

SCHOOL OF MEDICINE PRE-UNIVERSITY SUMMER SCHOOL

TRINITY
COLLEGE
DUBLIN

Explore medicine,
biomedical science and
healthcare through an
immersive university
experience in the heart of
Dublin.

What Will You Achieve?

- Develop knowledge relevant to medicine, biomedical and life sciences
- Enjoy practical activities led by top instructors
- Strengthen teamwork, communication and critical-thinking skills
- Build confidence and connect with ambitious students from Ireland and around the world

Beyond the classroom, students can enjoy a vibrant programme of social events, team-building activities and opportunities to explore Ireland's rich history, culture and student life.

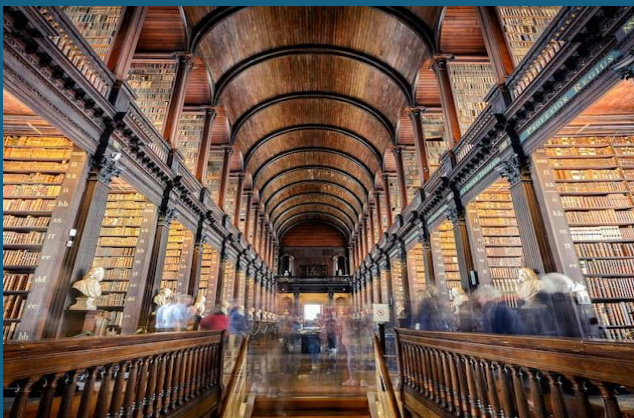

This programme is designed for motivated high school students with a strong interest in medicine, health sciences and medical research.

Requirements:

- Currently studying in the final years of High school age 16+
- Academic excellence
- Personal statement outlining interest in medicine
- English language proficiency at CEFR B2 level or equivalent

The programme combines expert lectures, practical workshops, medical problem-solving games, team challenges, visits from healthcare professionals and campus-based activities, researchers and current medical students.
