

## **Launch of the Treatment Planning Strand MSc Radiation Therapy**

The Discipline of Radiation Therapy is delighted to announce the launch of our Treatment Planning strand of our online Postgraduate Certificate / Diploma/ M.Sc Advance Radiation Therapy courses. The first students will commence this course in September 2020.

This strand aims to develop students' knowledge and skills in the field of radiotherapy treatment planning.

It is aimed at Radiation Therapy professionals that:

- Are seeking to expand their career into advanced techniques, treatment planning or/and research.
- Wish to work in an advanced role in their department in treatment planning
- Wish to update their knowledge on current evidence based practice.
