

Political Economy A | ECP77174

Year	1
ECTS Credits	5
Contact Hours	10 hours of lectures and 5 hours of lectures
Pre-Requisite	Nil
Semester	2
Module Leader and Lecturer	Professor Sharyn O'Halloran
Contact Email	shohallo@tcd.ie

Module Outline:

By the end of this course, students will understand the core theories and concepts of political economy and effectively apply them to real-world challenges to contribute meaningfully to public policy analysis in their field.

1. Foundational Understanding

- Define primary political economy concepts.
- Chart its historical impact on global economics.

2. Theoretical Analysis

- Develop a toolkit emphasizing social choice, median voter, and gridlock theories.
- Conduct stakeholder analyses, gauging actors' interests and influence.
- Explore the drivers behind institutional design and its policy implications.

3. Contemporary Issues and Application

- Examine interest group lobbying and its policy effects.
- Investigate trade's political and economic aspects.
- Analyze global financial regulation, balancing risk and growth.

4. Critical Evaluation

- Assess political economy theories, noting strengths and limitations.
- Critique policy decisions using the course's analytical tools.
- Engage in class discussions, applying the tools developed to the case analysis.

5. Research and Presentation Skills

- Research political economy topics, utilizing varied sources.
- Present findings coherently, merging theory and evidence.
- Connect insights from across political economy to address intricate issues.

Topics covered include:

1. Introduction: The Political Economy Toolkit
2. Political Economy of Interest Groups and Lobbying: focusing on lobbying, voting, and legislative bargaining in domestic and international settings.
3. Political Economy of Market Regulation: focusing on financial regulation, antitrust, and intellectual property
4. The Political Economy of International Trade: focusing on issues such as market access, WTO compliance, international labour standards, and workers' rights.
5. Student Presentation

Module Learning Outcomes:

Students will learn strategies and analytical tools for policy managers and analysts as they confront economic, political, legal, and global challenges. Cases and readings emphasize policymakers decision-making as they navigate multiple constituencies.

Assessment:

- Participation 10%
- Assignments 30%
- Presentation 10%
- Final paper
