

Open Postdoc Position

A postdoc position is available for a period of 6 months
(July to December 2020)
Immediate start date of 1st July 2020

What is this about?

- The EIT-Health Brain PhD School is a pan-European collaboration of universities, hospitals and companies.
- This group of 15 academic and non-academic partners (*see partners below*) have formed a consortium to provide training modules and advanced teaching to PhD students across Europe in Brain Ageing.

What background do I need to apply?

- Do you have a background in drug development and/or pharmacology?
- Do you have experience in teaching and module development?
- Have you delivered any teaching online?
- Do you know how to use online teaching tools like Blackboard, Panopto, Collaborate?
- If so, then you have the background we are looking for.

What will the project involve?

- We are looking for someone to develop a **Drug Development Module**
- You will then **deliver this Module online to PhD students** taking part in the EIT Health Brain PhD School.

What funding is available?

- Postdoc Salary (Level 2, Point 3) will be provided for 6 months (July – December 2020).

How do I apply?

- Interested? Then please send your application to:
 - Prof Kumlesh K. Dev (devk@tcd.ie), Smart Medicines & Entrepreneurship (SME), School of Medicine, Trinity College Dublin.
- Please include a **Cover Letter** that outlines your background in drug development, pharmacology, teaching and online teaching and your **Curriculum Vitae**.
- References will be requested as a follow-up and interviews will be conducted via Zoom.

This is a non-lab/non-research based project that can be worked on remotely. This 6-month specific project may suit those whose research has been placed on hold due to Covid-19.
