Trinity Joint Honours Programmes – Economics & Mathematics

All students on Trinity Joint Honours programmes will take 4 examinations, however the structure of examinations will depend upon the pathway chosen prior to the start of Senior Freshman year.

Students who commenced on the Economics and Mathematics Trinity Joint Honours programme have a unique curriculum to those on other joint honours combinations with these subjects, as a result specific structures apply to Scholarship Examinations.

Details regarding the structure and codes to be used for your examinations can be found within the table starting on page 2.

Students should consult the column in the table labelled 'Year 2 Pathway' to identify their pathway, this will provide you with the examinations papers and codes that you should use when applying for [Foundation Scholarship](#) via the link provided from the Academic Registry. This will ensure you register for the correct examinations.

To use the table:

1. Please note that each Year 2 pathway for students who entered Trinity Joint Honours in Economics and Mathematics is listed on the left.
2. You will find the row relating to your structure and find information in the middle column relating to the XSCH codes for Economics
3. To the immediate right of the Economics information are the XSCH Codes for Mathematics.

If you have any questions, please do not hesitate to contact us via joint.honours@tcd.ie
