

# Spanish as a New Minor Subject

Details for 2026/27

## Why take this New Minor Subject?

Spanish is an exciting and growing area of study. It is the native language of over five hundred million people across Spain and central and southern America and the Caribbean, as well as parts of Africa and the United States. It is second only to English in the number of countries in which it is officially spoken and is an official language in the European Union, the African Union, and the United Nations.
