

ECP77200 — Dissertation

Replace the heading above with the module code and title before converting to PDF.

Module Information	
Module Code	<i>ECP77200</i>
Module Title	<i>Dissertation</i>
Department	<i>Economics</i>
Module Personnel	<i>Supervisors</i>
Academic Year	<i>2026–27</i>
Credit Weighting	<i>25 credits</i>
Semester	<i>Both</i>
Contact Hours	<i>N/A</i>

Module Content	
Module Description	<i>Students must submit a research proposal by the start of Hilary Term (in Year 2, for part-time students), with the aim of completing a dissertation on this topic by June 30th for both Full time and Part time students. Dissertations that do not meet the minimum standard required will be subject to ‘minor corrections’, in which case students will have until August 15th to revise and re-submit their dissertation.</i>
Learning Outcomes	<i>After successfully completing the dissertation , students should be able to:</i> <i>1. Identify a research question worthy of sustained scholarly attention.</i> <i>2. Design a research plan appropriate to answering that question within given time and resource constraints.</i> <i>3. Implement all stages of that research design independently, including the structured collection of new information, the application of appropriate analytical techniques and the interpretation of the results.</i> <i>4. Present their research in written form in a manner that withstands scrutiny</i>

Assessment	
Assessment Components	100% Thesis
Assessment Details	N/A

Additional Information	
Prerequisites	None
Co-requisites	None
Any other information	None
