

Pathway Information for TJH Students

Single Honours – Major with Minor – Joint Honours

- Pathways allow students to have a certain amount of flexibility with their study
- Depending on which pathway you choose, you can concentrate on your current subjects or expand study with Open Modules & Trinity Electives
- Current Year 1 students will have 3 Pathways available to them for Year 2
- Current Year 2 students will have pathways available to them based on their Year 2 pathway
- Some subjects have limited pathways on offer

Reflect

What are you enjoying?

Where are your academic strengths?

Are you interested in things outside of your core subjects? Or would you like to stay focused on your core?

Do I want to go on outbound exchange in third year? Where do I want to go?

What subject do I want to do my Capstone, i.e. final year project/thesis in?

Beyond graduation – postgraduate studies? Career?

Pathways Impact on Erasmus and Study Abroad

- You are expected to study both Subjects (where applicable) abroad and mirror your pathway
- Not all partner universities can accommodate all pathways and this should be part of your consideration
- Research your exchange options to ensure you can take the required number of modules in each of your subjects as per your pathway
 - [TJH Erasmus/Study Abroad webpage](#) has lots of information and FAQs

Things to remember

- If you are considering taking [Foundation Scholarship](#) Examinations in Year 2, the pathway you choose will impact the structure of your examinations.
- It is not possible to change pathways in the middle of an academic year
- Not all subjects are able to offer the Single Honours pathway and some subjects have requirements about which pathways you must take in order to follow certain degree paths in later years. Please see [Year 2-Pathway-Overview](#)
- Picking up a new subject is not possible as part of pathway selection in TJH, you must apply for a transfer via Admissions.
