Re: Returning the Inishbofin human remains

7/12/2022

Dear Trinity Legacies Review Working Group:

Thank you and the Provost's Office for your collective effort in addressing the legacies of colonialism, in this case regarding the request to return human remains, including 13 crania and additional cranial fragments stolen by Alfred Cort Haddon and Andrew Francis Dixon from Inishbofin, County Galway in 1890, as documented by Haddon himself in his diary. Indeed, as the TLRWG stated in their own review of the evidence: the remains were "removed...without islanders' consent". This campaign for repatriation, initiated long ago by Marie Coyne (Inishbofin Heritage Museum), will hopefully soon come to fruition. It is two years ago this month since our letter to request the return of the remains was sent to the previous Provost, Paddy Prendergast, signed by Marie Coyne, Ciarán Walsh and myself.

Given the irrefutable provenance of the crania, this should be all the evidence necessary for Trinity's Board to consider in their upcoming meeting to decide if they will honor the demand by Inishbofin islanders for the return of these remains to their community of origin, as well as the request to return the remains by Inishbofin descendants, including me. Hearing our voices matters. Thank you.

Supporters of this request, along with the growth of repatriation demands internationally, and the call for 'repatriation as pedagogy' by academic institutions, fellow scholars, colleagues, and academic organizations are increasing. They recognize our need to deal with the complex, sometimes fraught histories of our respective disciplines, such as my own field of anthropology. In terms of the legacy of colonialism and the unequal power relations that resulted in the initial theft of these human remains from Inishbofin, this is an important step towards healing.

Since you have all the evidence needed in your hands, and because this open call is specifically for 'evidence based submissions', I will keep my letter short given that Ciarán Walsh has already submitted additional evidentiary statements that supplement those already emailed with our February 2021 letter. No osteoarcheological reports or carbon dating should be considered as evidence. They should be considered mute points since the only evidence that matters is that they were taken from Inishbofin without consent, documented as such, and therefore must be returned as per the requests and sentiments of islanders, themselves.

In sum, I was present to witness the overwhelming evidence supporting repatriation on a number of occasions: by the Inishbofin zoom delegation at the September 1, 2022 meeting at the Provost's Office, by a show of hands in a unanimous vote tabled at our meeting on Inishbofin, November 4, 2022 with all of you (TLRWG), and through two petitions later the same month. The first petition includes over

Dr. Pegi Vail
Center for Media, Culture and History

80% of the population of Inishbofin, demanding the repatriation of the human remains through their handwritten signatures. The second online petition has been signed digitally by nearly 900 supporters to date, many of them Inishbofin descendants. The comments from the latter are attached with this letter.

Trinity has the unique opportunity through their leadership in this precedent-setting case to return human remains to their community of origin in Ireland, to Inishbofin. The issue of repatriation by universities and museums to source communities has become increasingly recognized by the wider public. Trinity can shine a light and serve as an example during this moment of global reckoning.

Warm regards,

Pegi Vail

Note: Attached, please find the Change.org petition download, with a second file featuring the comments of over 35 descendants. This petition will continue until December 14, 2022.

Mark Long	US	19/11/2022	"My ancestors remains should rest in peace on their Island, not a dusty sheft in a museum after being stolen by their colonial overlords as a curiosity"

Donald wleklinski	US	19/11/2022	"Needs attention."
Angela DeVivo	US	19/11/2022	"As far as I know these remains could be related to me. If they need research maybe they can ask me for my DNA instead of keeping these remains in box. My great-great grandmother came to the US from Inishbofin after her father and brothers were lost at sea."
Geraldine Corrigan	Ireland	19/11/2022	"I believe they should be returned to rest in peace in their rightful resting g ER ground"
Kevin Bauer	US	20/11/2022	"The Irish have more of a right to their ancestors than that podunk Trinity College does. Especially now."
Mary Day Lavelle	Ireland	20/11/2022	"They should not have been stolen in the first place. They could be my ancestors"
Tom Mongan	Ireland	20/11/2022	"tom mongan"
Jacki Lyden	US	20/11/2022	"Jacki Lyden & Will O'Leary ---Dehumanizing,deplorable. What we've seen with Native Americans, African countries, and the callousness of 19th century "phrenology." Let these people rest at home. It's the civilized thing to do. It's the moral thing."
Martin Phillips	Ireland	20/11/2022	"I believe that history is always local."
Byrne John m	Ireland	20/11/2022	"To restore remains of people layed to rest by loved ones ."
Larry Lane	US	21/11/2022	"It's the right thing to do. They are not museum pieces for display. These are the remains of known ancestors of living descendants who yet live on the island. How would you like it if we drove down to the church and dug up your mum to use her skull for a class project?"

Patricia Darby	US	21/11/2022	"These bones need to come back to their home and have a dignified burial!"

John Stephens	Ireland	22/11/2022	"There is no reason to retain these human remains (historical or medical) and they should be returned to Inishbofin."
Dermot McElholm	UK	23/11/2022	"This is morally wrong"
keelin kennedy	Ireland	24/11/2022	"Keelin Kennedy"
Linda Finucane	US	27/11/2022	"There is no reason for TCD to keep these remains. Please return them so they may rest where they belong."
Aoife McGough	Ireland	02/12/2022	"I believe strongly in the repatriation of stolen cultural artefacts and in this case I have a personal link to Inishbofin. The skulls were quite obviously taken illegally and the only way to correct this is to finally return them to the place and the people from which they were stolen. It has already been far too long."
Mary O'Farrell	Ireland	02/12/2022	"I'm signing because to steal(there's no other word for it) 13 crania/heads from an Irish Island Community in 1890 May have had a pseudo-scientific background to it, but, sorry, these were people buried with respect by their families and community. They absolutely need to be reinterred as a matter of decency and respect for what is human in us, a decent burial."
