, teaching and outreach activity on the study of higher education both in Ireland and internationally. The centre brings together staff with expertise in the areas of educational theory, philosophy of education, sociology, history and policy. It undertakes both funded and non-funded research that inquires into educational initiatives and processes in the field of higher education, using a broad range of methodological approaches, and contributes to the M.Ed. in Higher Education offered by the School of Education.

TRINITY CENTRE FOR DIGITAL BUSINESS AND ANALYTICS

The Trinity Centre for Digital Business and Analytics (CDBA) conducts research in all aspects of digital mediation and interactions between data, businesses and people. Its purpose is to showcase and galvanise in-house expertise, facilitate cross-disciplinary collaboration, create and disseminate relevant knowledge, and increase research funding opportunities through industry sources and possibly research grants applications. The research centre investigates how digital technologies are transforming key areas of business research such as business analytics (e.g. big data and AI), strategy (e.g. digital business models and digital transformation), consumer behaviour and marketing (e.g. digital advertising and omnichannel), business ethics (e.g. data privacy and security), finance (e.g. digital currency and fintech), human resources (e.g. HR analytics and management of millennials) and business research methods (e.g. PLS-SEM (Partial Least Squares Structural Equation Modelling)).

TRINITY CENTRE FOR DIGITAL HUMANITIES

The Trinity Centre for Digital Humanities, based in the Trinity Long Room Hub, brings together researchers and practitioners from many disciplinary backgrounds and College units to facilitate the novel investigation, analysis, synthesis, and presentation of information in electronic form. Although primarily focused on facilitating research at the intersection of technology, humanities and cultural materials, the centre also builds on past achievements to create new synergies and opportunities for collaboration and cross-disciplinary research, methodological innovation, and sharing of good practice across projects and approaches.

TRINITY CENTRE FOR EARLY MODERN HISTORY

The centre promotes understanding of the culture, society, economy, religion, politics and warfare of early modern Europe. The centre organises seminars, conferences and public lectures on the early modern history of Ireland, Britain and Continental Europe, as well as on relations between European and non-European states and cultures. Postdoctoral and postgraduate researchers undertake projects within a framework which promotes dialogue and exchange around shared interests in the early modern period. The centre also hosts externally-funded research projects, and contributes to the taught M.Phil. in Early Modern History offered by the Department of History.

Research Institutes and Centres

TRINITY CENTRE FOR THE ENVIRONMENT

Founded in 1979, the Trinity Centre for the Environment (TCE) acts as a focus for interdisciplinary research in environmental sciences. It provides a diverse range of laboratory and field support to a large community of academics and researchers. The TCE provides critical research infrastructure for the School of Natural Sciences, and acts as a focus for visiting academics and researchers. The centre is managed by the director, who also chairs the management committee comprising the resident members, as well as representatives of the student body and School. It is located in the former anatomy building in the heart of College.

TRINITY CENTRE FOR ENVIRONMENTAL HUMANITIES

The Trinity Centre for Environmental Humanities focusses on the history of human agency in planetary change. The centre promotes multidisciplinary research in a collaborative work space, and provides teaching at undergraduate and postgraduate levels. Members of the centre are based within the School of Histories and Humanities and the School of Languages, Literatures and Cultural Studies in Trinity. The centre includes associate researchers from other schools within TCD and from the private and public sectors. Members of the centre have disciplinary expertise in history, art, media and culture studies, languages, heritage studies, sociology, geography, marine science, and other related disciplines. Specific fields of research are the history of the marine and coastal environments, climate, and wetlands. The centre has expertise in methodologies such as digital humanities, mixed methods (quantitative/qualitative), geographical information systems, research on research, and outreach and inter-sectoral communication. The centre houses a number of international (H2020, ERC, NSF) and national (IRC, Marine Institute, Environmental Protection Agency) research projects, and was the first Irish lead recipient of an ERC Synergy grant. The centre aims to raise environmental awareness, perception and action through multi-disciplinary research and education.

TRINITY CENTRE FOR FORCED MIGRATION STUDIES

Trinity College Dublin became a member of the University of Sanctuary network in February 2021, thereby committing to the following principles: learning about forced migration, refuge and asylum; ensuring a culture of welcome for refugees and asylum seekers; sharing ideas and practices with others; and outreach and advocacy activities.

The Trinity Centre for Forced Migration Studies embodies these principles and ensures their implementation through its research, teaching and civic engagement activities, building on work already carried out by its members in all of these areas. The centre also aligns with the key goals of the Trinity Strategic Plan (2020-2025), entitled 'Community and Connection', which focuses on civic action, intersectional research, inclusion and active citizenship both inside and outside of the College community and in preparing students for life after College. Trinity's values are articulated in the Trinity Strategic Plan as inquisitive, pioneering, responsible, inclusive and collaborative, and these values are championed by the centre.

TRINITY FUTURE CITIES: CENTRE FOR SMART AND SUSTAINABLE CITIES

The Future Cities Research Centre undertakes multi-disciplinary research that enables, promotes and facilitates urban sustainability. This research adopts creative and analytical approaches to complex sustainability challenges faced by different people in diverse places, including matters related to health, housing, food, climate change, energy, water, waste, mobility

and non-human nature. Insights from historical perspectives, as well as those from artistic, literary, and cultural traditions, intersect with those from social science and STEM disciplines to co-design pathways for sustainability transitions. The Future Cities Research Centre takes a holistic view of urban sustainability challenges, involving researchers from across all faculties to co-create sustainable responses to complex issues engaging with urban residents and external stakeholders from across public, private and civil society sectors.

TRINITY CENTRE FOR GLOBAL HEALTH (TCGH)

Established in 2004, the Trinity Centre for Global Health (TCGH) is an interdisciplinary centre co-located across the Schools of Medicine and Psychology. The TCGH is comprised of a team of academics, adjuncts, administrators, research fellows, and postgraduate students, all working towards the shared vision of 'generating impactful knowledge through high quality, multidisciplinary research and teaching, while contributing to a world in which the health and well-being of all at all ages is realised'. The TCGH strives to achieve this vision through two overarching goals: (i) to conduct multidisciplinary and collaborative research that improves equitable access to quality health care, including mental health care, for all (TCGH's research goal) and (ii) to provide students with high-quality, multidisciplinary, post-graduate programmes that build their capacity to contribute to the promotion and delivery of equitable health systems in their countries of origin and globally, while supporting every student to impact upon the international programme for sustainable development (TCGH's teaching goal). The TCGH's teaching goal is further achieved via the centre's two flagship postgraduate taught courses: the M.Sc. in Global Health and the M.Sc. in Global Mental Health.

HAMILTON MATHEMATICS INSTITUTE TCD (HMI)

The Hamilton Mathematics Institute TCD (HMI) fosters mathematics by creating an environment in which researchers can meet, collaborate, discuss and explain the frontiers of fundamental mathematics and related disciplines to each other. It also facilitates interaction between leading researchers and talented young people, appoints researchers working on fundamental aspects of mathematics and theoretical physics who are funded by local and international funding agencies, organises international workshops and conferences, public lectures to communicate the challenge and excitement of fundamental research and engages in dialogue both with other disciplines and society at large.

TRINITY IMPACT EVALUATION UNIT (TIME)

The Trinity Impact Evaluation Unit (TIME), is a research centre based in the Department of Economics in Trinity's School of Social Sciences and Philosophy. TIME brings together researchers in economics, development practitioners, and policy makers in a collective effort to estimate the impact and understand the underlying mechanisms of development projects, aid, and investments. TIME contributes to the global debate on development. Our vision is to provide strong evidence to inform policy, so that better investments with a real impact on the development process can be made. The central objective of TIME is to produce research of the highest academic standard while, at the same time, facilitating the dissemination of research more widely and providing training to development practitioners on rigorous methods of impact evaluation. The current portfolio of TIME projects spans a wide set of relevant issues, such as

financial products and technology, health and nutrition interventions, community engagement and urban pollution, solar lighting and education, organised crime and media bias. TIME has entered a partnership with Irish Aid/Department of Foreign Affairs and Trade (DFAT) which will help establish Ireland as a key player in international development research in Europe. The partnership with Irish Aid/DFAT provides support for an annual workshop in development economics and a summer school on impact evaluation which focuses on developing the skills required to conduct, evaluate and manage programmes on impact evaluation. The workshop which attracts leading development economists from across the globe, examines issues such as climate change, conflict and migration.

CENTRE FOR INNOVATIVE HUMAN SYSTEMS (CIHS)

Established in 2012 (formerly the Aerospace Psychology Research Group (APRG)) the centre is located in the School of Psychology and is comprised of a team of academics, adjuncts, administrators, research fellows/postdocs, postgraduate students and research assistants. The CIHS has a very active portfolio across research, education, training, consultancy and outreach activities specialising in utilising applied psychology, human factors, systems thinking and action research to understand and improve operational/strategic risk, change management, safety, well-being and longer-term sustainability across safety critical sectors.

The unique contribution of the CIHS is to put the human at the centre of its analysis – systems and processes have to work for people and they can only do this if the role of humans is central. Our approach encompasses all those factors that can influence people and their behaviour and we have an active and long term collaboration on research, training and education with a wide range of industries (e.g. health, aviation, finance, pharmaceutical) alongside a very active alumni community. The key research clusters are healthcare human factors; medical fitness to drive/ traffic psychology, risk and change management, work-place well-being and sustainable behaviour. The CIHS teaching and education goal is further achieved via the centre's flagship postgraduate certificate/diploma/M.Sc. in Managing Risk and System Change and the STAMINA human factor's training programme. We also run a range of short CPD courses in sustainability, workplace wellbeing, and systemic risk management.

TRINITY CENTRE FOR INTERNATIONAL HISTORY

The Centre for International History builds upon the legacy of the Centre for War Studies while also considerably broadening its scope of interest. International history draws on the burgeoning insights of historians in the past few decades that history does not stop at the border of the nation-state. International history explores comparative approaches and uncovers transnational flows of commerce, politics, culture, and ideas. Its methods and content can make a particular contribution at a time when there is such apparent need to decolonise and deprovincialise Trinity to make it better able to train global citizens and enhance its inclusivity.

TRINITY IRISH ART RESEARCH CENTRE (TRIARC)

This centre was established to promote and facilitate the study of Irish art and architecture, and began operations in October 2003. Located in the renovated Provost's House Stables, it serves as a focus for academic research and is responsible for organising seminars and conferences specialising in Irish art and architectural history. It also has responsibility for a visual archive. By exploiting the exceptional resources available in the centre of Dublin, both in Trinity

College and in the major cultural institutions nearby, the centre builds on the Department of the History of Art's existing achievements in the field of Irish art.

Director
Rachel Moss, B.A., PH.D., F.T.C.D. (2022)

TRINITY CENTRE FOR JUSTICE AND VALUES

The main aim of the centre is to conduct and promote research in the area of value theory broadly defined, and more specifically on normative questions of justice, rights and fairness by bringing together researchers from different disciplines in College as well as outside it. Research will be concentrated around a few main themes: justice, equality, human rights, responsibility, gender, and health. The centre also seeks to engage with the public and practitioners in the area of social justice with a view to promoting fairness in society.

TRINITY CENTRE FOR LITERARY AND CULTURAL TRANSLATION

The centre was established in 2013 by the School of Languages, Literatures and Cultural Studies to develop, promote and support literary translation in Ireland. The centre has developed into the reference point for literary and cultural translation, defining excellence in teaching, practice, collaboration and research. It houses the College's award-winning M.Phil. in Literary Translation, along with a team of doctoral and postdoctoral researchers. It also welcomes scholars, students, practitioners, embassies and cultural outreach centres, as well as interested members of the public from around the world to a wide range of outreach activities throughout the year, all centering on translation, broadly conceived.

TRINITY RESEARCH CENTRE IN LOW CARBON TECHNOLOGIES

The centre is a knowledge centre that sees the global carbon neutrality, energy security and affordability challenge as a complex, trans-disciplinary and multi-faceted permanent subject matter in its own right. This follows European Union recognition of the 'low carbon technologies' concept by the 'Fit for 55' legislative package, which refers to the European Union's target of reducing net greenhouse gas emissions by at least 55 per cent by 2030.

The mission of the Trinity Research Centre in Low Carbon Technologies is to provide new knowledge, key to the affordable urgent deployment of massively scalable technologies to decarbonise society. The centre carries out multi- and inter-disciplinary coupled research on science, technology, behavioural change and social innovation concepts that can affordably reduce greenhouse gas emissions, without creating significant other negative consequences.

At inception, the centre addresses decarbonisation organised under four themes: sustainable aviation; low carbon power and propulsion; carbon dioxide capture and utilisation; and clean and available water.

TRINITY CENTRE FOR MATERNITY CARE RESEARCH (TCMCR)

The centre is dedicated to achieving excellence in original and sustainable childbirth, reproduction and maternity care research. The centre prioritises research collaboration with women and families, clinical partners in our linked maternity hospitals, national and international colleagues, and industry, to identify research questions of local, national and global significance. The main aim of the centre is to achieve enhanced quality of life and improved outcomes for

women, their babies, partners and families through all stages of the reproductive cycle, in diverse social settings.

TRINITY CENTRE FOR MEDIEVAL AND RENAISSANCE STUDIES

The centre promotes interdisciplinary collaboration between scholars working in the fields of Medieval and Renaissance studies both within and outside Trinity, with a view to raising the profile of Medieval and Renaissance studies at a national and an international level. The centre organises conferences, seminars and public lectures on a regular basis, and also runs a number of international research networks: early modern gardens; Chaucer in context; Byzantine studies; early modern women in Europe; Irish conflict archaeology; and the arts and politics of virtue in Medieval and early modern Europe. It has a refereed publication series, 'Court cultures of the Middle Ages and Renaissance' (published by Peter Lang). It has developed close ties with a number of other institutions, works closely with the Chaucer Hub, the Society for Renaissance Studies and Medium Aevum and is a member of CARMEN (the Confederation for the Advancement of Research through a Medieval European Network).

TRINITY MEDIEVAL HISTORY RESEARCH CENTRE

The centre is designed to promote research in the history and archaeology of Ireland and Europe in the Middle Ages. It provides facilities for the interaction and exchange of ideas among postgraduate students, postdoctoral researchers and staff (from inside and outside College), while also furnishing a forum where relevant research from other disciplines can be aired and discussed from a historical viewpoint. In addition to hosting externally-funded projects, the centre also offers a taught M.Phil. in Medieval Studies.

Director

TRINITY CENTRE FOR MEDITERRANEAN AND NEAR EASTERN STUDIES (MNES)

The aim of the centre is to investigate how, at local, national and international level, peoples, ideas, and practices in these two highly important cultural zones have lived together in peaceful and hostile relationships; and how the multiple identities thus negotiated and given expression have led to either conflict or accommodation. Combining literary, historical, philosophical, archaeological and scientific methodologies, the core of the centre's research activities brings together scholars, both local and international, from classics and archaeology, biblical, New Testament and Jewish studies, philosophy and history. The Plato Centre is a constituent member of MNES.

TRINITY CENTRE FOR MODERN AND CONTEMPORARY IRISH HISTORY

The centre promotes an inclusive, dynamic, and innovative field of learning and research, which speaks critically and creatively to past, present and future worlds. It is a creative space that develops international and national networks, prioritising collaborations for funding, teaching and research initiatives. The centre builds on TCD's expertise in key areas such as empire, colonial legacies, the Irish Revolution, the Troubles, the history of gender, welfare, institutions, everyday

life, violence and migration. It also supports those developing new approaches in these fields and those shaping new and nascent areas of research for the future.

TRINITY OCEAN CENTRE

The Trinity Ocean Centre seeks to establish Ireland's first national research and education hub dedicated exclusively to the study of the ocean. The centre is a multischool/multi-faculty initiative and focuses on fundamental aspects of ocean research and education in the following fields: physical oceanography and mathematical modelling, geohistorical fluid dynamics, marine biology, marine-coastal interactions, historical geography, ecology and archaeology of oceans, paleo-glaciology, fisheries, ocean and food, marine environmental history and heritage, ocean renewable energy, marine spatial planning, planetary scale simulation of oceans, ocean-atmosphere interaction, and European digital twins of the ocean.

TRINITY CENTRE FOR PEOPLE WITH INTELLECTUAL DISABILITIES (TCPID)

The Trinity Centre for People with Intellectual Disabilities is one of Trinity College Dublin's most innovative initiatives. Formerly known as the National Institute for Intellectual Disability, this Trinity centre promotes the rights of people with intellectual disabilities with its mission of inclusion through education, research and pathways. Since its inception in 2004, it has aimed to create a paradigm shift in opportunity, policy and service provision with the objective to enable people with intellectual disabilities to be empowered and become active participants in Irish society. This work is aligned within the overarching framework of the 2006 United Nations Convention on the Rights of Persons with Disabilities. From an educational perspective, the two-year programme, entitled the 'Certificate in Arts, Science and Inclusive Applied Practice' provides adults with an intellectual disability an opportunity to experience tertiary level education and the

richness of life as a college student. Following ten productive years as part of the School of Social Work and Social Policy, Trinity Centre for People with Intellectual Disabilities moved to the School of Education in October 2014.

TRINITY CENTRE FOR POST-CONFLICT JUSTICE

The centre fosters interdisciplinary research that explores how societies come to terms with episodes of extreme violence in war, civil war, and periods of prolonged civil and political unrest. The centre brings together faculty and graduate students working in the fields of history, law, peace studies, sociology, theology and ethics. Its current projects address the themes of justice, transition, and memory and reconciliation and draw from field and archival work in the Balkans, Eastern and Central Europe, Central America, Africa, the Middle East, and Southeast Asia, as well as the experience of the peace process in Ireland, north and south.

TRINITY CENTRE FOR PRACTICE AND HEALTHCARE INNOVATION

This centre works collaboratively with healthcare staff, industry and the public to improve healthcare services and to develop, implement and evaluate new innovative healthcare interventions and models of care. This centre aims to foster nursing research and has developed successful collaborative research partnerships with Naas General Hospital, St James's Hospital, St Patrick's Mental Health Services, Tallaght University Hospital, and HSE Community Healthcare Dublin South, Kildare and West Wicklow. It also collaborates with a large network of clinical, industry and research partners and is actively engaged in the synthesis and translation of evidence in every day healthcare. It is a resource for those seeking evaluation of healthcare policy, quality improvement and innovation in healthcare service development and delivery. Please see website for more details: www.tcd.ie/tcphi.

TRINITY CENTRE FOR PSYCHOLOGICAL HEALTH

The centre brings together a critical service-focused research capacity to develop, implement and evaluate psychological interventions to enhance health and well-being. The centre fosters research-led innovation to help services optimise client quality of life and advance the science of clinical practice. Through external collaborations and with innovative models of working with service users, the centre is uniquely positioned to meaningfully engage with society in addressing core issues related to enhancing well-being.

TRINITY CENTRE FOR RESEARCH IN I.T. IN EDUCATION (CRITE)

The centre is a collaboration between the School of Education and the School of Computer Science and Statistics. Its research agenda is to explore how technology can be used to enhance teaching and learning, and includes strands on computing education, technology mediated learning and developing digital competence. It approaches this largely through the lenses of constructionism and social constructivism. A pragmatic research approach is typically followed and a guiding principle is that the field needs to move beyond boutique interventions and tackle core issues arising in the transformation of learning in a systemic and sustainable fashion. Through its partnership with the Trinity Access Programmes the centre has a particular focus on working with schools in areas of socio-economic disadvantage.

TRINITY CENTRE FOR RESISTANCE STUDIES

The Trinity Centre for Resistance Studies is an interdisciplinary research centre dedicated to the study of resistance in all its forms, including opposition, dissent, resilience, protest and non-conformism. The centre brings together academics from the disciplines of history, cultural studies, languages and literatures, the social sciences, law, peace studies and the health sciences. Its geographical scope stretches from Hong Kong to South America, through Europe (East and West), Ireland (North and South), the Near and Middle East and the United States.

TRINITY CENTRE FOR SOCIAL INNOVATION

The Trinity Centre for Social Innovation, which was formerly the Trinity Centre for Nonprofit Management, has as its mission to create a TCD space that fosters research on social entrepreneurial action, generating opportunites to study impactful engagement in society and to disseminate that research to all stakeholders. The centre will create opportunities for individuals and teams across College and beyond to work together towards generating greater impactful research-led engagement in all aspects of their work and research. Taking the three core pillars of research, teaching, and incubation, the Trinity Centre for Social Innovation will seek out, facilitate, support and promote the impactful engagement interactions that occur and actively endeavour, through the centre's overall research agenda, to investigate the diversity, complexity and scale of impact created.

CENTRE FOR THE SOCIOLOGY OF HUMANS AND MACHINES (SOHAM)

The Centre for the Sociology of Humans and Machines (SOHAM) is a joint research centre at Trinity College Dublin and TU Dublin, dedicated to understanding how artifical intelligence and automation are reshaping society. Through interdisciplinary research, international collaboration, and public engagement, we investigate the social, ethical, and technological dimensions of human-machine interactions. Our multidisciplinary research, at the intersection of social

sciences, computer science, mathematical sciences, humanities, and even medical sciences, will explore how humans and intelligent systems can co-exist, collaborate, and drive societal change.

TRINITY OSCAR WILDE CENTRE FOR IRISH WRITING

The centre was opened in January 1998 as the teaching and research centre for the M.Phil. in Creative Writing. Devoted to writing and research, the centre's main focus is on providing an academic yet lively environment for students of the M.Phil. graduate course. As an interface between College and community, the centre plays a key role in bringing the achievement and ambition of writers to the attention of a wider public both at home and abroad.

Director of the centre and Director of the M.Phil. in Creative Writing
Eoin McNamee, B.A., F.T.C.D. (2024)

TRINITY CENTRE FOR WOMEN'S, GENDER AND SEXUALITY STUDIES

The centre's graduate programmes (M.Phil./Diploma, M.Litt. and Ph.D.) address current scholarship on women, gender and sexualities. The centre's dedicated research unit has undertaken nationally and internationally funded projects on such diverse topics as the gender history, work-life balance, gender and ageing, barriers and facilitators toward the promotion of women, the role of men in the promotion of gender equality, prostitution and women and ambition. The centre fosters links with the community through its public seminars and lectures.

Director
Gillian Frank, B.A. (YORK (CAN.)), M.A. (BROWN), PH.D. (BROWN)

Other Research Entities

AL MAKTOUM CENTRE FOR MIDDLE EASTERN STUDIES

The Al Maktoum Centre for Middle Eastern Studies in Trinity College is an interdisciplinary, outward facing centre providing a hub for colleagues across the university, the wider academic community in Ireland, and an international community of scholars dedicated to research in the area of the Middle East from antiquity to the present. The centre aims to establish national and international networks, offering workshops and research seminars through international webinars. It seeks to engage the public and the wider community in an effort to promote the academic study of the Middle East leading to a greater appreciation of its cultures, regions and peoples.

Director
Anne FitzPatrick, B.A., PH.D.

TRINITY CENTRE FOR CREATIVE TECHNOLOGIES AND MEDIA ENGINEERING

The future of the creative arts lies in a robust engagement of the artist, engineer and scientist. The Trinity Centre for Creative Technologies is harnessing the university's critical mass in the technologies and science that underpin the creative and entertainment industries, and in partnership with these industries, pioneering new research and graduate programmes relating to creative technologies and new media.

Co-directors
Francis Morgan Boland, B.E. (N.U.I.), M.A., PH.D. (C.N.A.A.), C.ENG., FIEI, Fellow *emeritus*
Anil Kokaram, B.A. (CANTAB.), PH.D. (CANTAB.), C.ENG., FIEI, F.T.C.D. (2001)

IRISH CENTRE FOR EUROPEAN LAW

The centre seeks to promote the knowledge, understanding and good practice of EU law and the law of the European Convention on Human Rights. To this end, the centre organises conferences, seminars and refresher courses on substantive areas of Union and Convention law as well as on the Union's institutional framework and on the interrelationship between the Union legal order and that of its Member States.

Chair
The Hon. Mr John D. Cooke, Retired Judge of the High Court
Director
Stephen Brittain, Barrister-at-Law

TRINITY CENTRE FOR GLOBAL INTERCULTURAL COMMUNICATIONS (CGIC)

The Trinity Centre for Global Intercultural Communications is the first Irish hub for intercultural competences. It offers a range of intercultural training to help participants effectively engage across differences and thrive in a multicultural context. The mission of the centre is to engage key stakeholders in education and industry to support: lifelong learning; intercultural competence; global engagement; employability; economic growth; equity, diversity and inclusion. Intercultural competences are the transversal skills required to master communication and to successfully, ethically and creatively collaborate with international colleagues, partners and institutions. Intercultural intelligence builds confidence and adaptability in multicultural encounters and contexts. This is increasingly vital for collaboration and growth across all sectors. Courses draw upon evidence based insights from the European Commission's training and development framework, the European skills agenda and Ireland's strategy for foreign languages. These sources indicate that in order to capture global markets, strengthen sustainable competitiveness and facilitate inclusion in the recovery of European economies we need to understand cultural

differences, communicate across cultures and languages, and empower people to continuously upskill and reskill.

Seanad Éireann Higher Education Constituency

The Seanad Electoral (University Members) (Amendment) Act, 2024 created a new six-seat Higher Education constituency for Seanad Éireann. The above Act extends voting rights to graduates from other designated institutions in addition to the National University of Ireland and Trinity College Dublin, who are citizens of Ireland, and have attained the age of eighteen years. The qualification is limited to degrees (bachelors', masters' or doctoral). Honorary degrees are excluded.

Graduates of the University of Dublin who wish to register for the Seanad Éireann Higher Education constituency, or amend their details if already registered, should visit www.SeanadVoter.ie. The deadline for applications is 26 February each year, and the Register of Electors is published annually on 1 June.

Representatives of the University of Dublin in Seanad Éireann

Tom Clonan, B.ED., elected 2025
Aubrey McCarthy, B.SC., M.A., elected 2025
Lynn Ruane, B.A., elected 2025

Benefactors of Trinity College Dublin

Trinity Development and Alumni is administered by Trinity Foundation, an independent charity (CHY10898) established in 1994, and charged with responsibility for, and exists solely to support, the development (fundraising) and alumni relations activities of Trinity College Dublin.

Trinity Development and Alumni was established with the objective of raising funds to support the development of Trinity College Dublin. It plays a vital role in ensuring that Trinity College has the financial resources to remain a leading, internationally recognised university. In the nine month period, 1 October 2024 to 30 June 2025, Trinity Development and Alumni was successful in raising funds (cash and pledges) of €40.9 million from 1,198 donors.

The Trustees of Trinity Foundation join the Provost, Fellows and Scholars of Trinity College in thanking all supporters of the University. Significant philanthropic donations, which have been used to support College activities, were received and this funding is a testament both to the quality of the projects and to the generosity of our dedicated supporters.

Special thanks are due to those who donated through the U.K. Trust for Trinity College Dublin, the University of Dublin Fund in the U.S.A. and all alumni who contributed to the Trinity Annual Fund.

Trinity College Dublin: A Short History

Trinity College Dublin was created by royal charter in 1592, at which point Dublin Corporation provided a suitable site, the former Priory of All Hallows. Its foundation came at a time when many universities were being established across western Europe in the belief that they would give prestige to the state in which they were located and that their graduates, clergy for the most part, would perform a vital service as civil administrators. By the 1590s England had two long-established universities, each with an expanding group of colleges, and Scotland four. The idea of a university college for Ireland emerged at a time when the English state was strengthening its control over the kingdom and when Dublin was beginning to function as a capital city. The group of citizens, lay and clerical, who were main promoters of the scheme believed that the establishment of a university was an essential step in bringing Ireland into the mainstream of European learning and in strengthening the Protestant Reformation within the country.

The organisational design of the new institution was influenced by Oxford, Cambridge and continental precursors, but from the beginning it was an autonomous corporation governed by 'provost and fellows', committed to teaching and to scholarship, the first and (as it turned out) only college of the degree-awarding University of Dublin. The College site, lying some distance east of the small walled city, was far larger than the small community of fellows and students required, and the first brick buildings of the 1590s occupied only a small part of what is now Front Square. But from the beginning the College's library was a priority, and the energy with which early Trinity scholars (notably Luke Challoner and James Ussher) assembled the initial collections of books marked Trinity out from other sixteenth-century foundations. Many of its early graduates, well grounded in philosophy and theology, proceeded to clerical ordination in the state church, the Anglican Church of Ireland.

During the next fifty years the community grew: endowments, including landed estates, were secured, new fellowships founded, a curriculum devised and statutes determining internal governance were framed. The international reputation of Ussher, one of its first alumni, helped place the College on the European map. But its existence was gravely threatened at two points in the seventeenth century, first when central government collapsed in the wake of the 1641 rising, followed by the temporary eclipse of the Church of Ireland in the wake of Cromwell's victories; secondly, with the roller-coaster events of 1689-91, when Tyrconnell's short-lived Catholic government closed the university, expelled the fellows and students, and converted the buildings into a Jacobite barracks. The library however was spared.

Despite such dramatic interruptions, the College had become a much more substantial institution by the end of the seventeenth century. Many of the early buildings had recently been replaced, and a number of the fellows, notably William Molyneux and St. George Ashe were centrally involved in the Dublin Philosophical Society, a small body that was closely in touch with the 'new learning' in London.

The following century was an era of political stability in Ireland, thanks to the firm monopoly on political power held by the land-owning and largely Church of Ireland upper class, and the College was in material terms a great beneficiary from this state of affairs: its landed income grew very substantially in the course of the century and it enjoyed the recurring patronage of the Irish parliament across College Green, evident in the scale and quality of its new buildings. The first structure dating from this era was a massive new library (1712-32), initiated while George Berkeley was librarian; its size, far greater than then required, reflected long-sighted enlightenment ambitions, and it was followed by a string of other classical buildings on the western half of the campus: the Printing House (1733-4), the West Front (1752-9), the Dining Hall (c.1760-65), and the Provost's House (1759-61). During the second half of the century Parliament Square slowly emerged, shaped by the Public Theatre (1777-86) and the new Chapel (1787-98), which were designed from afar by George III's architect, Sir William Chambers. The

great building drive was completed in the early nineteenth century by the residential quadrangles of Botany Bay and New Square.

These buildings reflected a seriousness of purpose absent from English universities of that era. The fellows were generally hard-worked, both as teachers and administrators; the general curriculum was adapted, albeit slowly, and most of the outstanding Irish politicians and writers of the eighteenth century (Swift, Burke, Goldsmith, Grattan, Fitzgibbon, Tone) were Trinity graduates, the influence of their university discernible in their writings and speeches.

Since the early days, the power of College provosts to re-shape the university had been very considerable: most of them were ordained clergy, but two eighteenth-century laymen who held the office stand out: Francis Andrews (1758-74), whose chief monument is the sumptuous Provost's House, but who also encouraged science with his endowment of a chair of astronomy and an observatory; and his successor, John Hely-Hutchinson (1774-94), who was an enlightened lawyer but an adversarial public figure: he oversaw the foundation of chairs of modern languages and widened the composition of the student body; Catholics were permitted to enter and take degrees from 1793. Not for the last time, political controversy in the world outside came to be powerfully reflected among the student body in the lead-up to the 1798 rebellion, in which ex-students were involved on both sides, most famously Wolfe Tone.

The undergraduate curriculum was a prescribed general course, embracing classics, mathematics, a limited exposure to science and some philosophical texts. This began to change from the 1830s when it became possible to specialise for degrees with honours, or moderatorships, in mathematics, in ethics and logic, and in classics. In 1851 a moderatorship in experimental science was added (embracing physics, chemistry and mineralogy at first, and later geology, zoology and botany, which in 1871 was split into two moderatorships, natural and experimental science). And new humanities disciplines emerged as moderatorship subjects at the same time – in history and modern literature.

The professional schools were also transformed in the course of the nineteenth century: divinity had been taught since the foundation of the College, but this was now systematised. The Law School was reorganised, and medical teaching placed on a much stronger footing, helped by the emergence early in the century of a group of medical teachers who gained international eminence (notably James Macartney, Robert Graves and William Stokes), practitioners who divided their time between clinical teaching and the lecture theatre. The Engineering School was established in 1842 and was one of the first of its kind in the English-speaking world. Student numbers overall increased in the post-Waterloo generation, and the vibrancy of the institution is evident from the variety of associations and clubs in the city that were dominated by the university. The *Dublin University Magazine* (1833-82) became one of the most widely circulating monthly reviews in Ireland or Britain, conservative in its politics, highly original in its literary coverage and on occasions quite subversive, not unlike its original College sponsors.

Between 1830 and 1900 twenty new professorial chairs were founded, and individual scholarship flourished as never before: in mathematics and science William Rowan Hamilton, the Lloyds, George Salmon, George Fitzgerald and John Joly spent most of their working careers based in the College, and in the humanities it was the classicists who led the field in terms of international celebrity.

The expansion of the College's teaching activity during the nineteenth century was evident in the changing campus landscape, most strikingly with the Museum Building (1853-7), designed to accommodate civil engineers and geologists. By the late nineteenth century the College had gone some way to fill the ancient site with an ensemble of academic buildings and recreational facilities, museums and terraces of student residences. And new buildings to the east of the College Park reflected the increasing importance of science and medicine in College priorities. However purpose-built science laboratories came late; it was thanks primarily to the philanthropy of the Guinness family that some really fine architecture began to grace the East End when the Physics and Botany buildings appeared *c.*1903-06.

Behind its high iron railings the Victorian university had become something of a self-contained community, out of sympathy with the increasingly nationalist city and focused on an expanding

British empire for opportunities for its graduates. During the sixty-year war of attrition between British governments and the Catholic hierarchy over higher education policy in Ireland, Trinity struggled to accommodate itself to what was a changing Ireland. Between 1873 and 1908 a variety of schemes were proposed that would have made the College a member of a federated Irish (or Dublin) university; these were strenuously and effectively resisted as threats to its independence. As part of this, the College gradually re-positioned itself to become a non-denominational institution: in 1873 all religious tests (except those connected with the Divinity School) were abolished. However despite this, the fractious struggle to retain the College's separate identity meant that when the battle over Irish higher education was finally resolved in 1908 with the creation of the federal National University, it left a difficult legacy for the defenders of the older institution.

Power within the College was slowly changing too. The creation in 1874 of the University Council, a body representative of non-fellow professors, gave control over the shaping of courses and appointments to the teaching departments, and in 1911 membership of the College Board itself was somewhat widened. But power remained with the senior fellows until the provostship of Albert McConnell (1951-74), who managed to widen the collegiate governance of the College and initiate major administrative reform. More momentously, women students became part of the College: admitted for the first time in 1904, within a decade they amounted to 16 per cent of the student body. But it was not until 1958 that the first female professor sat on the Board, and 1972 before female students could reside within the campus (a women's hall of residence had however been established in 1908). In 1986 women accounted for more than half of the full-time student body, and have retained that ascendancy ever since. In 2021 Trinity elected its first female provost, Linda Doyle.

The First World War marked a general turning point in the College's fortunes, the human cost recognised in the hall of honour (1928), erected in Front Square. The Easter Rising of 1916 had engulfed the College environs, and Trinity was lucky to escape serious physical damage. However wartime inflation and the drastic erosion of its assets threatened the College's peacetime future. In the new Free State that emerged after the War of Independence in 1922, Trinity lacked the benign support of government that it had always enjoyed, and the new national administration, financially weak and recovering from civil war, had more pressing priorities. Therefore, at a time when the newer universities in Britain were growing in strength and prestige, Trinity found itself without the revenues required to advance research and scholarship in what was an increasingly science-centred world.

Student numbers however held up well in the inter-war period, but with very limited philanthropic support and none from the state, Trinity's capacity to develop was severely constrained. Some new disciplines were introduced at little cost, notably degree courses in commerce, economics and politics, and the first night-school diplomas, ranging from art history to public administration, were very successful. But it was only after the end of the Second World War that the university once again sought financial support from government; it was promptly given. That modest agreement in 1947 marks the beginnings of Trinity's transition towards becoming a large state-funded university, although this was not apparent until the 1970s. In the meantime, cramped by continuing church restrictions on Catholic attendance, the College increased its enrollment of students from Britain and the United States at a time when overall numbers were falling below pre-war levels. In some years around 1960, nearly half the student body was coming from outside Ireland (north and south).

The overall student population remained small until the mid-1960s, when the cap was raised by a third to 4,000. At that same point the Irish government became involved in capital investment within the College, sharing the costs of building a new library with the College's fundraisers. In the same period private philanthropy, again led by the Guinness family, and international philanthropic trusts, notably the Wellcome, were dramatically improving the stock of medical and science buildings, and enabling the development of new disciplines such as biochemistry, genetics and preventive medicine.

The real growth in student numbers began in the 1970s, reflecting the introduction of free second-level education and of third-level student grants, the removal of the Catholic episcopal 'ban' (in 1970), the widening career opportunities for women and a stronger underlying economy in Ireland. Trinity's recruitment field became much more heavily concentrated within the Republic of Ireland, and College policy in the early 1970s was to bring down the non-Irish proportion to 15 per cent. The new 'massification' of higher education took physical form with the construction of a large Arts and Social Sciences Building on the south side of the campus (opened in 1978). This was almost entirely funded by the national exchequer.

The diversification of the curriculum continued in the last quarter of the century, with the mushroom growth of information science and computing, the medical therapies, nursing, and teacher training, the latter developed in conjunction with the three Dublin teacher-training colleges with which Trinity had become associated in the 1970s. The College also became involved in the oversight and accreditation of technical degree courses delivered across Dublin by the Vocational Colleges (until the Dublin Institute of Technology (now Technological University Dublin) was established as an independent degree-awarding body). But a more generic change was the huge expansion of postgraduate activity, both of taught courses and research degrees, many of these closely related to the professions. And by the 1990s post-doctoral researchers, scattered across all disciplines, had become a new segment of the academic community, reflecting the scale and complexity of research teams and the opportunities for research funding at national and European levels.

In the new scheme of things, as the university came to depend on the state it became publicly accountable. Oversight of the universities became the responsibility of the Higher Education Authority, established as a statutory body in 1971, its role and powers being greatly extended by the 1997 Universities Act. The state by the late 1990s had become the principal source of the College's revenues, both through the direct grant and as a consequence of the state's adopting a 'free fees' policy for undergraduate tuition. But despite the ever-increasing involvement of the state in directing higher education, the contribution of the state grant to the College's total income began to decline in the following decade, falling to 27 per cent by 2010 and actually counting for less than the College's research income (much of the latter coming of course from Irish state agencies). Research income from all sources had contributed a mere one million pounds in 1981, whereas in 2009 it peaked at just under 90 million euro.

There have been two major internal waves of academic reorganisation over the last fifty years: the incorporation in 1968 of all academic departments into six faculty units, headed by deans, and the integration of academic departments into schools in 2004-08, with in turn a reduction in the number of faculties to three. Faculty deans have now come to play a strategic role in the management of the university. These changes since the 1960s facilitated the incorporation of many new teaching departments (including Business Studies, Dentistry, Drama and Film Studies, History of Art, Linguistics, Mechanical and Manufacturing Engineering, Pharmacology and Pharmacy, Occupational Therapy, Physiotherapy, Psychology, Sociology and Statistics). And the recent programme of academic restructuring facilitated the establishment of five large trans-disciplinary research institutes in areas of particular international strength, one focusing on Adaptive Nanostructures and Nanodevices (CRANN), one on Neuroscience (TCIN), one on International Integration Studies (IIIS), one on research in the Arts and Humanities (the Trinity Long Room Hub), and the Trinity Biomedical Sciences Institute (TBSI).

In the wake of the huge growth in Irish student numbers attending the College, there was a new commitment to internationalisation in recent years and a move back towards the recruitment of international students, initially in the field of medicine, latterly across all disciplines, with a particular focus on Asia. The College was an early supporter of undergraduate exchange programmes (notably the E.U.-supported Erasmus/Socrates scheme), which have been in operation since the 1960s, and it has long been a favoured destination for U.S. visiting students. By 2023-24, 65.1 per cent of the student population came from Ireland, 9.9 per cent from other E.U. countries, 2 per cent from the United Kingdom, 8 per cent from the United States of America, and 15 per cent from other parts of the world; in all, the College's population of 22,120

registered undergraduate and postgraduate students was drawn from some 130 nationalities (outside of Ireland).

In 1993 the College also began to boost recruitment from within Dublin city by developing a series of access programmes (TAP). The aim was to raise the number of young adults from socio-economic and ethnic groups underrepresented in higher education coming to university. At the same time, new efforts were made to recruit mature students. In 2022-23, 24.1 per cent of entrants to the university were from groups underrepresented in Irish higher education, comprising socio-economically disadvantaged young adult and mature students, and students with a disability.

Another major change in the second half of the twentieth century was in the composition of the academic staff: it became progressively more international. Until the 1930s the great majority had been doubly indigenous, being Irish-born and Dublin University graduates, including many who returned, like Ernest Walton who came back from Cambridge in 1934 and shared the Nobel Prize for Physics in 1951, arising out of his work two decades earlier on splitting the atom. The dominance of indigenous graduates in the academic community had all but disappeared by the 1980s, and the increasingly cosmopolitan character of the College helped drive change in the curriculum, in research, and in the general appetite for innovation across the institution. And there was meanwhile an utter transformation in the scale of the academic community, from the modest group of 125 who had made up the total academic staff in 1950.

In terms of physical development since that time, the College contributed to the small stock of fine modernist architecture in Dublin, beginning with the Boland Library[1] (1965-6), the Arts Building (1977-8), the O'Reilly Institute (1989), the Dental Hospital (1995-8), the Ussher Library (1999-2001) and the Long Room Hub (2008-10). But by 2000 the College had begun to burst out of its campus home, what with a huge expansion of its halls of residence off campus and with Nursing, Drama, and the Social Sciences putting down new roots a short distance away. But the most ambitious construction project in the College's history, the Trinity Biomedical Sciences Institute in Pearse St (2008-11), has become the strongest physical statement of the College's outward movement. The opening of this development, which now houses five academic schools, coincided with the development of the Trinity Academic Medical Centre, an alliance between the university and its two main teaching hospitals, St James's and AMNCH, Tallaght. And west along Pearse St, the Science Gallery was opened in 2008 as part of the new Naughton Institute: within a short time the Gallery became a highly successful centre for 'science outreach' and art-science collaboration, exploiting to the full the potential for creative interaction between college and capital city, until Science Gallery Dublin held its final exhibition in January 2022. Strategic redevelopment along Pearse St continued with the construction of a new Business School, completed in 2019, followed by a major new student residential block, Printing House Square, completed in 2022, built further west along Pearse St on the campus perimeter. And along at the eastern end of Pearse St, the development of Trinity East continues, a project whose vision is to deliver a major global centre for research and innovation.

Through times of turmoil as well as progress, Trinity has been the crucible for change across more than four centuries. Today, as Trinity imagines the world in the 21st century, it seeks to inspire new generations in new ways.

Buildings of Trinity College Dublin

The architectural character of Trinity derives largely from its role as a city-centre metropolitan college. Its grant of land, for instance, came from Dublin Corporation in the late 16th century; its monumental West Front forms, along with the 18th-century Parliament House, the closest that Dublin has to a great piazza; and in welcoming Dubliners and foreign tourists inside its gates (the Old Library receives almost a million visitors a year), it has assumed the character of public park more than of cloistered academy. Home to 1,000 resident students and staff, the 40-acre 'island site' lends vibrant life and business to the city.

The College has been a building site for most of its history; it still is. The Printing House has only recently shed the scaffolding erected for its preparation as a space for the display of the Book of Kells (and has sprouted, as a temporary extension in Printing House Square, a smaller sibling of the red building which now fills New Square). And work on the Campanile (Howley, Hayes Cooney Architects), completed in 2024, was acknowledged by a conservation award (2025) from the Royal Institute of the Architects of Ireland. Printing House Square itself (McCullough Mulvin Architects) was completed in 2022 with 250 student residences, a sports centre and the College Health Service; and careful conservation of the oldest building in the College, the Rubrics of c.1700, has attracted many awards. The E3 building is rising at the East end to house an integration of engineering and natural and computer sciences; and the lawns of New Square are filled with a dramatically coloured temporary structure made necessary by the emptying of the Old Library during radical work needed to improve its environmental condition – temperature, humidity, fire protection – and tourist facilities. Unfortunately, recent tall building outside the College does grievous harm to some views of the historic architecture within the walls.

And responding to changing fashions in gardening, the College has enthusiastically embraced in its grounds the cause of biodiversity, so that John Henry Foley's *Burke* (unveiled 1868) and *Goldsmith* (unveiled 1864) now rise amidst the alien corn conversing with the Augustan formality of the West Front (by Theodore Jacobsen, 1750's).

With the growth of the College beyond Westland Row its centre of gravity has moved: for instance the Board no longer sits in the Provost's House of the 1760's on Grafton Street but in the Business School (Scott Tallon Walker Architects, opened 2019) which is in the east of the island site. As the map at the end of this Calendar shows this island site is divided in two by the College Park and Rugby ground. To the west, older buildings are laid out on a rectangular grid which has its origins in the lay-out of the College of 1592 (and hence of the 12-century priory of All Hallows); to the east, buildings mostly for Science (Chemistry by McCurdy and Mitchell, 1885-; Zoology and Physiology by John McCurdy, completed 1876; the Smurfit, Panoz and O'Reilly Institutes and the Watts and Hamilton Buildings, by Scott Tallon Walker Architects, 1988-2000) somehow reconcile the conflicting geometry of the western grid with that of Westland Row.

Perhaps the most difficult problems of site were presented to – and elegantly solved by – the Naughton Institute and Sports Centre (by RKD Architects and Wilson Architects, opened 2008) bounded by the railway line, Pearse Street and Westland Row. And some of these buildings were influenced not only by the grid but also by the style of the older buildings to the west: Chemistry and Pathology defer to Deane and Woodward's masterpiece the Museum Building facing them on the other side of the College Park. Close to the Pavilion (by Thomas Drew, 1885) and Moyne Institute (by Desmond Fitzgerald, 1953) Pritzker Prize winners Grafton Architects, however, strike a markedly independent note in their extensions to the Parsons Building for Mechanical Engineering (1996 and 2005), work with which they initiated their extensive career in university architecture.

The influence of the 18th and 19th-century buildings to the west of the College on the lay-out and style of more recent nearby work is seen too in modern additions to the historic squares.

Buildings of Trinity College Dublin

Passing from the spaciousness of College Green through the strategic constriction of Front Gate, the view ahead is of formal classical planning with its axes, cross axes and symmetries. To right and left the porticoes of Examination Hall and Chapel (both by William Chambers (1777-) advance towards one another, adding to the scenic quality of what lies beyond. And beyond is the Campanile (Charles Lanyon, 1852), the focal point of Front Square and entry point to Library Square which is dominated by the Old Library (Thomas Burgh, 1712-32) and the Rubrics (probably Thomas Burgh, c.1700).

But however remarkable this classical formality is, a growing college must enlarge and add to its libraries, and residences, and lecture rooms. The College has done well in managing this difficult task.

In erecting its School of Engineering or Museum Building by Deane and Woodward in 1853-57, it broke radically from the existing classical tradition of the rest of the College: Doric, Ionic, Corinthian were banished in favour of a glorious vindication of the neo-medieval (and theological) theories of John Ruskin. The result was what is probably the most beautiful building in the College, notwithstanding damaging alterations made to the interior many years ago before the rehabilitation of taste for Victorian architecture.

A similar belief in the best of contemporary architecture characterised the choice of the architect Paul Koralek as architect for the Boland Library[1] (completed 1970), now generally acknowledged to be one of the finest modern buildings in the country. It was specified by the College that the building was to be as fine a representative of the 20th century as its neighbours (Museum Building and Old Library) were of the 19th and 20th centuries. Its subsequent extension, the Ussher Library (McCullough Mulvin with KMD Architecture, opened 2003), is a worthy addition. McCullough Mulvin's Long Room Hub (2010) completed the enclosure of Fellows' Square with library buildings, and makes its contribution to views within Front Square (as their Printing House Square does to New Square).

There has been nothing straightforward about the evolution of the architecture of Trinity. Parliament Square, like Library Square, was designed originally to be enclosed; the West Front was to be domed; it was thought that College Park might accommodate the Wellington Testimonial now in the Phoenix Park and, later, a railway viaduct; Lanyon's Campanile was to be part of an arcade along the west side of Library Square; the architects McCurdy and Mitchell wanted to replace the Rubrics with neo-Renaissance residences; the Dining Hall was destroyed by fire in 1984 (rebuilt with the help of de Blacam and Meagher Architects); Koralek won the international competition for his library in competition with 217 other architects. Many a plan has been made, considered and abandoned. It is thus a happy joint creation of design and chance which lies behind Christine Casey's judgement that 'Trinity has the largest group of monumental 18th-century buildings in Ireland and is the most complete university campus of the period in these islands'.

The College Chapel[1]

Services are held as follows during teaching term and during the rest of the year as announced.

Catholic

Sunday Mass	12.15 p.m.
Weekday Mass	1.05 p.m.
Holy Days (during term)	1.05 p.m. and 5.05 p.m.

Church of Ireland (Anglican)

Sundays	10.45 a.m.	Sung Eucharist with Sermon
Weekdays	9.30 a.m.	Morning Prayer
	1.15 p.m.	Eucharist in Gallery Chapel (Tuesday)
	5.15 p.m.	Choral Evensong (Thursday)
	6.30 p.m.	Compline (Wednesday)

Methodist/Presbyterian

Weekly (during teaching semester)	As announced
Monthly (during teaching semester)	As announced

A short ecumenical service of readings and prayer is held each Tuesday morning in term at 9.15 a.m. in the Gallery Chapel. Other ecumenical services are held on special occasions as advertised.

Weekday and Sunday Masses are suspended for June, July and August. Masses resume at the start of term.

The Sacrament of Reconciliation is available on request.

There is a Prayer Room, where the Blessed Sacrament is reserved, through the door to the left of the Chapel porch. The Prayer Room is available for quiet reflection and prayer to people of all traditions from 8 a.m. – 6 p.m. daily. Prayer rooms for Muslim worshippers are located in Arch 7, Goldsmith Hall and St James's Hospital.

CHAPLAINS

1 There are five Chaplains appointed by the Board, on the nomination of their respective churches. Their rooms are in House 27.

The Library of Trinity College Dublin

Librarian & College Archivist. Helen Shenton, B.A., M.A., F.R.S.A., F.I.I.C.

The Library's history dates back to the establishment of the College in 1592. Today it has seven million printed volumes with extensive collections of journals, more than half a million maps and very large collections of manuscripts and music reflecting over four hundred years of academic development. More recently, it has established a collection of over 140,000 electronic journals, providing access to 55 million articles, and over 420,000 electronic books. It is the largest library in Ireland and has been a legal deposit library for Ireland and the United Kingdom since 1801.[1] The Library has access to 10 million journal articles and 800,000 monographs through the UK electronic legal deposit. The Library continues to add to its collections through purchases, private donations, acquisitions and as a library of legal deposit.

The Library serves the needs of the College's teaching, learning and research activities of the undergraduate and postgraduate students and of the academic staff. It is a research library of international repute, making available much rare material to scholars from all parts of the world; and in addition it provides an information service to government departments, to research organisations and to technical, industrial and commercial bodies within Ireland. The Library's Digital Collections is making many of Trinity's unique materials available to scholars in digital format through an ongoing programme.

Six of the Library's buildings are located on the College campus. The Old Library, completed in 1732, now contains the Long Room, The Colonnades and the Treasury, and will be preserved and conserved as part of the Old Library redevelopment project. The Department of Manuscripts, the Department of Early Printed Books and Special Collections are now located in the interim Research Collections Study Centre in the Ussher Library. The Boland Library[2] (1967), Lecky (1978) and James Ussher (2002) Libraries form a linked complex of buildings which functions as a single library housing collections in arts, social sciences, business studies, law, nursing, geography and geology. It also contains the Glucksman Map Library and Conservation Department, the Library's main service and administrative areas and a closed access bookstack. The Hamilton Library (1992) houses collections in science, engineering and systems sciences, and health sciences. The 1937 Reading Room serves as a study centre for postgraduate students, and the John Stearne Medical Library is at St James's Hospital. Less heavily used material is stored in a book repository at Santry, and in external storage.

The Library's online catalogues give access to all the modern collections and the majority of the historical collections. Catalogues covering manuscripts collections and digital archives are in development and cover much material. All the Library's catalogues and further information on services and facilities are available from the Library home page at www.tcd.ie/library.

Admission of readers

Members of the College staff and students of the College may be admitted to the Library on production of a current College Identity Card or Trinity authorised identity.

---

[1]The privilege was first given in the year 1801 (41 Geo. III, *c.* 107). The latest act for British books is of the year 2003 Legal Deposit Libraries Act (2003, *c.* 28). By the Industrial and Commercial Property (Protection) Act of the Irish Free State 1927, the copyright privilege of the Library was continued in respect of books published in Ireland. It is continued under the terms of the Copyright and Related Rights Acts, 2000 and 2004.

The Library of Trinity College Dublin

Holders of a Library Link[3] card may apply for a visiting reader card on production of a current Identity Card from their home institution.

Other persons engaged in study or research may be admitted as readers, with the approval of the Librarian, who shall also determine the period for which their admission shall be valid.

All readers are required to observe the terms of the Library declaration and the other Library regulations as set out under the *Calendar*, PART II - GENERAL REGULATIONS AND INFORMATION.

Hours of opening — reading rooms

The opening hours of the Library's reading rooms are available on the Library's website at: www.tcd.ie/library.

Generally, during term, the reading rooms are open Monday to Friday, 9 a.m. to 10 p.m. and Saturday mornings with some extensions for student access at weekends.

Out of term, the reading rooms close at 5 p.m. and are generally closed on public and other holidays.

Opening hours and service levels are subject to ongoing review and details are maintained on the Library's website.

Kinsella Hall in the Ussher Library has swipe card access for overnight study for all Trinity staff and students when the Library is closed.

The 1937 Postgraduate Reading Room is available on a 24-hour basis by swipe card access for postgraduate students.

The Old Library — admission of members of the public

The areas of the Old Library which are open to the public are the Treasury, where the Book of Kells is displayed; The Colonnades, a gallery for temporary exhibitions; the Long Room, and a small gift shop. For more information, including admission charges, see www.visittrinity.ie.

The Old Library is open to the public as follows:

Mondays to Fridays (October)	9.30 a.m. – 6.15 p.m.
Saturdays (October)	9.30 a.m. – 6.45 p.m.
Sundays and public holidays (October)	10 a.m. – 5.45 p.m.
Mondays to Fridays (November to February)	9.30 a.m. – 5.30 p.m.
Saturdays (November to February)	9.30 a.m. – 5.45 p.m.
Sundays and public holidays (November to February)	10 a.m. – 5.30 p.m.
Mondays to Fridays (March)	9.30 a.m. – 5.30 p.m.
Saturdays (March)	9.30 a.m. – 5.45 p.m.
Sundays and public holidays (March)	9.30 a.m. – 5.30 p.m.
Mondays to Fridays (April)	9 a.m. – 6.45 p.m.
Saturdays (April)	9 a.m. – 6.45 p.m.
Sundays and public holidays (April)	9.30 a.m. – 6.45 p.m.
Mondays to Fridays (May to September)	8.30 a.m. – 7.15 p.m.
Saturdays (May to September)	8.30 a.m. – 7.15 p.m.
Sundays and public holidays (May to September)	9 a.m. – 7.15 p.m.

Last admission to the Old Library is 60 minutes before closing time.

Donations

The Librarian is indebted to the many governments, international agencies, universities, libraries, firms, societies, private persons in various parts of the world, and to members of the College staff who have presented material during the year.

[3]The Library Link scheme provides library cards for postgraduate students and staff members to participating national and research libraries in Ireland.

The society known as the Friends of the Library was founded in 1945 to promote an interest in the general welfare of the Library and to provide an income for the purchase of books and manuscripts. The annual programme of the society includes lectures, meetings and a summer outing. The minimum subscription is €35 per annum. Gifts and bequests of appropriate books or manuscripts are welcomed by the society.

II REGULATIONS GOVERNING THE AWARD OF DEGREES

Bachelors

Bachelor in Arts and other Bachelor degrees

1 See TRINITY JOINT HONOURS PROGRAMME AND HONOUR COURSES.

2 In the majority of undergraduate degree courses, students who have passed the Junior Sophister year may have the ordinary degree of B.A. conferred if they do not proceed to the Senior Sophister year or if they do not pass the Senior Sophister year/final degree assessments.

Degrees and diplomas

Except by special permission of the University Council, on the recommendation of the court of examiners, the ordinary degree of B.A. may normally be conferred only on candidates who have spent at least three years in the University. In the case of advanced entry into the Senior Fresh or Junior Sophister year of a student's degree course, the degree of ordinary B.A. may be conferred only on candidates who have spent at least two years in the University, subject always to the successful completion of the Junior Sophister year. See GENERAL REGULATIONS AND INFORMATION for further information. In addition, specific requirements are laid down for students of engineering, dental science and medicine with respect to the conferral of the ordinary degree of B.A.

3 *B.D.* Candidates for the degree of Bachelor in Divinity must be graduates of the University of Dublin, or of a recognised university. (See PART III OF THE CALENDAR — GRADUATE STUDIES AND HIGHER DEGREES.)

Master in Arts

4 Bachelors of the University of at least three years' standing may be conferred with a Master in Arts (*i.e.* an M.A. (*Dubl.*)). This is a title of academic rank and not an examined academic qualification. In the University of Dublin, Masters-level courses of study or research in the Faculty of Arts, Humanities and Social Sciences lead to the award of an M.Litt. or M.Phil., not an M.A.; there are many other Masters-level degrees in each Faculty; and they are all set out in PART III of the *Calendar* – GRADUATE STUDIES AND HIGHER DEGREES. However, none is styled an M.A. In other words, the M.A. (*Dubl.*) is nominal and unexamined, and it is not an academic qualification in the sense that an M.Litt. or an M.Phil. is.

The M.A. (*Dubl.*) has the same functions and status as an M.A. (*Oxon.*) or an M.A. (*Cantab.*), and in none of these functions is it an academic qualification. In Oxford, in Cambridge and in Trinity, there were previously many privileges associated with M.A. status as opposed to B.A. status. For example, in medieval times, the M.A. constituted a licence to teach in the university, and it was awarded to those graduates who had remained on for several years for this purpose. The most important remaining consequences are listed below:

I. It is a basis on which the recipient becomes a member of the Senate of the University. The Senate has a role in formal University decision-making, so membership allows graduates to have some influence on University business.

   Since the degree can be obtained only after three years have passed since the conferral of the B.A., it indicates seniority on the part of the recipient.

II. It is an indicator of academic rank and precedence in academic institutions on formal occasions: it defines the academic regalia which the recipient wears on such occasions, and the role (if any) which the recipient can or must play.

III. As the B.A. is incorporated into the M.A., the formal effect of the M.A. is to supersede the B.A. Hence, a recipient should be styled Joe Bloggs, M.A. (*Dubl.*), rather than Joe Bloggs, B.A. (Mod.) (*Dubl.*). However, a recipient should not be styled Joe Bloggs, B.A. (Mod.) (*Dubl.*), M.A. (*Dubl.*).

On an historical note, the award of M.A. as an exclusively academic qualification seems always to have been the practice in universities in the USA; but, on this side of the Atlantic, the M.A. was first introduced as a formal academic qualification in the nineteenth century by the University of London. Universities founded thereafter followed the London nomenclature. This was the practice adopted when the various colleges which became the National University of Ireland (N.U.I.) were founded in the mid-1800s. Hence, what are called M.Litt.s and M.Phil.s in Trinity are called M.A.s in the N.U.I. (University College Dublin (U.C.D.), University College Cork (U.C.C.), *etc*). This has become the standard practice, with the result that the Oxford/Cambridge/Trinity model is now less common, sometimes leading to erroneous assumptions about the nature of the M.A. (*Dubl.*).

Finally, the M.A. (*Dubl*.) may also be awarded in special cases, such as *honoris causa*, *jure officii,* and *ad eundem gradum* (see §5,7,11).

Candidates wishing to be conferred with M.A. (*Dubl*.) must give notice on the prescribed form which is available from the Academic Registry. The form must be returned so as to reach that office not later than the specified closing date for a Commencements session. The fee for the M.A. is €637[1] and should be paid to the Academic Registry. The fee is waived in the case of eligible staff and graduates of fifty or more years' standing.

Degrees awarded in special cases

Degrees honoris causa

5 A meeting of the Senate for the consideration of names proposed for honorary degrees is held in Michaelmas term. Attention is called to this meeting a week before by a notice at the front gate of the College and by post to members of the Senate who have requested notification.

Degrees jure dignitatis

6 Subject to such regulations as may from time to time be made by the Board, with the approval of the Senate, the Board may, at its discretion, at any time submit to the Senate a grace for conferring a doctorate in divinity or laws, *jure dignitatis*, upon any graduate of the University who has been appointed to such public position as may seem to the Board sufficiently distinguished; provided always that every such grace must receive the approval of not less than two-thirds of the members of the Board present when it is proposed. After admission to the said degree *jure dignitatis* the person admitted is eligible for membership of the Senate on fulfilling the prescribed conditions.

Degrees jure officii

7 The Master in Arts, *jure officii*, is nominal and unexamined, and is not an academic qualification in the sense that an M.Litt. or an M.Phil. is. It is awarded in recognition of consistent and long service by employees of the University or College community. The Board may submit to the Senate a grace for conferring, *jure officii*, the degree of Master in Arts upon members of staff of the University or College (whether part time or full time) who have completed ten years' continuous employment in any role within the University or College by 30 September in a given year. The Registrar will issue an annual university-wide call for applications for this degree. Eligible staff (that is staff who have completed ten years' continuous employment) may, following this call, apply for the degree.

8 For the avoidance of doubt, the rules contained within this paragraph came into effect on June 1, 2022 and do not apply to any previous calls for applications for the degree. Members of staff who would have been eligible to apply for the degree of Master in Arts, *jure officii*, under the rules previously in force but who would not be so eligible under the rules contained within this paragraph, were permitted to apply for the degree following the call for applications in 2023 but not thereafter.

9 In calculating whether there has been ten years' employment, and for the avoidance of doubt:

(a) a period of time spent on paid leave (for example sabbatical leave) constitutes a period of employment;
(b) a period of time spent on protective leave (as provided for by Irish law) constitutes a period of employment;
(c) a period of time spent on unpaid leave or unpaid career break does not constitute a period of employment;
(d) an approved period of unpaid leave or career break that does not entail the termination of the employee's contract of employment does not constitute a period of employment but will not

[1]Fee is currently under review.

be regarded as breaking the continuity of employment in so far as the relevant employee is concerned. Thus in assessing whether the employee in such a situation has ten years' continuous employment, the time spent in employment both before and after the period of approved unpaid leave is reckonable. By contrast, any unapproved period of unpaid leave or career break that entails the termination of the employee's contract of employment will be deemed to break their continuity of employment.

10 The Board may submit to the Senate a grace for conferring, *jure officii*, the degree of Master in Arts upon permanent full-time members of staff of any academic institution, where work in the said institution is accepted in part fulfilment of the requirements for a degree in any faculty in the College, on the following conditions:

(a) graces for admission of Professors may be proposed at a meeting after their appointment to the said institution; and

(b) graces for admission of other members of the academic staff of at least the status of lecturer serving in the said institution for a period of not less than three years may be proposed at a meeting after they have achieved this service to the said institution.

Degrees ad eundem gradum

11 Graduates of the Universities of Oxford and Cambridge are eligible to apply for corresponding degrees of this University *ad eundem gradum.* The Board has ruled that only persons who either

(a) wish to register for a higher degree at this University, or

(b) are members of the academic staff

will be considered, and that no degree will be awarded above the standing of M.A.

12 Applications are referred to the Board for consideration. They should be made to the Senior Proctor, to whom the necessary certificates of graduation must be submitted, with a College testimonial as to character, and a statement of the reasons why the degree is sought.

13 The fees payable are €1,204 for all bachelors' degrees. All fees are paid to the Treasurer/Chief Financial Officer.

14 Candidates who have paid the fee for a degree *ad eundem* may present themselves for the examination for a higher degree before the *ad eundem* degree has been conferred, on payment of the regular examination fee; and, if they are successful, the higher and lower degrees may be conferred at the same Commencements.

15 For the purpose of ascertaining the date at which a higher degree may be taken, candidates are reckoned as having taken the lower degree *ad eundem* on the date at which they obtained the corresponding degree at their own university.

Degrees post obitum intempestivum

16 Subject to regulations made in this respect by Board, Board may submit to the Senate a grace for conferring a degree *post obitum intempestivum* upon a recently deceased student, who had successfully completed all required examinations and all required course work for a degree and was a candidate for that degree, but whose untimely death preceded the relevant Commencements ceremony.

Degrees in absentia

17 Students of the University may be allowed, although not presenting themselves personally at Commencements, to proceed to their degree upon the following conditions:

(a) the academic qualifications required for degrees to be conferred *in absentia* are the same as those required for degrees conferred in person;

(b) the requirement as to fitness of character is also the same as that required for degrees conferred in person, i.e. that before passing any grace for a degree *in absentia* the Board shall require such evidence as it may deem necessary to secure that no unworthy candidate

is presented to the Senate;

(c) subject to the foregoing, the Board may, in special cases, pass a grace for a degree *in absentia* (i) for any candidate resident outside Ireland, or (ii) for any candidate resident within Ireland, who submits reasons for non-attendance in person which seem to the Senior Proctor to be sufficiently urgent. All requests should be submitted with the completed notice of candidature form by the specified closing date for a Commencements session.

Degrees aegrotat

18 Please see 2010 Consolidated Statutes of Trinity College Dublin and the University of Dublin (Chapter on the University section 3(3)(b)). Regulations are set out in the *Calendar*, (see GENERAL REGULATIONS AND INFORMATION).

Degrees propter aliam causam

19 Please see 2010 Consolidated Statutes of Trinity College Dublin and the University of Dublin (Chapter on the University section 3(3)(d)).

III CONFERRING OF DEGREES

General procedure at Commencements

1 Degrees are publicly conferred under the student's registered name, within their degree, by the Chancellor, or a Pro-Chancellor, in the Senate or Congregation of the University, at the ceremony known as Commencements.

2 Candidates for a particular Commencements must give notice, an invitation to the Commencements is issued to the undergraduate graduating class via their my.tcd.ie portal or on the prescribed form, which is available for download at www.tcd.ie/academicregistry/graduation. The form must be returned so as to reach the Academic Registry not later than the specified closing date for a Commencements session[2].

The Student Levies and Charges (SLC) fee[3] consists of the Commencements fee, as well as the student sports development charge, the A.M.L.É. (formerly U.S.I.) membership fee (optional), and the student space and centre levy, and is payable by all undergraduate and postgraduate students annually. Eligible graduands for whom the Commencements fee is outstanding must pay in full at the time of application for conferral. Conditional notice may be lodged at any time but must be confirmed fourteen days prior to the ceremony. Primary degree results must be published at least fourteen days prior to the first date of the Commencements ceremonies.

Senior Sophisters and other final year students who have passed their final examinations are required to return all books to the Library within one month following their examinations. The Library will return records of books and fines outstanding to the Academic Registry, for the purpose of alerting students to their obligation to clear their Library records so that they may proceed to Commencements.

3 The grace for a degree in any faculty, having first been sanctioned by the Board, must be approved by the Senate of the University. Any member of the Caput may veto any proposed grace for a degree. The Proctors, in a prescribed form of words, supplicate the Senate for their public grace for the degrees to be conferred. If the *placets* are in the majority the candidates for degrees are presented by a professor of the faculty in which the degree is to be taken, or by one of the Proctors; they then advance in order before the Chancellor, who confers the degree according to a formula fixed by the University Statutes, after which the candidates subscribe their names in the Register. Except in special cases (see section II, §17 above) candidates for degrees must appear at Commencements and have the degrees for which they are qualified publicly conferred on them.

---

[2]Please note that this process is curently being reviewed and subject to change; please refer to the Academic Registry website for updates: www.tcd.ie/academicregistry/graduation.

[3]See COLLEGE CHARGES for full details of the SLC and rates payable.

Detailed procedure at Commencements

4 The Chancellor announces the opening of the Comitia. At the Autumn Commencements the Senior Master Non-Regent is elected on the proposition of the Chancellor and the Provost; and the two Proctors and Registrar make the statutory affirmation, if they have not already done so.

5 The Junior Proctor supplicates for the degree of Bachelor in Arts. The Senior Proctor supplicates for the other ordinary degrees.

6 The Senior Lecturer introduces the moderators to the Chancellor. They are then presented for their degrees by the Junior Proctor. The Chancellor hands them their medals and/or certificates and admits them. The Senior Lecturer then introduces the Respondents who are in turn presented by the Junior Proctor and admitted by the Chancellor.

7 Candidates for degrees with honours and for ordinary degrees are presented by name, within their degree, and admitted. Candidates are presented by the Proctors or by the professors of their respective faculties. In presenting the candidates the following order is observed:

8 Candidates for honorary degrees are presented by the Public Orator, and admitted.

9 The prescribed dress for Commencements ceremonies is as follows. All candidates must wear formal clothing - black, or white, or a combination of both. Traditionally, candidates identifying as male wear dinner jacket and black trousers, white shirt and black or white tie. It is permitted for candidates, as an alternative, to wear military or religious dress. All candidates must wear the hood and gown of the degree they are qualified to receive (see above); where an edging of a different colour from the lining is not prescribed, the hood is edged with the same colour as the lining, the material is silk unless otherwise specified; the wearing of caps is optional. Casual attire, jeans, trainers, etc. are not permitted.

Please note that candidates who do not comply with the above dress code may be denied permission to proceed with conferral on the day.

Candidates for bachelors' and masters' degrees take their seats in the Public Theatre at the same time.

Full details of the Commencements schedule are available at the following link: www.tcd.ie/academicregistry/graduation.

IV FEES

1 The Student Levies and Charges (SLC) fee[4] consists of the Commencements fee, as well as the student sports development charge, the A.M.L.É. (formerly U.S.I.) membership fee (optional), and the student space and centre levy.

2 No grace for a degree is presented to the Senate unless candidates have paid all amounts due by them to the College and have given notice in accordance with section III, §2.

3 Testimoniums of degrees are presented to candidates for degrees at Commencements, and are sent as soon as possible after Commencements to candidates who have received degrees *in absentia.*

Application for a duplicate degree certificate may be made to the Academic Registry and should be accompanied by a fee of €105.

A duplicate degree certificate may be issued provided applicants declare in writing that to the best of their belief their original certificate has been destroyed, or has been lost for more than twelve months, or (the degree having been conferred *in absentia*) did not reach them through the post; and that if the original certificate is found they will return the duplicate to the Academic Registry.

V DIPLOMAS

1 All diplomates are presented by name, within class, for the award of diploma.

2 Undergraduate diplomas may be obtained in

Acting and theatre
Dental hygiene
Dental nursing
History of European painting
Music teaching and performance
Orthodontic therapy

For the regulations governing the award of the undergraduate diplomas; see under the respective subjects.

[4]See COLLEGE CHARGES for full details of the SLC and rates payable.

3 Application for a duplicate diploma certificate may be made to the Registrar and should be accompanied by a fee of €105.

A duplicate diploma certificate may be issued provided applicants declare in writing that to the best of their belief their original certificate has been destroyed, or has been lost for more than twelve months, or (the diploma having been awarded *in absentia*) did not reach them through the post; and that if the original certificate is found they will return the duplicate to the Registrar.

4 Academic dress for the award of diplomas is as follows:

Undergraduate diplomates: undergraduate gown with a blue epitogue

Student Services

DEAN OF STUDENTS

The overall experience of students at Trinity is based on a mixture of the academic programmes, student led activities, and the student services. The role of the Dean of Students is primarily to develop policies and initiatives that integrate the co-curricular and extra-curricular activities with the academic programme in order to provide a well rounded and balanced student experience. Thus the Dean is, *inter alia*, Chair of the Student Life Committee, one of the main functions of which is to consider how the student experience should develop in the future. Members include representatives of student unions, societies, sports clubs as well the library, academic registry and student services (including in alphabetical order: careers, chaplaincy, counselling, day nursery, disability, health, postgraduate advisory service, sport, student learning development and tutorial services).

CAREERS ADVISORY SERVICE

The Careers Advisory Service (www.tcd.ie/careers), which is part of Trinity Teaching and Learning, supports students to explore their career ambitions and plan how to achieve them. The service operates in a fast-changing and outward-facing environment with the flexibility to be responsive to the needs of its stakeholders (undergraduate and postgraduate students, graduates, academic staff and employers). It provides careers education, information, skills and guidance to students and recent graduates to enable them to realise their career potential and equip them with the skills to succeed in the workplace of the future. It also works in partnership with external partners (e.g. national and multinational employers, government, SMEs, not-for-profit organisations) to ensure local and global opportunities for students and graduates, and provides specific services including:

career planning and preparation (how to plan your career and prepare for your job search through individual advice and guidance sessions, CV/LinkedIn clinics, practice interviews);
careers education (credit and non-credit bearing programmes to develop key skills and personal and career insight);
MyCareer (online career management portal which allows appointment and event bookings and viewing of job opportunities);
access to employers and alumni through careers fairs, sectoral fora and events;
alumni-to-student mentoring;
careers information on the labour market, graduate employment outcomes and job profiles;
online careers resources and tools;
employability awards, scholarships and bursaries.

While the service is open all year round to students across all years and all programmes (undergraduate and postgraduate), it is particularly important that final year undergraduates make contact with the service early in the first term to enable them to meet the early graduate recruitment and postgraduate course closing dates for application.

Regulations

Any past or present member of the College may register with the service, subject to the following regulations:

1 Individuals must register at the MyCareer section of the website (www.tcd.ie/careers).

2 While there is no fee for registration, nominal charges may apply for specific services (see www.tcd.ie/careers for further information).

CHAPLAINCY

The chaplains are representatives of the main Christian churches in Ireland who work together as a team, sharing both the College Chapel and the Chaplaincy in House 27. The Chaplaincy is a place of welcome and hospitality for all members of the university community. It assists students and staff in any way that they can, always providing a friendly listening ear. To those who seek it, the Chaplaincy offers pastoral guidance and spiritual accompaniment through a programme of faith development, seminars, discussion, prayer groups and pilgrimages organised throughout the year. The Chaplaincy promotes a deeper understanding of Christian faith and spirituality, and promotes compassionate care for all staff and students of all faiths and none.

Traditional worship in various traditions is carried in the chapel on a regular basis, and contemporary worship and discussion events also take place around the campus. Several key ecumenical events take place every year, and the chaplaincy provides a haven for students every day providing free tea, coffee and bicuits – every Tuesday during term there is also a free student lunch.

DAY NURSERY

Established in 1969, the Day Nursery was the first on-site workplace nursery in Ireland. It is a recognised College service, catering for the children of College students and staff. It takes care of children from three months to five years of age, operating five classrooms.

The fees for the Day Nursery are currently €129.74 per week (8.30 a.m. to 5 p.m. Monday to Friday) for student parents, and €199.53 per week (8.30 a.m. to 5 p.m. Monday to Friday) for staff parents. There is a ten per cent discount for a sibling.

Funding Programmes a parent might qualify for

The Day Nursery is part funded under the National Childcare Scheme (NCS) and Early Childhood Care and Education Programme (ECCE).

1 The NCS provides financial support to help families with their early learning and childcare costs. There are two types of subsidies available for children aged between 24 weeks and 15 years of age:

a universal subsidy which is not means tested and provides €2.14 per hour for a maximum of 45 hours per week;

an income-assessed subsidy which is means tested and is calculated based on a family's individual circumstances. Rates will vary depending on the level of family income, the child's age and educational stage, and the number of children in a family.

Application should be made for whichever subsidy is of the greatest benefit to a family. For more information go to: www.ncs.gov.ie/en.

2 The ECCE programme is a free, universal two-year preschool programme available to all children within the eligible age range, funded by the Department of Children, Disability, and Equality. It provides children with their first formal experience of early learning prior to commencing primary school. For more information go to: www.gov.ie/en/publication/2459ee-early-childhood-care-and-education-programme-ecce.

Childcare services taking part in the ECCE programme must provide an appropriate preschool educational programme which adheres to the principles of Aistear and Siolta.

The Day Nursery is situated in House 49/50, basement level. Further information can be obtained from the Manager by calling (01) 896 2277 or by emailing Lesley at strahanl@tcd.ie or Sonya at sahern@tcd.ie, and on the website: www.tcd.ie/daynursery.

TRINITY SPORT

The Department of Sport and Recreation was established in 2000. 'Trinity Sport' is now the shared identity of the Department of Sport and Recreation, and the Trinity Sport Union. Trinity Sport's mission is to inspire, engage and connect people in a suitable, inclusive and supportive

environment and a vision to have sport at the heart of the Trinity experience. Links and collaborations exist with other College services to maximise the contribution sport can make to the entire College community. Trinity Sport provides top class sporting facilities, programmes and services to students, staff, graduates, members of the public, and communities. Trinity College Dublin has a proud sporting tradition and the impressive portfolio of sporting facilities at the university includes indoor and outdoor provision as follows:

Indoor sports facilities:

Sports centre (6,000 sq.m)

Main hall (two basketball courts size) and ancillary sports hall (one basketball court size)
Climbing wall
Fitness theatre and studio, wellness studio, spinning studio, high performance gym
Swimming pool (25m x 6 lanes) with adjustable floor and deck level steam room and sauna
Orthopaedics and sports medicine clinic and treatment rooms (massage, physiotherapy etc.)
Board room (for meetings and seminars)

Trinity Hall (4,500 sq.m)

Sports hall (badminton court size), two squash courts and a fitness theatre

Printing House Square

This is the newest indoor sporting facility since the construction of the sports centre in 2007, and provides new spaces for Olympic target shooting, squash, GAA handball, and racquet ball. Both floors and facilities are fully accessible, and include male, female, and universal changing rooms, showers, and toilets. The squash courts are also multi use and allow extra functionality as a large single space for other events and activities.

There are three squash courts, one handball alley and a rifle range. The rifle range has ten lanes and two range distances. The ten metre range is for airsoft shooting, and the twenty five metre range is for .22 calibre shooting.

Outdoor sports facilities:

On campus

College Park

Cricket pitch and athletics track (summer) – soccer and hockey (winter)
Three synthetic tennis courts / one converts to futsal pitch
Natural grass floodlit rugby pitch
Natural grass croquet lawn

Off campus

Santry sports grounds

Located on Santry Avenue, the 34-acre sports facility is approximately 5km from the campus and provides five natural grass pitches for soccer, rugby, GAA (with small viewing terrace), ultimate frisbee and American football, one floodlit international standard water based pitch for hockey, changing rooms, and function room facilities.

Iveagh grounds

Located on Crumlin Road, the 17-acre sport facility site recently aquired provides for GAA, soccer, rugby, hockey and bowls, and changing room space. The site will be developed to provide for better training, flood lit, with artificial training surfaces.

Islandbridge boathouse

Situated two miles upstream from the campus, and at just under seven acres, Islandbridge is home to our rowing clubs. As well as a training base for crews, the boathouse hosts the annual Trinity Regatta that involves crews from all over Ireland and dates back to 1898, with storage, and a dining and function area.

Student services

There are forty nine sports clubs in Trinity, ranging from team sports, adventure sports, water sports to martial arts. Getting involved in a sports club is an ideal way to keep fit, learn a new skill, and build new friendships. An average of six to seven thousand students join one or more sports clubs each year. The sports clubs' governing body is known as the Trinity Sport Union and information on sports clubs may be obtained at www.tcd.ie/sport/student-sport/sport-clubs.

Trinity Sport scholarships are in place to support talented student athletes in the pursuit of their sporting and academic goals. The programme enables students to balance their academic and sporting commitments through a structured network of support services and expertise. Trinity Sport has sport scholarship students from a variety of sports including basketball, rugby, hockey, rowing, GAA, and cricket.

Trinity Sport also places a key focus on the recreational sporting opportunities available to students. There is a full programme of social sports and leagues on campus for students including 3v3 basketball, five-a-side soccer, soccer league, social running, touch rugby and ‘Learn to Play’ programmes. The participation side of Trinity Sport activities include the 'Swim for a Mile' training programme and event, the 'Reindeer Run', and 'Campus 5K'.

Trinity Sport offers a wide range of student leadership, coaching and volunteering opportunities to enable students to develop their skills and enhance the sporting experience for others. Coaching bursaries are available to students to gain qualifications in a range of sports.

Whether students want to perform at a high level, be part of a team, learn a new sport or simply improve fitness, Trinity Sport has a wide variety of sporting opportunities to enhance the College experience.

DISABILITY SERVICE

The Disability Service, formally established in 2000, is based at the disAbility Hub in Printing House Square. It provides a broad range of supports and services to disabled students and staff of the College. The service operates within a transformative and sustainable framework, encouraging individuals to take an active role in developing life skills and in planning their educational and professional journeys.

The service works in partnership with disabled students and staff to create an inclusive and accessible environment that promotes autonomy, participation and success. Students and staff are encouraged to apply for reasonable accommodations where a disability may impact their ability to fully engage in academic, professional, or campus life, including placements and internships.

The College is committed to the principles of equal opportunity in education and employment, and to ensuring that disabled students and staff have full and equitable access to all aspects of College life, in so far as is reasonably practicable. In line with the Disability Act 2005, the Equal Status Act 2000-2018, and the Higher Education Authority Act 2022, the College has adopted a reasonable accommodation policy, and associated code of practice, applicable to all disabled students and staff.

The Disability Service is available to students and staff throughout the academic year, Monday to Friday, and during the summer period, excluding public holidays and College closures.

For further information, please visit: www.tcd.ie/disability.

HEALTH SERVICE

The Health Service is available to all registered students throughout the year, Monday to Friday. Emergency clinics are held daily in the morning and afternoon to deal with urgent medical issues, and are run by general practitioners. Appointments can be made by phoning reception on 01 896 1591, 01 896 1556, or 01 896 8555. For best availability, students are advised to call at 9 a.m. for the morning clinic, or at 12 p.m. for the afternoon clinic. A psychiatrist and psychiatric nurse are available for a number of sessions each week, with access by referral from a medical officer or student counsellor. A physiotherapist is available throughout the year.

Outside office hours in cases of emergencies students should contact DUBDOC, weekdays 6 p.m. – 10 p.m., weekends and bank holidays 10 a.m. – 7 p.m. The telephone number for this

service is 01 454 5607. The service is based in St James's Hospital. The DUBDOC triage nurse will give telephone advice, arrange a house call or offer emergency consultation with a GP on duty in St James's Hospital. Students (with the exception of non-Irish E.U. students with medical card eligibility or students with medical cards) will be responsible for any fees incurred for consultation or home visit. Outside these hours please telephone the Contactors Bureau at 01 830 0244, who will send a doctor on request. Students (with the exception of medical card holders) will be responsible for any fees incurred for home visits.

Hospital treatment

Hospital treatment is supplied under the Hospital Services Scheme. The student will be responsible for any charges and fees incurred as a public or private patient while in hospital.

Certificates

Medical certificates will only be issued following consultation at the Health Service for those students with symptoms who have been certified for an absence of four or more days. All medical information is confidential and will not be disclosed without the student's permission.

Overseas students

All U.K. and E.U. students who are entitled to health benefits under E.U. legislation are requested to present their National Health Service card or European Health card on each visit to the Health Service. Overseas students not eligible for health benefits under E.U. regulations are required to take out private medical insurance in order to cover medical costs which they may incur during their period of study here.

Charges

Attendance at the Health Service is available free to full-time registered students. There are charges to cover the costs for vaccinations, cryotherapy, pregnancy tests, emergency contraception and blood tests. Staff members are facilitated normally by appointment for a GP consultation fee of €55. With regard to physiotherapy, there is a charge of €20 per visit for students and €40 for staff.

The Health Service is not responsible for medical attention not sanctioned by one of its medical officers.

POSTGRADUATE ADVISORY SERVICE

The Postgraduate Advisory Service (PAS) was established in 2009 to extend Trinity's historic and unique tutorial service to the postgraduate community. PAS offers free, independent, and confidential frontline support, guidance and, in certain circumstances, advocacy to registered postgraduate students at Trinity College Dublin. PAS provides support in all aspects of the postgraduate experience and lifecycle at Trinity including, *inter alia*, supervision, academic progression, appeals, disciplinary cases, withdrawals, and financial hardship.

PAS operates a layered support model, encompassing: digital resources; email support; training, workshops, and information sessions; group supports and networks; one-to-one consultations; advocacy and accompaniment; and financial assistance.

PAS is also available to help advise members of staff seeking clarification or guidance on postgraduate cases.

PAS is managed by the Postgraduate Student Support Officer who may be contacted by email at postgrad.support@tcd.ie.

TRINITY STUDENT COUNSELLING, STUDENT LEARNING DEVELOPMENT AND STUDENT 2 STUDENT SERVICES

The purpose of the Trinity Student Counselling, Learning Development and Student 2 Student Services is to provide a range of student development services, supporting students through collaboration, connection and compassion. The service is internationally accredited by IACS

(International Association of Counselling Services), and it's vision is to deliver accessible social, academic, mental health and emotional wellbeing initiatives across the Trinity community, keeping students at the centre of everything. The service offers expert training, peer-based interventions, academic and learning development support, therapeutic groups and individual clinical appointments to all registered Trinity students. Consultation, training and crisis intervention strategies are also offered to Trinity staff. All services are delivered in line with the university strategy and IACS accreditation standards.

STUDENT COUNSELLING SERVICE

The Counselling Service works proactively and collaboratively to promote positive student mental health, wellbeing and resilience, supporting students with their academic, personal and continuing professional development.

The Counselling Service is available throughout the year, free of charge to all registered students of the university. The service aims to provide an initial assessment appointment within two weeks of request. Students are then referred, depending on need, to one or more of the following options: wellbeing workshops, online programmes, therapeutic groups, coping skills sessions, confidential professional counselling, other internal services (such as the Disability Service or Health Service), or referred to an appropriate external agency. Initial assessments can be booked on the Counselling Service's website. A small number of assessments are available by drop-in on weekday mornings. Emergency and crisis intervention appointments are provided on a daily basis. Appointments can be made by emailing student-counselling@tcd.ie. Opening hours are 9am–5pm (including lunch times) Monday to Friday, except Tuesdays and Wednesdays when the service is open during term time until 8pm. The service operates in 7-9 South Leinster Street, in House 47 on the main campus, and in Trinity Hall. The Counselling Service is staffed by professional accredited counselling or clinical psychologists and psychotherapists, interns, assistant psychologists and trainees and currently offers in-person, online and telephone appointments.

Consultation, advice and training is provided for tutors, wardens and other members of staff to assist and support them in their role of caring for students. Additional training may be organised for schools or services on request.

The provision of services is governed by available resources as well as regulations and policies, including the Director's obligations concerning safety. The service operates in adherence with a code of professional ethics and confidentiality.

STUDENT LEARNING DEVELOPMENT

Student Learning Development assists undergraduate and postgraduate students to develop academic skills and competencies to improve performance and facilitate successful transition, progression and career readiness. Workshops and events are delivered on a range of academic skills throughout the year, including self-management skills, study and exam skills, effective presentations, academic writing, critical thinking, successful group work and *viva* preparation. Tailored workshops are provided and available to schools on request. Drop-in clinics and one-to-one appointments are also available to students, along with online study skills resources accessible via Blackboard.

Student Learning Development also operates the TCD Academic Writing Centre, offering a variety of writing services for all students helping them develop their academic writing skills. Services include individual appointments, writing groups and workshops. The Writing Centre is partially staffed by trained doctoral students from a variety of disciplines.

Student Learning Development comprises staff with specialisms in educational and occupational psychology, occupational therapy, engineering and IT in education. They are supported by a volunteer cohort of retired senior academics and collaborate with student services, academic departments and other university services, such as the PAS, the Library and Careers Advisory Service. All Student Learning Development services can be delivered online on request.

STUDENT 2 STUDENT

Trinity College's Student 2 Student (S2S) mentoring and peer support programme is part of the Student Counselling Service, and specifically designed to ensure that every Trinity student knows that they belong in Trinity.

Through S2S, students can get information and support from another student, find a friendly face to have a chat, talk things through, or just ask a few questions when they're not sure whom to approach.

Every incoming undergraduate student will be included in a mentor group, and their first mentor meetup will be part of their orientation timetable. After orientation, mentors will send weekly emails and organise around five social meetups in each term, some of which will be with other mentor groups so that students keep getting opportunities to meet people and to connect. The mentoring programme continues through to the end of year exams in May.

S2S also offers a one-to-one peer support service to every student in the University, on request. Peer supporters are trained intensively in holding non-judgmental, non-directive confidential space for their fellow students.

S2S recognises that student success is founded on belonging and connection, and strives to create a social and supportive environment where everyone can be their authentic self, and is welcomed and accepted as they are.

Volunteers are fundamental to S2S; without them there would be no service. The primary role of all staff in S2S is to ensure the personal and professional development of volunteers, and to foster their resilience and sense of belonging. Student 2 Student has been awarded the Investing in Volunteers accreditation standard.

TUTORIAL SERVICE

The tutorial system in Trinity is one of the oldest structures of student support in College dating from the very beginnings of the University. The service is co-ordinated from the Senior Tutor's Office. On entry, an undergraduate student is placed in a 'chamber' under the care and responsibility of a voluntary member of the academic staff, called a tutor. The tutor offers a confidential, personal service to advise and guide on academic progress and also acts, as appropriate, as an advocate for the student in certain matters pertaining to College regulations and decisions. In addition, the tutor is often a useful gateway to a range of student services in College, such as the Student Counselling Service, the Health Service, the Disability Service, the Careers Advisory Service, Student Learning Development, and finanical aid from the Senior Tutor's Office. Students will find the name and contact details of their tutor on the student web portal.

THE UNIVERSITY ART COLLECTIONS

Curator and Head of the University Art Collections. Catherine Giltrap, M.A.

Trinity College Dublin possesses a significant art collection acquired over a period of some three hundred years, including a distinguished collection of historic portraits and sculptures by Irish and international artists. Additionally, the College holds important silver artefacts, many collected for commemorative and continued ceremonial purposes. Further information is available at www.tcd.ie/artcollections and *Paintings and Sculptures in Trinity College Dublin* by Anne Crookshank and David Webb (Dublin: Trinity College Dublin Press, 1990) plus *The Silver Collection. Trinity College Dublin* by Douglas Bennett (Dublin: Trinity College Dublin Press, 1988).

Actively collecting contemporary Irish and international visual art, the 'Modern Collection' comprises sculpture, paintings, prints, drawings, and, more recently, photographic and digital media. Many major Irish artists from the 1950s to today are represented alongside international counterparts, with campus sculpture being a particular highlight. Information may be sought from www.tcd.ie/artcollections; *George Dawson: An Unbiased Eye. Modern and Contemporary Art at Trinity College Dublin since 1959* edited by Catherine Giltrap (Dublin: Associated Editions, 2010); and *The Modern Art Collection Trinity College Dublin* compiled by David Scott (Dublin: Trinity College Dublin Press, 1989). The art collections are dispersed throughout the College, enhancing communal areas, staff offices, student and guest rooms. Contact artcollections@tcd.ie.

The College Gallery

The *College Gallery*, as it has been known since its inauguration in 1959 by the late George Dawson, Professor of Genetics, was a sub-collection featuring artworks traditionally hired during Michaelmas term by students and staff with rooms and offices in College. The student scheme has been reorientated, in order that, where feasible, every common living area in the student residences on the main campus displays an artwork from the collections all year round. Acquisitions were supported by hire fees until recently, and bolstered, initially, by a grant from the Trinity Trust, the Gulbenkian Foundation and the Arts Council. In addition, artworks are also donated by individuals, including many given by Professor Dawson and artists. The new Art in Rooms scheme (AIR) does not charge the students. The staff AIR scheme will be introduced in phases, commencing in 2026.

SAMUEL BECKETT THEATRE

Theatre Manager. Tim Scott, B.A.

The Samuel Beckett Theatre (www.tcd.ie/beckett-theatre), named after one of the most innovative playwrights of the twentieth century, was opened in 1992 to celebrate Trinity's quatercentenary. It is both the campus theatre of the School of Creative Arts, and a working theatre that hosts performances by theatre companies from Ireland and abroad. During the academic year, the theatre primarily showcases the work of academics, practitioners, and students.

As the biggest black-box theatre space within the city, the Samuel Beckett Theatre regularly hosts performances for the Dublin Theatre Festival, the Dublin Fringe Festival and the Dublin Dance Festival.

[1]Societies and institutions which are recognised by the College but in respect of whose activities the College does not accept any responsibilities are marked with an asterisk. They are listed in this section for information purposes only.

Museums and other institutions

The Samuel Beckett Centre, the building in which the theatre is situated, also houses academic and administrative offices, a seminar room and a dance studio, as well as Players' Theatre, the studio theatre of Dublin University Players, Trinity's student drama society.

BOTANIC GARDEN

Director. Jennifer McElwain, B.A., PH.D.
Curator/Administrator. [vacant]

The College Botanic Garden is situated on the Trinity Hall site. The purpose of the garden is to support botanical teaching and research, and the collections and facilities reflect this. There is a walled garden, arboretum, glasshouses, specialised growth facilities, and a laboratory/office complex. The garden also houses the 'Threatened Irish Plant Genebank', a store of deeply frozen seeds of rare plants. Several species in the living collection are not in cultivation elsewhere. Although not a public garden, the Botanic Garden welcomes visitors and groups by arrangement with the curator. Further information is available at www.tcd.ie/botany/facilities/botanic-garden.

JOHN GABRIEL BYRNE COMPUTER SCIENCE COLLECTION

Curators. Brian Coghlan, B.E., PH.D., Dan McCarthy, B.E., PH.D.

This remarkable collection is located in the School of Computer Science and Statistics. Its title is in recognition of Professor John Gabriel Byrne (1933-2016), who founded and led the Department of Computer Science during its first forty years of rapid development, and has been called both a "genuine Renaissance Man, with a huge range of interests" and "the father of computing in Ireland, responsible, directly or indirectly, for most of the extraordinary success of the Irish software sector". Over his entire life he gathered an impressive and invaluable collection of early computing books and documents, sliderules, software, instruments and machines, which form the basis for the collection. With further donations there are now about three thousand items, see the online catalog at: www.scss.tcd.ie/SCSSTreasuresCatalog.

The collection exists to further scholarly research and teaching; to arrange a visit please contact coghlan@cs.tcd.ie or mccarthy@cs.tcd.ie.

*THE DOUGLAS HYDE GALLERY OF CONTEMPORARY ART**

Chair. Patrick John Prendergast, B.A., B.A.I., PH.D., SC.D.
Director. Georgina Jackson, B.A., PH.D.
Gallery Manager. Rachel McIntyre, B.A.
Engagement and Projects Curator. Emma Moore, B.A., M.A.

In a unique partnership, The Douglas Hyde Gallery of Contemporary Art was co-founded by the Arts Council and Trinity College Dublin. It opened to the public in March 1978 as the first publicly funded space dedicated to contemporary art and the first university gallery in Ireland. It is now an independent company limited by guarantee, with a board of directors partly appointed by the Board of the College. Throughout its history, the gallery has brought artists of significant international standing to Ireland for the first time, including Marlene Dumas, Gabriel Kuri, and Alice Neel, and presented pivotal exhibitions by Irish artists including Sam Keogh, Kathy Prendergast and Eva Rothschild.

Housed in the University's Arts building, the gallery contains two spaces: the cavernous Gallery 1, designed by Paul Koralek of ABK, which is approached down a staircase, from above, and the more intimate Gallery 2, designed by McCullough Mulvin, which was opened in 2001. The Douglas Hyde is a space for challenging and ambitious contemporary art. A key focus is the production and commissioning of contemporary art; supporting international and Irish artists to make bold new work and presenting pivotal solo exhibitions by significant artists of the present and the future. Audiences are profoundly engaged through these exhibitions, as well as artist projects, talks, events, screenings and publications. Standing at the meeting point between the city of Dublin and the leading research university in Ireland, The Douglas Hyde values

excellence, enquiry, experimentation and diversity; knowing that art deepens our understanding of ourselves and gives us new ways of thinking and of seeing the world.

GEOLOGICAL MUSEUM

Curator. [vacant]

The Geological Museum is located in Unit 24 of the Trinity Enterprise Centre, Pearse Street (trinitygeologicalmuseum.com).

The geological collections were first assembled in 1777 and now number over 200,000 specimens. The main palaeontological holdings include Irish Silurian and Carboniferous invertebrates, Mesozoic ostracods, and Upper Palaeozoic miospores, and Pleistocene mammals. The rock and mineral collections largely date from the 1820s and contain both Irish and foreign specimens. They include the important collection of minerals assembled by the Hon. George Knox, M.P. for Dublin University (1797-1807).

Currently the collections are on display in two locations: in the main gallery on Pearse Street and in the entrance hallway of the Museum Building. The former contains the exhibition *The Story of the Earth* that provides a general overview of the geological sciences, while the latter campus exhibition contains skeletons of the iconic Pleistocene mammal, the Giant Irish Deer, as well as some topical geological exhibits.

The geological collections are available for teaching and research, and have been utilised in developing online resources for schools and universities.

TRINITY HALL

Warden. Nigel Stevenson, B.SC., PH.D.

In the year 1908 the house and grounds, now known as Trinity Hall, were acquired by the University. The adjoining house and grounds were purchased in 1910 by John Purser Griffith, MICE, and Mrs Griffith, and presented to the University in memory of Frederick Purser, M.A., F.T.C.D. A further five acres were acquired in 1966 when the Dublin University Botanic Garden was transferred to part of the grounds of Trinity Hall.

Trinity Hall was originally used for women students but is now a residence for all students, with some accommodation for married students and staff. Domestic matters in the Hall are the concern of the Warden, the Assistant Wardens and the Accommodation Officer (Trinity Hall).

HERBARIUM

Curator. Peter Moonlight, B.A., M.SC., D.PHIL.
Assistant Curator. Trevor Roland Hodkinson, B.SC., M.A., M.SC., PH.D.

Though the herbarium (www.tcd.ie/botany/facilities/herbarium) and associated library houses the earliest known collections of Irish plant material (those of Caleb Threlkeld dating from ca. 1722) it was only formally established in 1835.

The herbarium's nucleus was the personal collection of Thomas Coulter, its first curator, after whom both Bigcone Pine (*Pinus coulteri*) and *Romneya coulteri* are named. However, the herbarium is really the creation of William Henry Harvey (curator 1844–1866). Harvey was incredibly hard-working. He writes, "I rise at five a.m. or before it and work until half-past eight on the Antarctic Algae….": this led to the accumulation of 100,000 specimens. More recently the herbarium has focussed on the Flora of Europe (under D.A. Webb: curator 1950-1983) and on the Flora of Thailand (under J.A.N. Parnell: curator 1983-2021).

Following a grant from Lord Iveagh the existing herbarium building was added as an annex to the School of Botany in 1910. The herbarium is now of international importance and scope. It contains ca. 300,000 specimens with about 1,500 specimens being added annually. Its holdings include a large number of type specimens (those on which the original description of a species is based), the biggest international collection of plants in Ireland, one of the largest and most important collections of algae (seaweeds) in the world and core reference collections of plants from all continents on Earth. It is particularly rich in material from South-east Asia (notably A.F.G.

Kerr's from Thailand), Southern Africa, Australia, North America and Europe. It is the only herbarium in Ireland to have digitised any part of its collections, see: plants.jstor.org. The official designation of the herbarium is TCD.

HERMATHENA

Editor. Monica Rachel Gale, B.A., PH.D.
Reviews Editor. Charlie Kerrigan, B.A., M.ST., PH.D.
Editorial Advisers. John Dillon (Dublin), David Ford (Cambridge), Werner Jeanrond (Oxford)

Hermathena, a Trinity College Dublin Review, founded in 1873, publishes scholarly papers. The periodical is published twice yearly, in the summer and in the winter.

Exchange arrangements. Enquiries concerning exchange of other periodicals for *Hermathena* should be made to the Librarian, Trinity College, Dublin 2.

WEINGREEN MUSEUM OF BIBLICAL ANTIQUITIES

Curator. Zuleika Rodgers, B.A., PH.D.

The museum is located in the Arts and Social Sciences Building, and received its present title in 1977 in recognition of Dr Weingreen's efforts in the creation of the museum.

The museum consists mainly of pottery and other artefacts from the ancient near east. The collection was started in 1952 with an important gift of pottery and small objects from the Wellcome Trust, while from the year 1953 allocations were received from the Jericho and Jerusalem archaeological expeditions, to which the College had made annual contributions. Another substantial gift was received from the Wellcome Trust in 1956. A collection of Egyptian and Babylonian antiquities was added in 1957. In 1961 the late Lord Crookshank bequeathed a collection of Egyptian antiquities, Greek and Roman coins, Roman lamps, and leaves from seventeenth and eighteenth century Torah scrolls to the museum. Some pottery from excavations at Buseirah, Jordan, was added in 1977. Further donations have been made by the Hebrew University of Jerusalem, Professor Anne Crookshank, Dr D.B. Harden and Dr C.-M. Bennett. Loans of relevant antiquities for temporary display are welcome; the museum currently has on loan from Mrs J. L'Amie a Samaritan Pentateuch and a Hebrew Scroll of Esther. The museum is a member of the Irish Museums Association.

The museum exists to further scholarly research and teaching. Posters and postcards of some major exhibits are available. Visiting scholars, school parties, and members of the public, are welcome to visit, by appointment, during teaching term. Applications should be made in writing to the Curator of the Weingreen Museum, Arts and Social Sciences Building, Trinity College, Dublin 2 or by email to rodgersz@tcd.ie.

ZOOLOGICAL MUSEUM

Interim Curator. Paula Murphy, M.A., PH.D.

The Zoological Museum (www.tcd.ie/zoology/museum) owes its origins to the establishment of the Dublin University Museum in 1777. The collection was transferred to the Zoology Building in 1876 and following many years of change is now located in a refurbished area on the first floor.

There are over 25,000 objects in the collection, many of which are over 200 years old. A feature of the museum is the many examples of extinct and endangered species including Ireland's last Great Auk (declared extinct in 1844), the Tasmanian Wolf and the Great Indian Rhinoceros. All the main animal groups are represented in the collection which also contains a rare set of the famous Blaschka glass models of marine life dating from approximately 1880.

The museum has three main functions centered around research, teaching and outreach. While the main purpose of the museum is to provide undergraduate training in animal systematics, biodiversity and taxonomy, it has become a popular visitor attraction in the summer

months offering guided tours, school workshops and specialised talks based around a unique interactive experience.

In 2015, the museum was awarded full accreditation of the Museums Standards Programme for Ireland. This achievement reflects the commitment of the Zoological Museum to the long-term care and development of its valuable and historic collection.

The Students' Union is the representative body for all students in the College. It has the dual and complementary functions of representing students' interests both inside and outside College and of providing student services. The elections for President, Education Officer, Welfare Officer, Communications and Marketing Officer, Entertainments Officer, Oifigeach na Gaeilge, and Editor of the University Times are held annually in Hilary term and they hold office from 1 July 2025 to 30 June 2026.

The Union's offices, shop and employment and accommodation bureau are situated in Mandela House, No. 6, College. Computer and mobile phone repairs, ISIC, and student travel cards are also available. The Union also runs the shop at the main entrance to the Hamilton Building and the SU café in Goldsmith Hall. The Union is affiliated to the Aontas na Mac Léinn in Éirinn (A.M.L.É.) (formerly the Union of Students in Ireland (U.S.I.)).

*SOCIETIES AND CLUBS**

The Capitation Committee is a sub-committee of the Student Life Committee. Its role is to apportion the Capitation Fund which is committed to it on the basis of the historically approved allocation procedure by Board to the capitated bodies; to have responsibility for the formulation of the recommendation which is presented to Board by the Student Life Committee in respect of the possible introduction and implementation of levies relating to capital projects and their

subsequent recurrent costs; and of levies funding the internal operation of the capitated bodies and their dependent organisations; to ensure the observance of all regulations pertaining to the capitated bodies and their dependent organisations, as published in the University *Calendar*; and to carry out such other functions as may from time to time be delegated to it by the Student Life Committee.

Funds are allocated to the Central Societies Committee (who oversees the activities of College societies), the Trinity Sport Union (who oversees the activities of College clubs), the Students' Union, and Trinity Publications. The committee enforces rules for the accountability and control of monies which must be observed by officials of societies and clubs and, in particular, by treasurers, who should when elected to office make themselves familiar with these rules.

The Students' Union and any College society or club planning to hold a concert or gig in College must apply for permission to do so a minimum of ten working days in advance of the function. Permission is granted by the Junior Dean, (application form available from the Junior Dean's website at www.tcd.ie/junior_dean/events).

Permission for residents to hold a party in College must be obtained from the Junior Dean at least five working days in advance. Application form available from the Junior Dean's website at www.tcd.ie/junior_dean/events.

CENTRAL SOCIETIES COMMITTEE*

Chair. Conchúr Ó Cathasaigh
Treasurer. Henry James
Secretary. Berenice Guerrero
Amenities Officer. Faolan Doecke Launders
Administrative Officer. Emma Matthews
Bookkeeper. Noelle Joyce

The C.S.C. acts as the coordinating body to promote the interests of student societies and to act as their representative within the University of Dublin and Trinity College. Its principal functions are to consider applications for, and to grant, recognition as College societies; to regulate the continuing recognition of such societies; to distribute grants to societies out of the money allocated to the C.S.C. by the Capitation Committee; to oversee the usage of said monies; and to oversee the auditing of the accounts of societies.

The committee consists of the treasurers of all recognised College societies. An executive committee of five officers and eight ordinary members is elected at the annual general meeting held in Hilary term.

The C.S.C. Office acts as an information centre for those interested in societies. Office hours are posted on the C.S.C. website: www.trinitysocieties.ie.

THE TRINITY SPORT UNION*

Chair. Jane Prendergast
Vice-Chair. Ciara Mulligan
Junior Treasurer. Sam Ledoux
Secretary. John O'Hara
Administrative staff.
Niamh Digby-Bratton, B.SC., M.B.A.

The Trinity Sport Union is the administrative body for sports clubs in College and is located in the Sports Centre. The executive consists of twenty-two members elected annually in April and are confirmed at the annual general meeting held in October. The Trinity Sport Union distributes to the clubs the monies allocated by the Capitation Committee.

TRINITY PUBLICATIONS*

Chair. Kay Williams
Secretary. Akshita Hunka
Treasurer. Alex Culliton
Amenities Officer. Charlotte Kent
Alumni Officer. Emily Sheehan
Public Relations Officer. Isabel Feeney

Trinity Publications operates as the overall coordinating body for College student publications and is responsible for the distribution and monitoring of funds allocated to it by the Capitation Committee. It also provides facilities and information to College student publications and interested parties. The committee consists of five executive officers and the editors of all recognised publications. The officers are elected annually at the annual general meeting.

*TRINITY DEVELOPMENT AND ALUMNI**

Trinity Development and Alumni, through the effective development and management of Trinity College Dublin's fundraising activities, promotes T.C.D. as a community of academic excellence. It assists College in the strategic planning and continued development of its links with the world of business and industry. It maintains relationships with the College's 174,000 alumni via an annual programme of communications and events, and co-ordinates mentoring and other volunteer programmes which allow alumni to give back to the College.

Trinity Development and Alumni coordinates the large network of alumni chapters throughout the world which enables graduates to stay in touch with one another. These chapters regularly organise activities and social events and are a great way for alumni to make new connections or meet old friends. Chapters also provide a channel of communications between members and the College so alumni can stay up to date with the latest College news. To find out more about the chapter network, please visit www.tcd.ie/alumni/community/branches.

The Trinity College Dublin Association (established 1928) and the Trinity College Dublin Trust (established 1955) were incorporated in 1987 into a single organisation known as the Trinity College Dublin Association and Trust.

The Association exists to foster contacts between its members and Trinity College Dublin and to support the College inter alia by promoting the purposes of the Trinity College Dublin Trust.

Membership is open to all Fellows and Honorary Fellows of the College and graduates and honorary graduates of the University of Dublin. Applications for membership are also welcomed from all former undergraduates of the University who kept at least three terms' lectures, and any other former students at the University who attended lectures regularly for at least three terms or resided in Trinity College or at Trinity Hall for at least three terms. Membership is also open to all members and former members of the academic staff of the University who have held their appointment for at least twelve months. Undergraduates are not eligible for membership.

To register for membership, please email alumni.relations@tcd.ie giving your full name, address, degree and year of graduation and your student number (if known). The annual general meeting is held in College on the Monday of Trinity Week. Members are entitled to such College

facilities as may be made available from time to time, may wear the tie and blazer of the Association, and may attend the dinners and other functions organised by the Association in Trinity College and by branches throughout the world.

*Trinity College Dublin Trust**
(Trinity College (Dublin) Educational Endowment Fund)

The Trinity College Dublin Trust was established in 1955 to continue and amplify the work of the Trinity College (Dublin) Educational Endowment Fund, which owed its inception to the initiative of the late Sir Robert Woods. The aim of the Trust is both to build up a capital sum large enough to augment substantially the existing endowments of the College, and to make grants to the College for the promotion of research or education in its widest sense.

Subscriptions and donations to the Trinity College Dublin Trust may be sent to the Financial Secretary, Trinity College Dublin Association and Trust, East Chapel, Trinity College, Dublin 2.

Cheques should be made payable to the Trinity College Dublin Trust.

Grant applications are only considered at the meetings of the executive committee of the Trust held in the eighth week of Michaelmas Term and the eighth week of Hilary Term.

The deadlines for the receipt of grant applications are as follows: 24 October 2025 for the Michaelmas Term meeting and 6 February 2026 for the Hilary Term meeting.

All applications must be submitted by the relevant deadline and on the official webform: www.tcd.ie/alumni/community/association-and-trust/a-and-t-form.php.

The University of Dublin U.S.A. Fund is a trust organised in 1954 under the laws of New York State to support 'the educational purposes of the University of Dublin, whether in Ireland or the United States'. Contributions to the fund are tax-deductible in the U.S. and can be sent to: University of Dublin U.S.A. Fund, 1350 Avenue of the Americas, Floor 2, Suite 266, New York, NY 10019, U.S.A.

TRINITY WOMEN GRADUATES' ASSOCIATION (TWG)*

President. Vitalia Bikmametova
Vice-President. Julia Carmichael
Honorary Treasurer. Julia Carmichael
Secretary. Dervla O'Flaherty

Established in 1922 as the Dublin University Women Graduates Association (DUWGA), at a time when women had to be off campus by 6pm and could not dine in the Dining Hall. What began as a way for a small group of women to keep in touch with Trinity, and each other, has flourished into a vibrant inclusive community with a varied programme of events throughout the year. Membership is open to women graduates of any recognised university.

To celebrate one hundred years of Trinity Women Graduates in April 2022, TWG, in partnership with the Library of Trinity College Dublin, launched the Trinity Women Graduates Centenary Exhibition in the Long Room of the Old Library, alongside an online Virtual Trinity Library exhibition which is accessible at www.tcd.ie/library/exhibitions/trinity-women.

TWG is affiliated to the Irish Federation of University Women (IrFUW), the University Women of Europe (UWE) and Graduate Women International (GWI).

TWG arranges lectures and social events for members. The association supports a bursary fund, a TAP (Trinity Access Programmes) scholarship, provides an annual award to a female TAP student, and other causes. Within the Irish Federation of University Women (IrFUW), TWG runs a public speaking competition for girls aged under fifteen.

In addition, TWG participates in graduate events organised by Trinity Development and Alumni and the T.C.D. Association and Trust.

BOOK SALE COMMITTEE*

Chair. Robert Bradshaw Otway-Norwood, B.A.
Secretary. Siobhán McBennett, M.A., G.I.BIOL.
Treasurer. Teresa Trainor, B.A.

The Book Sale Committee was established in 1989 by a group of graduates and staff under the auspices of the T.C.D. Association and Trust, in association with the Friends of the Library. The committee organises an annual sale of second-hand books to support research in the College by providing funds for the purchase of research materials by the Library and departmental libraries. Books may be delivered throughout the year to the sorting centre in the Goldsmith Hall. The sale is usually held in the Public Theatre. Applications for grants should be made through the Book Sale Committee. Successful applications are then administered by the T.C.D. Association and Trust. Email booksale@tcd.ie.

*TRINITY LGBT+ STAFF NETWORK**

Co-Chairs. Evan Blake, Joel McKeever
Secretary. Lisa McCormack

Members of the Committee. Ralph Armstrong-Astley, Daniel Ferrick, Padraic Fleming, Jason Keegan, Noel McCarthy

Alumni and other Societies

The Trinity LGBT+ Staff Network was established in 2016 by staff volunteers in the wake of the historic Marriage Equality referendum, with the goal to create a community which could continue to foster equity and inclusion for LGBTQI+ people at Trinity and in wider society. The network aims to create continuity from contributions by LGBTQI+ staff throughout Trinity's history, including the Sexual Liberation Movement (SLM) – a foundational gay rights movement established at a meeting in House 5 in 1973 – and its successors in the student-led society which became Q Soc (Lesbian, Gay, Bisexual and Transgender Society (D.U.)).

The aims and objective of the Trinity LGBT+ Staff Network include:

- to facilitate social and professional networking for Trinity LGBT+ staff
- to advocate for and raise awareness of LGBT+ issues, and
- to ensure that this is reflected in a positive, inclusive, and fulfilling work environment

Membership of the network is open to staff of Trinity who are LGBTQI+ or allies of the community. The network includes staff from across the professional, academic, and technical divisions, and has associate members drawn from the Equality, Diversity and Inclusion (EDI) functions at Trinity, as well as EDI-related groups across the higher education sector.

All enquiries are warmly welcomed to LGBTStaff@tcd.ie.

*TRINITY RETIREMENT ASSOCIATION**

Chair. James Lunney
Secretary. Monica Alcock
Treasurer. Claire Laudet
Membership Secretary. Shane Allwright

Other members. David Gough, Jim Malone, Tom Merriman, Myra O'Regan, Jean Whyte

The Trinity Retirement Association (TRA) was launched in April 2014 following feedback from the College's retired members of staff, to enable former staff members to keep in touch with Trinity, with each other, and the wider Trinity community. The association is open to all the College's pensioners and their spouse/partner.

The aims of the association are to promote a focal point for members to meet and engage in educational, cultural, sporting and social activities; to promote a spirit of self-help and independence and to encourage members to use their energy, talents, skills, knowledge and experience to benefit each other and the College; to encourage positive attitudes to ageing and retirement; and to provide general information of interest to members.

The association is governed by a constitution and operates on an autonomous, self-financing basis. Full details can be found on the TRA website at tcdretired.ie, email info@tcdretired.ie.

Special and Public Lectures and Courses

SPECIAL LECTURES

Elementary Irish

A course in Irish for beginners is given each year. It is, as a rule, confined to members of staff, students on the College books and graduates of the University.

PUBLIC LECTURES

The Cocker lecture in chemistry

In 2007 the late Professor Wesley Cocker bequeathed a sum of money to the College for the benefit of the School of Chemistry. The income from this bequest is used to support an annual lecture on a topic of public interest related to chemistry. The speaker, eminent in the field of chemical science, is chosen by staff of the School of Chemistry.

The Godfrey Day memorial lectures

The Godfrey Day memorial lectureship was founded by the Board on 9 December 1939. Each year a lecture (or lectures) on a missionary theme is organised. The Board appoints the lecturer on the nomination of the Missionary Council of the Church of Ireland which is at all times advised by the committee of the Dublin University Far Eastern Mission.

The Donnellan lectures

The Donnellan lectures were founded by the Board on 22 February 1794, to carry out the intentions of Miss Anne Donnellan, of the parish of St George, Hanover Square, Middlesex, spinster, who bequeathed £1,243 to the College 'for the encouragement of religion, learning, and good manners; the particular mode of application being left to the Provost and Senior Fellows'. The subject is presented in not less than two lectures.

The ecology, evolution and environment seminar series

Hosted by Zoology and Botany within the School of Natural Sciences, this seminar series presents weekly research talks by national and international experts. The seminars are open to all and announced on the events calendar.

The Edmund Burke lecture

The annual Edmund Burke lecture was instituted in 2014 by the Trinity Long Room Hub arts and humanities research institute thanks to a generous endowment from the Fallon family in honour of Trinity graduate Padraic Fallon (B.A. 1969). The lecture was established to mark Trinity College Dublin's deep connection with the 18th-century philosopher, historian and politician Edmund Burke. This lecture is to be delivered by a leading public intellectual on a topic that engages with current challenges and in doing so keep Edmund Burke's manifold legacies alive in considering the type of society we want to live in and the traditions, perspectives and values we need to draw on in the shaping of our future.

The E.S. and R. Duthie lecture in microbiology

In 1984 the late Mrs Ruth Duthie made a gift of £1,000 to the College, which she augmented in 1989 by a further £1,000, to fund a lecture to be delivered once every two years, the lecturer to be chosen by the Professor of Microbiology or the Head of Microbiology, and the Head of Clinical Microbiology.

Public Lectures

The French departmental lecture

This annual lecture was founded by the French Department in 2023. Each year a lecture will be delivered on an area of French studies by someone who has made an outstanding contribution to the field.

The French research seminar series

This seminar series was founded in 2023 to provide a platform for scholars in French, at all stages in their career, to present their research findings in the field of French studies.

The end-of-year lecture in French studies

This annual lecture was founded by the French Department in 2023. Each year an eminent specialist in the field will be invited to deliver a lecture in an area of French studies.

The Hely-Hutchinson memorial lecture

In 1976 the Earl of Donoughmore, together with members of the Hely-Hutchinson family, endowed a visiting lectureship in memory of John Hely-Hutchinson who established the Professorships of Modern Languages and Literature in 1776 (during his term as Provost). The lectures are given every second year by a scholar or writer of the highest distinction in the modern languages and literature field.

The Joly memorial lectures

After the death of John Joly, F.T.C.D., SC.D., F.R.S., Professor of Geology and Mineralogy 1897-1933, a number of his friends subscribed a sum of money to found a series of lectures in his memory.

The John Kirker memorial lecture in epilepsy

Dr John Kirker (1922-2011), a graduate of the University of Dublin, was consultant neurologist in Sir Patrick Dun and Beaumont hospitals. He was instrumental in the development of clinical services in epilepsy in Ireland. Dr Kirker cared deeply about Trinity. In 2013 his family provided an endowment to fund an annual John Kirker memorial lecture in epilepsy to be organised by the School of Medicine.

The Eleanor Knott memorial lecture

Founded in 2023 by the Department of Irish and Celtic Languages, this lecture honours the distinguished Irish-language scholar Eleanor Knott (1886–1975), who began lecturing in College in 1928 and was appointed Professor of Early Irish in 1939. Each year a lecture will be delivered by an eminent scholar on a topic in the field of medieval or early modern Irish.

The James Lydon lectures in medieval history and culture

The Lydon lectures provide a platform for a distinguished lecturer to reflect on these issues and to convey specialist findings to a mixed audience of academic specialists, students and members of the public. The series, which is published by Cambridge University Press, is named for Professor James Francis Lydon, Department of History, who died in 2013.

The MacNeill lectures

This lectureship was founded in 1970 from a benefaction provided by the Engineering School Trust Fund to commemorate Sir John MacNeill, the first professor of civil engineering in the University. A public lecture is delivered every year by a lecturer appointed by the Board.

The Normanby lecture in microbiology

Founded in 1996 by the Department of Microbiology in recognition of the generous support given to the department by the late Dowager Marchioness of Normanby and her family, which includes funding the construction of the Moyne Institute of Preventive Medicine in 1953 and the provision of additional research facilities within the institute since then. The lecture is delivered annually by a research scientist who has made an outstanding contribution to the field of

microbiology.

The O'Donnell lectures in Celtic history and literature

These lectures take their name from Charles James O'Donnell 1850-1934, who bequeathed a sum of money to found annual lectures in the Universities of Oxford, Wales and Edinburgh, the National University of Ireland, and the University of Dublin. In the British universities the lectures are on the Celtic element in the English language and population; in the Irish universities they are on Irish history since Cromwell, with special reference to the history of ancient Irish families since 1641. The first O'Donnell lecture given in the University of Dublin was in 1957.

The Royal Dublin Society lecture

In 1981, on the occasion of its 250th anniversary, the Royal Dublin Society commemorated the College meeting to which it traces its origins by endowing a biennial lecture on aspects of Irish social and economic policy and history with special reference to the contribution of individuals and institutions.

The School of Social Sciences and Philosophy autumn lecture series

This series of four lectures examines a pressing issue in society through the disciplinary lens of the School's four departments: Economics, Philosophy, Political Science, and Sociology.

The W.B. Stanford memorial lectures

These lectures were founded in 1988 from funds provided by subscription to commemorate William Bedell Stanford, Regius Professor of Greek 1940-80, and Chancellor of the University 1983-4. A series of three public lectures is delivered twice every three years by a lecturer appointed by the Board. It is intended that the lectures shall be published.

The John Lighton Synge public lecture

This lecture was established in 1992 from funds subscribed by friends and past colleagues and students to honour John Lighton Synge, F.R.S., M.R.I.A. [Scholar (1916), Fellow and Professor of Natural Philosophy (1925-30), Honorary Fellow (1954-95)]. The lecture is delivered once every two years by a lecturer appointed by the School of Mathematics.

The Hilda and Robert Tweedy lecture series

This lecture series was established in 2007 in honour of Mr and Mrs Robert and Hilda Tweedy by Dr Jean M. Tweedy Walker, a Trinity alumna and daughter of Hilda and Robert. It consists of biennial lectures alternatively addressing peace, gender and human rights, and environmental issues. These topics reflect long-time interests of Hilda and Robert Tweedy.

The H.O. White memorial lectures

These lectures were founded in 1964 from funds provided by subscription to commemorate Herbert Martyn Oliver White, Professor of English Literature 1939-60. A public lecture is delivered every two or three years by a lecturer appointed by the Board and is followed by a seminar for senior students in English literature.

The White social policy lecture series

This lecture series was established in 2004 from funds given by Tony White, former student of the College, to honour *Emeritus* Senior Lecturer in Social Policy, Anthony Coughlan.

The Whitfield drama series

This series of events incorporating academic talks from visiting lecturers and workshop masterclasses from visiting practitioners was established in 2019 from funds given by Needham Whitfield in memory of his wife Brigid Pike Whitfield, a Trinity graduate in modern languages and a life-long lover of the performance arts.

Public Lectures

The Barbara Wright memorial lecture in French studies

This annual lecture was founded by the French Department in 2020 in memory of Professor Barbara Wright. Each year a lecture is delivered by an eminent specialist on a subject in the field of Professor Wright's research interests, namely textual and visual studies and nineteenth-century French literature.

Records

Special record volumes are published from time to time as the Board may direct, the most recent being in 2006. It contains lists of scholars (1951-2000), honorary degrees conferred (1949-2000), degrees conferred and qualifications awarded (1949-2000), moderators and respondents (1950-2000).

BURKITT MEDAL

Established in 2013, the Burkitt Medal is designed to recognise people with the integrity, compassion and dedication matching that of Denis Burkitt, a Trinity graduate, who is known for his discovery of Burkitt lymphoma.

The Burkitt Medal represents an opportunity for Trinity to acknowledge outstanding achievements of practitioners and researchers in cancer, preferably connected with Trinity or with a potential to establish closer links. It is also a channel for raising profile of the quality work conducted by Trinity academics and of Trinity's rich heritage.

TEACHING AWARDS

The Teaching Awards recognise and celebrate those who have made an outstanding contribution in the pursuit of teaching excellence.

The Inspiring Educator Award recognises those who have made a significant contribution to enhancing teaching excellence, inspiring and motivating students to learn and inspiring colleagues to enhance their own practice.

The University Excellence in Teaching Award recognises those who have made an exceptional contribution to teaching and learning at Trinity, often with a lasting impact on students, colleagues, and the institution.

'Teaching' can be interpreted broadly to include curriculum design, delivery and evaluation, and 'teaching excellence' can take many forms. In the context of this award, 'teaching excellence' can be defined as achieving and sustaining outstanding quality of teaching and positive educational impact through the effective use of pedagogies that engage and enhance student learning. The prestige of the award reflects the value that Trinity places on promoting teaching as a scholarly activity and the importance placed on enriching the learning opportunities of its students.

The scope of the teaching award initiative is broad, covering all aspects of teaching, learning and assessment, and seeks to:

- provide recognition for outstanding teaching
- encourage teaching staff to reflect critically on their teaching and learning practice
- encourage teaching staff to consider scholarly approaches to course design, delivery and assessment
- reaffirm that curriculum development, teaching, learning, assessment, and evaluation are important activities in College requiring high level expertise
- share best practice in teaching, learning and assessment across College

All members of Trinity academic staff, or academic-related professionals with roles in supporting teaching and learning, are eligible for nomination by students, alumni and staff. Candidates must receive a student or alumni nomination to be deemed eligible to proceed and must also be on one of the following contracts: permanent contracts, indefinite duration contracts, contracts of more than one year in duration that do not expire before 30 June in the year of submission, or adjunct lecturers with a contribution to a programme that extends thirteen months or more. Eligible nominated candidates will be contacted and invited to submit an application for the award.
