

[patient case cont'd]

**PE comments**

**Student: write a brief skills-based reflection on this case**

1. State 1 skill that you performed especially well or that has shown improvement.
2. State 1 skill that was challenging to perform. What factors made this skill challenging to perform?

PE: tick to confirm that the NCPM grid on page 1 accurately reflects the contributions to this case

PE: record any additional comments on the skills or behaviour of the student during this case

Student and PE: identify 1-2 SMART actions the student should take to make progress over the next week
