Module Outline:

In this module, you will be given the opportunity to show what you have learned and the skills that you have acquired, through 3-4 years of studying Philosophy, within your programme. Your Dissertation is, while supervised, essentially a single substantive piece of independent research in an area of your choosing. Your General Paper presents the opportunity to answer questions about philosophy that range over all areas of our teaching provision and – distinctively – presents the opportunity to think outside of the module boxes.

Assessment:

Dissertation (75%)

General Paper – Philosophical Problems (25%)

Recommended Reading List:

There is no prescribed reading for all students.

Each student will, in consultation with the Supervisor, develop a programme of reading appropriate to the chosen Dissertation project.
