

# Zeta book scanner

## Zeta-scanner Steps

- **Step 1** - Insert your USB stick
  
- **Step 2** - Give a name to your scan so its identifiable on your USB pen (Leave all other options as they are)
  
- **Step 3** - Layout the first pages of the book you are scanning & press the Scan button
  - Tip - Use your fingers to pull the page edges as flat as you can.
  - If scanning multiple pages change the page and hit scan again
  
- **Step 4** Press Save once complete and remove your USB stick
  - The File will appear in a folder called Zeta on your USB stick
