

FRANCE

F PARIS003 Université Sorbonne Nouvelle

| | |
|---|--|
| Country Information | <p>I would recommend attending events run by ESN Paris, they offer a wide variety such as language cafés, speed friendings etc. which can be great places to not only meet people but practice your French skills too!</p> <p>I would also highly recommend visiting as many museums as you can! So many museums in Paris offer free entry to those under the age of 26 and who are EU citizens.</p> |
| University Information | I would highly recommend applying for CROUS accommodation in Paris. They have several locations around the city, and the rent is very affordable. I received my place through my university, thus I would suggest getting in contact with your host university, whether its for CROUS or other accommodation queries! |
| Academic Advice | In my university, all modules were worth 3 ECTS, meaning I had to take a total of 20 classes over the course of the academic year. This is more than the typical 12 classes one would take at Trinity, thus it's important to stay on top of your coursework whilst also enjoying your new city :) |
| Duration of Exchange | Full Year |
| Students Pathway | TJH French MAJ and Spanish MIN Option A |
| Pathway Advice | I chose the Major w/ Minor Option A pathway, and I took French as my major subject and Spanish as my minor. This was slightly challenging at times as it meant I had Spanish classes taught through French in my host university, but in the end I found it very beneficial for my comprehension of both languages. |
