

STUDY NAME: RITA-Ireland Vasculitis (RIV) Registry and Biobank

PARTICIPANT STUDY WITHDRAWAL FORM

Site:	University Hospital Limerick
Principal Investigator (PI):	Dr Liam Casserly
Participant Study ID	

I wish to withdraw from the RITA-Ireland Vasculitis (RIV) Registry and Biobank with immediate effect. The withdrawal options have been discussed with me and I would like to withdraw as indicated below:

Please Initial only one box.

Please feel free to ask questions if there is something you do not understand.

No further access: This means that RIV Registry and Biobank will no longer contact you and will stop collecting any further data or samples from you. The Registry will stop collecting information from your health records. The Registry and Biobank will still have your permission to use, store and share information and samples collected up until this date.

No further use: This means that in addition to the RIV Registry and Biobank not contacting you or collecting additional information or samples, any information or samples collected from you to date will no longer be available to researchers. Any samples held by the RIV Registry and Biobank will be destroyed (although it may not be possible to trace and destroy all samples that have been distributed). Any data that the RIV Registry and Biobank holds on you will be deleted. It will not be possible to remove your data from results that have already been analysed. Your Consent Form and Study Withdrawal Form will be kept as an indication of your wishes.
